The Food and Drug Administration (FDA) promotes and protects public health by overseeing the safety, efficacy, quality, and security of human and veterinary drugs, biological products, medical devices, foods, cosmetics, and products that emit radiation. FDA also has responsibility for regulating the manufacturing, marketing, and distribution of tobacco products to protect public health and to reduce tobacco use by minors. FDA advances public health by helping to speed innovations that make medicines more effective, safer, and more affordable and by helping the public get the accurate, science-based information they need to use medicines and foods to maintain and improve their health. FDA supports the Nation's counterterrorism capability by ensuring the security of the food supply and by fostering the development of medical products and countermeasures to respond to deliberate and naturally emerging public health threats. The FY 2018 Budget provides funding to support food and medical product safety, including implementation of the 21st Century Cures Act. The budget also includes a package of administrative actions designed to achieve regulatory efficiency and speed the development of safe and effective medical products.

HRSA administers the following revolving loan programs: Health Professions Student Loans (HPSL), Nursing Student Loans (NSL), Primary Care

Loans (PCL) and Loans for Disadvantaged Students (LDS). These programs are financed through revolving accounts (Federal Capital Contribution) and do not receive annual appropriations. Through these revolving fund accounts, funds are awarded to institutions that in turn provide loans to individual students. As borrowers pay back loans the programs revolving account gets replenished, and the collected funds are then used to give out new loans in the following academic years. If the program's revolving account has excess funds that will not be used to provide new loans, these excess funds are returned to HRSA. Funds returned to HRSA are then awarded to programs that are in need of additional funds. The information below reflects Academic Year 2015–2016 data reported in the Annual Operating Report.

Implemented in fiscal year 2014, CDC's Working Capital Fund has extended availability and serves as the funding mechanism to finance centralized business services support across CDC. HHS, along with CDC, began implementing provisions of the James Zadroga 9/11 Health and Compensation Act of 2010 (P.L. 111-347) on July 1, 2011, to provide monitoring and treatment benefits to eligible responders and survivors. CDC/NIOSH serves as the Program Administrator for the World Trade Center (WTC) Health Program. The WTC Health Program provides quality care for WTC-related health conditions, conducts WTC research, and maintains a health registry to collect data on victims of the September 11, 2001, terrorist attacks. The WTC Health Program has been extended through FY 2090 under the James Zadroga 9/11 Health and Compensation Reauthorization Act of 2015 (P.L. 114-113, Division O, Title III). The amounts included for 2017 and 2018 in the Budget reflect estimated Federal obligations for the WTC Health Program.

Medicaid assists States in providing medical care to their low-income populations by granting Federal matching payments under title XIX of the Social Security Act to States with approved plans.

Medicaid estimates assume budget authority for expenses that are incurred but not reported (IBNR).

Authorized as part of title XIX, Vaccines for Children (VFC) finances the purchase of vaccines for low-income, eligible children. VFC is administered by the Centers for Disease Control and Prevention and is funded entirely by the Federal Government.

CHILDREN'S HEALTH INSURANCE FUND—Continued

The Balanced Budget Act of 1997 established the Children's Health Insurance Program (CHIP) under title XXI of the Social Security Act. Title XXI provides Federal matching funds to States to enable them to extend coverage to uninsured children from low-income families. States are able to use title XXI funds for obtaining health benefit coverage for uninsured children through a separate CHIP program, a CHIP Medicaid expansion program, or a combination of both. The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111–3, CHIPRA) reauthorized the CHIP program and appropriated funding for CHIP through fiscal year 2013. CHIPRA made some modifications to the program, including increased funding for States and territories, bonus payments for States that exceed Medicaid child enrollment targets, and support for child health quality and outreach activities. A contingency fund to assist States who project spending above their available allocated CHIP funds was also created by CHIPRA and funding is included in a separate account. The Patient Protection and Affordable Care Act of 2010 (P.L. 111–148) extended funding for CHIP, providing appropriations through fiscal year 2015. The Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114–10, MACRA) extended funding for CHIP for two years, through fiscal year 2017. The Budget proposes a two-year extension of CHIP funding through fiscal year 2019.

The Center for Medicare and Medicaid Innovation ("Innovation Center") was established by section 1115A of the Social Security Act (as added by section 3021 of the Patient Protection and Affordable Care Act). The Innovation Center is tasked with testing innovative payment and service delivery models to reduce program expenditures while preserving or enhancing the quality of care provided to individuals under Medicare, Medicaid, or the Children's Health Insurance Program (CHIP). The statute provides \$10 billion in mandatory funding for these purposes in fiscal years 2011 through 2019.

The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3, CHIPRA) established the Child Enrollment Contingency Fund under title XXI of the Social Security Act. Beginning in 2009, a State may qualify for a Contingency Fund payment if it projects a funding shortfall for the fiscal year and if its average monthly child enrollment exceeds its target average number of enrollees for the fiscal year. The Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) extended the Contingency Fund through fiscal year 2015. The Medicare Access and CHIP Reauthorization Act of 2015 (P.L. 114-10) extended the Contingency Fund through fiscal year 2017. The Budget proposes a two-year extension of CHIP funding, including an extension of the Contingency Fund through fiscal year 2019.

The Fund received an initial appropriation equal to 20 percent of the fiscal year 2009 national allotment (\$2.1 billion). In fiscal years 2010 through 2017, the statute appropriates the amount necessary to make payments to eligible States, but not to exceed 20 percent of the total annual appropriation for CHIP allotments to States. Any amounts in excess of this aggregate cap will be made available for CHIP performance bonus payments. The Contingency Fund is invested in interest bearing securities of the United States, and the income derived from these investments constitutes a part of the fund.

The Patient Protection and Affordable Care Act (P.L. 111-148) amended Section 2794 of the Public Health Service Act and provided that the Secretary carry out a program to award grants to States for a five-year period beginning in fiscal year 2010. The program provided \$250 million in grants to help States develop or enhance their current rate review activities from 2010 through 2014, with remaining unobligated balances subsequently available for state implementation of consumer protections and other insurance reform activities consistent with Section 2794 (c)(2)(B).

This account funds the Pre-Existing Condition Insurance Plan program (PCIP), which made health insurance available to people who had been unable to purchase insurance due to a pre-existing condition. Enrollees

paid monthly premiums similar to those charged in the commercial individual market, and the Federal government pays for remaining costs that exceed enrollee contributions. The funding for this program, including operating costs, was provided in the Patient Protection and Affordable Care Act (P.L. 111-148). The PCIP program ended in fiscal year 2014 as new insurance options became available to the enrolled population, and outlays reflected in subsequent fiscal years reflect program close out and claims run out costs, as well as allowable administrative costs in the current year.

This program provided funding for Planning and Establishment Grants to States for their activities to implement Health Insurance Exchanges. The Exchanges facilitate the purchase of qualified health plans in the individual market and allow small businesses to offer qualified health plans to their employees through the Small Business Health Options Program (SHOP). Section 1311 of the Patient Protection and Affordable Care Act (P.L. 111-148) provided amounts necessary to enable the Secretary to award grants to States beginning no later than March 23, 2011, and allowed for renewal of grants through January 1, 2015. The final round of grants was awarded to States in December 2014.

Section 1343 of the Patient Protection and Affordable Care Act (P.L. 111-148) established a permanent risk adjustment program for non-grandfathered plans in the individual and small group markets. Charges are collected from health insurance issuers that enroll healthier than average enrollees and payments are made to issuers that enroll sicker than average enrollees. Risk adjustment may be operated by a State, or by the Federal government in the event a State chooses not to operate risk adjustment. Payments and charges are made in the year following the plan year for which they are calculated.

Section 1341 of the Patient Protection and Affordable Care Act (P.L. 111-148) established a transitional, temporary, three-year reinsurance program to minimize the impact of high-cost enrollees in plans in the individual market for plan years 2014, 2015, and 2016. The Centers for Medicare & Medicaid Services assesses contributing entities a per enrollee fee to fund the reinsurance program, and makes payments to issuers in the individual market for enrollees whose medical costs exceed a certain threshold, up to a reinsurance cap. Reinsurance collections and payments are made in the year following the plan year for which they are applicable. Reinsurance collections and payments for the 2016 plan year, the final year of the program, will be announced in June of 2017.

Section 1322 of the Patient Protection and Affordable Care Act (P.L. 111-148) authorized and appropriated funding for the Consumer Operated and Oriented Plan (CO-OP) Program. The CO-OP Program fosters the creation of qualified nonprofit health insurance issuers that operate with a strong consumer focus to offer qualified health plans in the individual and small group markets in the States. The Secretary shall award loans to qualified nonprofit issuers to fund start-up costs and reserves which enable qualified issuers to meet state solvency requirements. The Secretary may also award loans for the purposes of encouraging the establishment of CO-OPs in states where no issuer applies to be a qualified nonprofit issuer under Section 1322.

The Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191) established the Health Care Fraud and Abuse Control (HCFAC) account within the Federal Hospital Insurance Trust Fund and appropriated funds from the Trust Fund to the HCFAC account for specified health care fraud and abuse control activities of the Department of Health and Human Services (HHS), the Department of Justice, and other agencies.

The Budget includes a discretionary request for efforts to safeguard Centers for Medicare and Medicaid Services (CMS) program integrity that will supplement other CMS program integrity funds. See additional discussion in the Budget Process chapter in the *Analytical Perspectives* volume.

The Supplementary Medical Insurance (SMI) program is a voluntary program that affords protection against the costs of physician care and certain other medical services. The program also covers treatment of end-stage renal disease for eligible enrollees. SMI costs are generally financed by premium payments from enrollees and contributions from the general revenues. In addition, the Budget includes a package of proposals that repeals the Independent Payment Advisory Board and has other indirect effects on Medicare spending.

This account provides funding for the Temporary Assistance for Needy Families (TANF) block grant and related activities authorized by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), as amended by the Deficit Reduction Act of 2005 (P.L. 109-171). Since 2010, this account has been temporarily reauthorized by a series of Acts, most recently in the Further Continuing and Security As-

sistance Appropriations Act, 2017 (P.L. 114–254). The Budget proposes to allocate funding for Welfare Research and the Census Bureau's Survey of Income and Program Participation from the amount provided for TANF Family Assistance Grants, and to reduce the authorized funding for these grants, resulting in a 10 percent reduction in the TANF Family Assistance Grants to States, territories, and tribes.

Public Law 111-148 established the Patient-Centered Outcomes Research Trust Fund (PCORTF). Beginning in FY 2011, a total of 20 percent of the funds appropriated or credited to the PCORTF will be transferred each year to the Department of Health and Human Services (HHS). As authorized in section 937 of the Public Health Service Act, HHS will disseminate research findings from the Patient-Centered Outcomes Research Institute and other government-funded comparative clinical effectiveness research and coordinate Federal health programs to build research and data capacity for comparative clinical effectiveness research. Transferred funds were distributed to the Secretary of HHS and the Agency for Healthcare Research and Quality through FY 2017 to carry out these activities. The FY 2018 Budget consolidates the Agency for Healthcare Research and Quality within the National Institutes of Health as the National Institute for Research on Safety and Quality. This Institute is proposed to receive the resources from the PCORTF that the Agency for Healthcare Research and Quality would have received under current law.

The HHS Service and Supply Fund (SSF) provides a wide range of logistical and support services to components of the Department and other Federal agencies. The Program Support Center includes activities such as personnel and payroll support, information technology, financial management operations, and administrative services, including acquisitions management, building and property management, telecommunication services, medical supplies repackaging and distribution services, and the Federal Occupational Health Service. The Office of the Secretary activities include the Service and Supply Fund Manager's Office, departmental contracts, audit resolutions, Commissioned Corps force management, web management, claims, acquisition integration and modernization, small business consolidation, grants tracking, the physical security component of the Department's implementation of Homeland Security Presidential Directive 12, and commercial services management.

Most Commissioned Corps officers work for agencies in the Department of Health and Human Services and are reflected in the agencies' personnel summaries. However, some officers are assigned to other Federal agencies. The allocation account section in the following personnel summary shows officers assigned to other agencies, which are paid directly by that agency, either through an allocation account or by directly citing that agency's appropriation.

The mission of the Office of Inspector General (OIG) is to protect the integrity of the U.S. Department of Health and Human Services (HHS) programs and the health and welfare of the people they serve. As established by the Inspector General Act of 1978, OIG is an independent and objective organization that fights fraud, waste, and abuse and promotes efficiency, economy, and effectiveness in HHS programs and operations. OIG works to ensure that Federal dollars are used appropriately and that HHS programs well serve the people that use them. OIG fulfills its mission through a broad range of audits, evaluations, investigations, and enforcement and compliance activities. In addition to discretionary appropriations, OIG receives funds through the Health Care Fraud and Abuse Control (HCFAC) account created by the Health Insurance Portability and Accountability Act of 1996.

SEC. 204. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the current fiscal year for HHS in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: Provided, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: Provided further, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

The Secretary is further authorized to provide locality-based comparability payments (stated as a percentage) up to the amount of the locality-based comparability payment (stated as a percentage) that would be payable to such personnel under section 5304 of title 5, United States Code if such personnel's official duty station were in the District of Columbia. A bill submitted or a request for payment is not subject to audit or certification in advance of payment. Proper adjustment of amounts paid in advance shall be made as agreed to by the heads of the agencies or units on the basis of the amount of the grant or cooperative agreement and the actual cost of the service provided.

Amounts in the Fund may only be used for a public health threat or emergency that the Secretary determines has significant potential to occur and potential, on occurrence, to affect national security or the health and security of United States citizens, domestically or internationally. The Secretary may transfer to the Fund in this fiscal year and hereafter such amounts as are necessary from any discretionary amounts (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) appropriated in this and subsequent Acts, provided that no such appropriation is reduced by more than 1 percent. Such transferred amounts shall remain available until expended. When implementing response activities, amounts in the Fund may be transferred to other accounts of the Department of Health and Human Services for the purposes provided in this section. The Committees on Appropriations of the House of Representatives and the Senate shall be notified promptly of the initiation of response activities under this authority and of any transfer made under the authority provided in this section. The Committees on Appropriations of the House of Representatives and the Senate shall receive a report not later than 45 days after the end of each quarter in a fiscal year on the unobligated balances in the Response Fund and all actual obligations incurred for that fiscal year, including obligations by program, project, or activity. from this Act shall be available for necessary expenses to carry out closure of such programs or activities.

SEC. 221. Notwithstanding section 1864(e) of the Social Security Act (42 U.S.C. 1395aa(e)), the Secretary shall charge fees upon health care facilities or entities in cases where such facilities or entities have been cited for deficiencies during initial certification, recertification, or substantiated complaint surveys to cover all or a

portion of the costs incurred for conducting substantiated complaint surveys and revisit surveys on such health care facilities and entities. Such fees shall be available to supplement funding for such surveys and shall be credited to the "Department of Health and Human Services, Centers for Medicare and Medicaid Services, Program Management" account, to remain available until expended.
