Finding of No Significant Impact

The environmental impacts of the proposed action have been reviewed in accordance with the requirements set forth in 10 CFR Part 51. Based upon the foregoing Environmental Assessment, the Commission finds that the proposed action of approving procurement of materials for three MPC-68 multipurpose canisters, three HI-STORM 100 overpacks, and one HI-TRAC-125 transfer cask, and granting an exemption from 10 CFR 72.234(c) so that Holtec may fabricate these components prior to issuance of a CoC will not significantly impact the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed exemption. The request for the exemption from 10 CFR 72.234(c) was filed on October 4, 1999. For further details with respect to this action, see the application for CoC for the HI-STORM 100 cask system, dated October 26, 1999. On July 30, 1999, a preliminary Safety Evaluation Report and a proposed CoC for the HI-STORM 100 cask system were issued by the NRC staff to initiate the rulemaking process. The exemption request and CoC application are docketed under 10 CFR Part 72, Docket 72-1014. These documents are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW, Washington, DC 20555.

Dated at Rockville, Maryland, this 21st day of December 1999.

For the Nuclear Regulatory Commission.

E. William Brach, Director, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.

SUPPLEMENTARY INFORMATION: Under 46 CFR 16.230, The Coast requires marine employers to establish random drug testing programs for covered crewmembers on inspected and uninspected vessels. All marine employers are required to collect and maintain a record of drug testing program data for each calendar year, January 1 to December 31. You must submit this data to the Coast Guard in an annual MIS report (Form CG±5573 found in Appendix B of 46 CFR 16). You may either submit your own MIS report or have a consortium or other employer representative submit the data in a consolidated MIS report. The chemical drug testing data is essential to analyze our current approach for deterring and detecting illegal drug abuse in the maritime industry.

Since 1998 MIS data indicates that the positive random testing rate is greater than one percent industry-wide (1.68 percent), the Coast Guard announces that the minimum random drug testing rate is set at 50 percent of covered employees for the period of January 1, 2000 through December 31, 2000 in accordance with 46 CFR 16.230(e). You must submit your MIS report to the Coast Guard no later than March 15 of each calendar year. Each year we will publish a notice reporting the results of the previous calendar year's MIS data, and the minimum annual percentage rate for random drug testing for the next calendar year.

Joseph J. Angelo, Acting Assistant Commandant for Marine Safety and Environmental Protection.

DEPARTMENT OF TRANSPORTATION Office of the Secretary Lagos Airport Now Meets International Security Standards SUMMARY: The Secretary of Transportation has now determined that Murtala Mohammed International Airport, Lagos, Nigeria, maintains and carries out effective security measures. Notice By Orders 92±10±17, issued October 8, 1992, and 93±8±15, issued August 11, 1993, the Secretary of Transportation made public his determinations that Murtala Mohammed International Airport did not maintain and carry out effective security measures. I now find that Murtala Mohammed International Airport maintains and carries out effective security measures. My determination is based on a recent Federal Aviation Administration (FAA) assessment which reveals that security measures used at the airport now meet or exceed the Standards established by the International Civil Aviation Organization. Accordingly, I am removing the prohibition on services between the United States and Murtala Mohammed International Airport imposed by Order 93±8±15 and the public notification requirements imposed by Order 92±10±17.

I have directed that a copy of this notice be published in the Federal Register and that the news media be notified of my determination. As a result of this determination, the FAA will direct that signs posted in the U.S. airports relating to the 1992 determination be removed.

Rodney E. Slater, Secretary of Transportation.

FEDERAL REGISTRATION [USCG±1998±4860] random Drug Testing Rate for Covered Crewmembers Random Drug Testing Rate for Covered Crewmembers AGENCY: Coast Guard, DOT. ACTION: Notice of minimum random drug testing rate.

SUMMARY: The Coast Guard has set the calendar year 2000 minimum random drug testing rate at 50 percent of covered crewmembers. An evaluation of the 1998 Management Information System (MIS) data collection forms submitted by marine employers determined that random drug testing on covered crewmembers for the calendar year 1998 resulted in positive test results 1.68 percent of the time. Based on this percentage, we will maintain the minimum random drug testing rate at 50 percent of covered crewmembers for the calendar year 2000.

ADDRESSES: You must mail your annual MIS report to Commandant (G±MOA), U.S. Coast Guard Headquarters, 2100 Second Street SW, Room 2403, Washington, DC 20593±0001.

FURTHER INFORMATION CONTACT: For questions about this notice, please contact Lieutenant Jennifer Ledbetter, Project Manager, Office of Investigations and Analysis (G±MOA), U.S. Coast Guard Headquarters, telephone 202-267-0684.
