

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR ALABAMA

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Alabama, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 55,000 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]
- **Providing a making work pay tax cut of up to \$1,000 for 1,770,000 workers and their families.** The plan will make a down payment on the President’s Making Work Pay tax cut for 95% of workers and their families, designed to pay out immediately into workers’ paychecks. [Source: White House Estimate based on IRS Statistics of Income]
- **Making 70,000 families eligible for a new American Opportunity Tax Credit to make college affordable.** By creating a new \$2,500 partially refundable tax credit for four years of college, this plan will give 3.8 million families nationwide – and 70,000 families in Alabama – new assistance to put college within their reach. [Source: Center on Budget and Policy Priorities analysis of U.S. Census data]
- **Offering an additional \$100 per month in unemployment insurance benefits to 247,000 workers in Alabama who have lost their jobs in this recession,** and providing extended unemployment benefits to an additional 37,000 laid-off workers. [Source: National Employment Law Project]
- **Providing funding sufficient to modernize at least 156 schools in Alabama so our children have the labs, classrooms and libraries they need to compete in the 21st century economy.** [Source: White House Estimate]

In addition to this immediate assistance for Alabama, the American Recovery and Reinvestment Plan will help transform our economy by:

- **Doubling renewable energy generating capacity over three years, creating enough renewable energy to power 6 million American homes.**
- **Computerizing every American’s health record in five years, reducing medical errors and saving billions of dollars in health care costs.**
- **Launching the most ambitious school modernization program on record, sufficient to upgrade 10,000 schools.**

- **Enacting the largest investment increase in our nation's roads, bridges and mass transit systems since the creation of the national highway system in the 1950s.**

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR ALASKA

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Alaska, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 8,700 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]
- **Providing a making work pay tax cut of up to \$1,000 for 220,000 workers and their families.** The plan will make a down payment on the President’s Making Work Pay tax cut for 95% of workers and their families, designed to pay out immediately into workers’ paychecks. [Source: White House Estimate based on IRS Statistics of Income]
- **Making 7,000 families eligible for a new American Opportunity Tax Credit to make college affordable.** By creating a new \$2,500 partially refundable tax credit for four years of college, this plan will give 3.8 million families nationwide – and 7,000 families in Alaska – new assistance to put college within their reach. [Source: Center on Budget and Policy Priorities analysis of U.S. Census data]
- **Offering an additional \$100 per month in unemployment insurance benefits to 76,000 workers in Alaska who have lost their jobs in this recession,** and providing extended unemployment benefits to an additional 15,000 laid-off workers. [Source: National Employment Law Project]
- **Providing funding sufficient to modernize at least 28 schools in Alaska so our children have the labs, classrooms and libraries they need to compete in the 21st century economy.** [Source: White House Estimate]

In addition to this immediate assistance for Alaska, the American Recovery and Reinvestment Plan will help transform our economy by:

- **Doubling renewable energy generating capacity over three years, creating enough renewable energy to power 6 million American homes.**
- **Computerizing every American’s health record in five years, reducing medical errors and saving billions of dollars in health care costs.**
- **Launching the most ambitious school modernization program on record, sufficient to upgrade 10,000 schools.**

- **Enacting the largest investment increase in our nation's roads, bridges and mass transit systems since the creation of the national highway system in the 1950s.**

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR MISSOURI

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Missouri, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 73,300 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]
- **Providing a making work pay tax cut of up to \$1,000 for 2,270,000 workers and their families.** The plan will make a down payment on the President’s Making Work Pay tax cut for 95% of workers and their families, designed to pay out immediately into workers’ paychecks. [Source: White House Estimate based on IRS Statistics of Income]
- **Making 74,000 families eligible for a new American Opportunity Tax Credit to make college affordable.** By creating a new \$2,500 partially refundable tax credit for four years of college, this plan will give 3.8 million families nationwide – and 74,000 families in Missouri – new assistance to put college within their reach. [Source: Center on Budget and Policy Priorities analysis of U.S. Census data]
- **Offering an additional \$100 per month in unemployment insurance benefits to 326,000 workers in Missouri who have lost their jobs in this recession, and providing extended unemployment benefits to an additional 48,000 laid-off workers.** [Source: National Employment Law Project]
- **Providing funding sufficient to modernize at least 163 schools in Missouri so our children have the labs, classrooms and libraries they need to compete in the 21st century economy.** [Source: White House Estimate]

In addition to this immediate assistance for Missouri, the American Recovery and Reinvestment Plan will help transform our economy by:

- **Doubling renewable energy generating capacity over three years, creating enough renewable energy to power 6 million American homes.**
- **Computerizing every American’s health record in five years, reducing medical errors and saving billions of dollars in health care costs.**
- **Launching the most ambitious school modernization program on record, sufficient to upgrade 10,000 schools.**

- **Enacting the largest investment increase in our nation's roads, bridges and mass transit systems since the creation of the national highway system in the 1950s.**

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR MONTANA

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Montana, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 12,300 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]
- **Providing a making work pay tax cut of up to \$1,000 for 320,000 workers and their families.** The plan will make a down payment on the President’s Making Work Pay tax cut for 95% of workers and their families, designed to pay out immediately into workers’ paychecks. [Source: White House Estimate based on IRS Statistics of Income]
- **Making 12,000 families eligible for a new American Opportunity Tax Credit to make college affordable.** By creating a new \$2,500 partially refundable tax credit for four years of college, this plan will give 3.8 million families nationwide – and 12,000 families in Montana – new assistance to put college within their reach. [Source: Center on Budget and Policy Priorities analysis of U.S. Census data]
- **Offering an additional \$100 per month in unemployment insurance benefits to 53,000 workers in Montana who have lost their jobs in this recession,** and providing extended unemployment benefits to an additional 10,000 laid-off workers. [Source: National Employment Law Project]
- **Providing funding sufficient to modernize at least 32 schools in Montana so our children have the labs, classrooms and libraries they need to compete in the 21st century economy.** [Source: White House Estimate]

In addition to this immediate assistance for Montana, the American Recovery and Reinvestment Plan will help transform our economy by:

- **Doubling renewable energy generating capacity over three years, creating enough renewable energy to power 6 million American homes.**
- **Computerizing every American’s health record in five years, reducing medical errors and saving billions of dollars in health care costs.**
- **Launching the most ambitious school modernization program on record, sufficient to upgrade 10,000 schools.**

- **Enacting the largest investment increase in our nation's roads, bridges and mass transit systems since the creation of the national highway system in the 1950s.**

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR NEBRASKA

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Nebraska, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 24,000 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]

AMERICAN RECOVERY AND REINVESTMENT PLAN: THE IMPACT FOR WYOMING

The American Recovery and Reinvestment Plan is a nationwide effort to create jobs, jumpstart growth and transform our economy for the 21st century. Across the country, this plan will help businesses create jobs and families afford their bills while laying a foundation for future economic growth in key areas like health care, clean energy, education and a 21st century infrastructure. In Wyoming, this plan will deliver immediate, tangible impacts, including:

- **Creating or saving 8,000 jobs over the next two years.** Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector. [Source: White House Estimate based on Romer and Bernstein, “The Job Impact of the American Recovery and Reinvestment Plan.” January 9, 2009.]
- **Providing a making work pay tax cut of up to \$1,000 for 200,000 workers and their families.** The plan will make a down payment on the President’s Making Work Pay tax cut for 95% of workers and their families, designed to pay out immediately into workers’ paychecks. [Source: White House Estimate based on IRS Statistics of Income]
- **Making 5,000 families eligible for a new American Opportunity Tax Credit to make college affordable.** By creating a new \$2,500 partially refundable tax credit for four years of college, this plan will give 3.8 million families nationwide – and 5,000 families in Wyoming – new assistance to put college within their reach. [Source: Center on Budget and Policy Priorities analysis of U.S. Census data]
- **Offering an additional \$100 per month in unemployment insurance benefits to 20,000 workers in Wyoming who have lost their jobs in this recession,** and providing extended unemployment benefits to an additional 4,000 laid-off workers. [Source: National Employment Law Project]
- **Providing funding sufficient to modernize at least 23 schools in Wyoming so our children have the labs, classrooms and libraries they need to compete in the 21st century economy.** [Source: White House Estimate]

In addition to this immediate assistance for Wyoming, the American Recovery and Reinvestment Plan will help transform our economy by:

- **Doubling renewable energy generating capacity over three years, creating enough renewable energy to power 6 million American homes.**
- **Computerizing every American’s health record in five years, reducing medical errors and saving billions of dollars in health care costs.**
- **Launching the most ambitious school modernization program on record, sufficient to upgrade 10,000 schools.**

- **Enacting the largest investment increase in our nation's roads, bridges and mass transit systems since the creation of the national highway system in the 1950s.**
