Date of issuance: February 15, 2006.
Effective date: As of the date of issuance to be implemented prior to startup following the fall 2006 refueling outage.

Amendment No.: 94.
Renewed Facility Operating License No. DPR–18: Amendment revised the Technical Specifications.

Date of initial notice in Federal Register: June 7, 2005 (70 FR 33220).
The September 19, 2005, letter provided additional information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the staff’s original proposed no significant hazards consideration determination as published in the Federal Register.

The Commission’s related evaluation of the amendment is contained in a Safety Evaluation dated February 15, 2006.

No significant hazards consideration comments received: No.

Onofre Nuclear Generating Station Unit 23, 1988, and in accordance with the California Edison Company] letters to [Southern California Edison Company] to the remaining sentence in the [Southern California Edison Company] letters to the remaining sentence in the Federal Register.

Date of application for amendments: July 15, 2005, and as supplemented by letter dated January 20, 2006.

Brief description of amendments: The amendments are for the San Onofre Nuclear Generating Station (SONGS), Units 2 and 3, operating licenses, but they involved Unit 1, which is not an operating nuclear plant and is in the process of being decommissioned. The amendments revised License Condition 2.B.(6) for both SONGS, Units 2 and 3, by (1) deleting the sentence “Transshipment of Unit 1 fuel between Units 1 and [2 or 3] shall be in accordance with SCE [Southern California Edison Company] letters to the U.S. Nuclear Regulatory Commission dated March 11, March 18 and March 23, 1988, and in accordance with the Quality Assurance requirements of 10 CFR Part 71” and (2) adding the phrase “and by the decommissioning of San Onofre Nuclear Generating Station Unit 1” to the remaining sentence in the license condition. This change recognized that Unit 1 is now in the stage of decommissioning and that in the future any radioactive waste water produced in the further decommissioning of Unit 1 would be released from the San Onofre site by transferring the waste water from Unit 1 to Units 2 and 3. The processing (if required) and discharging of this waste water would be using the Units 2 and 3 radioactive waste system and ocean outfall discharge line.

Date of issuance: February 28, 2006.
Effective date: As of the date of issuance shall be implemented within 60 days of issuance.

Amendment Nos.: Unit 2—202; Unit 3—193.
Facility Operating License Nos. NPF–10 and NPF–15: The amendments revised the Facility Operating Licenses.

Date of initial notice in Federal Register: September 13, 2005 (70 FR 54089).
The supplement dated January 20, 2006, provided additional information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the staff’s original proposed no significant hazards consideration determination as published in the Federal Register.

The Commission’s related evaluation of the amendments is contained in a Safety Evaluation dated February 28, 2006.

No significant hazards consideration comments received: No.

Southern Nuclear Operating Company, Inc., Docket Nos. 50 362, 50–364, 362, 364, Joseph M. Farley Nuclear Plant, Units 1 and 2, Houston County, Alabama

Date of amendments request: November 2, 2005.

Brief Description of amendments: The amendments modify technical specifications (TS) to adopt the provisions of Industry/TS Task Force (TSTF) change TSTF–359, “Increased Flexibility in Mode Restraints.”

Date of issuance: February 22, 2006.
Effective date: As of the date of issuance and shall be implemented within 120 days from the date of issuance.

Amendment Nos.: 170 and 163.
Renewed Facility Operating License Nos. NPF–2 and NPF–8: Amendments revise the Technical Specifications.

Date of initial notice in Federal Register: December 20, 2005 (70 FR 75498).
The Commission’s related evaluation of the amendments is contained in a Safety Evaluation dated February 22, 2006.

No significant hazards consideration comments received: No.

Dated at Rockville, Maryland, this 7th day of March, 2006.

For the Nuclear Regulatory Commission.
Catherine Haney,
Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

OFFICE OF MANAGEMENT AND BUDGET
Public Availability of Fiscal Year 2005 Agency Inventories Under the Federal Activities Inventory Reform Act

AGENCY: Office of Management and Budget, Executive Office of the President.

ACTION: Notice of public availability of agency inventory of activities that are not inherently governmental and of activities that are inherently governmental.

SUMMARY: The Federal Activities Inventory Reform (FAIR) Act, Public Law 105–270, requires agencies to develop inventories each year of activities performed by their employees that are not inherently governmental—i.e., inventories of commercial activities. The FAIR Act further requires OMB to review the inventories in consultation with the agencies and publish a notice of public availability in the Federal Register after the consultation process is completed. In accordance with the FAIR Act, OMB is publishing this notice to announce the availability of inventories from the agencies listed below. These inventories identify both commercial activities and activities that are inherently governmental.

This is the first release of the FAIR Act inventories for FY 2005. Interested parties who disagree with the agency’s initial judgment may challenge the inclusion or the omission of an activity on the list of activities that are not inherently governmental within 30 working days and, if not satisfied with this review, may appeal to a higher level within the agency.

Joshua B. Bolten,
Director.

1. Strategic Planning.
2. Rate Case Planning.
3. Financial Update.
4. Labor Negotiations Planning.

Thursday, March 23 at 8:30 a.m. (Closed)

1. Continuation of Wednesday’s agenda.

FOR FURTHER INFORMATION CONTACT:
Wendy A. Hocking,
Secretary.

MCG Capital Corporation; Notice of Application

March 8, 2006.

AGENCY: Securities and Exchange Commission (“Commission”).

ACTION: Notice of an application for an order under section 6(c) of the Investment Company Act of 1940 (the “Act”) for an exemption from sections 23(a), 23(b) and 63 of the Act, and under sections 57(a)(4) and 57(i) of the Act and rule 17d-1 under the Act permitting certain joint transactions otherwise prohibited by section 57(a)(4) of the Act.

Summary of the Application: MCG Capital Corporation (“Applicant”) requests an order to permit Applicant to issue restricted shares of its common stock under the terms of its employee and director compensation plans.

Filing Dates: The application was filed on September 2, 2005, and amended on January 31, 2006.

Hearing or Notification of Hearing: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission’s Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on April 3, 2006, and should be accompanied by proof of service on applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer’s interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission’s Secretary.

FOR FURTHER INFORMATION CONTACT:
Marilyn Mann, Senior Counsel, at (202) 551–6813, or Mary Kay Frech, Branch Chief, at (202) 551–6821, (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the Commission’s Public Reference Desk, 100 F Street, NE., Washington, DC 20549–0102 (tel. 202–551–5850).

Applicant’s Representations
1. Applicant, a Delaware corporation, is an internally managed, non-diversified, closed-end investment company that has elected to be regulated as a business development company (“BDC”) under the Act. Applicant provides financing and advisory services to a variety of small- and medium-sized companies throughout the United States with a focus on growth-oriented companies. Applicant’s investments are primarily senior secured commercial loans, subordinated debt and equity-based investments. Shares of Applicant’s common stock are traded on The NASDAQ Stock Market, Inc. National Market under the symbol “MCGC.” As of December 31, 2005, there were 53,371,893 shares of Applicant’s common stock outstanding. As of that date, Applicant had 128 employees, including the employees of its wholly-owned consolidated subsidiaries.

2. Applicant currently has an eight-member board of directors (the “Board”) of whom three are “interested persons” of Applicant within the meaning of section 2(a)(19) of the Act and five are not interested persons (the “non-interested directors”). The five non-interested directors are neither employees nor officers of Applicant (the “non-employee directors”). Applicant states that its non-employee directors actively participate in service on committees of the Board and other aspects of corporate governance, as well as make a significant contribution to Applicant’s business.

3. On November 28, 2001, prior to Applicant’s election to be regulated as a BDC, Applicant terminated its stock option plan, and in exchange therefore issued to its employees and directors, in the aggregate, 1,539,851 shares of its common stock. These shares are subject to forfeiture restrictions but otherwise carry the rights of common stock, including the right to vote and the right to receive dividends. These shares represented 10.8% of Applicant’s outstanding shares prior to its IPO, and 5.4% of Applicant’s outstanding shares immediately following the IPO.

4. Applicant believes that its successful operation depends on its ability to offer compensation packages to its professionals that are competitive with those offered by its competitors. Applicant believes its ability to adopt compensation plans providing for the periodic issuance of shares of restricted stock (i.e., stock that, at the time of issuance, is subject to certain forfeiture restrictions, and thus is restricted as to its transferability until such forfeiture restrictions have lapsed) the “Restricted Stock”) is vital to its future growth and success. Applicant wishes to adopt equity-based compensation plans for its non-employee directors (the “Director Plan”) and employees (the “Employee Plan”, and together the “Plans”), as well as employees of its wholly owned consolidated subsidiaries (the “Participants”).
