# Approximate Flow

# Too Much Emphasis!

# Need More Attention

# Need More Attention

# Need More Attention

# Underlying All of This

- ▣ We really need some better metrics
  - But we need some underlying concepts, first
- ▣ Privacy should not be neglected.
  - But neither should it necessarily overrule
- ▣ We cannot be constrained by “It would be too expensive to retrofit” because that thinking has gotten us where we are today
- ▣ “One size fits all” is not the solution.
