

**THE WHITE HOUSE**

WASHINGTON

April 13, 2018

Dear Mr. Speaker:

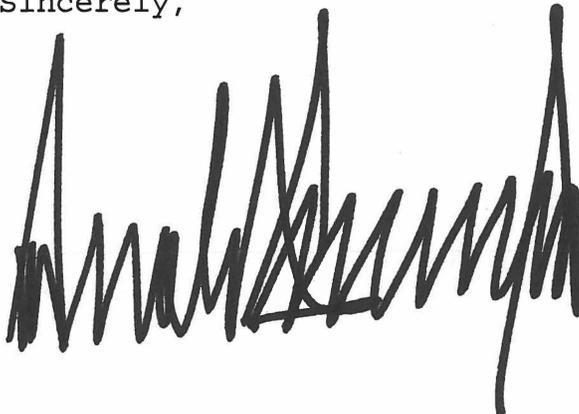

I ask the Congress to consider the enclosed fiscal year (FY) 2019 Budget amendments for the Departments of Agriculture, Defense, Education, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, the Interior, Justice, Labor, State, Transportation, the Treasury, and Veterans Affairs, and the Environmental Protection Agency, National Aeronautics and Space Administration, National Science Foundation, Social Security Administration, U.S. Agency for International Development, and Other International Programs.

These amendments are necessary to correctly reflect policies assumed in my FY 2019 Budget. These amendments include correction amendments, which would not affect the overall FY 2019 budget authority totals. In addition, these amendments include the appropriations language needed to formally reflect the February 12, 2018, "Addendum to the President's FY 2019 Budget to Account for the Bipartisan Budget Act of 2018" (Addendum). Consistent with the aforementioned February 12, 2018, Addendum, these amendments would increase the total net discretionary budget authority counted under the discretionary spending caps in my FY 2019 Budget by \$95 billion, with \$20 billion more counted under the defense cap and \$75 billion more counted under the non-defense cap. This would bring base discretionary funding in my FY 2019 Budget to the defense cap specified in the Bipartisan Budget Act of 2018 of \$647 billion while holding non-defense funding to \$540 billion, or \$57 billion below the non-defense cap.

The details of this proposal are set forth in the enclosed letter from the Director of the Office of Management and Budget.

Sincerely,

The Honorable Paul D. Ryan  
Speaker of the  
House of Representatives  
Washington, D.C. 20515

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503

THE DIRECTOR

April 13, 2018

The President  
The White House

Dear Mr. President:

Submitted for your consideration are amendments to your fiscal year (FY) 2019 Budget for the Departments of Agriculture, Defense, Education, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, the Interior, Justice, Labor, State, Transportation, the Treasury, and Veterans Affairs, and the Environmental Protection Agency, National Aeronautics and Space Administration, National Science Foundation, Social Security Administration, U.S. Agency for International Development, and Other International Programs.

These amendments are necessary to correctly reflect policies assumed in your FY 2019 Budget. These amendments include correction amendments that would not affect the overall FY 2019 budget authority totals. In addition, these amendments include the appropriations language needed to formally reflect the February 12, 2018, "Addendum to the President's FY 2019 Budget to Account for the Bipartisan Budget Act of 2018" (Addendum). Consistent with the aforementioned February 12, 2018, Addendum, these amendments would increase the total net discretionary budget authority counted under the discretionary spending caps in the FY 2019 Budget by \$95 billion, with \$20 billion more counted under the defense cap and \$75 billion more counted under the non-defense cap. This would bring base discretionary funding in the FY 2019 Budget to the defense cap specified in the Bipartisan Budget Act of 2018 of \$647 billion while holding non-defense funding to \$540 billion, or \$57 billion below the non-defense cap.

In addition to the materials in this package, changes in authorizing language are required to fully realize the discretionary proposals included in these amendments. Consistent with the Addendum, authorizing proposals are assumed to achieve the following:

- Reform the Department of Justice's Crime Victims Fund (CVF) to provide \$2.3 billion in annual mandatory funding, cap receipts into the CVF at \$2.5 billion, and provide mandatory funding for programs administered by the Office on Violence Against Women out of the CVF.
- Reclassify funding within the Department of Health and Human Services from mandatory to discretionary and, for several programs, cancel any currently-enacted mandatory funding for these programs appropriated for FY 2019 and beyond.
- Permanently cancel \$0.7 billion from the Department of Justice's Assets Forfeiture Fund and \$0.4 billion from the Department of Treasury's Treasury Forfeiture Fund.

Authorizing legislation is also needed to amend current budget enforcement laws so that a provision in an appropriations Act which reduces the budget authority in a mandatory program would not be scored as an offset to discretionary budget authority if the outlay savings from the provision net to zero over ten years. As described in the Addendum, the total net discretionary budget authority counted under the discretionary spending caps in the FY 2019 Budget would increase by \$4.2 billion as a result of this authorizing proposal.

These amendments also reflect the necessary changes to shift \$20 billion of Department of Defense Overseas Contingency Operations (OCO) funding into the base budget. In addition to the detail provided in the attached account-by-account technical material, this Department of Defense-specific information is attached as a summary table. In total, these changes result in a revised FY 2019 national defense discretionary base budget request of \$647 billion and a revised OCO request of \$69 billion.

In addition, the Addendum included an additional \$700 million in discretionary funds for programs associated with the reauthorization of the Higher Education Act of 1965. Specifically, an additional \$300 million in funds for Federal Work-Study in the Student Financial Assistance account and \$400 million for TRIO in the Higher Education account.

As communicated in my February 26, 2018 letter to the Speaker of the House of Representatives, the Administration is not seeking resources for the Patient Protection and Affordable Care Act (PPACA) Risk Corridors program. As the attached materials show changes only in discretionary appropriations estimates and language, this change to PPACA is not included in the attached Budget estimates and language. The change to the PPACA Risk Corridors program will be included in the Mid-Session Review for Fiscal Year 2019.

Recommendation

I have reviewed this request and am satisfied that it is necessary at this time. Therefore, I join the heads of the affected departments and agencies in recommending you transmit the proposals to the Congress.

Sincerely,

Mick Mulvaney  
Director

Proposed Amendment: Language  
Revised Request: —

(In the appropriations language under the above heading, add at the end the following new sections:)

Sec. 8055. No more than 20 percent of the appropriations in this Act that are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: Provided, That if the date of enactment of this Act is on or after January 1 of the current fiscal year, the limitation under this section is increased to 25 percent of such appropriations: Provided further, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

This amendment would limit the Department of Defense from obligating, during the last two months of the fiscal year, more than 20 percent of amounts appropriated for one fiscal year by the Act. In addition, the amendment would increase this limitation to 25 percent if the Act is enacted on or after January 1.

Sec. 8056. Of the amounts appropriated for "Operation and Maintenance" in this Act, not to exceed two percent of each appropriation shall remain available for obligation until September 30, 2020.

This amendment would authorize the Department of Defense to increase the period of availability, through September 30, 2020, for up to two percent of the funding appropriated in the Act in Operation and Maintenance accounts.

This amendment, along with amendments to 13 other Department of State and International Assistance Programs headings and the General Provisions, would shift \$12.3 billion in Overseas Contingency Operations (OCO) funding for the Department of State and the U.S. Agency for International Development to the base budget. The FY 2019 net request of \$12.0 billion includes \$12.3 billion in new FY 2019 funding offset by a proposed cancellation of \$301 million in prior year OCO balances. Since the proposed cancellation of OCO funding cannot be used as an offset against base funding, this amendment would shift the full \$12.3 billion from OCO to base.

This amendment, along with amendments to 13 other Department of State and International Assistance Programs headings and the General Provisions, would shift \$12.3 billion in Overseas Contingency Operations (OCO) funding for the Department of State and the U.S. Agency for International Development to the base budget. The FY 2019 net request of \$12.0 billion includes \$12.3 billion in new FY 2019 funding offset by a proposed cancellation of \$301 million in prior year OCO balances. Since the proposed cancellation of OCO funding cannot be used as an offset against base funding, this amendment would shift the full \$12.3 billion from OCO to base.

(In the appropriations language under the above heading, in sections 8001 and 8002, delete "and designated for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A)(ii) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended,"; and in section 8003, delete the appropriations language in its entirety and substitute the following:)

(a) Funds appropriated by this Act under the headings "International Disaster Assistance" and "Migration and Refugee Assistance" may be transferred to, and merged with, funds appropriated by this Act under such headings.

(b) Funds appropriated by this Act under the headings "Transition Initiatives", "Economic Support and Development Fund", "International Narcotics Control and Law Enforcement", "Nonproliferation, Anti-terrorism, Demining, and Related Programs", "Peacekeeping Operations", and "Foreign Military Financing Program" may be transferred to, and merged with, funds appropriated by this Act under such headings.

(c) Funds appropriated by this Act under the headings "Transition Initiatives", "Economic Support and Development Fund", "International Narcotics Control and Law Enforcement", "Nonproliferation, Anti-terrorism, Demining, and Related Programs", "Peacekeeping Operations", and "Foreign Military Financing Program" may be transferred to, and merged with, funds appropriated by this Act under the headings "International Disaster Assistance" and "Migration and Refugee Assistance".

(d) The authority provided in subsections (b) and (c) may be used to transfer up to \$400,000,000 from the funds appropriated by this Act and may be exercised only if the Secretary of State determines that such transfer is important to counter the Islamic State of Iraq and Syria or other violent extremist organizations, to address man-made or natural disasters, or to meet other urgent needs: Provided, That the authority provided in subsections (b) and (c) shall be subject to the regular notification procedures of the Committees on Appropriations.

(e) The authority provided by this section is in addition to any transfer authority otherwise available under any other provision of law, including section 610 of the Foreign Assistance Act of 1961, which may be exercised by the Secretary of State for the purposes of this Act.

This amendment, along with amendments to 14 other Department of State and International Assistance Programs headings, would shift \$12.3 billion in Overseas Contingency Operations (OCO) funding for the Department of State and the U.S. Agency for International Development (USAID) to the base budget.

The FY 2019 net request of \$12.0 billion includes \$12.3 billion in new FY 2019 funding offset by a proposed cancellation of \$301 million in prior year OCO balances. Since the proposed cancellation of OCO funding cannot be used as an offset against base funding, this amendment would shift the full \$12.3 billion from OCO to base.

The OCO General Provisions for the Department of State and USAID are amended as follows: section 8001 is amended to remove the OCO designation language, thereby making these funds base and additive to amounts appropriated or otherwise made available in this Act; section 8002 is amended to remove the OCO designation language but retain the period of availability for this funding; section 8003 is amended to replace broad OCO transfer authority with a more defined authority that provides needed flexibility while also protecting the intent of these funds within the larger base budget.

Agency: DEPARTMENT OF ENERGY

Proposed Amendment: Language

Revised Request: —

(In the appropriations language under the above heading, insert , and the purchase of not to exceed one ambulance after "expansion"; and insert before the period the following new proviso: : Provided further, That of the amounts made available under this heading, \$65,000,000 shall be available for engineering development, and any subsequent phases, of a low-yield nuclear weapon.)

This correction would authorize the Department of Energy to purchase not more than one ambulance, which was inadvertently excluded from the FY 2019 Budget.

This correction would also reallocate \$65 million in funding within the Department of Energy's Weapons Activities account to support the low-yield ballistic missile recommended by the 2018 Nuclear Posture Review (NPR). At the time the FY 2019 Budget was transmitted to the Congress, the details of the NPR were still being defined, and were not ready for inclusion in the FY 2019 Budget.

Based on military requirements from U.S. Strategic Command, this amendment would authorize the production of low-yield ballistic missiles to replace higher-yield weapons currently deployed, maintaining the overall number of deployed U.S. ballistic missile warheads. The Department of Energy would utilize existing aspects of the W76-1 Life Extension Program for production, in order to provide a significant cost savings compared to starting a new line of warhead design and production. As closeout of the W76-1 program was planned to occur in FY 2019, commencement of this new program (W76-2) is needed in FY 2019. Delays to the start of the modification in the existing program would require a restart of the W76 production line, increase costs, and delay delivery to the Department of Defense.

The total budget authority proposed in the FY 2019 Budget would not increase as a result of this amendment.

This amendment would provide \$1.2 billion to the Science account for fundamental scientific research. This includes the physical sciences as well as biological and environmental studies in support of securing America's energy future, increasing access to premier scientific user facilities for the community, and targeted investments in other projects, including ITER. The amendment also authorizes the Secretary to use funding appropriated in the Department of Energy's Office of Science to purchase one replacement airplane.

This amendment would provide an additional \$500 million in funding for the Department of Health and Human Services, Food and Drug Administration (FDA). This funding would support increases to food and medical product safety activities carried out by the FDA. The additional funds would support food safety, regulatory improvements to advance American manufacturing innovation, and invest in regulatory science and streamlining to accelerate development of generics and breakthrough medical products.

This amendment would provide an additional \$3.6 billion in discretionary funding to the Health Centers program within the Health Resources and Services Administration's (HRSA) Primary Health Care account. This amendment reflects the proposal to shift to supporting the Health Center program with discretionary rather than mandatory resources.

(In the appropriations language under the above heading, under the Health Workforce subheading, delete, "\$87,798,000: Provided, That" and substitute \$457,798,000: Provided, That \$310,000,000, to remain available until expended, shall be for the National Health Service Corps program under subparts II and III of part D of the PHS Act: Provided further, That \$60,000,000, to remain available until expended, shall be for Teaching Health Center Graduate Medical Education under section 340H of the PHS Act: Provided further, That.)

This amendment would provide an additional \$370 million in discretionary funding to HRSA's Health Workforce account. This amendment reflects the proposal to shift to supporting the National Health Service Corps (NHSC) program and the Teaching Health Centers Graduate Medical Education (THCGME) program with discretionary rather than mandatory resources. Within this total, \$310 million would be provided for the NHSC program, and \$60 million would be provided for the THCGME program.

(In the appropriations language under the above heading, under the Maternal and Child Health subheading, delete "\$731,200,000: Provided, That" and substitute \$1,136,200,000: Provided,

That \$5,000,000, to remain available until expended, shall be for the Family-to-Family Health Information Centers program under section 501 of the Social Security Act: Provided further, That \$400,000,000, to remain available until expended, shall be for the Maternal, Infant, and Early Childhood Home Visiting program under section 511 of the Social Security Act: Provided further, That.)

This amendment would provide an additional \$405 million in discretionary funding to HRSA's Maternal and Child Health account. This amendment reflects the proposal to shift to supporting the Maternal, Infant, and Early Childhood Home Visiting (MIECHV) program and the Family-to-Family Health Information Centers (F2F HICs) with discretionary rather than mandatory resources. Within this total, \$400 million would be provided for the MIECHV program, and \$5 million would be provided for the F2F HICs program.

The total budget authority proposed in the FY 2019 Budget for the Health Resources and Services Administration would increase by approximately \$4.4 million as a result of this amendment.

This amendment would provide an additional \$95 million to the Indian Health Services account. These additional funds would allow the Indian Health Service (IHS) to expand direct health care and other services to American Indians and Alaska Natives.

This amendment would also correct the FY 2019 Budget by authorizing the Director of the IHS to allocate funding for the Zero Suicide Initiative and Aftercare Pilot Programs at Youth Regional Treatment Centers at the Director's discretion and make funds for these programs available until expended. These programs are included in the FY 2019 Budget. The total budget authority proposed in the FY 2019 Budget would not be affected by this language, which is a technical correction needed to conduct these activities consistent with FY 2019 Budget policy.

In addition, along with amendments proposed across two other IHS accounts, this amendment would increase the estimate for contract support costs by an additional \$25 million, revising the estimated total to \$822 million.

 Proposed Amendment: \$1,109,000,000  
 Revised Request: \$5,494,935,000

(In the appropriations language under the above heading, under the Immunization and Respiratory Diseases subheading, delete "\$437,828,000" and substitute \$700,828,000.)

This amendment would provide an additional \$263 million in discretionary resources to the Centers for Disease Control and Prevention's (CDC) CDC-wide Activities and Program Support account, Immunization and Respiratory Diseases subaccount. This amendment reflects the proposal to shift to supporting these activities with discretionary funding rather than mandatory Prevention and Public Health Fund resources.

(In the appropriations language under the above heading, under the HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases, and Tuberculosis Prevention subheading, delete "\$1,067,278,000" and substitute \$1,117,278,000.)

This amendment would provide an additional \$50 million to the CDC-wide Activities and Program Support account, HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases, and Tuberculosis Prevention subaccount for HIV prevention and surveillance in States.

(In the appropriations language under the above heading, under the Emerging and Zoonotic Infectious Diseases subheading, delete "\$371,328,000" and substitute \$508,328,000.)

This amendment would provide an additional \$137 million in discretionary resources to the CDC-wide Activities and Program Support account, Emerging and Zoonotic Infectious Diseases subaccount. This amendment reflects the proposal to shift to supporting these activities with discretionary funding rather than mandatory Prevention and Public Health Fund resources.

(In the appropriations language under the above heading, under the Chronic Disease Prevention and Health Promotion subheading, delete "\$439,250,000" and substitute \$939,250,000; and in the first proviso, delete "in this account, including amounts transferred to this account," and substitute provided under this heading; and in the fourth proviso, delete "account may be available" and substitute heading may be used.)

This amendment would provide an additional \$500 million in discretionary resources to the CDC-wide Activities and Program Support account, Chronic Disease Prevention and Health Promotion subaccount. This amendment reflects the proposal to shift to supporting these activities with discretionary funding rather than mandatory Prevention and Public Health Fund resources.

(In the appropriations language under the above heading, under the Public Health Preparedness and Response subheading, delete "\$691,000,000" and substitute \$800,000,000.)

This amendment would provide an additional \$109 million to the CDC-wide Activities and Program Support account, Public Health Preparedness and Response subaccount to support grants through the Public Health Emergency Preparedness program.

(In the appropriations language under the above heading, under the CDC-wide Activities and Program Support subheading, delete "\$105,000,000" and substitute \$155,000,000, of which \$50,000,000, to remain available until expended, shall be transferred to the Working Capital Fund authorized under this heading in division F of Public Law 112-74.)

This amendment would provide an additional \$50 million to the CDC-wide Activities and Program Support account, CDC-wide Activities and Program Support subaccount to support centralized business services across CDC to offset the proposed shift of the Strategic National Stockpile from CDC.

(In the appropriations language under the above heading, delete "\$2,560,000,000" and substitute \$3,006,000,000.)

This amendment would provide an additional \$446 million in discretionary funding for the Payment to States for the Child Care and Development Block Grant account, for a total funding level of \$3.0 billion. This total includes \$277 million that is shifted from mandatory funding in the Child Care Entitlement to States account to discretionary funding in this account and \$169 million in new discretionary funding. The amendment modifies the mandatory proposal included in the FY 2019 Budget for the Child Care Entitlement to States to only account for the impact of the Social Services Block Grant and Temporary Assistance for Needy Families program changes on mandatory Federal child care spending. The revised mandatory proposal would increase outlays by \$2.2 billion over ten years, while also leveraging approximately \$1.8 billion in additional States support for child care.

Proposed Amendment: \$10,000,000,000

Revised Request: \$10,000,000,000

(In the appropriations language under the above bureau, just after the Bodoni dash and immediately before the heading "Payment to the State Response to the Opioid Abuse Crisis Account, Cures Act", insert the above new heading, the following new language, and a new Bodoni dash:)

For necessary expenses of the Department of Health and Human Services for activities relating to or in support of reducing opioid misuse and abuse and addressing mental health needs, including activities authorized by the PHS Act, \$10,000,000,000, to remain available until expended: Provided, That such funds shall be in addition to any other funds available for the purposes provided herein: Provided further, That funds may be used for necessary expenses of grants, contracts, and other agreements for the following purposes: for research on reducing opioid misuse or abuse or on mental health; for surveillance of, prevention of, treatment of, and recovery from opioid misuse and abuse or mental health issues; for purchasing medical supplies and medication for such misuse or abuse; and for any purpose that the Secretary determines to be in furtherance of the objectives of this appropriation: Provided further, That funds may be used for the purposes of providing primary health services to assign National Health Service Corps ("NHSC") members to expand the delivery of substance use disorder treatment services, notwithstanding the assignment priorities and limitations in or under sections 333(a)(1)(D), 333(b), or 333A(a)(1)(B)(ii) of the PHS Act, and to make NHSC Loan Repayment Program awards under section 338B of such Act: Provided further, That funds appropriated under this heading may be transferred to other appropriation accounts of the Department of Health and Human Services, as determined by the Secretary to be appropriate, for the purposes provided herein: Provided further, That upon a determination by the Secretary that funds transferred pursuant to the previous proviso are not necessary for the purpose provided, such amounts may be transferred back to the account.

This amendment would provide an additional \$10 billion for the Department of Health and Human Services (HHS) to address the opioid epidemic and mental illness. This funding would support efforts to prevent opioid abuse, research, and help those that abuse opioids get

access to overdose reversal drugs, treatment, and recovery support services. These funds would also address mental health, particularly serious mental illness and serious emotional disturbances. Of these amounts, \$5 billion would be new additional discretionary funding and \$5 billion would be shifted from the mandatory funding proposal included in the FY 2019 Budget for opioids. These funds would have a no-year term of availability. These funds would be appropriated to a new account in HHS in the Office of the Secretary, which would have transfer authority to allow resources to be shifted to accounts in several HHS Operating Divisions, including but not limited to the Substance Abuse and Mental Health Services Administration, the Centers for Disease Control and Prevention, the National Institutes of Health, the Health Resources and Services Administration, and the Food and Drug Administration.

Revised Request: \$8,221,099,000

(In the appropriations language under the above heading, delete "\$7,972,099,000" and substitute \$8,221,099,000.)

This amendment would provide an additional \$249 million to the U.S. Immigration and Custom Enforcement's (ICE) Operations and Support account for the costs of an additional 5,000 adult detention beds. With this additional funding, the FY 2019 Budget would support a total of 52,000 ICE detention beds. Of the total amount, approximately \$226 million is for direct costs and approximately \$23 million is for indirect costs.

Revised Request: \$7,593,138,000

(In the appropriations language under the above heading, delete "accrual of the Coast Guard's military Medicare-eligible retiree health care fund contribution;"; and delete "\$7,792,498,000" and substitute \$7,593,138,000.)

This amendment would eliminate, as a necessary expense of the U.S. Coast Guard's (USCG) Operations and Support account, reference to the accrual of the USCG military Medicare-eligible retiree health care fund contribution and corresponding funding, which was inadvertently included. Funding for these costs is already provided by a permanent indefinite discretionary appropriation of the annual accrual payment by USCG into the Defense Medicare-Eligible Retiree Health Care Fund (10 U.S.C. 1116).

The total budget authority proposed in the FY 2019 Budget would not be impacted by this technical amendment.

This amendment would provide an additional \$720 million to the U.S. Coast Guard's (USCG) Procurement, Construction, and Improvements account to begin construction on the first Heavy Polar Icebreaker in a planned recapitalization of USCG's polar icebreaker fleet. The FY 2019 Budget reflects an incremental funding request for the first icebreaker; this amendment would provide the full construction cost up front, in line with procurement best practices.

This amendment would provide \$700 million for the Department of Housing and Urban Development (HUD) Tenant-Based Rental Assistance account to restore funding for an estimated 200,000 housing vouchers. This would maintain the current services level of 2.2 million total vouchers.

In addition, this amendment would provide \$535 million to the Tenant-Based Rental Assistance account to avoid rent increases for elderly and disabled families currently receiving rental assistance through the program. With this funding and funding requested in four other HUD accounts, HUD would be able to implement a policy across its rental assistance programs that would protect these more vulnerable households from having their rent contributions increased, consistent with the Administration's proposed rent reform legislation.

This amendment would provide an additional \$271 million to the National Park Service (NPS) for the Operation of the National Park System account that covers expenses necessary for the management, operation, and maintenance of areas and facilities administered under the National Park System. The additional funds would support visitor services, park protection, resources stewardship, and facility operations and maintenance in the 417 units NPS administers.

Revised Request: \$465,000,000

(In the appropriations language under the above heading, delete "\$396,880,000" and substitute \$465,000,000.)

This amendment would provide an additional \$68 million for the Payments in Lieu of Taxes (PILT) account. These funds would retain total PILT funding for FY 2019 at the FY 2017 enacted level. PILT funds are used by local governments to meet various needs, including schools, roads, and other local administrative services.

Proposed Amendment:	\$674,000,000
Revised Request:	\$20,514,000

(In the appropriations language under the above heading, delete the second paragraph.)

This amendment would strike from the FY 2019 Budget's proposed appropriations language the permanent cancellation of unobligated balances from the Department of Justice's Assets Forfeiture Fund. Instead, the Administration would include this permanent cancellation as a mandatory proposal. Along with the amendment proposed for the Treasury Forfeiture Fund, this amendment would remove \$1.1 billion in discretionary offsets from the FY 2019 Budget and shift the outlay savings to the mandatory side of the Budget.

This amendment is part of a proposal to eliminate the Crime Victims Fund (CVF) change in a mandatory program (CHIMP) and the associated discretionary offset. The FY 2019 Budget included a \$233 million transfer from the CVF to the State and Local Law Enforcement Assistance account to support victim-related programs. This amendment would instead propose to fund these programs with direct discretionary appropriations.

This amendment also reallocates \$150 million in discretionary savings achieved through the proposal to eliminate the CVF CHIMP to existing OJP programs. Specifically, an additional \$10 million would be provided for the Second Chance Act grant program to support efforts by State, local, and tribal corrections and public safety agencies to implement and improve prisoner re-entry programs with the goal of reducing recidivism and increasing public safety. An additional \$70 million would be provided for the Byrne Justice Assistance grant program to support State and local criminal justice systems through flexible, multi-purpose formula grants that support law enforcement, prosecution, drug treatment and enforcement, and corrections activities. Lastly, an additional \$70 million would be provided to tackle violent crime through the Violent Gang and Gun Crime Reduction/Project Safe Neighborhoods (PSN) program.

(Under the above heading, delete the appropriations language in its entirety.)

This amendment is part of a proposal to eliminate the Crime Victims Fund (CVF) change in a mandatory program and the associated discretionary offset. The FY 2019 Budget proposed to fund programs administered by the Office on Violence Against Women (OVW) through a discretionary transfer from the CVF. This amendment would instead propose to modify the Victims of Crime Act of 1984 (Public Law 98-473, as amended) in order to fund OVW programs through a mandatory appropriation from the CVF. This amendment would move funding from discretionary to mandatory but would not change the total budget authority proposed in the FY 2019 Budget for OVW.

This amendment is part of a proposal to eliminate the Crime Victims Fund (CVF) change in a mandatory program and the associated discretionary offset. The FY 2019 Budget included a \$169 million transfer from the CVF to the Juvenile Justice Programs account to support victim-related programs. This amendment would instead propose to fund these programs with direct discretionary appropriations.

The FY 2019 Budget proposed to set the annual spending level for the Crime Victims Fund (CVF) at \$3.0 billion, including \$888 million in transfers to support various victim-related grant programs administered by the Office of Justice Programs and the Office on Violence Against Women. Additionally, the Budget included a permanent cancellation of \$2.5 billion from CVF balances. This amendment would eliminate the CVF change in a mandatory program (CHIMP) by excluding the annual spending cap from the Budget. Moving forward, the Administration proposes to set the annual CVF spending level in the program's underlying authorization. This amendment would also remove the proposed cancellation of balances. In addition, this amendment would restore \$76 million of the total \$146 million cancellation included in the FY 2019 Budget for the Working Capital Fund account using resources that are reallocated from the discretionary savings achieved by the CVF CHIMP proposal.

This amendment would provide additional resources to the Department of Labor's Training and Employment Services account for workforce development funding. An additional \$351 million would be provided for the Workforce Innovation and Opportunity Act Adult, Dislocated Worker, and Youth formula grants, restoring the programs to their FY 2017 enacted levels. Together with the additional flexibilities proposed by the Administration, these resources would enable States and localities to provide training and employment services that are tailored to meet the workforce needs of their job-seekers and employers.

This amendment would also provide an additional \$26 million for the YouthBuild program. The additional funding would restore the program to its FY 2017 enacted level, allowing the Department to distribute additional grants to train and serve disadvantaged youth.

This amendment would remove cancellations of the 2019 advance appropriations for workforce development programs. An additional \$729 million would be available for the Workforce Innovation and Opportunity Act Adult and Dislocated Worker formula grants, restoring the programs to their FY 2017 enacted levels. Together with additional flexibilities proposed by the Administration, these resources would enable States and localities to provide training and employment services that are tailored to meet the workforce needs of their job-seekers and employers.

This amendment would also remove the cancellation of \$95 million for the Dislocated Worker National Reserve to restore the program to its FY 2017 enacted level, allowing the Department to distribute additional grants to train and serve workers affected by natural disasters and mass layoffs.

(In the appropriations language under the above heading, delete "\$899,045,000" and substitute \$999,045,000.)

This amendment would provide an additional \$100 million to the Contributions to International Organizations account. This funding would support a U.S. assessment rate of 20 percent for the estimated United Nations (UN) regular budget for FY 2019, supporting critical UN activities that are important to the United States such as drug control, transnational crime and terrorism prevention, and trade promotion. The increase recognizes the UN's recent efforts to begin to reduce its budget while continuing to set the expectation for fairer burden sharing among members and continued efforts to gain efficiencies.

: Provided, That such amounts may be transferred to, and merged with, funds appropriated by this Act under the heading "Migration and Refugee Assistance": Provided further, That upon a determination that such amounts are not necessary for such purposes, such amounts may be transferred back to and merged with this appropriation: Provided further, That such transfer authority is in addition to any transfer authority otherwise available under any other provision of law

This amendment would provide an additional \$1.0 billion for humanitarian assistance in the International Disaster Assistance (IDA) account and requests the authority to transfer and merge funds between IDA and Migration and Refugee Assistance (MRA) accounts as needed to respond to evolving humanitarian assistance needs.

The additional funding would support implementation of the new approach to relief intended to increase burden-sharing by donors, increase U.S. Government internal humanitarian assistance coordination, and expand reform at the United Nations and other implementing partners. This increase brings total FY 2019 humanitarian assistance funding requested in the IDA and MRA accounts to \$6.4 billion; of this total, the IDA funding request would be increased to \$3.6 billion in the FY 2019 Budget.

This amendment would provide an additional \$300 million to the Maritime Administration's Operations and Training account for the School Ship Replacement Program. The additional funds would support the one-time procurement and retrofitting of two used cargo ships to replace aging training ships provided to the State Maritime Academies. Specifically, this funding would be used to replace the TS *Empire State*, currently assigned to the State University of New York Maritime College, and TS *Kennedy*, currently assigned to the Massachusetts Maritime Academy. These resources would reflect the maximum Federal commitment; any additional resources necessary for two replacement training ships would be achieved through a cost-share.

(Under the above heading, insert the following new appropriations language:)

For the Veterans Choice Fund as established by section 802 of the Veterans Access, Choice, and Accountability Act of 2014, as amended (Public Law 113-146; 38 U.S.C. 1701 note), \$1,900,000,000, to remain available until expended, for necessary expenses of the program authorized by section 101 of such Act: Provided, That such amounts shall be available in addition to amounts otherwise made available to the Veterans Choice Fund for the purposes provided herein: Provided further, That amounts made available in this or any prior Acts for the Department of Veterans Affairs to the "Medical Services" and "Veterans Choice Fund" accounts may be transferred between the accounts: Provided further, That, prior to transferring funds, the Secretary of Veterans Affairs shall submit notice thereof to the Committees on Appropriations of both Houses of Congress: Provided further, That funds transferred under this section that were previously designated as an emergency requirement pursuant to section 4(g) of the Statutory Pay-As-You-Go Act of 2010 (2 U.S.C. 933(g)), the Concurrent Resolution on the Budget, or the Balanced Budget and Emergency Deficit Control Act of 1985 are designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985 and shall be available only if the President subsequently so designates all such amounts and transmits such designations to the Congress.

This amendment would provide an additional \$1.9 billion to the Department of Veterans Affairs' (VA) Veterans Choice Fund account to replace previously anticipated mandatory carryover balances with FY 2019 discretionary funding. The additional funds would ensure a smooth transition from the Veterans Choice Program to the successor Veteran Coordinated Access & Rewarding Experiences (Veteran CARE) program. This change would effectively transition the Veterans Choice Program to relying solely on discretionary funding one year earlier than presumed in the FY 2019 Budget. In addition, the amendment would authorize VA to transfer additional funding, if necessary, between the Medical Services and the Veterans Choice Fund accounts. The transfer authority would provide VA the flexibility to address potential budget-year execution challenges in its Veterans Choice Program to ensure a smooth transition between the Veterans Choice Program and the Veteran CARE program.
