

# National Drug Control Budget

*FY 2020 Funding Highlights*

March 2019

## Overview

The President's FY 2020 National Drug Control Budget reflects the key drug policy priorities of the Administration, most notably a continued focused commitment to addressing the Nation's evolving opioid epidemic. The non-medical use of opioid medications and heroin use have taken a heartbreaking toll on many Americans, their families and their communities. The most recent data from the Centers for Disease Control and Prevention (CDC) show that opioids—a class of drugs that includes many prescription pain medications and heroin—were involved in 47,600 deaths in 2017.<sup>1</sup> In particular, CDC found a continued sharp increase in deaths involving synthetic opioids, such as fentanyl, as well as continued high levels of deaths involving heroin and natural and semisynthetic opioids. To further address these public health and safety challenges, the President is requesting new resources to reduce both the demand and supply for opioids.

The President's FY 2020 Budget Request supports \$34.6 billion for efforts spanning five drug control functions (prevention, treatment, interdiction, international operations, and law enforcement) across 14 Executive Branch departments and agencies, the Federal Judiciary, and the District of Columbia. This represents an increase of nearly \$1.3 billion over the FY 2019 level<sup>2</sup> of \$33.3 billion.

### ***President's Initiative to Stop Opioid Abuse and Reduce Drug Supply and Demand***

This FY 2020 drug budget, combined with the President's 2018 *Initiative to Stop Opioid Abuse and Reduce Drug Supply and Demand* and the Administration's 2019 *National Drug Control Strategy*, will enable the Federal Government to drive progress forward against this opioid epidemic. As stated in the *National Drug Control Strategy*, "the President's top priority is to address, head on, the current opioid crisis and reduce the number of Americans dying from these dangerous drugs."<sup>3</sup>

The Administration is making an unprecedented commitment of programs and resources to address the opioid crisis. The FY 2020 Budget Request includes \$6.6 billion in Federal resources to reduce the number of deaths resulting from the illicit opioid use. This represents an increase of \$83 million over the FY 2019 commitment and includes both public health and public safety efforts.

As the Nation is confronted by the opioid crisis, it also faces other drug control threats and challenges. The *National Drug Control Strategy* recognizes the importance of dealing with all of these challenges and lays out a strategic approach to these challenges by supporting drug prevention, treatment and recovery, and reducing the availability of drugs in the United States.

Below are some of the programs and activities, by Department, that support the *Strategy*:

### **Department of Agriculture**

- The White House Office of National Drug Control Policy (ONDCP) and the U.S. Department of Agriculture (USDA) have worked to include their contributions to fighting the opioid epidemic in rural America in the National Drug Control Budget.
- USDA is requesting \$50.0 million in FY 2020 for its opioids efforts. The Department of Agriculture's request includes funding for infrastructure projects that will help meet the needs of people with substance use disorders in rural communities, such as telemedicine networks and brick-and-mortar treatment facilities. USDA is also developing solutions for the safe disposal of unneeded prescription medications to reduce the availability of these drugs.
- In FY 2020, USDA requests \$14.8 million to continue efforts to keep the national forests free of dangerous drug operations.

### **Department of Defense**

- For FY 2020, the Department of Defense is requesting \$1.2 billion for counterdrug efforts, including support for security cooperation efforts with partner nations, counterdrug operations, and detection and monitoring efforts in support of drug interdiction operations.

### **Department of Education**

- In FY 2020, the Department of Education is requesting \$55.5 million to continue its ongoing support for School Climate Transformation grants, which provide resources for school-based substance abuse prevention activities, as well as its technical assistance centers.

### **Department of Health and Human Services**

- The Department of Health and Human Services is requesting continued funding of \$1.5 billion for the Substance Abuse and Mental Health Services Administration's (SAMHSA) State Opioid Response grants. These grants are awarded to provide states, tribes, and U.S. territories with flexibility in responding to the opioid crisis.
- At the Health Resources and Services Administration (HRSA), more than \$500 million in funding supports the opioid and substance abuse response in community health centers, and \$120 million is requested to support the response in Rural America.
- At the CDC, \$475.6 million will support continued nationwide surveillance and data collection activities and other prevention-focused activities to address the misuse of opioid medications.
- The Department continues to be a major provider of substance use prevention, treatment, and recovery support services. Though opioids remain the main focus of the Department's contributions to the drug budget, the President's budget request will also support universal prevention activities, treatment for all types of substance use disorder, and support for people in recovery from any substance use disorder.
- SAMHSA's FY 2020 request includes \$1.9 billion for the Substance Abuse Prevention and Treatment Block Grant, 20 percent of which is set aside for evidence-based prevention activities. The Block Grant remains a critical source of funding for states, tribes, and territories to provide prevention, treatment, and recovery solutions to the problems affecting their citizens.

- The Centers for Medicare and Medicaid Services (CMS) continue to be the largest funder of treatment services in the drug budget. For FY 2020, CMS anticipates an increase of \$510.0 million in services provided.

### **Department of Homeland Security**

- The Department of Homeland Security's U.S. Coast Guard's FY 2020 request includes \$1.6 billion for drug control activities, an increase of \$254.8 million above the FY 2019 level. The increase supports necessary operations and support for Coast Guard counterdrug activities, including the operation for five new Fast Response Cutters, one additional National Security Cutter, and crew for the first Offshore Patrol Cutter.

### **Department of Housing and Urban Development**

- In FY 2020, the Department of Housing and Urban Development is requesting an additional \$21.2 million over the FY 2019 continuing resolution in its Continuum of Care program. The program provides housing assistance to people in need, including people in treatment for substance use disorders and people in recovery.

### **Department of Justice**

- In the FY 2020 the request for the Department of Justice proposes dedicating over \$1 billion in resources for community programs, investigations, prosecutions, and intelligence efforts to address the opioid epidemic.
- The request includes an increase of \$35.0 million for the US Marshals Service in support of capturing fugitives who have a nexus to the most serious drug trafficking and money laundering organizations.
- The Criminal Division and U.S. Attorneys are both requesting increases totaling \$6.4 million to support drug-related investigations and prosecutions.
- The Bureau of Prisons is requesting an increase of \$1.0 million for its Medication Assisted Treatment pilot program.

### **Department of Labor**

- The Department of Labor is requesting \$6.0 million in FY 2020 for the Job Corps program, which provides services to at-risk youth, including drug prevention and drug education activities as related to job preparation.

### **Department of State**

- The Department of State is requesting a total \$452.1 million in FY 2020 for drug-related international programs for the Bureau of International Narcotics and Law Enforcement Affairs and the U.S. Agency for International Development. These funds include expanded efforts to support Colombia's efforts to counter increases in cocaine production and trafficking.

### **Department of Transportation**

- The Department of Transportation is requesting \$40.9 million in FY 2020 for the counterdrug efforts of the Federal Aviation Administration and National Highway Traffic Safety Administration.

**Department of the Treasury**

- The President's request includes \$60.3 million for the Department of the Treasury's efforts to conduct narcotics-related financial investigations, address cybercrime, and interrupt the financial activities of drug traffickers.
- These tools not only help us bring transnational drug traffickers to justice, but enable the United States to disrupt the operations of those organizations and individuals that traffic dangerous drugs, including fentanyl, into the United States.

**Department of Veterans Affairs**

- The Department of Veterans Affairs is requesting \$823.7 million in FY 2020 to provide critical substance use disorder treatment services to our Nation's veterans. The request provides support for treatment for all substance use disorders, as well as for the innovations taking place at the Department around the prevention and treatment of opioid use disorders.

**Court Services and Offender Supervision Agency of the District of Columbia**

- The FY 2020 request includes \$56.0 million for the Court Services and Offender Supervision Agency for the District of Columbia to enhance public safety and reduce recidivism.

## FY 2020 Budget by Function and Other Funding Priorities

The consolidated National Drug Control Budget details agency resources by function. Functions categorize the activities of agencies into common drug control areas. Table 1 details funding by function.

The following sections provide a more detailed description of the drug control functions, Drug Control Program agency funding levels by each drug control function, and an overview of key policy priorities in the drug control budget.

## Prevention

These are activities conducted by a National Drug Control Program Agency, other than enforcement activities, that discourage the use of controlled substances, while encouraging community outreach efforts focused on getting those who have begun to use illicit drugs to cease their use, including:

- Education efforts, including youth mentoring programs and other programs proven to reduce the risk factors related to drug use;
- Drug-free workplace programs;
- All other programs (including family based treatment) to communicate the dangers of substance abuse and its consequences; and
- Domestic law enforcement efforts that have a direct nexus to education and prevention of drug use among youth and/or the adult population.

Drug Prevention funding levels are reported below (Table 2). Funding for efforts under this function is aggregated under Demand Reduction.

## Treatment

These are activities conducted by a National Drug Control Agency, other than enforcement activities, to assist users of controlled substances to become drug-free and free from the health consequences of the use of illicit drugs, including:

- Screening for controlled substances;
- Interventions for drug use and dependence;

- Rehabilitation and recovery support;
- Medical referral;
- Drug courts and other community corrections programs that utilize drug testing and swift and certain sanctions to deter future drug use and treat chronic reoccurrence of drug use;
- Relapse prevention;
- Re-entry support for ex-offenders that includes, but is not limited to housing, education, employment and substance and mental health abuse treatment;
- International health care, research, rehabilitation, and interventions for substance abuse and dependence; and
- All other service programs intended to ease the health-related consequences of substance abuse.

Drug Treatment funding levels are reported below (Table 3). Funding for efforts under this function are aggregated under Demand Reduction.

## **Domestic Law Enforcement**

These are activities conducted by a National Drug Control Program Agency that enhance and coordinate domestic law enforcement efforts to reduce drug-related violence and property crime, and substance use and availability, including:

- Efforts among Federal, State, local and tribal law enforcement;
- Efforts among National Drug Control Program Agencies; and State, local and tribal drug control agencies; and,
- Joint efforts among Federal, State, local, and tribal agencies to promote comprehensive drug control strategies designed to reduce the availability of illegal substances.

Domestic Law Enforcement funding levels are reported below (Table 4). Funding for efforts under this function is aggregated under Supply Reduction.

## Interdiction

These are activities conducted by a National Drug Control Program Agency to reduce availability of illegal drugs in the United States or abroad, by targeting the transportation link, which encompass intercepting and ultimately disrupting shipments of illegal drugs and their precursors, as well as the proceeds, including:

- Air and maritime seizures, and presence to deter access to routes;
- Accurate assessment and monitoring of interdiction programs;
- Enhancement of drug source nations' ability to interdict drugs;
- Efforts along the nation's borders, interdicting the flow of drugs, weapons, and bulk currency; and;
- All other air and maritime activities that promote efforts to disrupt illegal drug trafficking operations.

Drug interdiction funding levels are reported below (Table 5). Funding for efforts under this function is aggregated under Supply Reduction.

## **International**

These are activities conducted by a National Drug Control Program Agency, primarily focused on areas outside of the United States to reduce illegal drug availability in the United States or abroad, including:

- Drug law enforcement efforts outside the United States;
- Source country programs to assist our international partners in managing the consequences of drug production; trafficking; consumption in their own societies, including the training and equipping of security forces; raising awareness of science-based practices and programs to prevent, treat and recover from substance abuse; and supporting of economic development programs primarily intended to reduce the production or trafficking of illicit drugs;
- Assessment and monitoring of international drug production programs and policies;
- Coordination and promotion of compliance with international treaties relating to the eradication of illegal drugs;
- Coordination and promotion of compliance with international treaties relating to the production and transportation of illegal drugs;
- Promotion of involvement of other nations in international law enforcement programs and policies to reduce supply of drugs; and,
- All other overseas drug enforcement efforts to disrupt the flow of illicit drugs into the United States.

International drug control funding levels are reported below (Table 6). Funding for efforts under this function is aggregated under Supply Reduction.
