The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics,

monitoring and evaluation; and promoting research, development and innovation.

**Global Health Programs-State.**—The Global Health Programs (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2022 Budget requests \$5,930.0 million in the GHP-State account for HIV programming. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other U.S. government partners such as USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources and expertise in the fight against global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR integrates its efforts with important programs in other areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$1,560.0 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State to enable the United States to provide up to \$4.68 billion to the fund for the sixth replenishment, with the United States offering to match \$1 for every \$2 contributed by other donors. \$45 million is requested for a United States contribution to the United Nations Joint Program on HIV/AIDS (UNAIDS) in support of the Sustainable Development Goal 3 to end AIDS by 2030 through strategic direction, normative guidance through WHO, civil society advocacy and technical support. The request also includes \$250 million and the authority for a new international financing facility to support global pandemic preparedness.

**Global Health Programs-USAID.**—The 2022 Budget requests \$3,870.95 million in the GHP-USAID account for a comprehensive and integrated approach to prevent child and maternal deaths, combat infectious disease threats, and control the HIV epidemic. This approach strives to maximize impact and to expand its reach by building upon previous investments made through maternal and child health, nutrition, family planning and reproductive health, vulnerable children, tuberculosis, neglected tropical diseases, global health security, the President's Emergency Plan for AIDS Relief, and the President's Malaria Initiative. This approach will continue to save millions of lives while fostering sustainable health care delivery systems that can address the full range of developing country health needs including preparing for, and responding to, the next global disease outbreak or pandemic. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. The Budget provides \$290 million to support a multi-year (2020–2023), \$1.16 billion contribution to Gavi, the Vaccine Alliance. It also provides \$300 million for contributions to multilateral organizations leading the global COVID response through the Act-Accelerator platform, and \$90 million to replenish the Emergency Reserve Fund.

The Complex Crises Fund (CCF) account supports programs to prevent or respond to emerging or unforeseen complex crises overseas. USAID deploys CCF when there is an unanticipated and overwhelming urgent need or window of opportunity where a U.S. Government response will help stem the rise of violent conflict and instability or advance the consolidation of peace and democracy. CCF funding allows the U.S. Government to respond to rapidly changing, complex crises that include a combination of humanitarian, political, and security dimensions and contributes to overarching U.S. foreign policy or national security goals.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) partners with low and low-middle income countries to reduce poverty through economic growth. MCC provides large grants to developing countries that meet rigorous standards for good governance, from fighting corruption to respecting democratic rights, as evaluated by MCC's scorecard. MCC takes a business-like approach, with bedrock commitments to data, accountability, and evidence-based decision making. Since its inception, MCC has signed 38 compacts and 28 threshold program agreements, totaling an investment of nearly \$13.9 billion dollars. In addition to providing large grants, MCC works with countries to advance policy and institutional reforms to create the enabling conditions for private sector-led growth. MCC's evidence-based approach leads to compacts that drive partner country ownership, including financial accountability and transparent and fair procurement practices, and measurable development impact to ensure that MCC assistance is used responsibly and effectively. In FY 2022, MCC will build on its rigorous, evidence-based model and will focus on three strategic areas: (1) climate change; (2) inclusion and gender; and (3) catalyzing private investment. Focusing on these three areas will enable MCC to expand impact and further strengthen its ability to deliver on its mission to reduce poverty through sustainable and inclusive economic growth.

## GLOBAL SECURITY CONTINGENCY FUND—Continued

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security interests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. No direct funding is requested in 2022.

The Foreign Military Loan Liquidating Account records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103-87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans

from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

**Climate Investment Funds**

The Climate Investment Funds (CIFs), comprised of the Clean Technology Fund (CTF) and the Strategic Climate Fund (SCF), were created in 2008 to integrate concessional climate finance into MDB operations. While the CIFs were designed to sunset once a new United Nations Framework Convention on Climate Change (UNFCCC) fund (i.e. the Green Climate Fund) was created, in 2019 the CIF governing body decided to continue CIF operations due to interest from 48 recipient nations and support from civil society organizations for the CIF's unique and effective climate finance model. The CIFs provide concessional financing to MDB projects or stand-alone projects and have supported investments in clean technology, energy access, land use, sustainable forestry, and climate resilience. As the need for climate finance has grown, donor and recipient governments agree that the CIFs play an important and targeted role to further "green" MDB operations and to incentivize climate investments that are complementary but not duplicative to other climate finance sources.

The CTF aims to reduce the growth of greenhouse gas emissions in developing countries by catalyzing large-scale private and public investments through financing the additional costs of commercially available clean technologies over dirtier, conventional alternatives. By funding the extra cost of the cleaner technology, the CTF incentivizes cleaner projects that leverage development bank financing and attract new investor capital into low-carbon sectors. The CTF leverages the capital bases and country program expertise of the multilateral development banks (MDBs). To receive funding, countries must first be found eligible and identify key high-emissions sectors, particularly in support of accelerating transition away from coal.

The CTF is accepting new contributions in support of its programming, including the newly launched Accelerating Coal Transition (ACT) Investment Program, which the Administration believes could have significant near-term impact and be highly catalytic in supporting developing countries' transitions away from coal. The FY 2022 Budget requests \$300 million for the Clean Technology Fund, \$30 million of which will be in the form of a grant to support technical assistance and the remaining \$270 million will be the subsidy cost of a loan. The loan will act as a financial tool to launch this program to support countries seeking to transition from coal-based energy to clean fuel sources.

## Green Climate Fund

The Green Climate Fund (GCF) is a multilateral fund established in 2010 to foster climate-resilient development and zero-emission investment. The GCF advances its mission by using a range of financial instruments to support projects and programs that promise the greatest impact in reducing greenhouse gas (GHG) emissions and building climate resilience in developing countries. It also seeks to advance its mission by mobilizing private sector capital and fostering stronger policy environments that better address the challenges of a changing climate.

The GCF funds activities across a variety of sectors, including transport; water and other infrastructure; energy generation and efficiency; and land use, including agriculture and forestry. As of March 2021, the GCF has approved 173 projects, using \$8.4 billion in funding and attracting \$21.9 billion in co-financing. Through these investments, the GCF will support development that is resilient and resource-efficient and that minimizes the potential negative impact on citizens' health and well-being. The 2022 Budget includes \$1,250 million for the GCF, of which \$625 million is through the Department of the Treasury and \$625 million is through the Department of State.

## International Bank for Reconstruction and Development

The FY 2022 Budget requests \$206.5 million towards the third of up to six installments under the current International Bank for Reconstruction and Development's (IBRD) capital increase.

IBRD is the arm of the World Bank that provides financing to credit-worthy lower middle and middle-income countries to promote inclusive economic growth and reduce poverty. These countries - home to over 70 percent of the world's poor - rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including governance, agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human

and social development needs that private creditors generally do not finance. During its 2020 fiscal year (July 1, 2019 to June 30, 2020), the IBRD approved \$28.5 billion in loans and technical assistance. Latin America and the Caribbean received the largest portion of the IBRD's lending (24 percent), followed by the South Asia region and the Europe and Central Asia region (20 percent each). Since the beginning of the COVID-19 pandemic, IBRD lending has focused on helping countries address the health and economic impacts of the pandemic. In the April 2020 - March 2021 period, approximately 68% of IBRD commitments (\$23.0 billion out of \$33.6 billion total) were for COVID-19 response. IBRD has financed COVID-19 response efforts under four strategic pillars: (1) saving lives by addressing the acute impacts of the pandemic, including financing of vaccines; (2) protecting the poor and vulnerable; (3) ensuring sustainable business growth and job creation; and (4) strengthening policies, institutions, and investments to rebuild better.

The United States is the largest shareholder in the IBRD, with a 15.5 percent share of total voting power, followed by Japan and China. The United States is the only country with veto power over amendments to the Articles of Agreement.

### Global Environment Facility

The FY 2022 Budget requests \$149.3 million for the Global Environment Facility (GEF), in support of GEF programs during the GEF seventh replenishment (GEF-7) period (July 1, 2018 through June 30, 2022), including for a final installment for the GEF-7 replenishment, and of which, \$12.7 million is for unmet commitments to the GEF. The Global Environment Facility (GEF) is one of the largest dedicated funders of projects to improve the global environment. The GEF benefits the U.S. economy and environment by addressing many global environmental problems that affect our domestic health, safety, and prosperity, such as by supporting climate change mitigation, combatting wildlife trafficking, reducing harmful pollution, and conserving fish stocks outside U.S. waters.

### International Finance Corporation

The International Finance Corporation (IFC) is the private sector focused part of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2020 fiscal year, the IFC committed \$11 billion from its own resources, and mobilized an additional \$10.8 billion from other sources, for 282 projects in 67 countries. Of this, IFC invested \$2.8 billion (25 percent) in the poorest and most fragile countries (those eligible for funding from the World Bank's IDA). By 2030, IFC is aiming to more than triple its own-account investments in the poorest and most fragile countries. IFC made investments across the globe in 2020; the largest recipient regions were Latin America and the Caribbean (28 percent), East Asia and the Pacific (22 percent), Sub-Saharan Africa (20 percent) and Europe and Central Asia (12 percent). The top sectors for IFC investment in 2020 were financial markets (52 percent), infrastructure (13 percent), and agribusiness and forestry (10 percent). The IFC spent \$274 million on advisory services in 2020, with sub-Saharan Africa receiving \$93.2 million (34 percent). No funding is requested for the IFC in 2022.

### International Development Association

The FY 2022 Budget requests \$1,428.0 million for the International Development Association (IDA) in support of IDA programs over the nineteenth replenishment (IDA-19, FY 2021-FY 2023), including towards the second of three installments to IDA-19, and of which \$426.6 million is to eliminate unmet commitments to IDA replenishments.

IDA is the part of the World Bank Group that supports the growth and development of the world's 74 poorest countries. IDA works across a wide range of sectors including education, health, clean water and sanitation, the environment, infrastructure, agriculture, and governance. Because countries receiving IDA financing are too poor to attract sufficient capital to support their significant development needs, they depend on concessional finance—low or no interest loans and grants—to create jobs, build critical infrastructure, improve governance and public service delivery, increase agricultural productivity, increase access to energy, improve job creation and the business environment, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at non-concessional rates, including through international markets. During the World Bank's 2020 fiscal year (July 1, 2019, to June 30, 2020), IDA supported 305 projects totaling \$30.4 billion, of which, 63 percent (\$19.1 billion) went to countries in Sub-Saharan Africa. Countries in the South Asia region received the second largest amount (\$6.1 billion). Since the beginning of the COVID-19 pandemic, IDA financing has focused on helping countries address the health and economic impacts of the pandemic. In the April 2020 - March 2021 period, nearly one-half of IDA commitments (\$174.8 billion out of \$38 billion total) were for COVID-19 response. IDA has financed COVID-19 response efforts under four strategic pillars: (1) saving lives by addressing the acute impacts of the pandemic, including financing of vaccines; (2) protecting the poor and vulnerable; (3) ensuring sustainable business growth and job creation; and (4) strengthening policies, institutions, and investments to rebuild better.

### Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the African Development Bank. Countries receive MDRI benefits after completing the

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION—Continued reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with MDRI, donors compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. The U.S. share of the cost of MDRI under IDA-19 (FY 2021-FY 2023) is \$878.8 million. No funding is requested for IDA MDRI in 2022.

## Inter-American Development Bank

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where roughly 144 million people live in poverty. The IDB works in a range of sectors and commits roughly half (51 percent) of its funding to support fiscal sustainability, competitiveness, and access to credit. The other half is split between social sector programs (36 percent), and infrastructure and the environment (14 percent). The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB. No new funding is requested for the IDB in 2022.

## Inter-American Investment Corporation (IDB Invest)

The Inter-American Investment Corporation (IIC), colloquially known as IDB Invest, a member of the Inter-American Development Bank Group established in 1984, promotes development of the private sector in Latin

America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, all of the IDB Group's private sector lending activities, including small- and medium-sized enterprises and financing for private infrastructure and corporate entities (with the exception of small-scale innovation focused work being done by IDB lab), are now funded by IDB Invest. No funding is requested for the IIC in 2022.

## Asian Development Bank

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional co-operation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market-linked rates and "soft loans" to eligible countries at concessional rates; and 2) the Asian Development Fund (AsDF), which provides grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF also provided concessional loans.

The AsDB provides long-term loans at market-based rates to 22 middle-income Asian countries that lack the resources to finance their national economies and build critical infrastructure. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2020, AsDB committed \$31.6 billion for projects and mobilized another \$16.4 billion in co-financing from official and commercial sources. Through its lending, AsDB supports the construction of critical infrastructure, the expansion of private enterprise, and sustainable economic growth. Typically, the majority of AsDB assistance is for investments in energy, transportation, agriculture and natural resources, public sector management,

water supply, municipal infrastructure, finance, and education, but in 2020, the AsDB directed just over half of its financing toward addressing the impact of the COVID-19 pandemic. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios, and bond issuances. No funding is requested for AsDB in 2022.

#### Asian Development Fund

The FY 2022 Budget requests \$53.3 million in support of Asian Development Fund (AsDF) programs over the twelfth replenishment (AsDF-13; FY 2022 - FY 2025), including towards the first of four installments to AsDF-13, and of which, \$9.7 million is for unmet commitments to the AsDF.

AsDF currently provides grants to 17 of the poorest countries in Asia and the Pacific that face moderate or high risk of debt distress, including Afghanistan. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. AsDF projects support water, energy, transportation, financial sector deepening, agriculture, and health, and in 2020, AsDF focused considerable funding on COVID-19 response. AsDF also invests in cross-cutting activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2020, AsDF committed \$1.1 billion in grants for AsDF-eligible countries, of which \$395.0 million was targeted at COVID-19 response. As a result of the merger of AsDF's lending assets into AsDB's OCR on January 1, 2017, AsDF now provides only grants. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. strategic interests, such as Afghanistan and the Pacific Island Countries.

The African Development Bank Group comprises: 1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI).

#### African Development Bank

The FY 2022 Budget requests \$54.6 million for the second of eight equal installments for the AfDB's seventh general capital increase. The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries, and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. The AfDB approved \$3.6 billion in loans in 2020. Unlike other years, 2020 lending activities focused on helping countries provide effective public health and economic recovery responses through COVID-19 Response Facility operations, which constituted 72 percent of loans. These loans have supported activities such as increasing testing capacity and PPE stocks, social protection projects with emphasis on preserving jobs and food access, and country-specific reforms to enhance competitiveness for post-COVID-19 economic recovery. As a result of addressing this need, only 16 percent of AfDB operations supported private sector activity. Other key lending areas included energy and transportation infrastructure, agriculture, and governance. The United States is the largest non-regional shareholder of the AfDB, with 6.4 percent of total shareholding, and the second-largest shareholder after Nigeria.

#### African Development Fund

The FY 2022 Budget requests \$211.3 million in support of AfDF programs over the fifteenth replenishment (AfDF-15; FY 2021-FY 2023), including towards the second of three installments to AfDF-15, and of which, \$40.0 million is for unmet commitments to AfDF replenishments.

The AfDF is the AfDB Group's concessional lending window, and traditionally one of the largest official financiers of infrastructure in Sub-Saharan Africa, providing grants and highly concessional loans to the poorest countries in Africa. Some AfDF recipient countries are becoming new, emerging markets and growing U.S. trading partners. Other AfDF recipient countries, however, remain trapped in fragility, conflict, and poverty. Most AfDF countries are highly vulnerable to both internal and external shocks. In 2020, the AfDF provided approximately \$2 billion in financing, technical assistance, and capacity-building activities to the 37 eligible countries, 71 percent of which was delivered through the COVID-19 Response Facility. The AfDF also sets aside special funding for regional projects and fragile and transitioning states. In total, approximately half of its resources continue to be directed to fragile states.

#### Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. In accordance with the MDRI donors compensate AfDF for cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. The U.S. share of the cost of MDRI under AfDF-15 (FY 2021-

CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK—Continued  
FY 2023) is \$68.0 million. No funding is requested for AfDF MDRI in 2022.

Treasury requests \$43 million for the first of three payments towards the twelfth replenishment of the International Fund for Agricultural Development (IFAD). IFAD was established in 1977 as an international financial institution and specialized U.N. agency focused on promoting rural agricultural development and food security in developing countries. IFAD's mandate is to help rural, small-scale producers and subsistence farmers increase their agricultural productivity, incomes, and access to markets as well as to promote job creation and rural economic growth in developing countries, including conflict-affected and fragile areas. In 2020, IFAD approved \$822 million in new projects and grants. IFAD support goes primarily to the Asia and Pacific region (about 46 percent) and sub-Saharan Africa (about 42 percent). The following sectors accounted for most of IFAD's portfolio in 2020: agriculture and natural resource management (31 percent), market and related infrastructure (16 percent), rural financial services (13 percent), community-driven and human development (15 percent), and support for small and micro enterprises (13 percent).

#### International Affairs Technical Assistance Program

Pursuant to the Office of Technical Assistance's (OTA) authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of revenue, budget, government debt, banking and financial institutions, and economic crime-fighting in developing and transitional countries. This assistance supports U.S. foreign policy and national security objectives.

The FY 2022 Budget includes \$38 million to fund full-time resident technical assistance advisors, intermittent advisors, program-related administrative costs, and enhanced program and project monitoring and evaluation. The appropriation will support technical assistance programs in Asia, the Middle East, Africa, Latin America, the Caribbean, and Europe. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate its activities with the Department of State, USAID, and other relevant U.S. Government agencies as well as international financial institutions and other bilateral donors when determining where its technical assistance program can have the greatest positive impact.

**Debt Relief and Debt Restructuring**

Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Restructuring debt, including with principal haircuts, also allows beneficiary countries to increase poverty reduction expenditures in areas such as health, education, and rural development. With strong U.S. leadership and support, the G20 and Paris Club Debt Service Suspension Initiative (DSSI) and the G20 Common Framework for Debt Treatments beyond DSSI (Common Framework) have been central pillars of the international policy response to the COVID-19 pandemic. The DSSI provides official bilateral debt service suspension to low-income countries, allowing them to focus on responding to immediate health, economic, and social spending needs related to COVID-19. Recognizing that many countries may need more comprehensive debt treatment to address unsustainable

debt and heightened liquidity needs, the G20 and Paris Club in November 2020 also endorsed the Common Framework, which aims to facilitate timely and orderly treatments within the context of an IMF program, and fosters fair burden sharing among all official bilateral creditors and comparable treatment from private creditors. Debt relief can also contribute to achieving other U.S. Government policy priorities, such as conservation of forests and coral reefs by enabling eligible countries to redirect debt payments to a local conservation fund. The FY 2022 Budget requests \$67 million for Treasury's Debt Restructuring account to pay for the cost of the United States' bilateral debt restructuring and debt relief funding. Of this, \$52 million is for debt treatments under the DSSI and Common Framework, and \$15 million is debt treatments under the Tropical Forest and Coral Reef Conservation Act.

The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of Southeastern Europe and the independent states that emerged from the dissolution of the Soviet Union, as well as related efforts to address social sector reform and combat transnational threats in these countries. From 2013 through 2015, funding for the

programs formerly funded through AEECA were included in the Economic Support Fund (ESF), International Narcotics Control and Law Enforcement (INCLE), and Global Health Programs (GHP) accounts. In 2016, Congress reinstated the AEECA account for those programs funded with ESF and INCLE.

This request includes \$4.7 billion in the International Disaster Assistance (IDA) account, administered by USAID's Bureau for Humanitarian Assistance. The IDA account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance, rehabilitation, disaster risk reduction, transition to development assistance programs, as well as emergency food interventions. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, as well as the provision of safe drinking water. Emergency food responses include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers and complementary activities that support the relief, recovery and resilience of populations affected by food crises. IDA programs target the most vulnerable populations who are affected by disasters and complex crises, including those who are internally displaced and refugees.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2020, per the modernizations and other reforms included in the Better Utilization of Investments Leading to Development Act of 2018, DCA will be consolidated with other development finance functions, such as the Overseas Private Investment Corporation, into the new U.S. International Development Finance Corporation (DFC). All future DCA activities are presented in the DFC accounts.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020.

The Overseas Private Investment Corporation (OPIC) encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its primary noncredit program was political risk insurance against losses due to expropriation, inconvertibility, and damage due to political violence.

There are unresolved issues in the prior year column. There is a variance of \$107M in interest on Federal securities. DFC has submitted a back-dated entry to correct this variance; this entry is related also to 184-22-4483 DFC Corporate Capital Account.

OPIC encouraged the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its credit program provided investment financing through loans and guaranteed loans. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs

The FY 2022 request for the U.S. Trade and Development Agency (USTDA) of \$79.5 million will strengthen the Agency's ability to help U.S. companies create jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation activities, pilot projects and reverse trade missions that create sustainable infrastructure and foster economic growth in its partner countries. In carrying out its mission, USTDA prioritizes activities where there is a high likelihood for the export of U.S. goods and services that can match the development needs of the Agency's overseas partners.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. The DFC will mobilize and facilitate the participation of private sector capital and skills in the economic development of less developed countries. This facilitation of private sector investment will have a positive developmental impact through transactions the private sector would not do on its own. All future DFC insurance and equity activities are presented in the DFC Corporate Capital Account.

There are unresolved issues in the prior year column. There is a variance of (\$69M) in interest on Federal Securities. DFC has submitted a back-dated entry to adjust this variance to \$38M. This variance may be due to asymmetry between the treasury securities transactions at Treasury, and the subsequent transfer to DFC. This variance has an effect on DFC's FY20 offsetting collections.

On October 5, 2018, President Donald J. Trump signed into law the Better Utilization of Investments Leading to Development Act of 2018 (The BUILD Act). The BUILD Act consolidates, modernizes, and reforms the U.S. Government's development finance capabilities—primarily the Overseas Private Investment Corporation (OPIC) and the Development Credit Authority (DCA) of the U.S. Agency for International Development (USAID)—into a new agency: the United States International Development Finance Corporation (DFC), which launched on January 2, 2020. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications and cost re-estimates of direct loans or loan guarantees that resulted from obligations or commitments in any year). The subsidy amounts are estimated on a present value basis.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

The United States is a member of the International Monetary Fund (IMF) through its quota subscription to the IMF, denominated in Special Drawing Rights (SDRs). An IMF member's quota subscription determines the maximum amount of financial resources that the member must commit to the IMF. Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange rate) and is presently SDR 82,994,200,000 (approximately \$115 billion using the current exchange rate). Quotas are the IMF's first line of financial resources and the main metric used by the IMF to determine members' voting shares and access to IMF financing.

The use of U.S. quota resources at the IMF constitutes an exchange of monetary assets and does not result in budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

See the "Loans to International Monetary Fund" account for additional information about the 2020 IMF agreement.

In January 1997, the Executive Board of the IMF approved the creation of the New Arrangements to borrow (NAB), which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998. It is now the second line of defense for IMF resources after a prior arrangement, the General Arrangements to Borrow (GAB), lapsed on December 25, 2018. The amounts authorized for the GAB were also authorized to be used for the NAB.

In 2019, the United States joined other key countries and IMF leadership in advancing a package of actions to maintain the overall level of IMF resources in conjunction with reforms to IMF governance and lending. As part of this package, the IMF and NAB participants agreed to double the size of the NAB, while the IMF reduced its bilateral borrowing agreements

by a similar amount. Congress authorized Treasury to double the size of the United States' NAB participation in the 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act. The new NAB reforms, which include our increased participation, took effect in January 2021 and remains in effect until the end of 2025.

A total of 40 countries and institutions participate in the NAB for a total of SDR 361 billion (about \$515 billion), of which the current U.S. share is approximately SDR 56 billion (about \$80 billion). The NAB is currently not activated, meaning that at present the IMF is relying on quota resources for current financing.

With respect to this account, resources provided by the United States under the NAB constitute an exchange of monetary assets and do not result in any budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the NAB are readily available to meet a U.S. balance-of-payments financing need. (See the *Analytical Perspectives* for additional information.) Section 7065 of the 2021 General Provisions in this chapter includes the necessary legislative language to extend and increase the NAB.

## Contributions to IMF Facilities and Trust Funds

The International Monetary Fund (IMF) maintains several facilities, many in the form of trust funds, to provide assistance to the world's poorest countries. The most significant of these, the Poverty Reduction and Growth Trust (PRGT) is the IMF's concessional lending facility for low-income countries (LICs). Through the PRGT, the IMF makes subsidized loans (currently at zero percent interest) to the world's poorest countries in the context of longer-term economic adjustment programs. During the COVID-19 pandemic crisis, the PRGT has provided essential resources to help LICs, which generally lack reliable access to global capital markets and which are facing acute balance of payment stresses, respond to the pandemic and prevent economic collapse. Since the start of the pandemic, the IMF has lent close to \$110 billion to countries in need. Of this amount, \$9.4 billion in concessional financing to about 50 poor countries came from the PRGT, a fivefold increase in annual lending from the PRGT's pre-pandemic average. A U.S. contribution to the PRGT would particularly benefit the most vulnerable populations in these countries.

The 2022 Budget requests a total of \$102 million to enable the United States to make a meaningful contribution to the IMF through a grant to the PRGT, or other IMF facility, and to cover the subsidy cost of lending from Treasury's Exchange Stabilization Fund to the PRGT or other IMF facility.

The Special Defense Acquisition Fund (SDAF) helps expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2022 request reflects \$900 million in new SDAF obligation authority, to be funded by a combination of offsetting collections and previous SDAF procurements, referred to as SDAF reimbursements. In 2022, offsetting collections will be derived from the FMS sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2022 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective in a timely manner. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.

## NITA M. LOWEY MIDDLE EAST PARTNERSHIP FOR PEACE ACT OF 2020

## [SHORT TITLE]

[SEC. 8001. This title may be cited as the "Nita M. Lowey Middle East Partnership for Peace Act of 2020".]

## [FINDINGS]

[SEC. 8002. Congress finds the following:

(1) Economic development in conflict settings has been shown to support stabilization by empowering entrepreneurs, growing the middle class, and mitigating unemployment.

(2) In 2018, unemployment in the Palestinian territories was 32.4 percent. Gross Domestic Product (GDP) growth in the Palestinian territories declined from 2017 to 2019, and it is projected to further decline in 2020.

(3) According to the World Bank Ad Hoc Liaison Committee's April 2019 Economic Monitoring Report, "to achieve sustainable economic growth, in the Palestinian territories, growth and job creation going forward will need to be private sector driven".

(4) According to the 2018 Joint Strategic Plan of the Department of State and the United States Agency for International Development, "assistance can help prevent new recruitment to terrorist organizations, reduce levels of violence, promote legitimate governance structures that strengthen inclusion, and reduce policies that marginalize communities".

(5) Although economic development is an important tool for stabilizing conflict-prone settings and establishing connections between communities, economic development by itself will not lead to lasting peace. People-to-people peace-building programs further advance reconciliation efforts by promoting greater understanding, mutual trust, and cooperation between communities.

(6) While the United States and its international partners continue to support diplomatic and political negotiations between the representatives of the parties to the Israeli-Palestinian conflict, such efforts require broad popular support among the people on the ground to succeed.

(7) Achieving sustainable, high-level agreements for lasting peace in the Middle East must come through, and with the support of, the people who live there, and the United States and its international partners can help the people of the region build popular support for sustainable agreements for lasting peace. ]

## [SENSE OF CONGRESS]

[SEC. 8003. It is the sense of Congress that—

(1) building a viable Palestinian economy is central to the effort to preserve the possibility of a negotiated settlement leading to a sustainable two-state solution with the democratic, Jewish state of Israel and a demilitarized, democratic Palestinian state living side-by-side in peace, security, and mutual recognition;

(2) United States and international support for grassroots, people-to-people efforts aimed at fostering tolerance, and building support for such solution, can help counter extremist propaganda and the growing issue of incitement;

(3) strengthening engagement between Palestinians and Israelis, including through people-to-people peace-building programs can increase the bonds of friendship and understanding;

(4) investing in the development of the Palestinian economy and in joint economic ventures can advance multiple sectors to the benefit of local, regional, and global parties; and

(5) Congress encourages cooperation between Palestinian, American, and Israeli business sectors in order to benefit the Palestinian, American, and Israeli peoples and economies. ]

The American Jobs Plan is a generational investment in America that will deliver a historic and overdue modernization of our roads, bridges, rail, ports, airports, and transit systems. Decades of declining Federal leadership have left our roads, bridges, rail, and transit systems in poor condition, with a trillion-dollar backlog of needed repairs. More than 35,000 people die in traffic crashes on U.S. roads each year, and millions more are seriously and often permanently injured, in part because of transportation assets that are obsolete or in disrepair. Across cities, suburbs, and rural areas, the American Jobs Plan would help get people to work safely, reliably and affordably, reduce the impacts of climate change, and ensure that these investments produce good-quality jobs. These infrastructure investments will create millions of good-paying jobs and secure America's economic strength, mitigate socio-economic disparities, advance racial equity and environmental justice, promote affordable access to opportunity for all, and transform our transportation infrastructure to leave it better for our children and grandchildren. The President's plan will ensure that these in-

vestments produce good-quality jobs with strong labor standards, prevailing wages, and a free and fair choice to join a union and bargain collectively.

The resources in this account are above and beyond the discretionary request and other mandatory funding in the Budget request, and reflect a multi-year investment boost of an additional \$547 billion for transportation infrastructure and resilience. This boost in investment will transform how the Nation moves people and goods by:

*Upgrading American roads and bridges.*—The Plan proposes a total increase of \$115 billion to modernize the bridges, highways, and main streets that are in most critical need of repair. This includes funding to make roads safer, improve air quality, reduce greenhouse gas emissions, and tackle congestion. The Plan will modernize 20,000 miles of roadway, not only fixing them first but fixing them right, with safety, resilience, and all users in mind. It will fix the most economically significant large bridges in the country in need of reconstruction, and repair the worst 10,000 smaller bridges, including bridges that provide critical connections to rural and tribal communities.

*Modernizing public transit.*—Our current transit infrastructure is inadequate. The Department of Transportation estimates a repair backlog of over \$105 billion that translates to service delays and disruptions for transit riders. The proposal includes an \$85 billion increase in Federal investment to modernize existing transit systems and also help transit agencies expand services to meet rider demand. This investment would double Federal funding for public transit, address the repair backlog, bring reliable transit service to communities and neighborhoods across the country, and reduce traffic congestion for everyone.

*Building a world class passenger and freight rail system.*—The nation's rail networks have the potential to offer safe, reliable, efficient, and climate-friendly alternatives for moving people and freight. The proposal would increase federal investment by \$80 billion to address Amtrak's repair backlog; modernize the high traffic Northeast Corridor; improve existing corridors; connect new city pairs; and enhance grant and loan programs that support passenger, high-speed and freight rail safety, efficiency, and electrification.

*Making our airports the best in the world.*—The plan proposes to boost investment in our airports and National Airspace System (NAS) by \$25 billion, including a \$10 billion increase in funding for the Airport Improvement Program, \$5 billion in additional upgrades to NAS assets that ensure safe and efficient air travel, and a new \$10 billion program to support terminal renovations and multimodal connections for affordable, convenient, car-free access to air travel.

*Investing in ports.*—As part of an additional \$17 billion in funding to improve inland waterways, coastal ports, land ports of entry and ferries, DOT proposes \$6 billion for a new Healthy Ports program to support projects in and around ports that mitigate the cumulative impacts of port-related air pollution on climate change and on surrounding neighborhoods, often communities of color.

*Improve road safety for all users.*—More than 35,000 people die in traffic crashes on U.S. roads each year. Between 2009 and 2018, pedestrian deaths grew by 46%.

The Plan includes a \$20 billion increase to improve road safety for all users by increases to existing safety programs and adding a new Safe Streets for All program to fund state and local vision zero or similar plans and projects. The Plan also increased funding for safer vehicles and behaviors.

*Restore and reconnect thriving communities.*—Far too often, past transportation projects tore through urban neighborhoods, displaced residents, and created physical barriers to opportunity, connectivity, and economic development. Transportation resources have been underinvested in communities most in need of high-quality, affordable transportation options, including for essential workers. The Plan is designed with equity in mind, and includes \$20 billion for a new program to help communities undo the damage from these projects, reconnect neighborhoods, and ensure new

AMERICAN JOBS PLAN FUNDING FOR TRANSPORTATION INFRASTRUCTURE—Continued projects increase opportunity, advance racial equity and environmental justice, and promote affordable access. For example, the program will help communities remove or retrofit existing transportation infrastructure that constitute barriers to racial and environmental justice and equitable economic development. The Plan also includes \$5 billion in additional support to tribal transportation programs and programs that promote American workers through world-class training, technical assistance, and procurement best practices.

*Spark widespread adoption of electric vehicles (EV).*—The transportation sector is the leading emitter of greenhouse gases. The Plan proposes a new and historic investment in clean transportation, including \$140 billion to provide consumers point of sale rebates to buy American-made EVs, build a national, coast to coast network of 500,000 EV chargers, and replace 50,000 diesel transit vehicles with zero emission vehicles.

*Accelerate transformational projects.*—The Plan includes \$25 billion for a new, dedicated fund to support ambitious projects that have tangible benefits to the regional or national economy but are too large or complex for existing funding programs and additional investments in research, financing, and planning. The Plan funds these new projects and early stage development and planning to help state, local, and tribal governments to analyze alternatives, incorporate emerging technologies, and ensure equity, sustainability, and resiliency are built in from the start. The plan also supports early-stage research, development, and commercialization, including a new ARPA-I to accelerate technology that improves infrastructure performance and outcomes, innovative financing options and a new challenge to transform how communities are built.

*Transportation resilience.*—Chronic underinvestment in resilience has harmed our transportation infrastructure and its users, disrupting service, making travel conditions unsafe, causing severe damage, and increasing maintenance, operating, and reconstruction costs. The Plan proposes \$5 billion for the PROTECT Grant Program, and \$2.5 billion for the National Resilience Communities Challenge. These programs will help reduce the vulnerability of transportation infrastructure to costly and destructive storms, flooding, and other acts of nature.

The Federal Aviation Reauthorization Act of 1996 (P.L. 104-264) authorized the collection of user fees for services provided by the Federal Aviation Administration (FAA) to aircraft that neither take off nor land in the United States, commonly known as overflight fees. The Act permanently appropriated the first \$50 million of such fees for the Essential Air Service (EAS) program and rural airport improvements. In addition, the FAA Modernization and Reauthorization Act (P.L. 112-95) requires that, in any fiscal year, overflight fees collected in excess of \$50 million will be available to carry out the EAS program.

The Working Capital Fund finances common administrative services and other services that are centrally performed in the interest of economy and efficiency. The fund is financed through agreements with the Department of Transportation Operating Administrations (OAs) and other customers. In FY 2022, the Working Capital Fund will likely obligate nearly \$726 million across the Department, including \$93 million to continue the Department's implementation of a shared services environment for commodity information technology (IT) investments. The IT shared services initiative will modernize IT across the Department and improve mission delivery by consolidating separate, overlapping, and duplicative processes and functions. In FY 2022, the Department will continue consolidating commodity IT services across OAs. As a key part of this effort, the Office of the Chief Information Officer will focus on investment-level commodity IT as well as IT Security and Compliance activities. Utilizing shared services will enable the Department to improve cybersecurity, increase efficiencies, and improve transparency in IT spending.

The Transportation Equity Act of the 21st Century of 1998 established the Railroad Rehabilitation and Improvement Financing (RRIF) loan and loan guarantee program. The Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: A Legacy for Users, changed the program to allow Federal Railroad Administration (FRA) to issue direct loan and loan guarantees up to \$35 billion, and it required that no less than \$7 billion be reserved for projects primarily benefiting freight railroads other than Class I carriers. The program was expanded by the Rail Safety Improvement Act of 2008 and again by the Fixing America's Surface Transportation Act in 2015, and been reassigned from FRA to the Office of the Secretary. Loans may be used to: 1) acquire, improve, or rehabilitate intermodal or rail equipment or facilities, including track, components of track, bridges, yards, buildings, or shops; 2) refinance debt; 3) develop and establish new intermodal or railroad facilities; 4) reimburse related planning and design expenses; and 5) to finance certain economic development related to passenger rail stations. For 2016, \$1.96 million was appropriated to assist Class II and Class III railroads in covering RRIF loan application expenses. In 2018, \$25 million was appropriated for credit risk premiums. No new funds are requested for this account in 2022.

Through 1997, the Essential Air Service (EAS) program was funded from the Airport and Airway Trust Fund. Starting in 1998, the Federal Aviation Administration reauthorization funded it as a mandatory program supported by overflight fees under the EAS and Rural Airport Improvement Fund. In addition to mandatory funding supported by overflight fees, direct appropriations from the Airport and Airway Trust Fund to Payments to Air

Carriers have been enacted every year beginning in 2002 to meet the needs of the Essential Air Service program.

The 2022 Budget requests \$11.434 billion for Federal Aviation Administration (FAA) operations. These funds will be used to continue to promote

aviation safety and efficiency. The Budget provides funding for the Air Traffic Organization (ATO) which is responsible for managing the air traffic control system. As a performance-based organization, the ATO is designed to provide cost-effective, efficient, and, above all, safe air traffic services. The Budget also funds the Aviation Safety Organization which ensures the safe operation of the airlines and certifies new aviation products. In addition, the request also funds regulation of the commercial space transportation industry, as well as FAA policy oversight and overall management functions.

The fund provides direct support for the aviation insurance program (chapter 443 of title 49, U.S. Code). In December 2014, the Congress sunset part of the aviation insurance program. Specifically, the Congress returned U.S. air carriers to the commercial aviation market for all of their war risk insurance coverage by ending the FAA's authority to provide war risk insurance for a premium. Pursuant to 49 U.S.C. 44305, the FAA may provide insurance without premium at the request of the Secretary of Defense, or the head of a department, agency, or instrumentality designated by the President, when the Secretary of Defense, or the designated head, agrees to indemnify the Secretary of Transportation against all losses covered by the insurance. The "non-premium" aviation insurance program was authorized through September 30, 2023 in the National Defense Authorization Act for 2020.

In 1997, FHWA received an appropriation from the General Fund for the State Infrastructure Banks (SIBs) program.

All of the funds have been provided to the States to capitalize the infrastructure banks. Because the funding was provided as grants, and not loans, FHWA will not receive reimbursements of amounts expended for the SIBs program. No new budgetary resources are requested in 2022.

The Federal-Aid Highway Act of 1968 authorized the establishment of a right-of-way revolving fund. This fund was used to make cash advances to States for the purpose of purchasing right-of-way parcels in advance of highway construction and thereby preventing the inflation of land prices from significantly increasing construction costs. The purchase of right-of-way is an eligible expense of the Federal-Aid Highway program.

This program was terminated by the Transportation Equity Act for the 21st Century of 1998, but will continue to be shown for reporting purposes as loan balances remain outstanding. No new budgetary resources are requested in 2022.

The Highway Revenue Act of 1956, as amended, provides for the transfer from the General Fund to the Highway Trust Fund of revenue from the motor fuel tax, and certain other taxes paid by highway users. The Secretary of the Treasury estimates the amounts to be transferred. In turn, appropriations are authorized from this fund to meet expenditures for Federal-aid highways and other programs as specified by law. Per the Cash Management Improvement Act of 1990, this account reflects the net of State interest liability and adjusted Federal interest liability payments to or from States.

The following is the status of Highway Trust Fund.

**Cash balances.**—The Status of Funds table begins with the unexpended balance on a "cash basis" at the start of the year. The table shows the amount of cash invested in Federal securities at par value and the amount of cash on hand (i.e., uninvested balance). Next, the table provides the amounts of cash income and cash outlays during each year to show the cash balance at the end of each year.

**Revenues.**—The Budget presentation includes estimated receipts from existing Highway Trust Fund excise taxes, which would continue to be deposited into the Highway and Mass Transit Accounts of the Highway Trust Fund in the same manner as current law.

**General Fund transfers.**—The Continuing Appropriations Act, 2021 and Other Extensions Act (Public Law 116-159) transferred from the General Fund \$10.4 billion to the Highway Account of the Highway Trust Fund and \$3.2 billion to the Mass Transit Account of the Highway Trust Fund.

The Federal-aid Highways (FAH) program is designed to aid in the development, operations, and management of an intermodal transportation system. All programs included within the FAH program are financed from the Highway Account of the Highway Trust Fund, and most are distributed via apportionments and allocations to States. Liquidating cash appropriations provide the authority for outlays resulting from obligations of contract authority.

(2) not distribute an amount from the obligation limitation for Federal-aid highways that is equal to the unobligated balance of amounts—

(A) made available from the Highway Trust Fund (other than the Mass Transit Account) for Federal-aid highway and highway safety construction programs for previous fiscal years the funds for which are allocated by the Secretary (or apportioned by the Secretary under sections 202 or 204 of title 23, United States Code); and

(B) for which obligation limitation was provided in a previous fiscal year;

(3) determine the proportion that—

(4) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2), for each of the programs (other than programs to which paragraph (1) applies) that are allocated by the Secretary under the [Fixing America's Surface Transportation Act] *applicable surface transportation authorization act* and title 23, United States Code, or apportioned by the Secretary under sections 202 or 204 of that title, by multiplying—

(A) the proportion determined under paragraph (3); by

(B) the amounts authorized to be appropriated for each such program for such fiscal year; and

(5) distribute the obligation limitation for Federal-aid highways, less the aggregate amounts not distributed under paragraphs (1) and (2) and the amounts distributed under paragraph (4), for Federal-aid highway and highway safety construction programs that are apportioned by the Secretary under title 23, United States Code (other than the amounts apportioned for the National Highway Performance Program in section 119 of title 23, United States Code, that are exempt from the limitation under subsection (b)(12) and the amounts apportioned under sections 202 and 204 of that title) in the proportion that—

(10) section 105 of title 23, United States Code (as in effect for fiscal years 2005 through 2012, but only in an amount equal to \$639,000,000 for each of those fiscal years);

(d) **APPLICABILITY OF OBLIGATION LIMITATIONS TO TRANSPORTATION RESEARCH PROGRAMS.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), the obligation limitation for Federal-aid highways shall apply to contract authority for transportation research programs carried out under—

(A) chapter 5 of title 23, United States Code; and

(B) [title VI of the Fixing America's Surface Transportation Act] *an applicable surface transportation authorization act.*

(2) **EXCEPTION.**—Obligation authority made available under paragraph (1) shall—

(A) remain available for a period of 4 fiscal years; and

(B) be in addition to the amount of any limitation imposed on obligations for Federal-aid highway and highway safety construction programs for future fiscal years.

(e) **REDISTRIBUTION OF CERTAIN AUTHORIZED FUNDS.**—

(1) **IN GENERAL.**—Not later than 30 days after the date of distribution of obligation limitation under subsection (a), the Secretary shall distribute to the States any funds (excluding funds authorized for the program under section 202 of title 23, United States Code) that—

(A) are authorized to be appropriated for such fiscal year for Federal-aid highway programs; and

(B) the Secretary determines will not be allocated to the States (or will not be apportioned to the States under section 204 of title 23, United States Code), and will not be available for obligation, for such fiscal year because of the imposition of any obligation limitation for such fiscal year.

(2) **RATIO.**—Funds shall be distributed under paragraph (1) in the same proportion as the distribution of obligation authority under subsection (a)(5).

(3) **AVAILABILITY.**—Funds distributed to each State under paragraph (1) shall be available for any purpose described in section 133(b) of title 23, United States Code.

**SEC. 121.** Notwithstanding 31 U.S.C. 3302, funds received by the Bureau of Transportation Statistics from the sale of data products, for necessary expenses incurred pursuant to chapter 63 of title 49, United States Code, may be credited to the Federal-aid highways account for the purpose of reimbursing the Bureau for such expenses: *Provided*, That such funds shall be subject to the obligation limitation for Federal-aid highway and highway safety construction programs.

**SEC. 122.** Not less than 15 days prior to waiving, under his or her statutory authority, any Buy America requirement for Federal-aid highways projects, the Secretary of Transportation shall make an informal public notice and comment opportunity on the intent to issue such waiver and the reasons therefor: *Provided*, That the Secretary shall provide an annual report to the House and Senate Committees on Appropriations on any waivers granted under the Buy America requirements.

**SEC. 123.** None of the funds made available in this Act may be used to make a grant for a project under section 117 of title 23, United States Code, unless the Secretary, at least 60 days before making a grant under that section, provides written notification to the House and Senate Committees on Appropriations of the proposed grant, including an evaluation and justification for the project and the amount of the proposed grant award: *Provided*, That the written notification required in the pre-

ceding proviso shall be made not later than 180 days after the date of enactment of this Act.

**SEC. 124.** (a) A State or territory, as defined in section 165 of title 23, United States Code, may use for any project eligible under section 133(b) of title 23 or section 165 of title 23 and located within the boundary of the State or territory any earmarked amount, and any associated obligation limitation: *Provided*, That the Department of Transportation for the State or territory for which the earmarked amount was originally designated or directed notifies the Secretary of its intent to use its authority under this section and submits an annual report to the Secretary identifying the projects to which the funding would be applied. Notwithstanding the original period of availability of funds to be obligated under this section, such funds and associated obligation limitation shall remain available for obligation for a period of 3 fiscal years after the fiscal year in which the Secretary is notified. The Federal share of the cost of a project carried out with funds made available under this section shall be the same as associated with the earmark.

(b) In this section, the term "earmarked amount" means—

(1) congressionally directed spending, as defined in rule XLIV of the Standing Rules of the Senate, identified in a prior law, report, or joint explanatory statement, *which was authorized to be appropriated or appropriated more than 10 fiscal years prior to the current fiscal year*, and administered by the Federal Highway Administration; or

(2) a congressional earmark, as defined in rule XXI of the Rules of the House of Representatives, identified in a prior law, report, or joint explanatory statement, *which was authorized to be appropriated or appropriated more than 10 fiscal years prior to the current fiscal year*, and administered by the Federal Highway Administration.

(c) The authority under subsection (a) may be exercised only for those projects or activities that have obligated less than 10 percent of the amount made available for obligation as of October 1 of the current fiscal year, and shall be applied to projects within the same general geographic area within 25 miles for which the funding was designated, except that a State or territory may apply such authority to unexpended balances of funds from projects or activities the State or territory certifies have been closed and for which payments have been made under a final voucher.

(d) The Secretary shall submit consolidated reports of the information provided by the States and territories annually to the House and Senate Committees on Appropriations.

**[SEC. 125.** Until final guidance is published, the Administrator of the Federal Highway Administration shall adjudicate requests for Buy America waivers under the criteria that were in effect prior to April 17, 2018.] *(Department of Transportation Appropriations Act, 2021.)*

## FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

The Federal Motor Carrier Safety Administration (FMCSA) was established within the Department of Transportation by the Motor Carrier Safety Improvement Act of 1999 (P.L. 106–159). Prior to this legislation, motor carrier safety responsibilities were under the jurisdiction of the Federal Highway Administration.

FMCSA's mission is to promote safe commercial motor vehicle operation, and reduce truck and bus crashes. The Agency accomplishes this mission by reducing fatalities and property losses associated with commercial motor vehicles through education, regulation, enforcement, research, and innovative technology, thereby achieving a safer and more secure transportation environment. FMCSA is also responsible for enforcing Federal motor carrier safety and hazardous materials regulations for all commercial vehicles entering the United States along its southern and northern borders.

Motor Carrier Safety Grants provide funding to eligible States so they may conduct compliance reviews, identify and apprehend traffic violators, conduct roadside inspections, and support safety audits on new entrant carriers. The Federal Motor Carrier Safety Administration (FMCSA) also supports States by conducting training for State agency personnel to accomplish motor carrier safety objectives. In addition, FMCSA reviews State commercial driver's license (CDL) oversight activities to prevent unqualified drivers from being issued CDLs, and actively engages with industry and other stakeholders through Innovative Technology programs to improve the safety and productivity of commercial vehicles and drivers.

The Operations and Programs account provides the necessary resources to support program and administrative activities for motor carrier safety. The Federal Motor Carrier Safety Administration (FMCSA) will continue to improve safety and reduce severe and fatal commercial motor vehicles crashes by requiring operators to maintain standards to remain in the industry, and by removing high-risk carriers, vehicles, drivers, and service providers from operation. Funding supports Nation-wide motor carrier safety and consumer enforcement efforts, including the continuation of the Compliance, Safety and Accountability Program; regulation and enforcement of movers of household goods; and Federal safety enforcement activities at the borders to ensure that foreign-domiciled carriers entering the U.S. are in compliance with FMCSA regulations. Resources are also provided to fund regulatory development and implementation, investment in research and technology with a focus on research regarding highly automated vehicles and related technology, and information technology's information management, safety outreach, and education.

The Vehicle Safety programs support activities to reduce highway fatalities, prevent injuries, and reduce their associated economic toll by developing, setting, and enforcing Federal Motor Vehicle Safety Standards and rooting out safety-related defects in motor vehicles and motor vehicle equipment. These programs also set and enforce fuel economy standards for motor vehicles. These activities play a key role in advancing the President's Agenda on climate and energy policy and has significant societal and economic impacts. NHTSA's efforts to develop and set new fuel economy standards are guided by the best science and protected by governed processes that ensure the integrity of Federal decision-making. NHTSA supports research into cutting-edge technologies, including complex safety-critical electronic control systems; vehicle cybersecurity; and new and emerging Automated Driving System technologies. Additional research areas include biomechanics; heavy vehicles safety technologies; and vehicle safety issues related to fuel efficiency and alternative fuels. The Operation and Research program supports a broad range of initiatives, including the development of rulemaking and safety standards, such as the motor vehicle fuel economy standards; harmonization efforts with international partners; and, modernizing the New Car Assessment Program. This funding also supports compliance programs for motor vehicle safety and fuel economy standards; investigations of safety-related motor vehicle defects; enforcement of Federal odometer law; and, oversight of safety recalls. NHTSA also leverages this funding to collect and analyze crash data to identify safety trends and develop countermeasures.

The 911 Grant Program was authorized by the Next Generation 911 Advancement Act of 2012, which allows eligible entities to utilize funds to implement and operate 911 services, and to train public safety personnel. The program is funded by the Public Safety Trust Fund. The authority to expend these funds expires on September 30, 2022. The program helps 911 call centers upgrade to Next Generation 911 (NG911) capabilities, such as providing digital and network capabilities and implementing advanced mapping systems that will make it easier to identify a 911 caller's location. NG911 also helps 911 call centers manage call overloads and funds for training costs directly related to NG911 implementation.

The Highway Safety Research and Development programs support research, demonstrations, evaluation, technical assistance, and national leadership activities for behavioral safety programs conducted by State and local governments, as well as various safety associations and organizations. These programs are designed to provide our State and local partners with the latest tools to combat impaired, distracted, and drowsy driving while encouraging occupant protection, pedestrian and bicycle safety, and development of best practices for emergency medical and trauma care systems. This funding supports the National Driver Register's Problem Driver Pointer System, which helps to identify drivers who have been suspended for or convicted of serious traffic offenses, such as driving under the influence of alcohol or other drugs. Finally, this funding will allow NHTSA to improve its vital data collection and analysis, which drives all of the agency's safety activities.

NHTSA provides grants to States for activities related to the promotion of highway traffic safety. The State and Community Safety Grants Program (Section 402) supports multi-faceted State highway safety programs designed to reduce traffic crashes and the resulting deaths, injuries, and property damage. The Agency will continue to implement and promote the use of performance measures and data-driven targets as a condition of approval in these programs and to ensure efficient and effective use of funds. NHTSA also will use dedicated funds from the program to support high visibility enforcement campaigns that promote the use of seat belts and the reduction of impaired and distracted driving. The National Priority Incentive Grant Programs (Section 405) allow the Agency to make grant awards to States to encourage innovative solutions to drug- and alcohol-impaired driving that can help States combat drug- and alcohol-impaired driving.

The budget includes \$623 million for FY 2022.

Funding requested in the Railroad Research and Development Program is focused on improving railroad safety. It provides scientific and engineering support for the Federal Railroad Administration's rail safety enforcement and rulemaking efforts. It also identifies and develops emerging technologies for the rail industry to adopt voluntarily. The outcomes of the research and development reduce accidents and incidents. In addition to improving safety, the program contributes significantly towards activities to achieve and maintain a state of good repair and promote job creation and economic growth.

The program focuses on the following areas of research:

*Track Program.*—Reducing derailments due to track related causes.

*Rolling Stock Program.*—Reducing derailments due to equipment failures, to minimize the consequences of derailments, and to minimize hazardous material releases.

## RAILROAD RESEARCH AND DEVELOPMENT—Continued

**Train Control and Communication.**—Reducing train to train collisions and train collisions with objects on the line and at grade crossings.

**Human Factors Program.**—Reducing accidents caused by human error.

**Railroad System Issues Program.**—Prioritizing Research and Development projects on the basis of relevance to safety risk reduction and other DOT goals, energy and emissions research, and workforce development.

Funds were used to redevelop the Pennsylvania Station in New York City, which involved renovating the James A. Farley Post Office building as Moynihan Train Hall. Funding for this project was included in the Grants to the National Railroad Passenger Corporation appropriation in 1995 through 1997, and the Northeast Corridor Improvement Program in 1998. In 2000, FRA received an advance appropriation of \$20 million for 2001, 2002, and 2003. In 2001, the Congress specified that the \$20 million advance appropriation for the Farley Building be used exclusively for fire and life safety initiatives. In 2016, \$40 million was transferred from the Federal Transit Administration's Hurricane Sandy funding into this account for risk reduction projects at Moynihan Train Hall. The train hall opened January 1, 2021. No new funds are requested for this account in 2022.

The National Railroad Passenger Corporation (Amtrak) was established in 1970 through the Rail Passenger Service Act. Amtrak is operated and managed as a for-profit corporation. Amtrak is not an agency or instrument of the U.S. Government, although, since the railroad's creation FRA has provided annual grants for operating, capital and debt service costs.

Prior to FY 2006, FRA received annual appropriations in this account for grants to Amtrak. Since then, several one-time appropriations or funding transfers have been directed to this account, including \$1.3 billion in funds under the American Recovery and Reinvestment Act of 2009; \$112 million from the Disaster Relief Appropriations Act of 2013 (P.L. 113-2) for recovery efforts from super storm Sandy; \$185 million transfer from the Federal Transit Administration for the Hudson Yards disaster resiliency project in New York City; and a \$13 million transfer from the Federal Transit Administration for the Metropolitan Transportation Authority/Long Island Rail Road's River to River Rail Resiliency project in New York City. No new funds are requested for this account for FY 2022.

This competitive grant program encourages State participation in passenger rail service. Under this program, a State or States may apply for grants for up to 50 percent of the cost of capital investments necessary to support improved intercity passenger rail service that either requires no operating subsidy or for which the State or States agree to provide any needed operating subsidy. To qualify for funding, States must include intercity passenger rail service as an integral part of statewide transportation planning as required under 23 U.S.C. 135. Additionally, the specific project must be on the Statewide Transportation Improvement Plan at the time of application. No new funds are requested for this account for FY 2022.

The Public Transportation Emergency Relief Program helps transit agencies restore needed transportation services immediately following disaster events. Both capital and operating costs are eligible for funding following an emergency; however, this program does not replace the Federal Emergency Management Agency's capital assistance program. FTA administers the \$10.9 billion supplemental appropriation (adjusted to \$10.2 billion after sequestration and the transfer of funds to the Office of the Inspector General and the Federal Railroad Administration) provided by the Disaster Relief Appropriations Act, 2013 (Public Law 113–2) following Hurricane Sandy through this account. The Bipartisan Budget Account of 2018 (Public Law 115–123) also provided \$330 million for eligible capital and operating costs for areas affected by Hurricanes Harvey, Irma, and Maria. The Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Public Law 116–20) also provided \$10.5 million for transit systems affected by major declared disasters occurring in calendar year 2018.

For FY 2022, no resources are requested for this account.

PHMSA oversees the safe transportation of energy products and hazardous materials through pipelines. PHMSA's Pipeline Safety program regulates an expansive network of more than 2.8 million miles of gas and hazardous liquid pipelines within the United States, as well as facilities that liquefy natural gas and store natural gas underground. PHMSA establishes and enforces pipeline safety standards and conducts safety inspections in collaboration with State partners to monitor the construction and operating safety of pipelines. The Pipeline Safety program is funded by fees collected from pipeline and underground natural gas storage facility operators, as well as an annual allocation from the Oil Spill Liability Trust Fund.

PHMSA has multiple responsibilities to inspect, investigate failures, regulate, and research hazardous liquid pipelines. In addition, PHMSA collects and reviews oil spill response plans prepared under the Oil Pollution Act of 1990. Operators that store, handle, or transport oil are required to develop response plans to minimize the environmental impact of oil spills and improve incident response. PHMSA reviews these plans to make sure that they are submitted on time, updated regularly, and that they comply with regulations. PHMSA improves oil spill preparedness and incident response through data analysis, inspections, spill monitoring, pipeline mapping in areas unusually sensitive to environmental damage, and by advancing technologies to detect and prevent leaks from hazardous liquid pipelines. These activities are funded in part by the Oil Spill Liability Trust Fund.

The Maritime Security Program provides direct payments to U.S. flag ship operators engaged in foreign commerce to partially offset the higher operating costs of U.S. registry. The purpose of the program is to establish and sustain a fleet of active ships that are privately owned, commercially viable, and militarily useful to meet national defense and other emergency sealift requirements. Participating operators are required to make their ships and commercial transportation resources available upon request by the Secretary of Defense during times of war or national emergency. Commercial transportation resources include ships, logistics management services, port terminal facilities, and U.S. citizen merchant mariners to crew both commercial and Government-owned merchant ships. The program will also sustain a base of U.S. Merchant Mariners to support national security requirements during times of urgent need.

Trillions of dollars are accounted for and processed by the Department of the Treasury's information technology (IT) systems and therefore these systems are a constant target for sophisticated threat actors. The Cybersecurity Enhancement Account allows Treasury to more proactively and strategically protect Treasury systems against cybersecurity threats. The account supports Department-wide and Bureau-specific investments for critical IT improvements including the systems identified as High Value Assets. Furthermore, the centralization of funds allows Treasury to more nimbly respond in the event of a cybersecurity incident as well as leverage enterprise-wide services and capabilities across the components of the Department. The Budget includes an increase of \$114 million above base CEA resources to strengthen Treasury's cybersecurity posture and address the impacts of the SolarWinds incident.

The Office of Inspector General (OIG) conducts audits and investigations designed to promote integrity, efficiency, and effectiveness in programs and operations within the Department and across the OIG's jurisdiction, as well as to keep the Secretary and the Congress fully informed of problems and deficiencies in the administration of such programs and operations. The OIG conducts audits and investigations of Treasury programs and operations except those under jurisdictional oversight of the Treasury Inspector General for Tax Administration, the Special Inspector General for the Troubled Asset Relief Program, and the Special Inspector General for Pandemic Recovery. In addition, the Treasury Inspector General functions as Chair of the Council of Inspectors General on Financial Oversight. The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act tasked the OIG with oversight of all projects, programs, and operations of the Gulf Coast Restoration Trust Fund (Trust Fund), which extends to the Gulf Coast Ecosystem Restoration Council.

The Budget request for the OIG will be used to fund audit, investigative, and mission support activities to meet the requirements of the Inspector General Act, as well as other statutes relating to: 1) cyber threats; 2) Bank Secrecy Act, anti-money laundering, and anti-terrorist financing enforcement; 3) spending transparency and improper payments; and 4) administration of the Trust Fund. Specific mandates include audits of the Department's financial statements, compliance with FISMA, and actions in implementing cybersecurity information sharing. In its oversight of the Office of the Comptroller of the Currency, OIG conducts material loss reviews of failed national banks and trusts insured by the Federal Deposit Insurance Corporation. With resources available after mandated requirements are met, the OIG will conduct audits and reviews of the Department's highest risk programs and operations. The OIG will also respond to stakeholder requests.

The Office of Audit expects to complete 100 percent of statutory audits by the required deadline and to complete 82 audit products in 2022, as well as provide oversight, on a reimbursable basis, of the Small Business Lending Fund.

In 2022, the Office of Investigations will continue to investigate all reports of fraud, waste, abuse, and criminal activity affecting Treasury programs and operations. It will also continue proactive efforts to detect, investigate, and deter electronic crimes and other threats to Treasury's physical and IT critical infrastructure, and will continue current efforts to aggressively investigate, close, and refer cases for criminal prosecution, civil litigation, or corrective administrative action in a timely manner.

The Treasury Inspector General for Tax Administration (TIGTA), an independent office within the Department of the Treasury, was established by Congress under the Internal Revenue Service (IRS) Restructuring and Reform Act of 1998 (RRA 98). It provides oversight of IRS activities by conducting independent audits, investigations, and inspections and evaluations necessary to prevent and detect waste, fraud, and abuse in IRS programs and operations. TIGTA also identifies and recommends strategies to address IRS management challenges and implement the Department's priorities.

TIGTA's Office of Audit focuses on the major management and performance challenges confronting the IRS by prioritizing statutory audit coverage and audit work in high-risk tax administration areas. Statutory coverage includes audits mandated by RRA 98 and other statutory authorities involving computer security, taxpayer rights and privacy issues. Through its audit programs, TIGTA promotes efficiency and effectiveness in the administration of internal revenue laws. TIGTA is dedicated to the prevention and detection of fraud, waste, and abuse affecting tax administration.

TIGTA's Office of Investigations (OI) concentrates on three areas: 1) employee integrity; 2) employee and infrastructure security; and 3) external attempts to corrupt tax administration. OI's performance model uses a ratio of those investigations that have the greatest impact on IRS' operations and/or the protection of Federal tax administration to the total number of investigations conducted. Investigations in these areas protect IRS personnel, data, and facilities, as well as the public's confidence in the tax system.

TIGTA's Office of Inspections and Evaluations (I&E) identifies opportunities for improvements in IRS and TIGTA programs by performing inspections and evaluations that report timely, useful, and reliable information to decisionmakers and stakeholders. The oversight activities of I&E include inspecting the compliance of the IRS with established system controls and operating procedures, as well as evaluating the Agency's operations for high-risk systemic inefficiencies.

This account also supports the oversight of Economic Impact Payments and other fast and direct relief pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Division N of the Consolidated Appropriations Act, 2021, and the American Rescue Plan Act of 2021.

The Terrorism Risk Insurance Program Reauthorization Act of 2019 (P.L. 116–94) reauthorized and revised the program established by the Terrorism Risk Insurance Act of 2002 (TRIA) (P.L. 107–297). The 2019 Act extended the Terrorism Risk Insurance Program (TRIP) for seven years, through December 31, 2027. The Budget baseline includes the estimated Federal cost of providing payments in connection with terrorism risk insurance losses. There have been no prior payments under the Program. While the Budget does not forecast any specific payment triggering events, the Budget includes estimates representing the weighted average of payments over a full range of possible scenarios, most of which include no notional payment triggering events and some of which include notional triggering events of varying magnitude. Relying upon this methodology, the Budget baseline projects net spending associated with the current reauthorization period of \$47 million for 2022, \$359 million over the 2022–2026 period, and \$518 million over the 2022–2031 period. Mechanisms in TRIA result in Treasury's relative share of any covered losses decreasing over time as premiums

in the insurance market increase. The budget estimate reflects this projected decrease in Treasury's share.

The mission of the Treasury Forfeiture Fund (Fund) is to affirmatively influence the consistent and strategic use of asset forfeiture by law enforcement bureaus that participate in the Fund to disrupt and dismantle criminal enterprises. The Fund supports Federal, State, and local law enforcement's use of asset forfeiture to disrupt and deter criminal activity. Proceeds from non-tax forfeitures made by participating bureaus of the Department of the Treasury and the Department of Homeland Security are deposited into the Fund. Such proceeds are available to pay or reimburse certain costs and expenses related to seizures and forfeitures that occur pursuant to laws enforced by the bureaus and other expenses authorized by 31 U.S.C. 9705. Forfeiture proceeds can also be used to fund Federal law enforcement-related activities based on requests from Federal agencies and evaluation by the Secretary of the Treasury.

The Office of Financial Research (OFR) and the Financial Stability Oversight Council (Council), whose expenses are paid for out of the Financial Research Fund, were established under the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203).

The OFR was established to serve the Council, its member agencies, and other stakeholders by improving the quality, transparency, and accessibility of financial data and information, by conducting and sponsoring research related to financial stability, and by promoting best practices in risk management. The OFR is an office within the Department of the Treasury.

The Council is comprised of 10 voting members, including the heads of all Federal financial regulators, and five non-voting members. The Secretary of the Treasury serves as Chairperson of the Council. The Council's purpose

is to identify risks to the financial stability of the United States, promote market discipline, and respond to emerging threats to the stability of the U.S. financial system.

As required under Section 210(n)(10) of the Act, the Council's expenses also include reimbursement of certain reasonable expenses incurred by the Federal Deposit Insurance Corporation in implementing Orderly Liquidation Authority, provided by Title II of the Act.

The OFR and the Council were funded through transfers from the Board of Governors of the Federal Reserve System until July 20, 2012. Subsequently, the OFR and the Council have been funded through assessments on certain bank holding companies and nonbank financial companies supervised by the Board of Governors. Expenses of the Council are considered expenses of, and are paid by, the OFR. Projected fees and assessments are estimates and may change.

Individual Federal income tax returns include an optional Federal income tax designation of \$3 that an individual may elect to be paid to the Presidential Election Campaign Fund (PECF). In recent years, fewer than 5 percent of individuals have elected to make this designation, resulting in less than \$30 million being paid into the PECF annually.

The Department of the Treasury collects the income tax designations and makes distributions from the PECF to qualified presidential candidates and to the 10-Year Pediatric Research Initiative Fund. Money for the public funding of presidential election campaigns can only come from the PECF; if the PECF were to exhaust its fund balances, no other public funding could be used.

The Federal Election Commission administers the public funding program, determines which candidates are eligible, the amount to which they are entitled, and audits their use of the funds. Current uses of the PECF are provided below.

**Matching Funds for Presidential Primary Candidates.**—Upon certification by the Federal Election Commission and based on a demonstration of broad national support, adherence to spending limits, and other qualifications, every eligible presidential primary candidate is entitled to receive \$250 in Federal matching funds for the first eligible \$250 of private contributions received from an individual. The private contributions must be received after the beginning of the calendar year immediately preceding the election year through the end of the calendar year of the election. For the 2016 Presidential election, \$1,679,865 was paid out to two eligible candidates (\$1,544,965 in 2016 and \$134,900 in 2017). There were no funds paid to the candidates in the 2020 Presidential election.

**Candidates for General Elections.**—By statute, eligible candidates of each major party in a presidential election are entitled to equal payments in an amount that may not exceed \$20 million (adjusted for inflation since 1974) per party. In 2016, this amounted to \$96.1 million for each candidate, but neither major party candidate accepted general election funding. Again, in 2020, neither major party candidate accepted general election funding. Eligibility for this funding depends on meeting several criteria, such as agreeing to limit spending to amounts specified by campaign finance laws. In addition, candidates from new parties, minor parties, and non-major parties who receive in excess of 5 percent of the popular vote may be entitled to a pro rata portion of the major party amount in the general election.

**10-Year Pediatric Research Initiative Fund.**—On April 3, 2014, the Gabriella Miller Kids First Research Act (Public Law 113–94) was enacted. The Act established the 10-Year Pediatric Research Initiative Fund and directs that certain PECF moneys be transferred to that Fund. There was \$736,000 paid to the NIH from this fund in 2020. Amounts previously

transferred were intended to cover the years between elections and no funds will be transferred for FY 2021 and FY 2022.

Under the law creating the Exchange Stabilization Fund (ESF), section 10 of the Gold Reserve Act of 1934, as amended, codified at 31 U.S.C. 5302, the Secretary of the Treasury, with the approval of the President, is authorized to deal in gold, foreign exchange, and other instruments of credit and securities, as the Secretary considers necessary, consistent with U.S. obligations in the International Monetary Fund regarding orderly exchange arrangements and a stable system of exchange rates. All earnings and interest accruing to the ESF are available for the purposes thereof. U.S. holdings of Special Drawing Rights (SDRs) are credited to the account of, and administered as part of the fund. By law, the fund is not available to pay administrative expenses.

Since 1934, the principal sources of the fund's income have been earnings on investments held by the fund, including interest earned on fund holdings of U.S. Government securities. In the wake of the COVID-19 pandemic, Treasury used funds in the ESF to invest and provide other support to the Commercial Paper Funding Facility (CPFF) and the Money Market Mutual Fund Liquidity Facility (MMLF) in order to enhance liquidity and support American workers, households, and businesses. The investments in these two Federal Reserve facilities will be repaid in 2021, and the ESF may receive interest and other earnings from these transactions.

The amounts reflected in 2022 estimates entail only projected net interest earnings on ESF assets. The estimates are subject to considerable variance, depending on changes in the amount and composition of assets and the interest rates applied to investments. In addition, these estimates make no attempt to forecast gains or losses on SDR valuation or foreign currency valuation.

The CARES Act (P.L. 116–136) authorized the Department of the Treasury to make up to \$500 billion in loans and other investments in support of and to provide liquidity to eligible businesses, nonprofits, states, and municipalities impacted by the COVID-19 pandemic. This included investments in facilities established by the Board of Governors of the Federal Reserve System pursuant to Section 13(3) of the Federal Reserve Act to provide liquidity to the financial system. The CARES Act also authorized Treasury to use up to \$46 billion of these funds to make loans to passenger and cargo air carriers, certain other aviation businesses, and businesses critical to maintaining national security. As required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with these loans and investments, which are estimated on a present value basis. The Consolidated Appropriations Act, 2021 (P.L. 116–260) rescinded this authority, though any loans and investments already made will remain active until obligations are fully liquidated.

The Budget proposes legislation as part of the American Jobs Plan establishing a manufacturing financing facility to support increasing the size, competitiveness, and innovation of the U.S. manufacturing sector. The program will provide capital support including direct lending, loan guaran-

tees, and potentially public-private risk-sharing models. Investments under the facility will attract private capital where risk otherwise precludes sufficient private market participation and will target building of long-term sustainable, globally competitive manufacturing production.

The Special Inspector General for Pandemic Recovery (SIGPR) was established by Section 4018 of the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

SIGPR has the duty to conduct, supervise, and coordinate audits, evaluations, and investigations of the making, purchase, management, and sale of loans, loan guarantees, and other investments made by the Secretary of the Treasury under programs established by the Secretary, as authorized by Section 4018(c) of the CARES Act, and the management by the Secretary of programs, as authorized by Section 4018(c) of the CARES Act.

By express incorporation, SIGPR also has the duties, responsibilities, powers, and authorities granted inspectors general under the Inspector General Act of 1978, including broad subpoena authority.

The role and mission of SIGPR is to safeguard the peoples' tax dollars appropriated by Congress through the CARES Act. SIGPR strives to ensure that the American taxpayer gets the best return on investment by efficiently rooting out fraud, waste, and abuse. In carrying out its mission, SIGPR's goal is to treat everyone with respect, to operate with the utmost integrity, and to be fair, objective, and independent.

The CARES Act provided an initial appropriation of \$25 million to SIGPR derived from amounts made available under section 4027. The Budget proposes appropriations language to provide SIGPR an additional \$25 million from unobligated balances that remain available under section 4027. This funding is critical in ensuring that SIGPR's audit and investigative services have the necessary resources to protect the integrity of CARES Act funds.

The Community Development Financial Institutions (CDFI) Fund promotes economic and community development through investment in and assistance to CDFIs (including community development banks, credit unions, loan funds, and venture capital funds) to expand the availability of financial services and affordable credit for underserved populations and communities. The 2022 Budget provides funding for the CDFI Program, the Healthy Food Financing Initiative, the Native American CDFI Assistance Program, the Bank Enterprise Award Program, the Americorps CDFI Economic Mobility Corps, and the Small Dollar Loan Program.

The CDFI Fund's Bond Guarantee Program (BGP) was originally authorized in the Small Business Jobs Act of 2010 (P.L. 111-240) for a period of four years to provide a source of long-term capital in low-income and underserved communities. The Budget proposes an annual commitment authority of \$500 million.

The Consolidated Appropriations Act, 2021 (P. L. 116-260) provided \$3 billion to deliver immediate assistance to CDFIs in communities impacted by the COVID-19 pandemic. In the spring of 2021, the CDFI Fund plans to award \$1.25 billion of these funds through its newly established CDFI Rapid Response Program (CDFI RRP), which is designed to quickly deploy capital to CDFIs through a streamlined application and review process. Through the CDFI RRP, CDFIs will be provided with resources necessary to respond to the economic impacts of the COVID-19 pandemic in distressed and underserved communities and people.

To further assist distressed and underserved communities in responding to the economic impacts of the COVID19 pandemic, the CDFI Fund will also begin the process of making \$1.75 billion in funds available to support lending in minority communities and minority lending institutions through its Minority Lending Program (MLP) in 2022. Of these funds, \$1.2 billion is reserved for award to minority lending institutions, which are CDFIs that are designated as Minority Depository Institutions (MDIs) or meet other standards for accountability to minority populations as determined by the CDFI Fund; and, \$550 million will be awarded to CDFIs to expand their lending, grant making, or investment activity in low- or moderate-income minority communities and to minorities that have significant unmet capital or financial service needs.

The Emergency Capital Investment Program (ECIP) invests in either perpetual preferred equity or subordinated debt (with a maturity of fifteen years) issued by financial institutions consistent with ECIP's terms. Institutions eligible to participate must be: 1) Community Development Financial Institutions or Minority Depository Institutions; 2) insured depository institutions, bank or savings and loan holding companies, or federally-insured credit unions; and 3) supportive of low-and middle-income communities. Dividend yields or interest paid on ECIP securities decrease when institutions reach lending goals established at the time of their participation. Division N, Section 522 of the Consolidated Appropriations Act, 2021 (P.L. 116-260) established ECIP by amending the Community Development Banking and Financial Institutions Act of 1994 (12 U.S.C. 4701 et seq.) and provided \$9 billion for the program. Treasury issued an interim final rule for ECIP on March 9, 2021 and on March 22, 2021, the Board of Governors of the Federal Reserve System (FRB), Federal Deposit Insurance Corporation (FDIC) and the Office of the Comptroller of the Currency (OCC) jointly issued an interim final rule for securities issued under ECIP,

providing that preferred stock issued qualifies as additional tier 1 capital and subordinated debt qualifies as tier 2 capital under the FRB/FDIC/OCC capital rule.

The Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110-343) authorized the establishment of the Troubled Asset Relief Program (TARP) and the Office of Financial Stability (OFS) to purchase and insure certain types of troubled assets for the purpose of providing stability to and preventing disruption in the economy and financial system and protecting taxpayers. The Act gave the Secretary of the Treasury broad and flexible authority to purchase and insure mortgages and other troubled assets, as well as inject capital by taking limited equity positions, as needed to stabilize the financial markets. This account provides for the administrative costs of OFS, which oversees and manages TARP.

Treasury's Home Affordable Modification Program (HAMP) offered mortgage modifications to homeowners at risk of foreclosure under the authority of sections 101 and 109 of the Emergency Economic Stabilization Act of 2008, as amended (EESA) (P.L. 110–343). HAMP closed to new applications on December 30, 2016, but incentive payments continue to be made on modifications entered into on or before December 1, 2017. Additionally, the Hardest Hit Fund has allocated \$9.6 billion under EESA to State housing finance agencies in 18 States and the District of Columbia for foreclosure prevention programs. Funds under EESA also support a Federal Housing Administration (FHA) refinance program that helps homeowners refinance into a new FHA-insured loan if their existing mortgage holders agree to write down principal.

The mission of the Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) is to prevent and detect fraud, waste, and abuse in the more than \$442 billion in funds and programs from the Emergency Economic Stabilization Act of 2008 (EESA) (P.L. 110–343) and \$2 billion in funds from the Consolidated Appropriations Act of 2016, and to promote economy, efficiency, effectiveness, and accountability in these economic stability programs. SIGTARP received an initial appropriation of \$50 million in permanent, indefinite budget authority in EESA. The Public-Private Investment Program Improvement and Oversight Act of 2009 (12 U.S.C. 5231a) provided \$15 million in supplemental funding. Since 2010, SIGTARP has received annual appropriations to fund its operations. The FY 2022 Budget requests \$17 million, a reduction of 10.5 percent from the FY 2021 enacted level of \$19 million.

The Small Business Lending Fund (SBLF) was established by the Small Business Jobs Act of 2010 (P.L. 111–240) and is a dedicated investment fund that encourages lending to small businesses by providing capital to qualified community banks and community development loan funds (CDLFs). In total, the SBLF provided \$4.0 billion to 281 community banks and 51 CDLFs in 2011. As of March 1, 2021, 322 institutions with aggregate investments of \$3.9 billion have fully redeemed their SBLF investments and exited the program. For institutions that still participate in the program, CDLF securities expire by 2021. Community bank participants are generally expected to end their participation in 2021, although because Treasury holds perpetual preferred shares in these banks, they are not required to redeem.

The Social Impact Partnerships to Pay for Results Act (SIPPPRA) was included as part of the Bipartisan Budget Act of 2018 (P.L. 115–123). SIPPPRA created a ten-year \$100 million fund to support social impact partnership projects by State and local governments to support new and innovative ways to solve entrenched social problems. The program funds social programs at the State or local level that achieve demonstrable, measurable, and scalable results, by making payment of funds contingent on positive outcomes.

In 2008, under temporary authority granted by section 1117 of the Housing and Economic Recovery Act of 2008 (P.L. 110-289), Treasury entered into agreements with Fannie Mae and Freddie Mac (the GSEs) to purchase senior preferred stock of each GSE and to provide up to \$100 billion when needed to ensure that each company maintains a positive net worth. In May 2009, Treasury increased the Senior Preferred Stock Purchase Agreement (PSPA) funding commitment caps to \$200 billion for each GSE, and in December 2009 Treasury modified the funding commitment caps in the PSPAs to be the greater of \$200 billion or \$200 billion plus cumulative net worth deficits experienced during 2010-2012, less any surplus remaining as of December 31, 2012. Based on the financial results reported by each GSE as of December 31, 2012, and under the terms of the PSPAs, the combined cumulative funding commitment cap for Fannie Mae and Freddie Mac was set at \$445.5 billion. Treasury's authority to purchase obligations or other securities of the GSEs or to increase the funding commitment expired on December 31, 2009. Under the PSPAs, Treasury has maintained the solvency of the GSEs by providing \$191.5 billion of investment to the GSEs. For additional discussion of the GSEs, please see the *Analytical Perspectives* volume of the Budget.

Established by the Housing and Economic Recovery Act of 2008 (HERA) (P.L. 110-289), the Capital Magnet Fund (CMF) awards grants to CDFIs and qualified non-profit housing organizations to finance affordable housing activities, as well as related economic development activities and community service facilities. Organizations that receive Capital Magnet Fund awards are required to produce housing and community development investments at least ten times the size of the award amount. Funding is provided by the Government-Sponsored Enterprises, Fannie Mae and Freddie Mac, which are required to set aside an amount equal to 4.2 basis points of each dollar of the unpaid principal balance of their total new business purchases and to allocate and transfer those funds to CMF and the Housing Trust Fund.

The mission of the Fiscal Service is to promote the financial integrity and operational efficiency of the U.S. Government through exceptional accounting, financing, collections, payments, and shared services. The Fiscal Service engages in efforts to streamline the Government's audit processes, and to reduce intra-governmental accounting differences that stand in the way of a clean audit opinion on the Financial Report of the U.S. Government. The Fiscal Service has set ambitious goals for all-electronic transactions between the bureau, Federal agencies and the public to improve efficiency, security and enable the application of higher levels of automation, such as robotics and artificial intelligence. This account also supports the Economic Impact Payments and other fast and direct relief pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Division N of the Consolidated Appropriations Act, 2021, and the American Rescue Plan Act of 2021.

The Budget ensures the viability of the Government's National Financial Critical Infrastructure (NFCI) that finances Federal operations, collects revenue, disburses payments, and reports on the Government's financial position. Included in the Budget are resources to improve the accuracy and availability of financial information, implement new, innovative financial practices, strengthen the resiliency of our infrastructure, and enhance the customer value and experience. Because of Fiscal Service's central role in Government-wide financial operations, the Budget supports Treasury's

leadership in transforming Federal financial management to become more efficient, more accurate and deliver better service to citizens.

This account pays interest on the invested balances of guaranteed and direct loan financing accounts. For guaranteed loan financing accounts, balances result when the accounts receive up-front payments and fees to be held in reserve to make payments on defaults. Direct loan financing accounts normally borrow from Treasury to disburse loans and receive interest and principal payments and other payments from borrowers. Because direct loan financing accounts generally repay borrowing from Treasury at the end of the year, they can build up balances of payments received during the year. Interest on invested balances is paid to the financing accounts from the general fund of the Treasury, in accordance with section 505(c) of the Federal Credit Reform Act of 1990.

Funds are made available for cases in which the Federal Government is found by courts to be liable for payment of claims and interest for damages not chargeable to appropriations of individual agencies, and for payment of private and public relief acts. Public Law 95-26 authorized a permanent, indefinite appropriation to pay certain judgments from the general fund of the Treasury.

This account provides funds for the payment of interest on investments in Treasury securities that the Secretary of the Treasury has suspended or redeemed. The Secretary is permitted to take such action when Treasury is constrained by the statutory debt limit and must take extraordinary measures to avoid defaulting. Treasury is required to restore all due interest and principal to the respective investments.

The Bureau of Customs and Border Protection, Department of Homeland Security (CBP), collects duties assessed pursuant to a countervailing duty order, an antidumping duty order, or a finding under the Antidumping Act of 1921. Under a provision enacted in 2000 CBP, through the Treasury, distributes certain of these duties to affected domestic producers. These distributions provide an additional subsidy to producers that already gain protection from the increased import prices, including tariffs. The authority to distribute assessments on entries made after October 1, 2007, has been repealed. Assessments on entries made before October 1, 2007, will be disbursed as if the authority had not been repealed. Assessments collected on eligible entries are to be disbursed within 60 days of the end of the fiscal year in which they were collected.

This Fund was established as a permanent, indefinite appropriation in order to maintain adequate funding of the Check Forgery Insurance Fund. The Fund facilitates timely payments for replacement Treasury checks necessitated due to a claim of forgery. The Fund recoups disbursements through reclamations made against banks negotiating forged checks.

To reduce hardships sustained by payees of Government checks that have been stolen and forged, settlement is made in advance of the receipt of funds from the endorers of the checks. If the U.S. Treasury is unable to recover funds through reclamation procedures, the Fund sustains the loss.

Public Law 108-447 expanded the use of the Fund to include payments made via electronic funds transfer. A technical correction to the Fund's statutes to ensure and clarify that the Fund can be utilized as a funding source for relief of administrative disbursing errors was enacted by P.L. 110-161, Division D, section 119.

This schedule reflects the payments made to the Cheyenne River Sioux Tribe Terrestrial Wildlife Restoration Trust Fund and the Lower Brule Sioux Tribe Terrestrial Wildlife Restoration Trust Fund. Pursuant to section 604(b) of the Water Resources Development Act of 1999 (P.L. 106-53), after the funds were fully capitalized by deposits from the General Fund of the Treasury, interest earned became available to the Tribes to carry out the purposes of the funds. Full capitalization occurred in 2010; therefore no additional deposits will be provided by the General Fund of the Treasury. The Tribes are only able to draw down on interest earned investments.

The Federal Financing Bank (FFB) was created in 1973 to reduce the costs of certain Federal and federally-assisted borrowing and to ensure the coordination of such borrowing from the public in a manner least disruptive to private financial markets and institutions. Prior to that time, many agencies borrowed directly from the private market to finance credit programs involving lending to the public at higher rates than on comparable Treasury securities. With the implementation of the Federal Credit Reform Act of 1990 agencies finance such loan programs through direct loan financing accounts that borrow directly from the Treasury. The FFB finances these Federal direct loans to the public which are fully guaranteed by a Federal agency. FFB loans are also used to finance activities of the U.S. Postal Service.

Lending by the FFB may take one of three forms, depending on the authorizing statutes pertaining to a particular agency or program: 1) the FFB may purchase agency financial assets; 2) the FFB may acquire debt securities that the agency is otherwise authorized to issue to the public; and 3) the FFB may provide direct loans on behalf of an agency by disbursing loans directly to private borrowers and receiving repayments from the private borrower on behalf of the agency. Because the law requires that transactions by the FFB be treated as a means of financing agency obligations, the budgetary effect of the third type of transaction is reflected in the Budget in the following sequence: a loan by the FFB to the agency, a loan by the agency to a private borrower, a repayment by a private borrower to the agency, and a repayment by the agency to the FFB.

In 2020, FFB's net inflows were \$606 million. In addition to its authority to borrow from the Treasury (Fiscal Service), the FFB has the statutory authority to borrow up to \$15 billion from other sources. Any such borrowing is exempt from the statutory ceiling on Federal debt. The FFB used this authority most recently in October 2015.

The following tables show (1) the annual net lending by the FFB by agency and program and the amount outstanding at the end of each year and (2) principal repayments from the borrower in excess of principal repaid to the Fiscal Service each year.

The Bureau of Engraving and Printing (BEP) produces and delivers U.S. currency notes for the Federal Reserve System ordered by the Board of Governors of the Federal Reserve and other security products for the Federal Government. BEP began printing currency in 1862 and operates on the basis of authority conferred upon the Secretary of the Treasury by 31 U.S.C. 321(a) (4) to engrave and print currency and other security documents. Operations are financed through a revolving fund established in 1950 in accordance with Public Law 81-656. The fund is reimbursed for direct and indirect costs of operations, including administrative expenses, through product sales. In 1977, Public Law 95-81 authorized BEP to include an amount sufficient to fund capital investment and to meet working capital requirements in the prices charged for products, eliminating the need for appropriations from Congress. In 2019, Public Law 116-6 authorized the use of the revolving fund for acquisition of necessary land for, and construction of, a replacement currency production facility.

The Bureau has three strategic goals: to safely and timely deliver quality products to stakeholders in a cost-effective and environmentally responsible manner; to create innovative designs, processes, and products that exceed stakeholders' expectations and to achieve overall excellence by balanced investment in people, processes, facilities, and technology. Other activities at BEP include engraving plates and dies; manufacturing inks used to print security products; purchasing materials, supplies, equipment; and storing and delivering products in accordance with customer requirements. In addition, BEP provides technical assistance, advice, and production services to other Federal agencies in the development of security documents that require counterfeit deterrent features due to their innate value or other characteristics. BEP supports the Treasury goals to Boost U.S. Economic Growth and Achieve Operational Excellence.

BEP's 2022 priorities include: (1) constructing a more efficient production facility to replace the current aging Washington, D.C. facility; (2) expanding the Western Currency Facility to house the new equipment required for the next generation of currency design; (3) conducting research and development, and collaborating with key stakeholders in order to deter counterfeiting and maintain public trust in the security and reliability of U.S. currency notes; (4) retooling manufacturing processes with state-of-the-art intaglio printing presses, electronic inspection systems, and finishing equipment; (5) continuing efforts to implement designated talent manage-

ment initiatives while filling personnel gaps in needed STEM and cybersecurity skill sets. During 2022, BEP expects to produce and deliver 7.6 billion notes to the FRB to meet currency demand.

The United States Mint mints and issues circulating coins, produces and distributes numismatic items, and provides security and asset protection. Since 1996, the Mint's operations have been funded through the Public Enterprise Fund (PEF) established by section 522 of Public Law 104-52 (31 U.S.C. 5136). The operations of the Mint are divided into two major components, circulating coinage and numismatic products. Finances for the two components are accounted for separately; Receipts from circulating coinage operations are not used to fund numismatic operations and receipts from numismatic operations are not used to fund circulating coinage operations. The Mint generates revenue through the issuance of circulating coins to the Federal Reserve Banks (FRBs) and the sale of numismatic products to the public and bullion coins to authorized purchasers. The Mint submits annual audited financial statements to the Secretary of the Treasury and to the Congress in support of the operations of the PEF. In 2020, the Mint transferred \$40 million to the General Fund.

**Circulating Coinage.** This activity funds the minting and issuance of circulating coins to the FRBs in amounts that the Secretary of the Treasury determines are necessary to meet the needs of the United States. The 2022 Budget reflects production volumes that correspond to expected demand and raw materials costs, which are driven by commodity prices and volumes. The Mint receives funds from the Federal Reserve equal to the face value of the circulating coins shipped to the FRB. The Mint is credited with the full cost of producing and distributing the coins that are put into circulation, including the depreciation of manufacturing facilities and equipment. The difference between the face value of the coins and the full cost of producing the coins is called seigniorage, which is a means of financing the deficit and transferred periodically to the General Fund. The annual appropriations bill includes a statutory cap on Mint expenditures on circulating and protection capital investments. The cap for 2022 is \$50 million.

**Numismatic Items.** This activity funds the manufacturing of numismatic items, which include collectible coins and sets, medals, bullion coins, and other products for sale to collectors and other members of the public who desire high-quality or investment-grade versions of the Nation's coinage. These products include annual proof and uncirculated sets; investment-grade silver and gold bullion coins; uncirculated silver and gold coins; proof silver, gold, platinum and palladium coins; and commemorative coins and medals that are authorized to commemorate events, individuals, places, or other subjects. Prices for numismatic products are based on the estimated product cost plus a reasonable margin to assure that the numismatic program operates at no net cost to the taxpayer. Similarly, bullion coins are priced based on the market price of the precious metals plus a premium to cover

manufacturing, marketing, and distribution costs. Making numismatic products accessible, available, and affordable to Americans who choose to purchase them is the highest priority of the Mint's numismatic operations.

## INTERNAL REVENUE SERVICE

The Internal Revenue Service (IRS) collects the revenue that funds the Government and administers the Nation's tax laws. During 2020, the IRS processed 242 million tax forms and collected \$3.5 trillion in taxes (gross receipts before tax refunds), totaling 96 percent of Federal Government receipts. The IRS taxpayer service program assists millions of taxpayers in understanding and meeting their tax obligations. The IRS tax enforcement and compliance program deters taxpayers inclined to evade their responsibilities while pursuing those who violate tax laws.

The 2022 Budget provides \$13.2 billion for the IRS to administer the tax code and implement key strategic priorities. In addition, the Budget proposes to establish and fund a program integrity allocation adjustment in 2022 of \$417 million for program integrity activities. The activities through 2031 are estimated to generate and protect \$50 billion in revenue over 10 years and cost approximately \$7 billion resulting in an estimated net savings of \$43 billion. Once these investments are fully operational, these initiatives are expected to generate roughly \$8 in additional revenue for every \$1 in IRS expenses.

The IRS played a critical role in delivering and implementing three rounds of Economic Impact Payments in record time to eligible Americans and will begin implementation of the advance payments of the child tax credit enacted in the American Rescue Plan in 2021. It also implemented multiple tax changes including new employer tax credits to help employers respond to the COVID-19 pandemic and provided administrative relief to taxpayers including postponing the 2020 and 2021 tax deadlines and the IRS People First Initiative. The pandemic also significantly impacted the IRS's services and workforce. The IRS temporarily scaled back operations during the spring and summer, taking such steps as closing Taxpayer Assistance Centers, discontinuing face-to-face interactions with taxpayers, and sus-

pending telephone help lines. However, the IRS also implemented new ways to provide services to taxpayers, including increased online services and updating IRS.gov (which saw a 146 percent increase over 2019 levels).

**Taxpayer Service Account.** The Budget includes funding for Taxpayer Services that will allow the IRS to continue delivering services to taxpayers using a variety of in-person, telephone, and web-based methods. These tools help taxpayers understand their obligations, correctly file their returns, and pay taxes due in a timely manner with as little burden as possible. In fiscal year 2020, the IRS processed more than 145 million individual tax returns and issued more than 100 million federal tax refunds totaling more than \$276 billion.

**Enforcement Account.** The Enforcement account funds activities that protect revenue by identifying fraud and preventing issuance of questionable refunds including those related to identity theft; increase compliance by addressing offshore tax evasion; strengthen examination and collection programs, including return preparer; and address compliance issues in the tax-exempt sector. During 2020, the IRS achieved 1,187 criminal convictions with a conviction rate of 90.4 percent.

**Operations Support Account.** The Budget includes funding for the overall planning, direction, operations and critical infrastructure activities, including the IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the Nation's revenues, and the physical infrastructure of IRS facilities. For example, in 2020, the IRS reduced the percentage of aged hardware within the IT environment from 31 percent at the end of 2019 to 16 percent through refreshing employee workstations, upgrading aged server operating systems and related aged hardware, and phasing out old equipment.

**Business Systems Modernization Account.** IRS modernization efforts focus on building and deploying advanced information technology systems, processes, and tools to improve efficiency and enhance productivity. Modernizing is necessary to maintain the integrity of the Nation's voluntary tax system and collect trillions of dollars in tax revenue. With improved online services, taxpayers will be able to receive notifications, check their account balance, set up payment plans, and connect with an IRS representative through a single, online session. Other projects will help the IRS manage its caseload, increase productivity of its workforce, and ensure the security of taxpayer information.

This appropriation primarily funds staffing for: the examination of tax returns, both domestic and international; the administrative and judicial settlement of taxpayer appeals of examination findings; technical rulings;

monitoring employee pension plans; determining qualifications of organizations seeking tax-exempt status; examining the tax returns of exempt organizations; enforcing statutes relating to detection and investigation of criminal violations of the internal revenue laws and other financial crimes; identifying underreporting of tax obligations; securing unfiled tax returns; and collecting unpaid accounts. This appropriation provides resources for overall planning, direction, operations, and critical infrastructure activities for the IRS. These activities include IT and cybersecurity that keep tax systems running and protect taxpayer data, the financial management activities that ensure effective stewardship of the nation's revenues, and the physical infrastructure that help IRS employees serve customers in office, campus, and Taxpayer Assistance Center sites. Telecommunications, human resource, and communications infrastructure are also critical components of this appropriation and are vital to maintaining adequate levels of customer service and the post-filing processes necessary for the tax system to function. In addition to the base resources, the Budget proposes a \$129 million program integrity allocation adjustment to support additional tax enforcement and compliance activities.

The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1531, allows State and local governments to issue Build America Bonds through December 31, 2010. These tax credit bonds, which include Recovery Zone Bonds, differ from tax-exempt governmental obligation bonds in two principal ways: 1) interest paid on tax credit bonds is taxable;

and 2) a portion of the interest paid on tax credit bonds takes the form of a Federal tax credit. The bond issuer may elect to receive a direct payment in the amount of the tax credit for obligations issued before January 1, 2011. This account reflects the continuing interest payments over time.

The Earned Income Tax Credit (EITC) was enacted by the Tax Reduction Act of 1975 (Public Law 94–12) and made permanent by the Revenue Adjustment Act of 1978 (Public Law 95–600). The credit was subsequently modified by Public Laws 99–514, 101–508, 103–66, 107–16, 111–5, 111–312, 112–240, and 114–113. The amount of EITC a taxpayer may receive depends on the number of qualifying children the taxpayer has. The amount of EITC a taxpayer may receive initially increases as the taxpayer earns more income, then remains constant over a range of earned income, and then decreases as earned income increases further. The credit phases out based on the greater of (1) earned income and (2) adjusted gross income. As provided by law, there are instances where the EITC exceeds the amount of tax liability owed through the individual income tax system, resulting in an additional payment to the taxpayer.

Section 211 of the Consolidated Appropriations Act, 2021 (P.L. 116–260) and Sections 9621 through 9626 of the American Rescue Plan Act of 2021, Pub. Law No. 117–2, 135 Stat. 4 (Mar. 11, 2021) (American Rescue Plan) modified the EITC. For Tax Year 2021 only, the American Rescue Plan, generally, (i) reduced from 25 to 19 the minimum age to claim the EITC with no qualifying children (Childless EITC); (ii) eliminated the upper-age limit for the Childless EITC; (iii) increased the credit and phaseout percentages for the Childless EITC; and (iv) allowed individuals to use their earned income from Tax Year 2019 instead of their earned income from Tax Year

PAYMENT WHERE EARNED INCOME CREDIT EXCEEDS LIABILITY FOR TAX—Continued  
2021, if earned income from Tax Year 2021 is less, for purposes of calculating the EITC for Tax Year 2021. The American Rescue Plan also permanently modified the rules, beginning in 2021, regarding (i) children who fail to meet certain identification requirements, (ii) separated spouses, (iii) the disqualified investment income test, and (iv) the application of the EITC to the U.S. territories.

The Child Tax Credit (CTC) was enacted by the Taxpayer Relief Act of 1997 (P.L. 105–34). The CTC was subsequently modified by Public Laws 107–16, 111–5, 111–312, 112–240, and 114–113. The Tax Cuts and Jobs Act (TCJA, P.L. 115–97) increased the credit to \$2,000 per qualifying dependent child under age 17 for tax years 2018–2025. The CTC phases out for higher income taxpayers. Taxpayers with insufficient tax liability to claim the entire CTC may receive up to \$1,400 in a refundable credit, known as the Additional Child Tax Credit (ACTC). TCJA also provided that, in order to receive the CTC and/or ACTC, a taxpayer must include a Social Security Number for each qualifying child for whom the credit is claimed on the tax return.

In Sections 9611 and 9612 of the American Rescue Plan Act of 2021, P.L. No. 117–2, 135 Stat. 4 (Mar. 11, 2021) (American Rescue Plan) amended the Internal Revenue Code (Code) to modify the CTC for 2021 only. Section 9611 of the American Rescue Plan amended Section 24 of the Code to make the entire amount of the CTC refundable and extended

the CTC to cover children 17 years old and younger. The legislation also increased the amount of the CTC from \$2,000 to \$3,600 for children under age 6, and \$3,000 for other children under age 18. The amount of this increase in the CTC that is, the \$1,600 in the case of a qualifying child under age 6 and \$1,000 in the case of another qualifying children under age 18 is reduced by \$50 for each \$1,000 (or fraction thereof) by which the taxpayers modified adjusted gross income (MAGI) exceeds certain thresholds. These thresholds are (i) \$150,000 for joint filers and surviving spouses, (ii) \$112,500 for heads of household, and (iii) \$75,000 in all other cases. In addition, the American Rescue Plan amended the Code to require advance payments of the CTC to be made periodically throughout 2021, beginning after July 1, based on the taxpayers 2020 or 2019 tax returns, in an aggregate amount equal to 50 percent of the amount of the taxpayers refundable CTC. Section 9612 of the American Rescue Plan amended Section 24 of the Code to provide that bona fide residents of the U.S. territories also are eligible for the expanded refundable CTC for 2021.

The Health Coverage Tax Credit (HCTC) is a refundable tax credit that pays 72.5% of qualified health insurance premiums for eligible individuals and their families (as provided in IRC 35(a)). Those eligible include certain recipients of Trade Adjustment Assistance (TAA) and beneficiaries of the Pension Benefit Guaranty Corporation who are aged 55 through 64. Individuals cannot claim both HCTC and a premium tax credit for the same coverage. The credit can be paid in advance. The HCTC was created in the Trade Act of 2002 (P.L. 107–210), subsequently extended, temporarily eliminated in 2014 (P.L. 112–40, section 241), then later reinstated through December 31, 2019 (P.L. 114–27, section 407). The Further Consolidated Appropriations Act, 2020 (P.L. 116–94, section 146) extended the credit through December 31, 2020.

**Employee Retention Credit.**—Section 2301 of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act, P.L. 116–136) created the employee retention credit, a refundable tax credit against certain employment taxes equal to 50 percent of the qualified wages certain businesses and tax-exempt employers pay to employees (up to \$10,000 per employee) after March 12, 2020, and before January 1, 2021. Eligible employers could get immediate access to the credit by reducing employment tax deposits they were otherwise required to make or requesting an advance of the credit.

Section 206 of the Taxpayer Certainty and Disaster Tax Relief Act of 2020, enacted as Division EE of the Consolidated Appropriations Act, 2021 (P.L. 116–260) amended and made technical changes to section 2301 of the CARES Act retroactive to the section 2301's original effective date

## U.S. CORONAVIRUS REFUNDABLE CREDITS—Continued

including permitting an employer that received a Paycheck Protection Program (PPP) loan to be eligible to claim an employee retention credit under section 2301, provided the wages reported in support of the forgiveness of the PPP loan are not the same wages for which the credit is claimed.

Section 207 of the Taxpayer Certainty and Disaster Tax Relief Act of 2020 extended the employee retention credit to qualified wages paid after December 31, 2020 and before July 1, 2021; increased the maximum credit amount that may be claimed per employee (making it equal to 70 percent of \$10,000 of qualified wages paid to an employee per calendar quarter); limited eligibility for and amount of the credit advance; and expanded the category of employers that may be entitled to claim the credit, among other technical amendments.

Section 9651 of the American Rescue Plan (ARP) Act of 2021 (P.L. 117–2) extended the availability of the employee retention credit to wages paid after June 30, 2021, and before January 1, 2022. Section 3134 generally maintained the structure of the employee retention credit as provided under section 2301 of the CARES Act, as amended, with certain changes.

Employers in a U.S. Territory that otherwise qualify for the employee retention credit can claim the credit. Payments of wages by employers in U.S. Territories are wages within the meaning of section 3121(a) and therefore employers eligible to claim the credit include employers in the U.S. Territories that pay qualified wages and otherwise meet the requirements for the credit.

**Paid Leave Credits.**—Sections 7001 and 7003 of Division G of the Families First Coronavirus Response Act (FFCRA, P.L. 116–127) created refundable tax credits against certain employment taxes for small and midsize employers to reimburse them for the cost of providing required paid sick and family leave wages to their employees for leave related to COVID-19 as set forth under Division E, the Emergency Paid Sick Leave Act (EPSLA) and Division C, the Emergency Family and Medical Leave Expansion Act (Expanded FMLA) of the FFCRA. Sections 7002 and 7004 of the FFCRA created similar credits for certain self-employed persons in similar COVID-related circumstances. An employer is eligible for credits for qualified sick leave wages up to \$511 per day and \$5,110 in the aggregate (for up to 10 days of leave) and up to \$200 per day and \$10,000 in the aggregate (for up to 10 weeks of leave) for qualifying COVID-related leave reasons. Eligible employers could get immediate access to the credit by reducing employment tax deposits they are otherwise required to make or requesting an advance of the credit. The requirement to provide leave under the EPSLA and Expanded FMLA expired on December 31, 2020, but the credits for paid leave that otherwise would have satisfied the requirements under the EPSLA and Expanded FMLA were later extended through September 30, 2021.

Sections 286, 287 and 288 of the COVID-related Tax Relief Act of 2020, enacted under Division N of the Consolidated Appropriations Act, 2021 (P.L. 116–260) extended the credits for periods of leave from January 1, 2021, through March 31, 2021, and made certain technical improvements to the FFCRA credit provisions.

Section 9641 of the ARP extended the credits through the period from April 1, 2021 through September 30, 2021; expanded the category of employers eligible for the credit; reset the limitations on the amount of qualified wages that may be taken into account for purposes of the credits (and increased the aggregate cap for paid family leave wages from \$10,000 to \$12,000); expanded the category of qualifying reasons for paid leave wages eligible for the credits (including leave to receive and recover from a COVID-19 vaccine), and made other technical amendments. (Sections 9642 and 9643 of the ARPA amended and extended the equivalent tax credits for certain self-employed individuals for April 1, 2021, through September 30, 2021.)

Employers in a U.S. Territory that otherwise qualify for the paid leave credits can claim the credit. Payments of wages by employers in U.S. Territories are wages within the meaning of section 3121(a) and therefore employers eligible to claim the credit include employers in the U.S. Territ-

ories that pay qualified wages and otherwise meet the requirements for the credit.

**COBRA Credit.**—Section 9501 of the ARP required certain employers to offer free Consolidated Omnibus Budget Reconciliation Act (COBRA) coverage to certain qualified individuals for periods of coverage from April 1, 2021 through September 30, 2021. The ARP provided tax credits to employers to offset the cost of the COBRA coverage. The bill subsidized 100 percent of COBRA premiums for six months for individuals who lost employment or had reduced hours.

The Patient Protection and Affordable Care Act of 2010 (P.L. 111–148), section 1421, allows certain small employers (including small tax-exempt employers) to claim a credit when they pay at least half of the health care premiums for single health insurance coverage for their employees. Small employers can claim the credit for 2010 through 2013 and after that for the first two consecutive years of having coverage purchased through the small business health options program. Generally, employers that have fewer than 25 full-time equivalent employees and pay wages averaging less than \$50,000 per employee per year may qualify for the credit.

This account includes state innovation waiver pass-through payments in lieu of the Small Business Health Insurance Tax Credit to qualifying states under section 1332(a)(3) of the PPACA.

This account shows the outlays for the provision that allows certain businesses to accelerate the recognition of a portion of certain other credits in lieu of taking bonus depreciation. The Housing and Economic Recovery Act of 2008 (P.L. 110–289), section 3081, allowed certain businesses to accelerate the recognition of a portion of their unused pre–2006 alternative minimum tax (AMT) or research and development (R&D) credits in lieu of taking bonus depreciation. The maximum increase amount is capped at the lesser of \$30 million or 6 percent of eligible AMT and R&D credits. The accelerated credit amount is refundable. The American Recovery and Reinvestment Act of 2009 (P.L. 111–5), section 1201(b), extended this temporary benefit through 2009. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (P.L. 111–312), section 401(c), extended this temporary benefit through the end of 2012, but only with respect to AMT credits. The American Taxpayer Relief Act of 2012 (P.L. 112–240), section 331(c), extended this temporary benefit through 2013 only with respect to AMT credits. The Tax Increase Prevention Act, Title I—Certain Expiring Provisions (P.L. 113–295), section 125(c), extended this temporary benefit through 2014 only with respect to AMT credits. The Protecting Americans from Tax Hikes (PATH) Act of 2015 (P.L. 114–113), extended this provision through 2015. The PATH Act also extended and modified this provision for 2016 through 2019.

The Tax Cuts and Jobs Act (P.L. 115–97) (TCJA) repealed the corporate alternative minimum tax. To conform to this repeal, the election to accelerate AMT credits in lieu of taking bonus depreciation was repealed, effective for property placed in service after September 27, 2017. P.L. 115–97 allows prior year AMT credits to offset regular tax liability for any taxable year. In addition, AMT credits are refundable for any taxable year beginning after 2017 and before 2022 in an amount equal to 50 percent (100 percent in the case of taxable years beginning in 2021) of the excess of the minimum tax credit for the taxable year over the amount of the credit allowable for the year against regular tax liability. The refundable corporate minimum tax credit claimed under sections 53 and 168(k)(4) of title 26, U.S. Code as in effect for taxable years beginning before Jan. 1, 2018, is not direct spending under the Balanced Budget and Deficit Control Act, as amended, and thus is not subject to sequestration.

Section 9631(a) of the American Rescue Plan Act of 2021 (P. L. 117–2) (American Rescue Plan) amended Section 21 of the Internal Revenue Code (Code) to provide special rules for the Child and Dependent Care Tax Credit (CDCTC) solely for Tax Year 2021. Specifically, the American

Rescue Plan made the CDCTC fully refundable. In addition, the maximum credit rate of the CDCTC increased from 35 percent to 50 percent. The amount of expenses that are eligible for the CDCTC was increased from \$3,000 to \$8,000 for one qualifying dependent (from \$6,000 to \$16,000 for two or more qualifying dependents). The American Rescue Plan increased the phase-out threshold of the CDCTC from \$15,000 of AGI to \$125,000. The credit rate is phased down, but not below 20 percent, by 1 percentage point for each \$2,000 (or fraction thereof) by which the taxpayers adjusted gross income (AGI) exceeds this threshold. The American Rescue Plan further phased down the credit rate of 20 percent by 1 percentage point for each \$2,000 (or fraction thereof) by which the taxpayers AGI exceeds \$400,000. Section 9631(b) of the American Rescue Plan amended Section 21 of the Code to authorize payments to U.S. territories with mirror code tax systems and to U.S. territories with non-mirror code tax systems.

Section 9632(a) of the American Rescue Plan Act amended Section 129(a)(2) of the Code to increase, for Tax Year 2021 only, the maximum amount of employer-provided dependent care assistance that may be excluded from gross income. This increase doubles the generally applicable amounts that is, \$5,000 (or \$2,500 in the case of a married individual filing a separate return) such that an eligible employee for Tax Year 2021 can receive an exclusion of \$10,500 (or \$5,250 in the case of a married individual filing a separate return).

## CHILD AND DEPENDENT CARE TAX CREDIT

(Legislative proposal, not subject to PAYGO)

Individuals will not be able to claim both the Child and Dependent Care Tax Credit and participate in the new Child Care for American Families program for the same care. This interaction removes outlays already included in the Child Care for American Families score.

## CHILD AND DEPENDENT CARE TAX CREDIT

(Legislative proposal, subject to PAYGO)

The Budget proposes to extend permanently the changes to the Child and Dependent Care Tax Credit made by the American Rescue Plan Act of 2021, including the refundability of the credit and increases in the maximum credit rate and maximum amount of allowable expenses. Under the proposal, eligible taxpayers may claim a refundable credit for up to 50 percent of up to \$8,000 in eligible expenses for one child or disabled dependent and up to \$16,000 in eligible expenses for more than one child and/or disabled dependent. The credit rate is reduced for taxpayers with incomes above \$125,000.

The American Opportunity Tax Credit (AOTC) was enacted by the American Recovery and Reinvestment Act of 2009 (Public Law 111–5), was extended temporarily by Public Laws 111–312 and 112–240, and was made permanent by Public Law 114–113. A taxpayer may claim an AOTC of 100 percent of the first \$2,000 of qualified tuition, fees, and course materials paid by the taxpayer for each eligible student or dependent and 25 percent of the next \$2,000 of these qualifying expenses. Up to 40 percent of the otherwise eligible credit is refundable. The AOTC may be claimed only for the first four years of post-secondary education per student. The AOTC phases out for higher income taxpayers as the taxpayers income increases. As provided by law, there are instances where a taxpayer is entitled to a payment because the AOTC to which the taxpayer is entitled exceeds the amount of tax liability owed through the individual income tax system.

Under certain circumstances, as provided in 26 U.S.C. 6611, interest is paid on Internal Revenue collections that must be refunded. The Tax Equity and Fiscal Responsibility Act of 1982 (P.L. 97–248) provides for daily compounding of interest. Under the Tax Reform Act of 1986 (P.L. 99–514), interest paid on Internal Revenue collections will equal the Federal short-term rate plus three percentage points (two percentage points in the case of a corporation), with such rate to be adjusted quarterly.

The Patient Protection and Affordable Care Act (PPACA) of 2010 (P.L. 111–148) established the Premium Tax Credit. This credit is an advanceable, refundable tax credit designed to help eligible individuals and families with low or moderate income afford health insurance purchased through a Health Insurance Exchange, beginning in 2014. The credit can be paid in advance to the taxpayer's insurance company to lower the monthly premiums, or it can be claimed when a taxpayer files their income tax return for the year. If the credit is paid in advance, the taxpayer must reconcile the advance credit payments with the actual credit computed on the tax return, subject to certain caps.

This account includes state innovation waiver pass-through payments in lieu of the Premium Tax Credit to qualifying states under section 1332(a)(3) of the PPACA, as well as payments to states under the Basic Health Program established under section 1331 of PPACA.

The American Rescue Plan Act of 2021 (P.L. 117–2) increased the Premium Tax Credit in three ways. For 2021 and 2022, the legislation increased the Premium Tax Credit for currently eligible individuals and families, providing access to free plans for those earning 100 to 150 percent of the federal poverty level, and expanded eligibility to newly include individuals and families with income above 400 percent of the federal poverty level. The legislation also expanded eligibility in 2021 to individuals who receive unemployment insurance for any week in 2021. The legislation also eliminated the requirement for individuals to repay any excess advance payments of the Premium Tax Credit for 2020.

## REFUNDABLE PREMIUM TAX CREDIT

(Legislative proposal, subject to PAYGO)

This proposal will make permanent the premium tax credit expansion implemented in section 9661 of the American Rescue Plan. This proposal eliminates the premium contributions for taxpayers between 100 percent to 150 percent of the Federal poverty level; lowers the maximum household premium contribution for all eligible individuals and families; expands eligibility to taxpayers above 400 percent of the Federal Poverty level and limits their premium contribution to 8.5 percent of income; and eliminates the indexing of the premium contribution percentages.

This account reflects the funds that the IRS is allowed to retain and expend for qualified tax collection contracts with private collection agents and the special compliance personnel program. The American Jobs Creation Act of 2004 (P.L. 108-357) allowed the IRS to use private collection contractors to supplement its own collection staff efforts to ensure that all taxpayers pay what they owe. The statute authorized the Treasury to retain and use an amount not in excess of 25 percent of the amount collected under any qualified tax collection contract for payments to private collection agents, and an amount not in excess of 25 percent of the amount collected for enforcement activities of the IRS (26 USC 6306). The IRS used this authority to contract with several private debt collection agencies starting in 2006. In March 2009, the IRS allowed its private debt collection contracts to expire, thereby administratively terminating the program in accordance with Omnibus Appropriations Act, 2009 Administrative Provisions - Internal Revenue Service, Section 106 (P.L. 111-8). This provision stated that none of the funds made available in this Act maybe used to enter into, renew, extend, administer, implement, enforce, or provide oversight of any qualified tax collection contract as defined in section 6306 of the Internal Revenue Code of 1986.

Section 32102(a) of the Fixing America's Surface Transportation Act of 2015 (P.L. 114-94), amended section 6306 of the Internal Revenue Code (IRC) and requires the Secretary of the Treasury to enter into one or more qualified tax collection contracts for the collection of all outstanding inactive tax receivables. These agreements are applicable to tax receivables as identified by the Secretary after December 4, 2015. Section 6306 of the

IRC prohibits the payment of fees for all services in excess of 25 percent of the amount collected under a tax collection contract for payments to private collection agents. In addition, up to 25 percent of the amount collected may be used to fund the special compliance personnel program account under section 6307.

Inactive tax receivables, as redefined by the Taxpayer First Act (P.L. 116-25), are defined as any tax receivable: 1) removed from the active inventory for lack of resources or inability to locate the taxpayer; 2) for which more than two years has passed since assessment and no IRS employee has been assigned to collect the receivable; or 3) for which a receivable has been assigned for collection but more than 365 days have passed without interaction with the taxpayer or a third party for purposes of furthering the collection. Tax receivables are defined as any outstanding assessment that the IRS includes in potentially collectible inventory. The Taxpayer First Act also made certain receivables of individual taxpayers ineligible for collection, including taxpayers whose income substantially consists of disability insurance benefits or supplemental security income benefits or whose adjusted gross income does not exceed 200 percent of the applicable federal poverty level.

As provided by law (26 U.S.C. 7623), the Secretary of the Treasury may make payments to individuals who provide information that leads to the collection of Internal Revenue taxes. The Taxpayer Bill of Rights of 1996 (P.L. 104–168) provides for payments of such sums to individuals from the proceeds of amounts collected by reason of the information provided, and any amount collected shall be available for such payments. This information must lead to the detection of underpayments of taxes, or detection and bringing to trial and punishment of persons guilty of violating the Internal Revenue laws. This provision was further amended by the Tax Relief and Health Care Act of 2006 (P.L. 109–432) to provide for mandatory payments in certain circumstances and to encourage use of the program. A reward payment typically ranges between 15 and 30 percent of the collected proceeds for cases where the amount of collected proceeds exceeds \$2 million. Lower payments are allowed in certain circumstances, including cases in which information is provided that was already available from another source. Section 41108 of the Bipartisan Budget Act of 2018 (P.L. 115–123) expanded the definition of proceeds to include proceeds arising from the laws for which the Internal Revenue Service is authorized to administer, enforce or investigate. Section 41108 further provides that the expanded definition of proceeds shall be used to determine eligibility for a mandatory award under section 7623(b)(5) and states that the amount of proceeds are to be determined without regard to whether such proceeds are available to the Secretary.

The Office of the Comptroller of the Currency (OCC) was created by Congress to charter national banks; oversee a nationwide system of banking institutions; and ensure national banks are safe and sound, competitive and profitable, and capable of serving in the best possible manner the banking needs of their customers. The National Currency Act of 1863 (12 U.S.C. 1 et seq., 12 Stat. 665), rewritten and reenacted as the National Bank Act of 1864, provided for the chartering and supervising functions of the OCC. Income of the OCC is derived principally from assessments paid by national banks and interest on investments in U.S. Government securities. The OCC receives no appropriated funds from Congress.

As of September 30, 2020, the OCC supervised 821 national bank charters, 53 Federal branches of foreign banks, and 284 Federal savings associations. In total, the OCC supervises approximately \$14.1 trillion in financial institution assets.

At September 30, 2020, the net position of the OCC was \$1,574.7 million. The OCC allocates a significant portion of the net position to its financial reserves to cover undelivered orders and capital investments. Financial reserves are integral to the effective stewardship of the OCCs resources, and the OCC has a disciplined process for reviewing its reserve balances and allocating funds appropriately to support its ability to accomplish the agency's mission. The OCCs financial reserves are available to reduce the impact on the OCCs operations in the event of a significant fluctuation in revenues or expenses. In 2018, the OCC established a new receivership contingency fund of \$86.6 million within its financial reserves to facilitate the conduct of receiverships of uninsured federal branches or agencies of a foreign banking organization. In 2017, the OCC established a contingency of \$100 million within its reserves to act as receiver of those national trust banks which are not FDIC-insured.

**Medical Care.**—In 2022, the Administration requests an additional \$3.3 billion over the 2022 advance appropriation of \$94.2 billion for the Department of Veterans Affairs (VA) Medical Care programs, consisting of four appropriations: Medical Services, Medical Community Care, Medical Support and Compliance, and Medical Facilities. Each year, VA updates its budget estimates to incorporate the most recent data on healthcare utilization rates, actual program experience, and other factors, such as economic trends in unemployment and inflation. As a result of these updates, the adjusted budget estimates more accurately reflect the projected medical demands of veterans enrolled in the VA healthcare system.

In 2022, the Budget makes robust investments in VA Medical Care programs, including: \$2.1 billion for veterans' homelessness programs; \$542 million for veteran suicide prevention initiatives; and over \$500 million to begin implementing new and recently expanded healthcare programs for

veterans. The Budget also includes \$621 million for VA's Opioid Prevention and Treatment programs, including programs in support of the Jason Simcakoski Memorial and Promise Act.

For 2023, the Budget requests \$111.3 billion in advance appropriations for VA Medical Care. This request for advance appropriations fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

With the resources requested for 2022 and 2023, VA will provide the highest quality healthcare services for veterans. VA estimates it will treat 7.1 million patients in 2022 and 7.1 million patients in 2023. Operation Enduring Freedom, Operation Iraqi Freedom, and Operation New Dawn (OEF/OIF/OND) veterans are expected to be 1,236,559 in 2022 (17.5 percent of the total) and 1,303,055 in 2023 (18.3 percent of the total).

**Medical Care Collections Fund (MCCF).**—VA estimates collections of nearly \$3.0 billion in 2021 and \$4.1 billion in 2022, representing about three percent of available Medical Care resources in 2021 and four percent of available Medical Care resources in 2022. VA has the authority to collect inpatient and outpatient co-payments, medication co-payments, and nursing home co-payments; authority for certain income verification; authority to recover third-party insurance payments from veterans for nonservice-connected conditions; and authority to collect revenue from enhanced use leases. These collections also include those collected from the Compensated Work Therapy Program, Compensation and Living Expenses Program, and the Parking Program.

**Medical Services.**—For Medical Services, the Budget reflects the following discretionary appropriation funding: the 2021 advance appropriation of \$56.2 billion, together with an annual appropriation of \$497.5 million and a \$100 million rescission of unobligated balances included in the Consolidated Appropriations Act, 2021 (Public Law 116-260); the 2022 enacted advance appropriation of \$58.9 billion; and the 2023 advance appropriation request of \$70.3 billion. This appropriation provides for the component of VA's comprehensive, integrated healthcare delivery system that addresses the needs of eligible veterans and beneficiaries in VA facilities.

## WORKLOAD

Estimated obligations and workload for seven categories of healthcare services are shown below: outpatient care, inpatient care, mental healthcare, long term services and supports, prosthetics care, dental care, and rehabilitation care. In 2022, the Budget includes \$260 million to support the President's American Families Plan. With a growing population of women veterans and younger veterans, the Department of Veterans Affairs (VA) is committed to providing additional support to veterans who are parents in order to offer a holistic, family-friendly approach to care. The proposal would place a Family Coordinator at each medical center, an expert in resources for children and families who would provide additional referrals, supports, and connections for veteran parents.

The Medical Community Care appropriation provides funding for community care services to eligible veterans and other beneficiaries, which has been an essential part of the Department of Veterans Affairs (VA) healthcare system for decades.

The Budget reflects the following discretionary appropriation funding from 2021 through 2023: the 2021 advance appropriation of \$17.1 billion, together with an annual appropriation of \$1.4 billion included in the Consolidated Appropriations Act, 2021 (Public Law 116-260); the 2022 enacted

advance appropriation of \$20.1 billion, together with an annual appropriation request of \$3.3 billion; and the 2023 advance appropriation request of \$24.2 billion.

The 2023 request for advance appropriation fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

Section 8004 of the American Rescue Plan Act of 2021 (P.L. 117-2) provided \$250 million in 2021 for a one-time only obligation and expenditure to existing State extended care facilities for veterans in proportion to each State's share of the total resident capacity in such facilities as of the date of enactment of this Act. Capacity includes only veterans on whose behalf the Department pays a per diem payment pursuant to section 1741 or 1745 of title 38, United States Code. The period of availability is from the date of the enactment of the Act, March 11, 2021, through September 30, 2022.

Prior to FY 2019, VA recorded obligations for Community Care at the time the care was authorized by a VA healthcare provider. In FY 2019, VA started recording obligations for Community Care at the time VA issued payment to healthcare providers and to third-party administrators. In September 2020, to comply with a VA General Counsel (OGC) opinion following significant changes to VA's Community Care program, VA reverted to its old practice of recording obligations at the time of authorization and recorded obligations of \$5,008 million in FY 2020 in the Medical Community Care account. VA lacked sufficient funds within the account to cover the full obligations recorded in FY 2020 consistent with VA OGC's opinion. Section 1601 of division FF of the Consolidated Appropriations Act, 2021 (Public Law 116-260) authorized the practice of recording obligations at the time of approval of payment to healthcare providers and contractors, and also made it retroactive to October 1, 2018, thereby voiding an Antideficiency Act (ADA) violation that would have occurred in FY 2020 absent its enactment. To implement the law, VA made an accounting adjustment in FY 2021, the year Public Law 116-260 was enacted.

Medical Support and Compliance finances the expenses of management, security, and administration of the Department of Veterans Affairs (VA) healthcare system through the operation of VA medical centers, other facilities, Veterans Integrated Service Network offices and facility director offices, chief of staff operations, quality of care oversight, legal services, billing and coding activities, procurement, financial management, and human resource management.

For Medical Support and Compliance, the Budget reflects the following discretionary appropriation funding from 2021 through 2023: the 2021 advance appropriation of \$7.9 billion, together with an annual appropriation of \$300 million and a \$15 million rescission of unobligated balances included in the Consolidated Appropriations Act, 2021 (Public Law 116–260); the 2022 enacted advance appropriation of \$8.4 billion; and the 2023 advance appropriation request of \$9.7 billion.

The 2023 advance appropriation request continues the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

The purpose of the Department of Defense-Veterans Affairs Health Care Sharing Incentive Fund, often referred to as the Joint Incentive Fund (JIF), is to enable the Departments to carry out a program to identify and provide incentives to implement creative sharing initiatives at the facility, intra-regional and nationwide levels. The JIF promotes collaboration and new approaches to problem solving to enable the Departments to improve the coordination of health care services. The Departments have established the fund and developed processes and criteria to solicit and select projects. Section 721 of the National Defense Authorization Act for Fiscal Year 2003, Public Law 107-314, established the fund and requires the Departments to establish a joint incentive program. In 2022, each Secretary shall contribute a minimum of \$15 million to the fund after the appropriation is enacted.

Medical Facilities provides for the operations and maintenance of the capital infrastructure required to provide healthcare to the Nation's veterans. These costs include utilities, engineering, capital planning, leases, laundry services, grounds maintenance, trash removal, housekeeping, fire protection, pest management, facility repair and maintenance, and property disposition and acquisition.

For Medical Facilities, the Budget reflects the following discretionary appropriation funding from 2021 through 2023: the 2021 advance appropriation of \$6.4 billion and annual appropriation of \$150 million; the 2022 enacted advance appropriation of \$6.7 billion and the 2023 advance appropriation request of \$7.1 billion.

The 2023 advance appropriation request fulfills the Administration's commitment to provide reliable and timely resources to support the delivery of accessible and high-quality medical services for veterans.

For 2022, the total budgetary resources of over \$2.2 billion is comprised of \$882 million in direct appropriations, \$749.7 million in medical care support such as physicians' pay, utilities and other overhead, \$540 million in Federal grants and other non-Federal resources, and \$61 million in reimbursements. The Department of Veterans Affairs (VA) research program will support 3,585 full time equivalents through direct appropriations and reimbursable resources. These combined resources will support approximately 2,563 research projects.

This account is an intramural research program with outstanding success leading to critical clinical achievements that improve the health and quality of life for veterans and the Nation. As a health research program focused exclusively on the needs of veterans, VA research continues to play a vital role in the care and rehabilitation of our men and women who have served in uniform. Building on more than 90 years of discovery and innovation engaging veterans as research volunteers, VA research has a proud track record of transforming VA healthcare by bringing new evidence-based treatments and technologies into everyday clinical care. The 2022 request is the largest year-over-year increase in recent history for medical and prosthetic research. This historic investment advances VA's research mission, including critical studies to understand the impact of traumatic brain injury and toxic exposure on long-term health outcomes, while continuing to prioritize research focused on the needs of disabled veterans.

The Department of Veterans Affairs has the authority to collect co-payments, which are deposited into the Medical Care Collections Fund (MCCF) account. As allowed by the provisions of the appropriations Act, these receipts are transferred to Medical Services, Medical Community Care, and the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund (Joint Demonstration Fund) where they remain available until expended for the purposes of the account. In 2022, VA anticipates collecting \$4.1 billion in the MCCF account, which will be transferred to Medical Services, Medical Community Care, and the Joint Demonstration Fund to provide healthcare to veterans. These collections consist of co-payments from veterans for inpatient, outpatient, and nursing home care, and prescribed medications; third-party insurance payments from veterans for nonservice-connected conditions; and collections from enhanced-use leases, the Compensated Work Therapy Program, Compensation and Living Expensed Program, and the Parking Program.

Section 8007 of the American Rescue Plan Act of 2021 directed the Department of Veterans Affairs to provide for any copayment or other cost sharing with respect to healthcare, and reimburse any veteran who paid a copayment or other cost sharing related to healthcare, during the period beginning on April 6, 2020, and ending on September 30, 2021. The Department was appropriated \$1 billion, to remain available until expended, to carry out this section. Of that amount, VA estimates \$300 million will be executed from the MCCF account and used to reimburse veterans who paid a copayment or other cost sharing during the specified period. The remaining \$700 million will be used to supplement VA Medical Centers for lost collections revenue and will be executed from the Medical Services and Medical Community Care accounts.

The Veterans Access, Choice, and Accountability Act of 2014 ("Veterans Choice Act"), Public Law 113-146, provided \$10 billion in mandatory funding to establish a temporary program ("Veterans Choice Program") improving veterans' access to health care by allowing eligible veterans who

met certain wait time or distance standards to use eligible healthcare providers outside the Department of Veterans Affairs (VA) system. The law directed that this funding be deposited in the Veterans Choice Fund. In July 2015, the Congress passed Public Law 114-41, the Surface Transportation and Veterans Health Care Choice Improvement Act of 2015, which gave VA temporary authority, ending October 1, 2015, to use a certain level of Veterans Choice Fund dollars for pharmaceutical expenses related to treatment of Hepatitis C and for Care in the Community.

Public Law 115-26 amended the Veterans Choice Act to eliminate the original August 7, 2017, sunset date for the Veterans Choice Program and allowed the program to operate until all of the funds in the Veterans Choice Fund were expended.

Public Law 115-46, the VA Choice and Quality Employment Act of 2017, provided \$2.1 billion in mandatory funding for the Veterans Choice Fund, to remain available until expended. In 2018, Public Law 115-96 provided \$2.1 billion more in mandatory funding, to remain available until expended; and Public Law 115-182, the MISSION Act, provided an additional \$5.2 billion in mandatory funding, to remain available without fiscal year limitation. The MISSION Act provided VA with flexibility, beginning on March 1, 2019, to use Veterans Choice Fund dollars for community care. In addition, the MISSION Act sunset the Choice Program in June 2019 and established the new Veterans Community Care Program. The Further Consolidated Appropriations Act, 2020 (Public Law 116-94) transferred \$615 million from the FY 2020 start of year unobligated balances in the Veterans Choice Fund account to the Medical Community Care account.

Prior to FY 2019, VA recorded obligations for Community Care at the time the care was authorized by a VA healthcare provider. In FY 2019, VA started recording obligations for Community Care at the time VA issued payment to healthcare providers and to third-party administrators. In September 2020, to comply with a VA General Counsel (OGC) opinion following significant changes to VA's Community Care program, VA reverted to its old practice of recording obligations at the time of authorization and adjusted obligations upwards by \$397 million in the Veterans Choice Fund account. VA lacked sufficient funds within the account to cover the full obligations recorded consistent with VA OGC's opinion. Section 1601 of division FF of the Consolidated Appropriations Act, 2021 (Public Law 116-260) authorized the practice of recording obligations at the time of approval of payment to healthcare providers and contractors, and also made it retroactive to October 1, 2018, thereby voiding an Antideficiency Act (ADA) violation that would have occurred in FY 2019 absent its enactment. To implement the law, VA made an accounting adjustment in FY 2021, the year Public Law 116-260 was enacted.

This fund consists of gifts, bequests, and proceeds from the sale of property left in the care of the facilities by former beneficiaries; patients' fund balances; and proceeds from the sale of effects of beneficiaries who die leaving no heirs or without having otherwise disposed of their estate. Such funds are used to promote the comfort and welfare of veterans at hospitals, nursing homes, and domiciliaries where no general appropriation is available. Public Law 102-54 authorizes compensation work therapy and therapeutic transitional housing and loan programs to be funded from the General Post Fund (38 U.S.C. chapters 83 and 85).

For 2023, the Budget requests \$147,569,474,000 in advance appropriations for Compensation and Pensions. This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113–235) and prevents our Nation's veterans from being adversely affected by budget delays.

This appropriation provides for the payment of compensation, pension, and burial benefits to veterans and survivors.

Compensation is paid to veterans for disabilities incurred in or aggravated during active military service. Dependency and Indemnity Compensation is paid to survivors of servicepersons or veterans whose death occurred while on active duty or as a result of service-connected disabilities. Compensation and vocational rehabilitation is provided to the children of Vietnam veterans who were born with certain birth defects. The Secretary may pay a clothing allowance to each veteran who uses a prescribed medication for a service-connected skin condition or wears a prosthetic or orthopedic appliance (including a wheelchair) which, in the judgment of the Secretary, tends to damage or tear the clothing of such veteran.

Miscellaneous benefits provided for are:

(a) payments for claims made pursuant to the provision of the World War Adjusted Compensation Act of 1924, as amended;

(b) a special allowance (38 U.S.C. 1312) to dependents of certain veterans who died after December 31, 1956, but who were not fully and currently insured under the Social Security Act; and

(c) payments authorized by the Equal Access to Justice Act.

The appropriation also provides for a program to allow the Department of Veterans Affairs (VA) to perform income matches for certain compensation recipients.

In accordance with Public Law 97–377, the Reinstated Entitlement Program for Survivors (REPS) program restores Social Security benefits to certain surviving spouses or children of veterans who died of service-connected causes.

Legislation is proposed to provide a cost-of-living adjustment comparable to the annual Social Security increase to recipients of disability compensation, dependency and indemnity compensation, and clothing allowances. The increase, effective with payments made on January 1, 2022, is expected to be 2.3 percent.

Pension benefits may be paid to veterans or their survivors. A veteran's entitlement is based on active duty service of a specific length (normally 90 days or more) during a designated war period, disabilities considered permanent and total, and countable income below established levels. There is no disability requirement for survivor cases or veterans age 65 or older. Income support is provided at established benefit levels.

An automatic annual cost-of-living increase comparable to the annual social security increase is provided for those pensioners in the improved program and to parents receiving dependency and indemnity compensation. The increase, effective with payments made on January 1, 2022, is expected to be 2.3 percent.

For 2023, the Budget requests \$8,906,851,000 in advance appropriations for Readjustment Benefits. This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113–235) and prevents our Nation's veterans from being adversely affected by budget delays.

This appropriation finances educational assistance allowances for certain servicemembers, veterans, and for eligible dependents of those: (a) veterans who died from service-connected causes or have a total and permanent rated service-connected disability; and (b) servicemembers who were captured or missing in action. In addition, certain disabled veterans are provided with vocational rehabilitation, specially adapted housing grants, and automobile grants with the associated approved adaptive equipment. Voluntary contributions by eligible servicemembers and matching contributions provided by the Department of Defense are included in the Post-Vietnam Era Veterans Education Account.

*The Post-9/11 GI Bill (Chapter 33).*—P.L. 110–252 greatly expanded education benefits beginning on August 1, 2009. Based on length of active duty service and training rate, trainees may be entitled to benefits including: tuition and fees, housing allowance, books and supplies stipend, kickers, and Yellow Ribbon matching payments. Certain active duty members of the Armed Forces may transfer benefits to a spouse or children.

*Survivors and Dependents Educational Assistance (Chapter 35).*—Benefits are provided to children and spouses of veterans who died of a service-connected disability or whose service-connected disability is rated permanent and total. In addition, dependents of servicemembers missing in action or interred by a hostile foreign government for more than 90 days are also eligible. The table below provides a comparison of trainees and costs for the Dependents Educational Assistance.

*All volunteer force educational assistance (Montgomery GI Bill).*—P.L. 98–525, enacted October 19, 1984, established two new educational programs: an assistance program for veterans who enter active duty during the period beginning July 1, 1985; and an assistance program for certain members of the Selected Reserve. P.L. 108–375 established a program to provide educational assistance to members of the reserve components called or ordered to active service in response to a war or national emergency declared by the President or the Congress, in recognition of the sacrifices that those members make in answering the call to duty. The Readjustment Benefit appropriation pays the basic benefit allowance for veterans, except for certain Post-Vietnam Era Veterans Education participants who transferred to the Montgomery GI Bill program. Supplementary educational assistance, Post-Vietnam Era Veterans Education converters, reservists, and the National Call to Service Program are financed by payments from the Department of Defense. Due to P.L. 116–315, the Montgomery GI Bill will be phased out starting in 2030.

*Veteran Employment Through Technology Education Courses (VET TEC).*—P.L. 115–48 established a high technology pilot program to provide eligible Veterans who are entitled to educational assistance under chapter

30, 32, 33, 34, or 35 of title 38, United States Code, or chapter 1606 or 1607 of title 10, United States Code, with the opportunity to enroll in high technology programs of education that VA determines provide training and skills sought by employers in a relevant field or industry.

The following table shows a caseload and cost comparison for these beneficiaries under existing legislation.

*Veteran Readiness and Employment (Chapter 31).*—Servicemembers and veterans with service-connected disabilities receive the assistance necessary to help them prepare for, obtain, and maintain suitable employment. Comprehensive assessments may include interest and aptitude testing as well as specialized assessments such as functional capacity examinations. During the training phase of the program, eligible servicemembers and veterans are provided assistance for necessary training such as tuition, fees, books and supplies at colleges, technical schools and other training programs. A veteran enrolled in training receives a monthly subsistence allowance. Eligible veterans may also receive specialized or adaptive equipment to help them overcome a disability or enable them to compete with non-disabled individuals. At the completion of training, veterans are provided with employment and placement services, including supplies and equipment needed to enter employment, adaptive equipment and workplace accommodations, incentives to employers to reimburse them for hiring and training veterans with disabilities, and two final months of subsistence allowance.

**Specially Adapted Housing Assistive Technology Grants.**—Under the Veterans Benefits Act of 2010 (P.L. 111–275), VA may provide grants of up to \$200,000 per fiscal year to individuals or entities for the development of specially adapted housing assistive technologies and limits to \$1 million the authorized amount available for such grants VA may award in any fiscal year.

**Automobile Grants and Adaptive Equipment.**—Certain disabled veterans are provided with automobile grants with the associated approved adaptive equipment. An allowance is provided to certain service-disabled veterans and servicemembers toward the purchase price of an automobile. The maximum allowance increased to \$21,795.57 in 2021 and will continue to increase based on the CPI-U. Adaptive equipment and the maintenance and replacement of such equipment is also provided.

**Tuition Assistance.**—Public Law 106–398, enacted October 30, 2000, allows the military services to pay up to 100 percent of tuition and expenses charged by a school for servicemembers. If a service department pays less than 100 percent, a servicemember eligible for the Montgomery GI Bill Active-duty (MGIB) or the Post-9/11 GI Bill (Chapter 33) can elect to receive VA benefits for all or a portion of the remaining expenses. Public Law 108–454 established a program that provides availability of education benefits for payment for national admissions exams and national exams for credit at institutions of higher education.

**The National Exams.**—The benefit allows VA to reimburse for the fee charged for national tests for admission to institutions of higher learning and national tests providing an opportunity for course credit at institutions of higher learning.

**Licensing and Certification Test Payments.**—Under Public Law 106–419, veterans and other eligible persons may receive up to \$2,000 to pay fees required for civilian occupational licensing and certification examinations needed to enter, maintain, or advance in employment in a vocation or profession, effective March 1, 2001.

**National Call to Service.**—The 2003 National Defense Authorization Act directs the Department of Defense to offer an active duty enlistment option of 15 months plus training time to facilitate interest in National Service. Program participants will be given the opportunity to select one of the following incentives: a \$5,000 enlistment bonus, repayment of student loans up to \$18,000, or one of two education allowances.

**Work-Study.**—Certain veterans, reservists, and dependents pursuing a program of rehabilitation, education or training, who are enrolled as full-time students, can work up to 250 hours per semester, receiving the Federal (\$7.25 as of July 24, 2009) or State minimum wage rate, whichever is higher.

**Payments to States.**—State approving agencies are reimbursed for the costs of inspecting, approving, and supervising programs of education and training offered by educational institutions and training establishments in which veterans, dependents, and reservists are enrolled or are about to enter.

**Reporting Fees.**—Reporting fees are paid to education and training institutions to help defray the costs of certifying education enrollment for veterans enrolled in training during a calendar year.

For 2023, the Budget requests \$109,865,000 in advance appropriations for Veterans Insurance and Indemnities (VI&I). This request satisfies the requirement created by the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113–235) and prevents our Nation's veterans from being adversely affected by budget delays.

*Note.*—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

The insurance business line administers six life insurance programs, including two trust funds, two public enterprise funds, a trust revolving fund, and Veterans' Mortgage Life Insurance (VMLI); and supervises four additional programs for the benefit of servicepersons, veterans, and their beneficiaries through contracts with a commercial company. All programs are operated on a commercial basis, to the extent possible, consistent with all applicable statutes. The insurance appropriation is the supplemental funding mechanism for the following Government life insurance activities: National Service Life Insurance (NSLI); Service-Disabled Veterans Insurance Fund (S-DVI); and VMLI.

*National Service Life Insurance (NSLI).*—Payments are made to the NSLI fund for certain World War II veterans for: (a) extra hazards of service; (b) gratuitous insurance granted to certain persons unable to apply for NSLI; and (c) death claims on policies under the waiver of a premium while the insured was on active duty.

*Payment to Service-Disabled Veterans Insurance Fund (S-DVI).*—Payments are made to the S-DVI fund to supplement the premiums and other receipts of the fund in amounts necessary to pay claims on insurance policies issued to veterans with service-connected disabilities.

*Veterans' Mortgage Life Insurance (VMLI).*—Payments are made to mortgage holders under this program, which provides mortgage protection life insurance to veterans who have received a grant for specially adapted housing due to severe disabilities. The trend in the number and amount of insurance policies in force appears in the following table.

Payments were subsequently authorized by the Congress in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5). Original funding of \$198,000,000 was supplemented by a transfer of \$67,000,000 authorized by Public Law 111–212 that remains available until expended. Payments to citizens of the United States are \$15,000. Payments to non-U.S. citizens are \$9,000.

The Insurance Act of 1951 established the Service-Disabled Veterans Insurance (S-DVI) program for veterans with service-connected disabilities. S-DVI is open to veterans who separated from the service on or after April 25, 1951. This fund finances the payment of claims on existing life insurance policies and remains open for new issues at standard rates to veterans having service-connected disabilities.

## SERVICE-DISABLED VETERANS INSURANCE FUND—Continued

**Financing.**—Operations are financed from premiums and other receipts. Additional funds are received by transfer from the Veterans Insurance and Indemnities appropriation, instead of direct appropriations to this fund.

**Operating results and financial condition.**—Since premium and other receipts are insufficient to cover operations, the fund continues to project liabilities in excess of assets. The deficit is expected to reach an estimated \$1,452 million by September 30, 2021. The expected deficit is financed by additional funds from the above-mentioned Veterans Insurance and Indemnities appropriations.

## Budget program:

**Death claims.**—Represents payments to designated beneficiaries.

**Dividends.**—Policyholders participate in the distribution of annual dividends.

**All other.**—This represents resources for the administrative costs of processing claims and maintaining the accounts, and to those policyholders who: (a) surrender their policies for cash value; (b) hold endowment policies which have matured; and (c) have purchased total disability income coverage and subsequently become disabled.

**Policy loans made.**—A policyholder may borrow up to 94 percent of the cash value of his policy at an interest rate adjusted to reflect private sector borrowing costs.

This fund finances the payment of group life insurance premiums to private insurance companies under the Servicemembers' Group Life Insurance (SGLI) Act of 1965, as amended. SGLI is a program for servicemembers on active duty, ready reservists, members of the National Guard, members of the Commissioned Corps of the National Oceanic and Atmospheric Administration and the Public Health Service, cadets and midshipmen of the four service academies, and members of the Reserve Officer Training Corps. SGLI coverage is available in \$50,000 increments up to the maximum of \$400,000. Veterans' Group Life Insurance (VGLI) is a program of post-separation insurance which allows servicemembers to convert their SGLI coverage to renewable term insurance. Family Servicemembers' Group Life Insurance (FSGLI) is a program extended to the spouses and dependent children of members insured under the SGLI program. FSGLI provides up to a maximum of \$100,000 of insurance coverage for spouses, not to exceed the amount of SGLI the insured member has in force, and \$10,000 of free coverage for dependent children. Spousal coverage is issued in increments of \$10,000.

The Servicemembers' Group Life Insurance Traumatic Injury Protection Program (TSGLI) became effective December 1, 2005. TSGLI provides for payment between \$25,000 and \$100,000 (depending on the type of injury) to any member of the uniformed services covered by SGLI who sustains a traumatic injury that results in certain serious losses.

*Veterans Affairs (VA) Housing Program Account.*—The housing program helps eligible veterans, active duty personnel, surviving spouses, and members of the Reserves and National Guard purchase, retain, and adapt homes in recognition of their service to the Nation. When a borrower purchases a home, the program operates by substituting the Federal Government's guaranty for a down payment that might otherwise be required.

Under 38 U.S.C. 3703, the guaranty amount for a borrower with full entitlement (first-time users of the program or users whose entitlement is fully restored) is as follows:

- (a) 50 percent for loans of \$45,000 or less;
- (b) \$22,500 for loans greater than \$45,000, but no more than \$56,250;
- (c) the lesser of \$36,000 or 40 percent of the loan amount for loans greater than \$56,250, but not more than \$144,000; or
- (d) 25 percent of the loan amount for loans of \$144,001 or greater.

This appropriation provides for the corporate leadership and operational support to VA's Housing business line. The Housing Program facilitates the extension of private capital, on more liberal terms than generally available to nonveterans, to assist veterans and servicemembers in obtaining housing credit, and assist veterans in retaining their homes during periods of temporary economic difficulty through intensive supplemental mortgage loan servicing.

*Guaranteed transitional housing loans for homeless veterans.*—Established as a pilot project by the Veterans Benefits Improvement Act of 1998 (Public Law 105–368), this program does not require any new loan subsidy funding. The program has originated no new loans since 2009. The program was canceled in 2012. The existing loan will continue to be serviced within the program's financing account.

This program began as a pilot in 1993 and was made permanent on June 15, 2006, through Public Law 109–233.

The Vocational Rehabilitation Loan Program provides temporary loans to cover the costs of subsistence, tuition, books, supplies, and equipment in conjunction with service-connected disability benefits provided to veterans participating in the Department of Veterans Affairs' Veteran Readiness and Employment Program as authorized by chapter 31 of title 38, United States Code. This fund was established in 1940. It is for the World War II servicemembers' and veterans' insurance program. Over 22 million policies were issued under this program. Activity of the fund reflects a declining claim workload. The trend in the number and amount of policies in force is shown as follows:

## POLICIES AND INSURANCE IN FORCE

	2020 actual	2021 est.	2022 est.
Number of policies .....	122,845	92,565	68,195
Insurance in force (dollars in millions) .....	\$1,565	\$1,171	\$840

This fund is operated on a commercial basis to the extent possible. The income of the fund is derived from premium receipts, interest on investments, and payments which are made to the fund from the Veterans Insurance and Indemnities appropriation.

Assets of the fund, which are largely invested in special interest-bearing Treasury securities and in policy loans, are expected to decrease from an estimated \$1,527 million as of September 30, 2021 to \$1,129 million as of September 30, 2022. The actuarial estimate of policy obligations as of September 30, 2022, totals \$1,067 million, leaving a balance of \$62 million for contingency reserves.

*Note.*—Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund was established in 1919 to receive premiums and pay claims on insurance issued under the provisions of the War Risk Insurance Act. The general decline in the activity of the fund is indicated in the following table:

## POLICIES AND INSURANCE IN FORCE

	2020 actual	2021 est.	2022 est.
Number of policies .....	4	0	0
Insurance in force (dollars in millions) .....	\$0.014	\$0	\$0

The fund is operated on a commercial basis to the extent possible. The income of the fund is derived from interest on investments. Effective

January 1, 1983, premiums were discontinued because reserves held in the fund were adequate to meet future liabilities of the program.

Assets of the fund, which are largely invested in interest-bearing securities and policy loans, are estimated to decrease from \$1.4 million as of September 30, 2021, to \$1.2 million as of September 30, 2022, as an increasing number of policies mature through death or disability. The actuarial evaluation of policy obligations as of September 30, 2022, totals \$0.8 million, leaving a balance of \$0.4 million for contingency reserves.

The mission of the Board of Veterans' Appeals (Board or BVA), as set forth in 38 U.S.C. 7101(a) is to conduct hearings and consider and dispose of appeals properly before the Board in a timely manner. The Board's goal is to issue quality decisions in compliance with the requirements of the law, including the precedential decisions of the United States Court of Appeals for Veterans Claims and other federal courts. The Board makes final decisions on behalf of the Secretary on appeals from decisions of the agencies of original jurisdiction with the Department of Veterans Affairs offices. The Board reviews all appeals for entitlement to veterans' benefits, including claims for service connection, increased disability ratings, total disability ratings, pension, insurance benefits, educational benefits, home loan guaranties, vocational rehabilitation, dependency and indemnity compensation, memorial benefits, and healthcare delivery. The Veterans Appeals Improvement and Modernization Act of 2017, enacted on August 23, 2017, became effective on February 19, 2019. This law reformed the current appeals process and replaced it with a new, simpler process that
