The Information Technology (IT) Systems appropriation funds IT services such as systems development and performance, operations and maintenance, information security, and customer support. This appropriation enables the effective and efficient delivery of services to the Nation's largest healthcare network, as well as the veterans benefits and corporate business lines within the Department of Veterans Affairs (VA).

**Development.**—The Office of Information & Technology invests in projects designed to improve the delivery of VA services and benefits for veterans and their families. This account also supports improvements in the Community Care Program, modernizations to veterans benefits and appeals processing, as well as the divestiture of legacy IT systems.

**Operations and Maintenance.**—The Office of Information & Technology purchases, maintains, manages, and supports all the computer, phone, telecommunication, and data systems equipment and infrastructure for all VA facilities.

The Veterans Electronic Health Care Record appropriation funds necessary expenses related to the development and deployment of a new veterans electronic health record (EHR) system. This new EHR will allow the Department of Veterans Affairs (VA) to move toward a single common health record that has full integration between the Department of Defense and VA, as well as community providers. From the veteran perspective, the

new system will provide a single, accurate, lifetime health record while improving patient care and safety.

The mission of the National Cemetery Administration is to honor veterans with final resting places in national shrines and with lasting tributes that commemorate their service to our Nation. The National Cemetery Administration's vision is to serve all veterans and their families with the utmost dignity, respect, and compassion. Every national cemetery will be a place that inspires visitors to understand and appreciate the service and sacrifice of our Nation's veterans. There are a number of related programs managed by the National Cemetery Administration including: 1) burying eligible veterans and their family members in national cemeteries and maintaining the graves and their environs as national shrines; 2) administering grants to States and Tribal organizations in establishing, expanding, improving, or operating veterans cemeteries; 3) providing headstones and markers for the graves of eligible veterans; 4) providing medallions commemorating the veterans' service that may be affixed to the privately purchased headstones or markers for veterans interred in private cemeteries; 5) providing presidential memorial certificates to family and friends of deceased veterans, recognizing the veterans' contribution and service to the Nation; 6) providing graveliners or partial reimbursement for a privately purchased outer burial receptacle for each new grave in open national cemeteries administered by the National Cemetery Administration; 7) providing reimbursement caskets and urns for veterans' remains when there are no next of kin and insufficient resources; and 8) recording First Notice of Veteran Deaths into the Department of Veterans Affairs electronic files to ensure timely termination of benefits and next-of-kin notification of possible entitlement to survivor benefits.

The National Cemetery Administration also reflects budget information for the National Cemetery Gift Fund and the National Cemetery Administration Facilities Operation Fund. Through the Gift Fund, the Secretary is

authorized to accept gifts and bequests which are made for the purpose of beautifying national cemeteries or are determined to be beneficial to such cemeteries.

Under the provisions of 38 U.S.C. 8121, the Supply Fund is responsible for the operation and maintenance of a supply system for the Department of Veterans Affairs (VA). In this capacity, it provides policy and oversight to VA's acquisition and logistics programs, and provides best value acquisition of goods and services through its National Acquisition Center, Denver Acquisition and Logistics Center, Service and Distribution Center, Technology Acquisition Center and Strategic Acquisition Center. Operating as an intra-governmental revolving fund without fiscal year limitations, the Supply Fund is financed by revenue from fees on acquisitions of supplies, equipment, and services for both VA and other Government agency customers.

The Department of Veterans Affairs (VA) Franchise Fund was established under the authority of the Government Management Reform Act of 1994 and the VA and Housing and Urban Development and Independent Agencies Act of 1997. VA was selected by the Office of Management and Budget in 1996 as one of the six executive branch agencies to establish a franchise fund pilot program. Created as a revolving fund, the VA Franchise Fund began providing common administrative support services to the VA and other Government agencies in 1997 on a fee-for-service basis. In 2006, under the Military Quality of Life and Veterans Affairs Appropriations Act (Public Law 109-114), permanent status was conferred upon the VA Franchise Fund. The Franchise Fund concept is intended to increase competition for Government administrative services, resulting in lower costs and higher quality.

The Consolidated Appropriations Act of 2016 (Public Law 114–113) authorized the Recurring Expenses Transformational Fund (Transformational Fund). Unobligated balances of expired discretionary funds appropriated in 2016 or any succeeding fiscal year from the General Fund of the Treasury to the Department of Veterans Affairs may be transferred to the Transformational Fund at the end of the fifth fiscal year after the last fiscal year for which such funds are available for the purposes for which appropriated. Balances available in the Transformational Fund shall be available until expended for facilities infrastructure improvements, including nonrecurring maintenance, at existing hospitals and clinics of the Veterans Health Administration, and for information technology systems improvements and sustainment. The 2022 Budget anticipates a transfer of \$820 million in unobligated balances into the Transformational Fund at the end of FY 2021, of which \$670 million will be obligated in FY 2022 for information technology systems improvements and sustainment and \$150 million will be obligated in FY 2022 for minor construction projects that improve Veterans Health Administration facilities infrastructure.

[SEC. 228. The Secretary of Veterans Affairs shall provide on a quarterly basis to the Committees on Appropriations of both Houses of Congress notification of

any single national outreach and awareness marketing campaign in which obligations exceed \$1,000,000.]

(INCLUDING TRANSFER OF FUNDS)

SEC. [229]223. The Secretary of Veterans Affairs, upon determination that such action is necessary to address needs of the Veterans Health Administration, may transfer to the "Medical Services" account any discretionary appropriations made available for fiscal year [2021]2022 in this title (except appropriations made to the "General Operating Expenses, Veterans Benefits Administration" account) or any discretionary unobligated balances within the Department of Veterans Affairs, including those appropriated for fiscal year [2021]2022, that were provided in advance by appropriations Acts: *Provided*, That transfers shall be made only with the approval of the Office of Management and Budget: *Provided further*, That the transfer authority provided in this section is in addition to any other transfer authority provided by law: *Provided further*, That no amounts may be transferred from amounts that were designated by Congress as an emergency requirement pursuant to a concurrent resolution on the budget or the Balanced Budget and Emergency Deficit Control Act of 1985: *Provided further*, That such authority to transfer may not be used unless for higher priority items, based on emergent healthcare requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: *Provided further*, That, upon determination that all or part of the funds transferred from an appropriation are not necessary, such amounts may be transferred back to that appropriation and shall be available for the same purposes as originally appropriated: *Provided further*, That before a transfer may take place, the Secretary of Veterans Affairs shall [request from] *submit notice thereof* to the Committees on Appropriations of both Houses of Congress [the authority to make the transfer and receive approval of that request].

(INCLUDING TRANSFER OF FUNDS)

SEC. [230]224. Amounts made available for the Department of Veterans Affairs for fiscal year [2021]2022, under the "Board of Veterans Appeals" and the "General Operating Expenses, Veterans Benefits Administration" accounts may be transferred between such accounts: *Provided*, That before a transfer may take place, the Secretary of Veterans Affairs shall [request from] *submit notice thereof* to the Committees on Appropriations of both Houses of Congress [the authority to make the transfer and receive approval of that request].

SEC. [231]225. The Secretary of Veterans Affairs may not reprogram funds among major construction projects or programs if such instance of reprogramming will exceed \$7,000,000, unless [such reprogramming is approved by] the *Secretary of Veterans Affairs submits notice thereof* to the Committees on Appropriations of both Houses of Congress.

SEC. 232. (a) The Secretary of Veterans Affairs shall ensure that the toll-free suicide hotline under section 1720F(h) of title 38, United States Code—

- (1) provides to individuals who contact the hotline immediate assistance from a trained professional; and
- (2) adheres to all requirements of the American Association of Suicidology.

(b)

- (1) None of the funds made available by this Act may be used to enforce or otherwise carry out any Executive action that prohibits the Secretary of Veterans Affairs from appointing an individual to occupy a vacant civil service position, or establishing a new civil service position, at the Department of Veterans Affairs with respect to such a position relating to the hotline specified in subsection (a).

(2) In this subsection—

- (A) the term "civil service" has the meaning given such term in section 2101(1) of title 5, United States Code; and
- (B) the term "Executive action" includes—
  - (i) any Executive order, presidential memorandum, or other action by the President; and
  - (ii) any agency policy, order, or other directive.

(c)

- (1) The Secretary of Veterans Affairs shall conduct a study on the effectiveness of the hotline specified in subsection (a) during the 5-year period beginning on January 1, 2016, based on an analysis of national suicide data and data collected from such hotline.

(2)

At a minimum, the study required by paragraph (1) shall—

- (A) determine the number of veterans who contact the hotline specified in subsection (a) and who receive follow up services from the hotline or mental health services from the Department of Veterans Affairs thereafter;
- (B) determine the number of veterans who contact the hotline who are not referred to, or do not continue receiving, mental health care who commit suicide; and
- (C) determine the number of veterans described in subparagraph (A) who commit or attempt suicide.]

SEC. 233. Effective during the period beginning on October 1, 2018 and ending on January 1, 2024, none of the funds made available to the Secretary of Veterans Affairs by this or any other Act may be obligated or expended in contravention of the "Veterans Health Administration Clinical Preventive Services Guidance Statement on the Veterans Health Administration's Screening for Breast Cancer Guidance" published on May 10, 2017, as issued by the Veterans Health Administration National Center for Health Promotion and Disease Prevention.]

SEC. [234]226. (a) Notwithstanding any other provision of law, the amounts appropriated or otherwise made available to the Department of Veterans Affairs for the "Medical Services" account may be used to provide—

- (1) fertility counseling and treatment using assisted reproductive technology to a covered veteran or the spouse of a covered veteran; or
- (2) adoption reimbursement to a covered veteran.

(b) In this section:

- (1) The term "service-connected" has the meaning given such term in section 101 of title 38, United States Code.
- (2) The term "covered veteran" means a veteran, as such term is defined in section 101 of title 38, United States Code, who has a service-connected disability that results in the inability of the veteran to procreate without the use of fertility treatment.

(3) The term "assisted reproductive technology" means benefits relating to reproductive assistance provided to a member of the Armed Forces who incurs a serious injury or illness on active duty pursuant to section 1074(c)(4)(A) of title 10, United States Code, as described in the memorandum on the subject of "Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured (Category II or III) Active Duty Service Members" issued by the Assistant Secretary of Defense for Health Affairs on April 3, 2012, and the guidance issued to implement such policy, including any limitations on the amount of such benefits available to such a member except that—

- (A) the time periods regarding embryo cryopreservation and storage set forth in part III(G) and in part IV(H) of such memorandum shall not apply; and
- (B) such term includes embryo cryopreservation and storage without limitation on the duration of such cryopreservation and storage.

(4) The term "adoption reimbursement" means reimbursement for the adoption-related expenses for an adoption that is finalized after the date of the enactment of this Act under the same terms as apply under the adoption reimbursement program of the Department of Defense, as authorized in Department of Defense Instruction 1341.09, including the reimbursement limits and requirements set forth in such instruction.

(b)

(1) The Secretary of Veterans Affairs may approve the conduct of research commencing on or after October 1, 2019, using canines, felines, or non-human primates if the Secretary determines that—

(A) the scientific objectives of the research can only be met by using such canines, felines, or non-human primates;

(B) such scientific objectives are directly related to an illness or injury that is combat-related; and

(C) the research is consistent with the revised Department of Veterans Affairs canine research policy document dated December 15, 2017, including any subsequent revisions to such document.

(2) The Secretary may not delegate the authority under this subsection.

(c) If the Secretary approves any new research pursuant to subsection (b), not later than 30 days before the commencement of such research, the Secretary shall submit to the Committees on Appropriations of the Senate and House of Representatives a report describing—

(1) the nature of the research to be conducted using canines, felines, or non-human primates;

(2) the date on which the Secretary approved the research;

(3) the justification for the determination of the Secretary that the scientific objectives of such research could only be met using canines, felines, or non-human primates;

(4) the frequency and duration of such research; and

(5) the protocols in place to ensure the necessity, safety, and efficacy of the research; and

(d) Not later than 180 days after the date of the enactment of this Act, and biannually thereafter, the Secretary shall submit to such Committees a report describing—

(1) any research being conducted by the Department of Veterans Affairs using canines, felines, or non-human primates as of the date of the submittal of the report;

(2) the circumstances under which such research was conducted using canines, felines, or non-human primates;

(3) the justification for using canines, felines, or non-human primates to conduct such research; and

(4) the protocols in place to ensure the necessity, safety, and efficacy of such research.

(e) Not later than December 31, 2021, the Secretary shall submit to such Committees an updated plan under which the Secretary will eliminate or reduce the research conducted using canines, felines, or non-human primates by not later than 5 years after the date of enactment of Public Law 116–94.

**SEC. 248.** (a) The Secretary of Veterans Affairs may use amounts appropriated or otherwise made available in this title to ensure that the ratio of veterans to full-time employment equivalents within any program of rehabilitation conducted under chapter 31 of title 38, United States Code, does not exceed 125 veterans to one full-time employment equivalent.

(b)

Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the programs of rehabilitation conducted under chapter 31 of title 38, United States Code, including—

(1) an assessment of the veteran-to-staff ratio for each such program; and

(2) recommendations for such action as the Secretary considers necessary to reduce the veteran-to-staff ratio for each such program. ]

**SEC. 249.** None of the funds made available by this Act may be used by the Secretary of Veterans Affairs to close the community based outpatient clinic located in Bainbridge, New York, until the Secretary of Veterans Affairs submits to the Committees on Appropriations of the House of Representatives and the Senate a market area assessment. ]

[250]234.** Amounts made available for the "Veterans Health Administration, Medical Community Care" account in this or any other Act for fiscal years [2021]2022 and [2022]2023 may be used for expenses that would otherwise be payable from the Veterans Choice Fund established by section 802 of the Veterans Access, Choice, and Accountability Act, as amended (38 U.S.C. 1701 note).

**SEC. [251]235.** Obligations and expenditures applicable to the "Medical Services" account in fiscal years 2017 through 2019 for aid to state homes (as authorized by section 1741 of title 38, United States Code) shall remain in the "Medical Community Care" account for such fiscal years.

**SEC. 252.** Of the amounts made available for the Department of Veterans Affairs for fiscal year 2021, in this or any other Act, under the "Veterans Health Administration—Medical Services", "Veterans Health Administration—Medical Community Care", "Veterans Health Administration—Medical Support and Compliance", and "Veterans Health Administration—Medical Facilities" accounts, \$660,691,000 shall be made available for gender-specific care for women. ]

**SEC. 253.** (a) **PLAN REQUIRED.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall submit to the appropriate committees of Congress a plan to reduce the chances that clinical mistakes by employees of the Department of Veterans Affairs will result in adverse events that require institutional or clinical disclosures and to prevent any unnecessary hardship for patients and families impacted by such adverse events.

(b) **ELEMENTS.**—The plan required by subsection (a) shall include the following:

(1) A description of a process for the timely identification of individuals impacted by disclosures described in subsection (a) and the process for contacting those individuals or their next of kin.

(2) A description of procedures for expediting any remedial or follow-up care required for those individuals.

(3) A detailed outline of proposed changes to the process of the Department for clinical quality checks and oversight.

(4) A communication plan to ensure all facilities of the Department are made aware of any requirements updated pursuant to the plan.

(5) A timeline detailing the implementation of the plan.

(6) An identification of the senior executive of the Department responsible for ensuring compliance with the plan.

(7) An identification of potential impacts of the plan on timely diagnoses for patients.

(8) An identification of the processes and procedures for employees of the Department to make leadership at the facility and the Department aware of adverse events that are concerning and that result in disclosures and to ensure that the medical impact on veterans of such disclosures is minimized.

(c)

APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term "appropriate committees of Congress" means—

(1) the Committee on Veterans' Affairs and the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies of the Committee on Appropriations of the Senate; and

#### WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

[For the cost of direct loans and for the cost of guaranteed loans, as authorized by the Water Infrastructure Finance and Innovation Act of 2014, \$12,000,000, to

remain available until expended, for safety projects to maintain, upgrade, and repair dams identified in the National Inventory of Dams with a primary owner type of state, local government, public utility, or private: *Provided*, That, no project may be funded with amounts provided under this heading for a dam that is identified as jointly owned in the National Inventory of Dams and where one of those joint owners is the Federal Government: *Provided further*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: *Provided further*, That these funds are available to subsidize gross obligations for the principal amount of direct loans, including capitalized interest, and total loan principal, including capitalized interest, any part of which is to be guaranteed, not to exceed \$950,000,000: *Provided further*, That, within 30 days of enactment of this Act, the Secretary, in consultation with the Office of Management and Budget, shall transmit a report to the Committees on Appropriations of the House of Representatives and the Senate that provides: (1) an analysis of how subsidy rates will be determined for loans financed by appropriations provided under this heading in this Act; (2) a comparison of the factors that will be considered in estimating subsidy rates for loans financed under this heading in this Act with factors that will be considered in estimates of subsidy rates for other projects authorized by the Water Infrastructure Finance and Innovation Act of 2014, including an analysis of how both sets of rates will be determined; and (3) an analysis of the process for developing draft regulations for the Water Infrastructure Finance and Innovation program, including a crosswalk from the statutory requirements for such program, and a timetable for publishing such regulations: *Provided further*, That the use of direct loans or loan guarantee authority under this heading for direct loans or commitments to guarantee loans for any project shall be in accordance with the criteria published in the Federal Register on June 30, 2020 (85 FR 39189) pursuant to the fourth proviso under the heading "Water Infrastructure Finance and Innovation Program Account" in division D of the Further Consolidated Appropriations Act, 2020 (Public Law 116–94): *Provided further*, That none of the direct loans or loan guarantee authority made available under this heading shall be available for any project unless the Secretary and the Director of the Office of Management and Budget have certified in advance in writing that the direct loan or loan guarantee, as applicable, and the project comply with the criteria referenced in the previous proviso: *Provided further*, That any references to the Environmental Protection Agency (EPA) or the Administrator in the criteria referenced in the previous two provisos shall be deemed to be references to the Army Corps of Engineers or the Secretary of the Army, respectively, for purposes of the direct loans or loan guarantee authority made available under this heading: *Provided further*, That, for the purposes of carrying out the Congressional Budget Act of 1974, the Director of the Congressional Budget Office may request, and the Secretary shall promptly provide, documentation and information relating to a project identified in a Letter of Interest submitted to the Secretary pursuant to a Notice of Funding Availability for applications for credit assistance under the Water Infrastructure Finance and Innovation Act Program, including with respect to a project that was initiated or completed before the date of enactment of this Act.]

[In addition, fees authorized to be collected pursuant to sections 5029 and 5030 of the Water Infrastructure Finance and Innovation Act of 2014 shall be deposited in this account, to remain available until expended.]

[In addition, for administrative expenses to carry out the direct and guaranteed loan programs, \$2,200,000, to remain available until September 30, 2022.] (*Energy and Water Development and Related Agencies Appropriations Act, 2021.*)

This appropriation funds the construction, replacement, rehabilitation, and expansion of water resources projects whose principal purpose is to

provide commercial navigation, flood and storm damage reduction, or aquatic ecosystem restoration benefits to the Nation, and related efforts.

This account allocates funds on a performance basis to high-performing projects. The Budget funds those investments within the three main mission areas of the Corps civil works program—commercial navigation, flood and storm damage reduction, and aquatic ecosystem restoration—as well as related efforts that provide the best economic, environmental, and public safety returns to the Nation. In developing the Budget, consideration was given to advancing three key objectives including: 1) increasing infrastructure and ecosystem resilience to climate change and decreasing climate risk for communities based on the best available science; 2) promoting environmental justice in disadvantaged communities in line with Justice40 and creating good paying jobs that promote a chance to join a union; and 3) not funding work that directly subsidizes fossil fuels including work that lowers the cost of production, lowers the cost of consumption, or raises the revenues retained by producers of fossil fuels.

This account includes \$348.0 million for work under the Comprehensive Everglades Restoration Plan (CERP), which represents approximately 19.4 percent of the total amount in this account and approximately 5.1 percent of the total amount in the civil works program. Funding CERP at this level would not have a significant impact on the overall civil works program in 2022. Construction account funding for CERP in future years will depend on the availability of funds, so the impact of such future funding on the overall civil works program cannot be determined at this time. Funding for the Department of the Interior (DOI) includes an additional \$8.2 million for work under CERP. This account also includes approximately \$2.0 million for other ecosystem restoration work by the Corps in South Florida, including the Everglades ecosystem. Funding for DOI includes \$59.4 million for such non-CERP work. The Budget for the two agencies includes a total of \$417.6 million for ecosystem restoration work in South Florida, of which \$356.2 million is for CERP and \$61.4 million is for non-CERP work (P.L. 106–541 section 601).

This appropriation also funds the Corps continuing authorities programs, which involve the planning, design, and construction of smaller projects that do not require specific authorizing legislation.

This appropriation funds inspection, operation, maintenance, and related activities for water resources projects operated and maintained by the Corps. These projects include navigation channels, navigation locks and dams, structures to reduce the risk of flood and storm damage (e.g., levees), and multi-purpose projects, as authorized in River and Harbor, Flood Control, and Water Resources Development Acts and other laws. Key infrastructure that is of central importance to the Nation and the continued safety of the public is given the highest priority for funding in this account.

This appropriation funds all of the costs associated with protecting Corps facilities from potential security threats. It also funds the national emergency preparedness program under Executive Order 11490.

In developing the Budget, consideration was given to advancing three key objectives including: 1) increasing infrastructure and ecosystem resilience to climate change and decreasing climate risk for communities based on the best available science; 2) promoting environmental justice in disadvantaged communities in line with Justice40 and creating good paying jobs that provide the chance to join a union; and 3) not funding work that directly subsidizes fossil fuels including work that lowers the cost of production, lowers the cost of consumption, or raises the revenues retained by producers of fossil fuels.

Pursuant to the requirements of 16 U.S.C. 460d–3, the Corps deposits certain recreation use fees collected at Corps projects into this account. Types of fees include daily user fees, camping fees, recreational fees, annual pass fees, and other permit type fees. Pursuant to appropriations acts, funding in the Operation and Maintenance appropriation is derived in part from this account for resource protection, research, interpretation, and

maintenance activities related to resource protection at Corps projects where outdoor recreation is available.

This appropriation funds studies to determine the engineering feasibility, economic and environmental return to the Nation, and public safety impacts of potential solutions to water and related land resources problems; preconstruction engineering and design; and related data collection, interagency coordination, and research. In developing the Budget, consideration was given to advancing three key objectives including: 1) increasing infrastructure and ecosystem resilience to climate change and decreasing climate risk for communities based on the best available science; 2) promoting environmental justice in disadvantaged communities in line with Justice40 and creating good paying jobs that provide the chance to join a union; and 3) not funding work that directly subsidizes fossil fuels including work that lowers the cost of production, lowers the cost of consumption, or raises the revenues retained by producers of fossil fuels.

The Budget funds the clean-up of certain low-level radioactive materials and mixed wastes, located mostly at sites contaminated as a result of the Nation's early efforts to develop atomic weapons, within the Department of Energy's Other Defense Activities account. These sites were previously funded within the Formerly Utilized Sites Remedial Action Program (FUSRAP) at the Corps of Engineers. The Budget proposes to return responsibility for the management of FUSRAP to the Department of Energy. The Corps of Engineers will continue to conduct cleanup of FUSRAP sites on a reimbursable basis with the Department of Energy.

This appropriation funds the command and control, policy and guidance, program management, national and regional coordination, and quality assurance for the civil works program. These activities are carried out by Corps headquarters and eight division offices:

**Corps Headquarters.**—This office provides executive direction and management for the civil works program.

**Division Offices.**—Eight of the nine Corps division offices provide quality assurance for and supervise work of the 38 district offices that have civil works responsibilities. This appropriation also funds certain costs allocable to the civil works program of these Corps-wide support facilities:

**Institute for Water Resources.**—This institute performs studies and analyses on a wide range of water resources issues and develops project planning techniques.

**Engineer Research and Development Center.**—This center operates seven labs and conducts research and development for the Corps and other agencies.

**Finance Center.**—This center supports all Corps finance and accounting activities.

**Humphreys Engineer Center.**—This field operating activity of the Corps provides day-to-day operational support services to the Corps.

## WASHINGTON AQUEDUCT

The Washington Aqueduct supplies drinking water to customers in four jurisdictions: the District of Columbia; Arlington County, Virginia; the City of Falls Church, Virginia; and part of Fairfax County, Virginia. Although the Aqueduct is owned and operated by the Corps (40 U.S.C. 9501 et seq.), the customers finance the operation, maintenance, and certain capital improvements of Aqueduct facilities. The Aqueduct's customers also pay in advance the full cost of those capital improvements.

This account covers three permanent appropriations:

*Hydraulic mining debris reservoir.*—The Corps uses fees collected from Pacific Gas and Electric Company to help maintain the Englebright Dam, Yuba River, California project. (33 U.S.C. 683)

*Maintenance and operation of dams and other improvements of navigable waters.*—The Corps uses its share of certain fees levied by the Federal Energy Regulatory Commission (on the private use of Federal property, including facilities and land; private construction and operation of water management and appurtenant facilities; and private benefit from headwater improvement by others) for construction, operation, and maintenance of Federal water management facilities. (16 U.S.C. 810(a))

*Payments to States.*—The Corps pays to States three-fourths of the rent received from the leasing of lands acquired for flood control, navigation, and allied purposes, including the development of hydroelectric power. (33 U.S.C. 701c–3)

This revolving fund provides for the acquisition, operation, and maintenance of plant and equipment used by the civil works program and for temporary financing of services chargeable to the civil works program. The fund also initially finances Corps district office operating expenses, which the districts later reimburse with project-specific funds. In addition, payments are made into the fund when other agencies or entities use plant and equipment acquired by the fund.

The Harbor Maintenance Trust Fund is authorized under the Harbor Maintenance Revenue Act of 1986 (P.L. 99–662, Title XIV), as amended. Under current law, revenue is derived from a 0.125 percent ad valorem tax imposed upon commercial users of specified U.S. ports, Saint Lawrence Seaway tolls, and investment interest. The Budget proposes to execute these appropriations within the Harbor Maintenance Trust Fund rather than to transfer and execute them in the Construction, Operation and Maintenance, and Mississippi River and Tributaries accounts.

The Harbor Maintenance Revenue Act authorizes expenditures from this fund to finance up to 100 percent of eligible Corps harbor operation and maintenance costs, including the operation and maintenance of Great Lakes navigation projects. The fund fully finances eligible operation and maintenance costs of the Saint Lawrence Seaway Development Corporation. The Water Resources Development Act of 1996 (P.L. 104–303, section 201) authorizes the fund to pay the Federal share of the costs for the construction of dredged material disposal facilities that are necessary for the operation and maintenance of coastal or inland harbors, the dredging and disposal of contaminated sediments that are in or affect the operation and maintenance of Federal navigation channels, the mitigation of impacts resulting from Federal navigation operation and maintenance activities, and the operation and maintenance of dredged material disposal facilities.

The North American Free Trade Agreement Implementation Act (26 U.S.C. 9505(c)(3)) authorizes the fund to pay all expenses of administration incurred by the Department of the Treasury, the Corps, and the Department of Commerce related to the administration of the harbor maintenance tax (under 26 U.S.C. 4461 et seq.), but not in excess of \$5 million for any fiscal year.

In 1998, the U.S. Supreme Court excluded all U.S. exports from the harbor maintenance tax. The Court found that the tax violated Article I, section 9, clause 5 of the constitution because the value of the cargo, which is the basis for calculating this tax, does not fairly match the use of port services and facilities by exporters.

The proposed appropriations language for eligible operation and maintenance costs for inland harbors on the lower Mississippi River is intended to only apply to: Helena Harbor, Phillips County, AR; Baton Rouge Harbor, Devil Swamp, LA; Greenville Harbor, MS; Vicksburg Harbor, MS; and Memphis Harbor, McKellar Lake, Memphis, TN.

The Inland Waterways Trust Fund is authorized under the Inland Waterways Revenue Act of 1978 (P.L. 95-502), as amended by the Water Resources Development Act of 1986 (P.L. 99-662). The fund is used to pay one-half of the costs associated with the construction, replacement, rehabilitation, and expansion of Federal inland waterways projects, except as otherwise specifically provided for in law. Under current law, revenue is derived from an excise tax imposed on diesel fuel for commercial vessels on most of the inland waterways, plus investment interest. The Budget proposes to execute these appropriations within the Inland Waterways

Trust Fund rather than to transfer and execute them in the Construction account.

This fund, authorized by the Water Resources Development Act of 1999 (P.L. 106-53), supports wildlife habitat restoration efforts undertaken by the State of South Dakota. The establishment of this fund satisfies the Federal obligation under the Fish and Wildlife Coordination Act (16 U.S.C. 1661 et seq.) to mitigate for the loss of habitat due to flooding from the Oahe and Big Bend projects, which the Corps constructed under the Pick-Sloan Missouri River Basin program.

## GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL

(INCLUDING TRANSFER OF FUNDS)

SEC. 101. (a) None of the funds provided in title I of this Act<sup>1</sup>, or provided by previous appropriations Acts to the agencies or entities funded in title I of this Act that remain available for obligation or expenditure in fiscal year 2021,<sup>2</sup> shall be available for obligation or expenditure through a reprogramming of funds that:

(1) creates or initiates a new program, project, or activity;

(2) eliminates a program, project, or activity;

(3) increases funds or personnel for any program, project, or activity for which funds have been denied or restricted by this Act, unless <sup>3</sup>prior approval is received from<sup>4</sup>notice has been transmitted to the Committees on Appropriations of both Houses of Congress;

(4) proposes to use funds directed for a specific activity for a different purpose, unless <sup>5</sup>prior approval is received from<sup>6</sup>notice has been transmitted to the Committees on Appropriations of both Houses of Congress;

(5) augments or reduces existing programs, projects, or activities in excess of the amounts contained in paragraphs (6) through (10), unless <sup>7</sup>prior approval is received from<sup>8</sup>notice has been transmitted to the Committees on Appropriations of both Houses of Congress;

(6) INVESTIGATIONS.—For a base level over \$100,000, reprogramming of 25 percent of the base amount up to a limit of \$150,000 per project, study or activity is allowed: *Provided*, That for a base level less than \$100,000, the reprogramming limit is \$25,000: *Provided further*, That up to \$25,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(7) CONSTRUCTION.—For a base level over \$2,000,000, reprogramming of 15 percent of the base amount up to a limit of \$3,000,000 per project, study or activity is allowed: *Provided*, That for a base level less than \$2,000,000, the reprogramming limit is \$300,000: *Provided further*, That up to \$3,000,000 may be reprogrammed for settled contractor claims, changed conditions, or real estate deficiency judgments: *Provided further*, That up to \$300,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation for existing obligations and concomitant administrative expenses;

(8) OPERATION AND MAINTENANCE.—Unlimited reprogramming authority is granted for the Corps to be able to respond to emergencies: *Provided*, That the Chief of Engineers shall notify the Committees on Appropriations of both Houses of Congress of these emergency actions as soon thereafter as practicable: *Provided further*, That for a base level over \$1,000,000, reprogramming of 15 percent of the base amount up to a limit of \$5,000,000 per project, study, or activity is allowed: *Provided further*, That for a base level less than \$1,000,000, the reprogramming limit is \$150,000: *Provided further*, That \$150,000 may be reprogrammed into any continuing study or activity that did not receive an appropriation;

(9) MISSISSIPPI RIVER AND TRIBUTARIES.—The reprogramming guidelines in paragraphs (6), (7), and (8) shall apply to the Investigations, Construction, and Operation and Maintenance portions of the Mississippi River and Tributaries Account, respectively; and

(10) FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM.—Reprogramming of up to 15 percent of the base of the receiving project is permitted.

(b) DE MINIMUS REPROGRAMMINGS.—In no case should a reprogramming for less than \$50,000 be submitted to the Committees on Appropriations of both Houses of Congress.

(c) CONTINUING AUTHORITIES PROGRAM.—Subsection (a)(1) shall not apply to any project or activity funded under the continuing authorities program.

(d) Not later than 60 days after the date of enactment of this Act, the Secretary shall submit a report to the Committees on Appropriations of both Houses of Congress to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year which shall include:

(1) A table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if applicable, and the fiscal year enacted level; and

(2) A delineation in the table for each appropriation both by object class and program, project and activity as detailed in the budget appendix for the respective appropriations; and

[(3)] [An identification of items of special congressional interest].

SEC. 102. The Secretary shall allocate funds made available in this Act solely in accordance with the provisions of this Act and the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), including the determination and designation of new starts.

SEC. 103. None of the funds made available in this title may be used to award or modify any contract that commits funds beyond the amounts appropriated for that program, project, or activity that remain unobligated, except that such amounts may include any funds that have been made available through reprogramming pursuant to section 101.

SEC. 104. The Secretary of the Army may transfer to the Fish and Wildlife Service, and the Fish and Wildlife Service may accept and expend, [up to \$5,400,000 of] *such funds as the Secretary of the Army and the Director of the Fish and Wildlife Service determine, through consultation, are appropriate, from the funds provided in this title under the heading "Operation and Maintenance" to mitigate for fisheries lost due to Corps of Engineers projects.*

SEC. 105. None of the funds in this Act shall be used for an open lake placement alternative for dredged material, after evaluating the least costly, environmentally

acceptable manner for the disposal or management of dredged material originating from Lake Erie or tributaries thereto, unless it is approved under a State water quality certification pursuant to section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341): *Provided*, That until an open lake placement alternative for dredged material is approved under a State water quality certification, the Corps of Engineers shall continue upland placement of such dredged material consistent with the requirements of section 101 of the Water Resources Development Act of 1986 (33 U.S.C. 2211).

SEC. 106. None of the funds made available by this Act or any other Act may be used to reorganize or to transfer the Civil Works functions or authority of the Corps of Engineers or the Secretary of the Army to another department or agency.

SEC. 107. Additional funding provided in this Act shall be allocated only to projects determined to be eligible by the Chief of Engineers.

SEC. 108. None of the funds made available by this Act may be used to carry out any water supply reallocation study under the Wolf Creek Dam, Lake Cumberland, Kentucky, project authorized under the Act of July 24, 1946 (60 Stat. 636, ch. 595).

SEC. 109. (a) When allocating the additional funding provided in this title under the headings "Construction" and "Mississippi River and Tributaries", the Secretary shall initiate a total of seven new construction starts during fiscal year 2021.

(b) For new construction projects, project cost sharing agreements shall be executed as soon as practicable but no later than December 31, 2021.

(c) No allocation for a new start shall be considered final and no work allowance shall be made until the Secretary provides to the Committees on Appropriations of both Houses of Congress an out-year funding scenario demonstrating the affordability of the selected new starts and the impacts on other projects.

(d) The Secretary shall not deviate from the new starts proposed in the work plan, once the plan has been submitted to the Committees on Appropriations of both Houses of Congress.

The 2022 payment to the Military Retirement Fund includes funds for the amortization of the unfunded liability for all retirement benefits earned by military personnel for service prior to 1985. The amortization schedule for the unfunded liability is determined by the Department of Defense Retirement Board of Actuaries. Included in the unfunded liability are the consolidated requirements of the military departments to cover retired officers and enlisted personnel of the Army, Navy, Marine Corps, and Air Force; retainer pay of enlisted personnel of the Fleet Reserve of the Navy and Marine Corps; and survivors' benefits.

The 2004 National Defense Authorization Act (P.L. 108–136) created additional benefits for certain retirees who receive disability compensation from the Department of Veterans Affairs and moved the responsibility for payments under the Combat-Related Special Compensation program to the Military Retirement Fund. Any additional funding requirements for retirees with service prior to 1985 will be included in this payment.

The 2016 National Defense Authorization Act (P.L. 114–92) enacted substantial changes to the current military retirement system. The new retirement system, which took effect January 1, 2018, is a blend of several components, including a defined retired pay benefit, a defined contribution to the Thrift Savings Plan, and a bonus (continuation pay) paid to the member to maintain Service retention requirements. Currently serving members will remain grandfathered under the legacy retirement system.

Public Law 98–94 provided for accrual funding of the military retirement system and for the establishment of a Department of Defense Military Retirement Fund in 1985. The fund has three sources of income. The first is payments from the military personnel accounts, which cover the accruing costs of the future retirement benefits being earned by today's service members. The second source is interest on investments of the fund. The third source is made up of two payments from the general fund of the Treasury. The first Treasury payment covers a portion of the accrued unfunded liability for all the retirees and current members who had earned benefits before the accrual funding system was set up. The second Treasury payment covers the liability for concurrent receipt of military retired pay

Public Law 106–398 provides for accrual funding for health care to Medicare-eligible retirees. The statute establishes an accrual health care fund which has three sources of funding. The first is contributions from employing agencies, which cover the liability for future benefits accruing to current service members. The second is an annual payment from the general fund of the Treasury on the accrued unfunded liability, and the third source is income from the investment of fund balances.

The 1985 Department of Defense Authorization Act, Public Law 98–525, as amended by Public Laws 100–48 and 108–375, and the Post 9/11 Veterans Educational Assistance Improvements Act of 2010, Public Law 111–377, provide for the accrual funding of certain education benefits for active duty military personnel under the authority of Chapters 30 and 33, Title 38 U.S.C., and to selected Reserve personnel under the authority of Chapters 1606 and 1607, Title 10 U.S.C. Chapter 1607 was sunset by Public Law 114–92, although the statute allows members who were receiving Chapter 1607 benefits before the statute was enacted to continue to receive these education benefits through November 2019. The fund is financed through actuarially determined Government contributions from the Department of Defense military personnel appropriations and interest on investments. Funds are transferred to the Department of Veterans Affairs to make benefit payments to eligible personnel. The status of the fund is as follows:

Public Law 101-510 created an Armed Forces Retirement Home (AFRH) Trust Fund to finance the AFRH—Gulfport and the AFRH—Washington Homes. The Homes are financed by appropriations drawn from the Trust Fund. AFRH provides residences and related services for certain retired and former members of the Armed Forces and the Coast Guard. The members receiving domiciliary and hospital care are:

	2020 actual	2021 est.	2022 est.
Domiciliary care .....	507	558	670
Hospital care .....	142	156	172
Totals .....	649	714	842

Both AFRH facilities (Gulfport, MS and Washington, DC) are accredited in all areas by The Joint Commission (TJC) and Commission on Accreditation of Rehabilitation Facilities (CARF). AFRH is accredited with TJC for the wellness clinics (Ambulatory Care) and nursing care (Assisted

Living, Memory Support, Long Term Care, and Independent Living Plus (Home Health Care)). For FY 2020, AFRH earned its 16th consecutive unmodified financial audit opinion with no weaknesses or deficiencies identified in the management letter. From March 2020 to March 2021, access at both AFRH campuses was restricted due to the COVID-19 pandemic. As a result, resident activities and new resident admissions were curtailed. In March 2021 the campuses began a pilot plan for phased reopening to safely restore activities, visitation, and new admissions. In November 2019, AFRH selected a development team for the 80-acre master planned parcel on the Washington campus with the goal of executing a lease agreement in FY 2020. The master plan authorizes 4.3 million square feet of mixed-use development (residential, commercial, retail, hotel) under a ground lease for AFRH to receive long-term revenue from previously underutilized property. In July 2020, AFRH executed a memorandum of understanding with the National Capital Planning Commission and the District of Columbia Office of Planning laying out the zoning process for private redevelopment on AFRH's federally-owned land. AFRH continues to work with the development team, National Capital Planning Commission, and the District of Columbia on Master Plan refinements, tax increment financing, zoning map and text amendments, traffic mitigation, environmental impacts and utilities planning.

These appropriations provide for development and conservation of fish and wildlife and recreational facilities on military installations. Proceeds from the sale of fishing and hunting permits are used for these programs at Army, Navy, Marine Corps, and Air Force installations charging such user fees. These programs are carried out through cooperative plans agreed upon by the local representatives of the Secretary of Defense, the Secretary of the Interior, and the appropriate agency of the State in which the installation is located.

The Selective Service System (SSS) registers young men when they reach age 18 and maintains an active database of over 80 million registrant records. The agency stands poised to deliver personnel to the Department of Defense (DoD) when directed by Congress and the President. In the event of a national emergency and call for conscription, the agency would mobilize, conduct the lottery process, issue induction notices, and transport the first draftees to military entrance processing stations. The law also requires the agency to manage a program for conscientious objectors in lieu of

military service that contributes to the maintenance of the national health, safety, and interest of the United States.

While SSS continues to strengthen its national security partnership with the Armed Services, the agency pursues strong outreach initiatives and social media presence to inform men and their influencers of the importance of registration to achieve the most fair and equitable draft. It intrinsically provides young men with the opportunity to fulfill their civic duty and to serve their country if called.

The agency's strategy to modernize information technology and cyber services to 21st century standards has enabled SSS to complete its mission from anywhere and anytime through state-of-the-art secure, agile, and redundant IT solutions. The core mission to continually improve agency business processes through best-in-class IT service and customer support is evolving to the next generation of cost efficient and secure cloud smart solutions, while delivering robust security, higher bandwidth, and sustained services in support of more accurate registration processing.

This appropriation supports the Environmental Protection Agency's (EPA) core programs by providing funds for independent Office of Inspector General (OIG) audit, evaluation, and investigative products and advisory services. These products and services consistently provide significant positive monetary return on investment and contribute substantially to risk reduction, improved environmental quality and human health, as well as improved business practices, operational efficiency, and accountability.

Specifically, the OIG performs contract audits and investigations that focus on costs claimed by contractors and assess the effectiveness of contract management. Assistance agreement audits and investigations evaluate the award, administration, and costs of assistance agreements. Program audits, evaluations, and investigations determine the extent to which the desired results or benefits envisioned by the Administration and the Congress are being achieved, and identify activities that could undermine the integrity, efficiency, and effectiveness of EPA programs. Financial statement audits review financial systems and statements to ensure that adequate controls are in place and EPA's accounting information is timely, accurate, reliable and useful, and complies with applicable laws and regulations. Efficiency, risk assessment, and program performance audits review the economy, efficiency, and effectiveness of operations by examining EPA's structure and processes for achieving environmental goals, including assessing risk, setting priorities, developing implementation strategies, and measuring performance. Information resource management audits review EPA information technology and systems to test the integrity of data and systems controls, as well as compliance with a variety of Federal information security laws and requirements. Investigations prevent, detect, and seek prosecution for criminal activity and serious misconduct in EPA programs and operations. Major areas of investigative focus include: financial fraud; infrastructure/terrorist threat; program integrity; employee integrity; cyber-crimes; and theft of intellectual or sensitive data. In addition, the EPA Inspector General serves as the IG for the U.S. Chemical Safety and Hazard Investigation Board, providing the full range of audit, evaluation, and investigative services specified by the Inspector General Act, as amended. Additional funds for audit, evaluation, and investigative activities associated with the Hazardous Substance Superfund are appropriated under that account and transferred to the Inspector General account.

This appropriation finances salary, travel, science, technology, environmental monitoring, research, and development activities including laboratory and center supplies, certain operating expenses (including activities

under the Working Capital Fund), contracts, grants, intergovernmental agreements, and purchases of scientific equipment. In addition, the Administrator will employ persons in the Office of Research and Development (ORD) under the authority provided in 42 U.S.C. 209. The Budget proposes to increase ORD's appointment ceiling under this authority and extend the authority to the Office of Chemical Safety and Pollution Prevention. Furthermore, the Budget proposes to extend student contractor hiring authority for the Office of Chemical Safety and Pollution Prevention and the Office of Water through 2026. These activities prioritize robust science and strengthen the Environmental Protection Agency's (EPA) research and scientific analysis to inform EPA policy and regulatory development actions to ensure good stewardship and positive environmental outcomes. Specifically in 2022, EPA will place emphasis on the following:

The Air, Climate, and Energy (ACE) research program will conduct a range of science and technology activities to develop and implement strategies to improve air quality and take action on climate change. These include: research to inform the review of the national ambient air quality standards to improve understanding of ozone, particulate matter, lead, sulfur dioxide, carbon monoxide, and nitrogen dioxide; system research and life cycle analysis to understand the production, operation, and impacts of energy systems on health and the environment; research on the generation, fate, transport, and chemical transformation of air emissions to identify individual and population health risks to inform clean air management decisions; research on the impacts of climate change on human health and the environment; development and evaluation of new approaches for monitoring levels of air pollutants (including air toxics); development of tools to provide technical assistance to State and local governments and Tribes to use in developing clean air plans to achieve air quality standards; and the production of information, decision support tools, and adaptation strategies to enable stakeholders to account for climate change when making decisions. Beginning in 2022, EPA plans to engage with Advanced Research Projects Agency—Climate (ARPA-C) on collaborative research projects for climate adaptation, mitigation, and resilience. EPA will continue to implement the renewable fuels provisions of the Energy Policy Act of 2005 (P.L. 109–58) and the Energy Independence and Security Act of 2007 (P.L. 110–140), and will develop, implement, and ensure compliance with regulatory programs that will significantly reduce emissions from highway and non-road sources.

The Safe and Sustainable Water Resources (SSWR) research program conducts research to meet the science needs in EPA's water program, including: evaluating groups of contaminants for the protection of human health and the environment; developing innovative tools, technologies, and strategies for managing water resources (including stormwater); and supporting a systems approach for protecting and restoring aquatic systems. The systems approach includes: research to inform setting water quality criteria; establishing measures to assess and manage watersheds; and developing effective source control and management methods, especially for urban uses. A major component of the research program is working to support EPA's Drinking Water Strategy. Within the SSWR program, research will assess, develop, and compile scientifically rigorous tools and models that will be used by the Agency, States, Tribes, and municipalities to address issues such as lead in drinking water and excess nutrient loading.

The Sustainable and Healthy Communities (SHC) research program, including Superfund research, implements system-based research to develop a new generation of smart technologies to address environmental conditions in a community. Superfund research costs are appropriated to the Hazardous Substance Superfund Trust Fund appropriation and transferred to this account to allow for proper accounting. The SHC research program develops decision support tools to enable communities' decision makers to solve complex human health and environmental problems. The program will identify health risks and stressors, especially those that disproportionately impact vulnerable populations such as children and the elderly. The decision support tools support critical policy, regulatory, and non-regulatory needs related to contaminated site remediation, children's health protection, waste

management, and our economy's reliance on quality ecosystem goods and services. These tools account for the interrelationships between social, economic, health, ecological, and environmental factors with the aim to minimize unintended consequences that can result from decisions about land use, transportation, and solid waste management, as well as promote more robust and efficient infrastructure.

The Health and Environmental Risk Assessment (HERA) research program develops assessments and scientific products that are used extensively by EPA's Program and Regional offices, and other parties, to estimate the potential risk to public health from exposure to environmental contaminants, to develop regulatory standards, and to manage environmental clean-ups. This includes EPA's All Ages Lead Model which predicts lead concentration in body tissues and organs for a hypothetical individual, based on a simulated lifetime of lead exposure. The HERA research program provides the scientific foundation for Agency actions to protect public health and the environment.

The Homeland Security Research Program (HSRP) will continue to support research efforts on evaluating chemical, biological, and radiological (CBR) analytical methods. The HSRP will conduct research on decontamination and methods to manage potential public health consequences and develop methods to protect water infrastructures and assess threats and consequences. In 2022, decontamination research will continue to address existing scientific knowledge gaps in responding to and recovering from wide-area CBR attacks on urban centers and public areas. Water Infrastructure Protection Research will focus on developing and testing decontamination approaches for water infrastructure and on treating CBR contaminated water caused by terrorist attacks, natural disasters, and/or accidents. Research on real-time distribution system models and methods to isolate and treat contaminated water, clean distribution systems, redirect water, and return water systems to service quickly and affordably is in progress. EPA also will continue to support water sector-specific agency responsibilities to protect the Nation's critical water infrastructure.

EPA's Chemical Safety for Sustainability (CSS) research program is designed to strengthen the Agency's ability to evaluate and predict the potential environmental and human health impacts from use of manufactured chemicals throughout their lifecycle. The CSS program supports the development and application of improved and new computational systems; models of pathways and tissues; rapid cost-efficient exposure models; and user-friendly web-based tools for analysis and decision support. The CSS program will continue to develop approaches for using toxicity and exposure data to inform screening and prioritization of the over 40,000 chemicals currently on the TSCA Active List, and will continue to inform the Agency's implementation of key environmental regulations and to address contaminants of emerging concern, such as Per- and Polyfluoroalkyl Substances (PFAS). As it relates to the Science and Technology account and the overall mission of EPA, the protection of human health includes: ensuring the availability of appropriate analytical methods for detecting pesticide residues in food and feed; ensuring suitability for monitoring pesticide residues; and enforcing tolerances. The program accomplishes this by developing and validating multi-residue pesticide analytical methods for food, feed, and water for use by other Federal and State laboratories and EPA's programs and regions. Laboratories further support the estimation of human health risks from pesticide use by operating the National Pesticide Standard Repository (NPSR).

EPA's Forensics Support program provides expert scientific and technical support for criminal and civil environmental enforcement cases, as well as technical support for the Agency's compliance efforts. EPA's National Enforcement Investigations Center (NEIC) is an environmental forensic center accredited for both laboratory and field sampling operations that generate environmental data for law enforcement purposes. It is fully accredited under International Standards Organization 17025, the main standard used by testing and calibration laboratories, as recommended by the National Academy of Sciences (see Strengthening Forensic Science in the United States: A Path Forward, National Academy of Sciences, 2009).

The NEIC maintains a sophisticated chemistry laboratory and a corps of highly trained inspectors and scientists with expertise across media. The NEIC works closely with EPA's Criminal Investigation Division to provide technical support (e.g., sampling, analysis, consultation, and testimony) to criminal investigations. The NEIC also works closely with EPA's Program and Regional Offices to provide technical support, consultation, on-site inspection, investigation, and case resolution services in support of the Agency's Civil Enforcement program.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and the functions it performs is: Office of Mission Support (facilities infrastructure and operations and information technology/data management).

This appropriation includes funds for salaries, travel, contracts, grants, and cooperative agreements for pollution abatement, control, and compliance activities and administrative activities of the operating programs, including activities under the Working Capital Fund. This appropriation supports core agency programs implementing environmental statutes.

To protect and improve air quality, the Environmental Protection Agency (EPA) applies a variety of approaches and tools. These include: developing and implementing strategies to attain ambient air quality standards for the six criteria pollutants; reducing regional haze through regional approaches where significant transport of pollutants occurs; and developing control measures for sources that are appropriately regulated at the Federal level.

EPA develops and issues national technology-based and risk-based standards using a sector-based approach to reduce the quantity of toxic air pollutants emitted from industrial and manufacturing processes, as well as from urban sources. The Acid Rain program will continue its market-based approach to achieving reduced emissions of sulfur dioxide, primarily from electric utilities. The market-based approach also will be used in other programs, where permitted under the Clean Air Act, to reduce emissions of air pollutants. EPA will work with States and sources to implement the Greenhouse Gas Reporting Rule to obtain high quality data in a cost-effective manner. In addition, EPA will develop and use public information and training to reduce public exposure to radiation. EPA will focus its domestic efforts to ensure that ozone-depleting substance production and import caps under the Montreal Protocol and Clean Air Act continue to be met.

EPA works to protect and restore our waters to ensure that drinking water is safe, and that aquatic ecosystems sustain fish, plants and wildlife, as well as support economic, recreational, and subsistence activities. EPA will focus on core statutory requirements and water infrastructure. EPA will support the following Clean Water Act program components: water quality criteria, standards and technology; National Pollutant Discharge Elimination System (NPDES); water monitoring; Total Maximum Daily Loads (TMDLs); watershed management; water infrastructure and grants management; core wetlands programs and Clean Water Act section 106 program management. EPA also will work with States and Tribes to reduce risks to drinking water contaminants, for example, through proposed revisions to the Lead and Copper Rule. In addition, EPA will continue work with States to transition to the next generation management and reporting tool, the Safe Drinking Water Information System (SDWIS) Prime used by the majority of state drinking water programs. The new SDWIS Prime management and reporting tool will provide improvements in program efficiency and data quality, greater public access to drinking water data, facilitation of electronic reporting, reductions in reporting burdens on laboratories and water utilities, reductions in data management burdens, and ultimately reduction in public health risk.

EPA's programs work to preserve land by ensuring proper management of waste under multiple environmental statutes. EPA will continue to assist States in putting in place and maintaining permits at facilities that treat, store, or dispose of hazardous waste. Although States are the primary implementers of the Corrective Action program, which requires facilities managing hazardous waste to clean up past releases, EPA directly implements the program in six States and provides technical support and oversight for State activities. EPA also works with Tribes to maintain tribal underground storage tank (UST) programs. EPA also supports the operations and management of the Brownfields program, including training and technical support to assist communities to address issues associated with redevelopment or reuse of properties that may be complicated by the presence of contamination. EPA works with State, local, and tribal partners to help protect the public and the environment from releases of hazardous substances from chemical handling facilities by helping them develop area-wide emergency response and contingency plans. EPA conducts audits and inspections of those facilities handling more than a threshold quantity of certain extremely hazardous chemicals and that are required to implement a Risk Management Program to prevent releases.

In collaboration with our tribal government partners, EPA works to strengthen human health and environmental protection in Indian Country. EPA works to ensure that its environmental protection programs are implemented in Indian Country either by EPA or by the Tribes. EPA will continue the direct implementation assessment to better understand EPA direct implementation responsibilities and activities on a program-by-program basis in Indian Country. Also, EPA provides resources and technical assistance for federally recognized Tribes to create and maintain effective environmental programs by collaborating with Tribes to develop long-term EPA-Tribal Environmental Plans (ETEP) for all federally recognized Tribes.

To ensure that food will be free from unsafe levels of pesticide residues, EPA applies strict health-based standards in establishing and reevaluating

tolerances for residues in food or animal feed. EPA also works to expedite the registration of reduced risk pesticides when possible, and to ensure that older pesticides meet current health and environmental standards. To respond to emerging health issues, EPA develops methods to evaluate the efficacy of products intended to combat public health pests. EPA intends to reduce potential human and environmental risks from commercial and residential exposure to pesticides through programs that focus on farm worker protection, pollinator health and protection, endangered species protection, environmental stewardship, and integrated pest management. EPA's toxics program will continue to make substantial progress in protecting public health and the environment from potentially harmful industrial chemicals by assessing the safety of new and existing chemicals, reducing gaps in the availability of chemical data, strengthening management of chemical information, and providing easier and more complete public access to non-confidential chemical data. EPA will conduct existing chemical prioritization and evaluations under the provisions of the Toxic Substances Control Act (TSCA) as amended by the Frank R. Lautenberg Chemical Safety for the Twenty-First Century Act, and address any unreasonable risks identified through such evaluations.

EPA will engage both bilaterally and through multilateral institutions to improve international cooperation to prevent and address the transboundary movement of pollution and coordinate with other nations to protect the environment and human health.

Combined with public demand for information, unprecedented changes in information technology are altering the way EPA, States, and Tribes collect, manage, analyze, use, secure, and provide access to quality environmental information. EPA is working with the States and Tribes to strengthen our information quality, leverage information maintained by other government organizations, and develop new tools that provide the public with simultaneous access to multiple data sets, allowing users to understand local, tribal, State, regional, and national environmental conditions. Key to achieving information quality will be the further development of the National Environmental Information Exchange Network, which is primarily an affiliation between EPA and the States and Tribes. EPA will continue to reduce reporting burdens, improve data quality, and accelerate data publications by accelerating the replacement of paper-based submissions with electronic reporting under the Toxic Release Inventory and other programs.

EPA works in partnership with State and tribal agencies to enforce and build compliance with Federal environmental laws passed by the Congress that ensure our communities have clean air, water, and land. EPA will enforce environmental laws to correct noncompliance and promote cleanup of contaminated sites. To improve compliance with environmental laws, EPA works to provide easy access to tools that help regulated entities, Federal agencies, and the public understand these laws and find efficient, cost-effective means for putting them into practice. EPA's enforcement program targets inspections and other compliance monitoring activities according to the degree of health and environmental risk. The program collaborates with the Department of Justice, States, local government agencies, and tribal governments to ensure consistent and fair enforcement of all environmental laws and regulations. The program seeks to aggressively pursue violations that threaten communities, ensure a level economic playing field by ensuring that violators do not realize an economic benefit from noncompliance, and deter future violations. The Civil Enforcement program develops, litigates, and settles administrative and civil judicial cases against serious violators of environmental laws. The Criminal Enforcement program enforces the nation's environmental laws through targeted investigations of criminal conduct, committed by individual and corporate defendants, that threatens public health and the environment. Bringing criminal cases sends a strong deterrence message to potential violators, enhances aggregate compliance with laws and regulations and protects our communities. To maximize compliance, the Agency will refocus efforts towards areas with significant noncompliance issues and where

enforcement can address the most substantial impacts to human health and the environment.

The Budget identifies environmental justice priority areas that aim to expand EPA's work to ensure environmental justice in underserved communities and cumulative impacts of environmental pollution. It includes proposed authorization language to carry out new environmental justice grants aimed at reducing the disproportionate health impacts of environmental pollution and to establish an Environmental Justice Training Program charged with increasing the capacity of residents of underserved communities to identify and address disproportionately adverse human health or environmental effects.

EPA's internal operations programs provide centralized management services and leadership to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Environmental Programs and Management appropriation are: the Office of the Administrator (civil rights/Title VII compliance; congressional, intergovernmental and external relations; Science Advisory Board; children's health; Small Business Ombudsman; Small Minority Business Assistance; Environmental Justice; NEPA Implementation; and regulatory and economic management and analysis work); the Office of the Chief Financial Officer (strategic planning, annual planning, and budgeting, financial services, financial management, analysis, and accountability); the Office of General Counsel (FOIA management, civil rights/Title VI compliance, alternate dispute resolution, and legal advice); and the Office of Mission Support (facilities, infrastructure and operations; acquisition management; human resources management services; grants and interagency agreements; suspension and debarment; administrative law exchange network; information security; and information technology/data management). Since these centralized services provide support across EPA, many of these programs are funded across EPA's appropriations.

EPA's Environmental Justice Small Grants Program supports and empowers communities working on solutions to local environmental and public health issues. The President's American Jobs Plan proposes to expand this program, providing \$2.5 billion that will be awarded to community-based organizations, tribal governments, and Native American organizations working with communities facing environmental justice issues. The maximum funding award size available to grant recipients would also increase.

President Biden's American Jobs Plan also includes \$200 million to help support local air and water quality monitoring and modeling.

This appropriation provides for the construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by the Environmental Protection Agency (EPA). This appropriation supports providing centralized management services to ensure that EPA is fulfilling its mission. EPA's management infrastructure will set and implement quality standards for effective internal management and fiscal responsibility. The facilities funded by this account will provide quality work environments and laboratories that address employee safety and security and pollution prevention. The appropriation would also include costs associated with climate resiliency and sustainability for Agency facilities, and costs associated with a growing workforce.

#### STATE AND TRIBAL ASSISTANCE GRANTS

For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, **[\$4,313,901,000] \$5,130,007,000**, to remain available until expended, of which—

(1) **[\$1,638,826,000] \$1,870,680,000** shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act; and of which **[\$1,126,088,000] \$1,357,934,000** shall be for making capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: *Provided*, That for fiscal year **[2021] 2022**, to the extent there are sufficient eligible project applications and projects are consistent with State Intended Use Plans, not less than 10 percent of the funds made available under this title to each State for Clean Water State Revolving Fund capitalization grants shall be used by the State for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities: *Provided further*, That the Administrator is authorized to use any remaining funds made available under section 608(f) of title VI of the Federal Water Pollution Control Act (33 U.S.C. 1388), after necessary funds are used to carry out the management and oversight of section 608, up to \$1,500,000 for conducting the Clean Watersheds Needs Survey: *Provided further*, That for fiscal year **[2021] 2022**, funds made available under this title to each State for Drinking Water State Revolving Fund capitalization grants may, at the discretion of each State, be used for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities: *Provided further*, That notwithstanding section 603(d)(7) of the Federal Water Pollution Control Act, the limitation on the amounts in a State water pollution control revolving fund that may be used by a State to administer the fund shall not apply to amounts included as principal in loans made by such fund in fiscal year **[2021] 2022** and prior years where such amounts represent costs of administering the fund to the extent that such amounts are or were deemed reasonable by the Administrator, accounted for separately from other assets in the fund, and used for eligible purposes of the fund, including administration: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding the provisions of subsections (g)(1), (h), and (l) of section 201 of the Federal Water Pollution Control Act, grants made under title II of such Act for American Samoa, Guam, the Commonwealth of the Northern Marianas, the United States Virgin Islands, and the District of Columbia may also be made for the purpose of providing assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or

more principal residences or small commercial establishments: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding the provisions of such subsections (g)(1), (h), and (l) of section 201 and section 518(c) of the Federal Water Pollution Control Act, funds reserved by the Administrator for grants under section 518(c) of the Federal Water Pollution Control Act may also be used to provide assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or more principal residences or small commercial establishments: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding any provision of the Federal Water Pollution Control Act and regulations issued pursuant thereof, up to a total of \$2,000,000 of the funds reserved by the Administrator for grants under section 518(c) of such Act may also be used for grants for training, technical assistance, and educational programs relating to the operation and management of the treatment works specified in section 518(c) of such Act: *Provided further*, That for fiscal year **[2021] 2022**, funds reserved under section 518(c) of such Act shall be available for grants only to Indian tribes, as defined in section 518(h) of such Act and former Indian reservations in Oklahoma (as determined by the Secretary of the Interior) and Native Villages as defined in Public Law 92–203: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding the limitation on amounts in section 518(c) of the Federal Water Pollution Control Act, up to a total of 2 percent of the funds appropriated, or \$30,000,000, whichever is greater, and notwithstanding the limitation on amounts in section 1452(i) of the Safe Drinking Water Act, up to a total of 2 percent of the funds appropriated, or \$20,000,000, whichever is greater, for State Revolving Funds under such Acts may be reserved by the Administrator for grants under section 518(c) and section 1452(i) of such Acts: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding the amounts specified in section 205(c) of the Federal Water Pollution Control Act, up to 1.5 percent of the aggregate funds appropriated for the Clean Water State Revolving Fund program under the Act less any sums reserved under section 518(c) of the Act, may be reserved by the Administrator for grants made under title II of the Federal Water Pollution Control Act for American Samoa, Guam, the Commonwealth of the Northern Marianas, and United States Virgin Islands: *Provided further*, That for fiscal year **[2021] 2022**, notwithstanding the limitations on amounts specified in section 1452(j) of the Safe Drinking Water Act, up to 1.5 percent of the funds appropriated for the Drinking Water State Revolving Fund programs under the Safe Drinking Water Act may be reserved by the Administrator for grants made under section 1452(j) of the Safe Drinking Water Act: *Provided further*, That 10 percent of the funds made available under this title to each State for Clean Water State Revolving Fund capitalization grants and 14 percent of the funds made available under this title to each State for Drinking Water State Revolving Fund capitalization grants shall be used by the State to provide additional subsidy to eligible recipients in the form of forgiveness of principal, negative interest loans, or grants (or any combination of these), and shall be so used by the State only where such funds are provided as initial financing for an eligible recipient or to buy, refinance, or restructure the debt obligations of eligible recipients only where such debt was incurred on or after the date of enactment of this Act, or where such debt was incurred prior to the date of enactment of this Act if the State, with concurrence from the Administrator, determines that such funds could be used to help address a threat to public health from heightened exposure to lead in drinking water or if a Federal or State emergency declaration has been issued due to a threat to public health from heightened exposure to lead in a municipal drinking water supply before the date of enactment of this Act: *Provided further*, That in a State in which such an emergency declaration has been issued, the State may use more than 14 percent of the funds made available under this title to the State for Drinking Water State Revolving Fund capitalization grants to provide additional subsidy to eligible recipients: *Provided further*, That notwithstanding section 1452(o) of the Safe Drinking Water Act (42 U.S.C. 300j–12(o)), for fiscal years 2022–2026, the Administrator shall reserve \$12,000,000 of amounts made available for making capitalization grants for the Drinking Water State Revolving Funds to pay the costs of monitoring for unregulated contaminants under section 1445(a)(2)(C) of such Act;

(2) \$30,000,000 shall be for architectural, engineering, planning, design, construction and related activities in connection with the construction of high priority water and wastewater facilities in the area of the United States-Mexico Border, after consultation with the appropriate border commission: *Provided*, That no funds provided by this appropriations Act to address the water, wastewater and other critical infrastructure needs of the colonias in the United States along the United States-Mexico border shall be made available to a county or municipal government unless that government has established an enforceable local ordinance, or other zoning rule, which prevents in that jurisdiction the development or construction of any additional colonia areas, or the development within an existing

This appropriation supports core Environmental Protection Agency (EPA) programs through grants to States, Tribes and U.S. districts and Territories. Funding is provided to assist State and tribal partners in implementing their environmental programs to protect human health and the environment. EPA is using common elements for State and tribal grant agreements, including Performance Partnership Grants.

The EPA will provide financial and technical assistance to assist States and Tribes in the development and management of their clean air plans and support solutions that address their local air quality management needs. EPA also will provide funds to States and Tribes using section 105 authority of the Clean Air Act to operate and maintain air monitoring networks to obtain data on emissions of criteria pollutants and air toxics. EPA has funded State and local fine particulate monitoring using the requirements of section 103 of the Clean Air Act, as authorized in annual appropriation bills. EPA also is committed to transitioning funding for fine particulate monitoring into the funding authorized by section 105 of the Clean Air Act. Section 103 provides full funding for pilot programs, demonstrations, research, and other one-time activities, whereas section 105 requires States and local agencies to provide matching funds of at least 40 percent of the amount required for the entire continuing State or local clean air program. Using funds provided by EPA under Clean Air Act sections 103 and 105, States and Tribes will prepare State Implementation Plans and Tribal Implementation Plans to achieve the National Ambient Air Quality Standards, implement monitoring requirements, and support the National Air Toxics Trends Stations monitoring network. Additionally, States may utilize funding to support States' collection, review, and use of greenhouse gas (GHG) emissions data and permitting of large sources of GHG's. EPA also will implement the Diesel Emissions Reduction Act Grant Program by providing funding through grants and rebates to continue to reduce diesel emissions in priority areas and areas of highly concentrated diesel pollution.

EPA also will support its partnerships with States, Tribes, and U.S. Territories through water grants and Performance Partnership grants to carry out core statutory requirements of the Clean Water Act and the Safe Drinking Water Act. Funding supports work to reduce human exposure to contaminants in drinking water, fish and shellfish, and recreational waters and to protect and restore watersheds and aquatic ecosystems. Funding is provided through the Drinking Water State Revolving Fund (SRF) for States and Tribes to make low interest loans to public water systems to upgrade drinking water infrastructure to help them provide safe drinking water. In addition, Clean Water SRF funding provides low interest loans to communities and includes a set-aside for Tribes and U.S. Territories to construct wastewater treatment infrastructure, in addition to other projects that enhance water quality. In sum, the Federal Government has invested over \$65 billion in grants to help capitalize the SRFs. With the required State match, additional State contributions, and funds from program leveraging, funds made available for loans total over \$185 billion since their inception. EPA will continue to work with its partners to enhance the capacity of communities, States, and private investors to plan and finance drinking water and wastewater infrastructure improvements.

Direct grants also are provided to help address the significant water and wastewater infrastructure needs of Alaska Native Villages. EPA has implemented a management plan that optimizes the pace of the program. EPA will continue to strengthen State core water quality protection and water enforcement programs.

The Budget proposes funds for the America's Water Infrastructure Act and Water Infrastructure Improvements for the Nation Act grant programs that will assist in lead testing in schools, reducing lead in drinking water, increasing resiliency at drinking water systems, sewer overflow control, and water infrastructure workforce investment. These resources would complement State and local drinking water and wastewater infrastructure investments as well as funding provided through other Federal channels.

EPA's Brownfields program supports land revitalization by providing grants to States, Tribes, and local communities to assess and clean up real property which may be complicated by the presence or potential presence

of a hazardous substance, pollutant, or contaminant. EPA Brownfields assessment and clean-up projects assist local communities in paving the way for the productive reuse of contaminated properties and abandoned sites.

Hazardous and non-hazardous wastes on the land can migrate to the air, groundwater, and surface water, contaminating drinking water supplies, causing acute illnesses or chronic diseases, and threatening healthy ecosystems in urban, rural, and suburban areas. Under the Resource Conservation and Recovery Act of 1976, as amended, EPA provides grants to States to strengthen their ability to implement hazardous waste programs. When appropriate, EPA also may provide financial and technical assistance to eligible tribal governments and inter-tribal consortia to conduct hazardous waste work in Indian Country. The Budget proposes resources for carrying out section 302(a) of the Save our Seas 2.0 Act and adds language that grants made pursuant to such authority also may be used for the construction, maintenance, and operations of post-consumer materials management or recycling facilities.

In addition, EPA provides grants to assist States, Tribes, and other partners with worker safety activities, protection of endangered species and water sources, and promotion of environmental stewardship. To protect, sustain or restore the health of people, communities and ecosystems, EPA focuses on the geographic areas with human and ecological communities at most risk. EPA is working to protect, sustain, and restore the health of natural habitats and ecosystems by identifying and evaluating problem areas, developing tools, and improving community capacity to address problems.

Under Federal environmental statutes, EPA is responsible for protecting human health and the environment in Indian Country. EPA works with over 560 federally recognized Tribes located across the United States to improve environmental and human health outcomes. Indian Country totals more than 70 million acres, with reservations ranging from less than 10 acres to more than 14 million acres. EPA will provide funding to build and enhance the capacity of Tribes to address environmental and public health challenges in Indian Country, including lack of access to safe drinking water, sanitation, adequate waste facilities, and other environmental safeguards taken for granted elsewhere.

EPA will provide funding to States, U.S. Territories, Tribes, and inter-tribal consortia to help them develop their information management and technology capabilities. The purpose of this support is two-fold: to assist the Agency in providing ready access to real-time environmental information; and to allow States and Tribes to better integrate and share their environmental information.

To promote compliance with laws intended to protect human health and the environment, EPA will continue to award State and tribal grants to assist in the implementation of compliance and enforcement provisions of environmental laws. EPA provides funding to States and Tribes for compliance assurance activities including inspections and enforcement case support activities. EPA programs will provide Pesticide Program State and Tribal Assistance Grants that support pesticide product and user compliance with provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through cooperative agreements with States and Tribes. The cooperative agreements support State and tribal compliance and enforcement activities under FIFRA.

Toxic Substance Compliance Grants are provided to States and Tribes to prevent or eliminate unreasonable risks to human health or the environment and to ensure compliance with toxic substance regulations. The grants support inspection programs associated with the Asbestos Hazard Emergency Response Act (AHERA), lead-based paint (402(a), 406(b), and the Renovation, Repair and Painting rule [RRP]), and polychlorinated biphenyls (PCBs). The compliance monitoring activities conducted by the States will be a cooperative endeavor addressing the priorities of the Federal Toxic Substances Control Act program and State toxics program issues.

President Biden's American Jobs Plan supports aging water systems that threaten public health in thousands of communities nationwide. President Biden will modernize these systems by scaling up existing, successful programs, including by providing \$56 billion in grants and low-cost flexible loans to states, Tribes, territories, and disadvantaged communities across the country. Additionally, to eliminate all lead pipes and service lines in the country, this proposal invests \$45 billion in the Environmental Protection Agency's (EPA) Drinking Water State Revolving Loan Fund and in Water Infrastructure Improvements for the Nation Act (WIIN) grants. In addition to reducing lead exposure in the homes, this investment also will reduce lead exposure in 400,000 schools and childcare facilities.

President Biden's American Jobs Plan also includes funding to monitor and remediate PFAS (per- and polyfluoroalkyl substances) in drinking water.

In thousands of rural and urban communities around the country, hundreds of thousands of former industrial and energy sites are now idle sources of blight and pollution. The American Jobs Plan includes an investment in the remediation and redevelopment of these Brownfield sites, as well as related economic and workforce development, to turn idle real property into new hubs of economic growth and job creation.

Additionally, the American Jobs Plan will help achieve the goal of electrifying at least 20 percent of the yellow school bus fleet through a new Clean Buses for Kids Program at the EPA, with support from the Department of Energy (DOE). These investments will set the Nation on a path to

100 percent clean buses, while ensuring that the American workforce is trained to operate and maintain this 21st century infrastructure.

This appropriation supports all activities necessary for the implementation of the Water Infrastructure Finance and Innovation program established by the Water Resources Reform and Development Act of 2014, Title V, Subtitle C. The program will provide low-interest Federal loans or loan guarantees to eligible entities for a wide range of nationally and regionally significant water and wastewater projects. Eligible assistance recipients include corporations, partnerships, government entities, and State Revolving Fund (SRF) programs, among others. Eligible projects include, among others: Clean and Drinking Water State Revolving Fund eligible projects; projects for enhanced energy efficiency at drinking water and wastewater facilities; brackish or seawater desalination, aquifer recharge, water recycling; acquisition of property if it is integral to the project or will mitigate the environmental impact of a project; bundled SRF projects under one application; and a combination of projects secured by a common security pledge. Of the total \$80 million request to implement the Water Infrastructure Finance and Innovation Act (WIFIA) program, \$8 million is for the Environmental Protection Agency's (EPA) management and operation of the program, including contract support and associated payroll. The WIFIA program will be administered by EPA's Office of Water.

TSCA Service Fees are authorized by section 26 of the Toxic Substances Control Act, as amended by Public Law 114-182, the Frank R. Lautenberg Chemical Safety for the 21st Century Act. Fees deposited in this account are paid by chemical manufacturers (including importers) and, in limited circumstances, processors who are required to: submit test data (TSCA section 4); submit notification of or information related to intent to manufacture a new chemical or significant new use of a chemical (TSCA section 5); manufacture a chemical substance that is subject to a risk evaluation (TSCA section 6); or request that the Environmental Protection Agency (EPA) conduct a risk evaluation on an existing chemical (TSCA section 6), subject to the agency's approval of the request. TSCA Service Fees are estimated to offset 25 percent of the costs to administer sections 4, 5, and 6 of the law as well as collecting, processing, reviewing, and protecting information about chemical substances from disclosure as appropriate under TSCA section 14. The statute requires that fees for manufacturer-requested risk evaluations offset 50 or 100 percent of the costs of those evaluations. EPA finalized a rule for the collection of TSCA fees on September 27, 2018. The final rule became effective in October 2018.

In accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g(c)), the Administrator of the Environmental Protection Agency is authorized to collect and obligate e-Manifest user fees. In 2022, EPA will continue to operate the e-Manifest system established by the Hazardous Waste Electronic Manifest Establishment Act (Public Law 112–195). Based upon authority to collect and spend e-Manifest fees provided by the Congress in annual appropriations bills, the Agency anticipates collecting and depositing approximately \$27 million in e-Manifest user fees into the Hazardous Waste Electronic Manifest System Fund. Fees deposited in this account will fully support the e-Manifest program, including operation of the system, necessary program expenses, and future development costs.

The Environmental Protection Agency (EPA) received authority to establish a Working Capital Fund (WCF) and was designated a pilot franchise fund under Public Law 103-356, the Government Management and Reform Act of 1994. EPA received permanent authority for the WCF in Public Law 105-65, as part of an effort to increase competition for governmental administrative services. The Modernizing Government Technology (MGT) Act (Public Law 115-91) provided additional authority for information technology development activities in agency working capital funds. EPA's WCF became operational in 1997 and funds the following main activities: information technology services, agency postage costs, Cincinnati voice services background investigations, and enterprise human resources IT services managed by the Office of Mission Support; financial and administrative systems, employee relocations, and a budget formulation system managed by the Office of the Chief Financial Officer; the Agency's Continuity of Operations (COOP) site managed by the Office of Land and Emergency Management; legal services managed by the Office of General Counsel; regional information technology service and support managed by EPA Region 8; and multimedia and agency servicing contracts managed by the Office of the Administrator. The 2022 amount reflects only base resources and may change during the year in accordance with programmatic needs.

This appropriation provides funds for the implementation of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA). This appropriation supports core Environmental Protection Agency (EPA) programs.

To preserve and restore land and to protect human health and the environment, EPA reduces the risks posed by releases of hazardous substances, pollutants, and contaminants, and protects against unacceptable exposure by cleaning up contaminated sites and restoring ground water to beneficial use. EPA applies the most effective and scientifically sound methods to address the risks associated with the presence of hazardous substances, pollutants, and contaminants, improve response capabilities, and maximize the effectiveness of response and cleanup actions. Cleanup and response activity at contaminated sites addresses environmental concerns, such as the removal of contaminated soil and treatment of contaminated groundwater, to reduce human exposures to hazardous substances, pollutants, and contaminants, and to provide long-term human health protection. EPA works to ensure that all releases of hazardous substances, pollutants, and contaminants into the environment are appropriately addressed by responding to incidents and providing technical support. To prepare for and respond to incidents of national significance, EPA includes among its efforts improving decontamination readiness. EPA conducts research to improve methods and models and to accelerate scientifically defensible and cost-effective decisions for cleanup at complex contaminated sites in accordance with CERCLA. EPA also works to maximize responsible parties' participation in site cleanups and pursue greater recovery of EPA's cleanup costs.

EPA protects communities and helps return contaminated properties to productive use by ensuring that responsible parties pay for and/or conduct cleanups. The enforcement program recovers Federal cleanup funds from responsible parties to save taxpayer dollars. The goal is to maximize the participation of liable and viable parties in performing and paying for cleanups in both the remedial and removal programs. EPA investigates and refers for prosecution criminal and civil violations of CERCLA.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Superfund appropriation are: the Office of the Administrator (environmental justice); the Office of Chief Financial Officer (strategic planning, annual planning and budgeting, financial services, and financial management, analysis, and accountability); the Office of General Counsel (alternate dispute resolution and legal advice); and the Office of Mission Support (facilities infrastructure and operations; acquisition management; human resources management services; grant and inter-agency agreement management; suspension and debarment; exchange network; information security; and information technology/data management) Because these centralized services provide support across EPA, the internal operations programs are funded across EPA's appropriations.

In thousands of rural and urban communities around the country, hundreds of thousands of former industrial and energy sites are now idle sources of blight and pollution. President Biden's American Jobs Plan includes an investment in the remediation and redevelopment of these Superfund sites, as well as related economic and workforce development, to turn idle real property into new hubs of economic growth and job creation.

Additionally, this proposal reinstates the Superfund tax as part of the American Jobs Plan.

The Leaking Underground Storage Tank (LUST) Trust Fund, authorized by the Superfund Amendments and Reauthorization Act of 1986, as amended by the Omnibus Budget Reconciliation Act of 1990, the Taxpayer Relief Act of 1997, the Energy Policy Act (EPAct) of 2005, the Moving Ahead for Progress in the 21st Century Act (MAP-21), and the Fixing America's Surface Transportation Act (FAST Act), provides funds for preventing and responding to releases from underground storage tanks. The Trust Fund is financed by a 0.1 cent per gallon tax on motor fuels through September 30, 2022.

LUST funds are allocated to States through cooperative agreements to clean up sites posing the greatest threat to human health and the environment as authorized under section 9003(h) of the Solid Waste Disposal Act of 1965, as amended, and also to implement the activities authorized by Title XV, Subtitle B of EPAct. Funds also are used for grants to non-state entities under section 8001 of the Resource Conservation and Recovery Act of 1976, as amended. Federally recognized Tribes receive grant funding under Public Law 105–276. The Environmental Protection Agency (EPA) supports oversight, clean-up, and enforcement programs which are implemented by the States. LUST Trust Fund dollars can be used for state-led clean-ups and for State oversight of responsible party clean-ups. The LUST program promotes effective responses to releases from federally regulated underground storage tanks containing petroleum by enhancing State, local,

and tribal enforcement and response capability. This appropriation supports core agency programs.

To protect the Nation's groundwater and drinking water from petroleum releases from Underground Storage Tanks (UST), EPA provides compliance assistance tools, technical assistance and training to promote and enforce UST systems compliance and clean-ups. EPA also focuses its LUST research efforts on assessing sites and evaluating the implications of alternative remediation technologies, policies, and management actions to assess and cleanup leaks at fueling stations.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform are: Office of Mission Support (facilities infrastructure and operations, and acquisition management); and the Office of Chief Financial Officer (strategic planning; annual planning and budgeting; financial services; and financial management, analysis, and accountability).

## INLAND OIL SPILL PROGRAMS—Continued

This appropriation provides for the Environmental Protection Agency's (EPA) responsibilities for prevention, preparedness, response, and enforcement activities authorized under the Federal Water Pollution Control Act, as amended by the Oil Pollution Act of 1990 (OPA). This appropriation supports core Agency programs.

EPA's Oil Spill program protects U.S. waters by preventing, preparing for, responding to, and monitoring oil discharges. Under the regulatory framework established by the Spill Prevention, Control, and Countermeasure (SPCC) and Federal Response Plan (FRP) regulations, EPA conducts oil spill prevention, preparedness, inspection, and enforcement activities associated with more than 600,000 non-transportation-related oil storage facilities. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) identifies EPA's jurisdiction over inland oil spills and sets forth the framework for response. EPA accesses the Oil Spill Liability Trust Fund, administered by the U.S. Coast Guard, to obtain reimbursement for site-specific spill response activities. More than 30,000 oil and hazardous substance discharges occur in the United States every year, with a significant portion of these discharges occurring in the inland zone over which EPA has jurisdiction.

EPA develops and manages the regulations and protocols under Subpart J of the NCP which require manufacturers of various oil spill response products to test their products prior to listing on a Product Schedule. The Product Schedule identifies those oil spill remediation agents, such as dispersants and surface washing agents, which could be authorized for use by an On-Scene Coordinator (OSC) on an oil discharge. Product testing ensures their effectiveness and provides toxicity information used by OSCs and Regional Response Teams in making informed decisions regarding the use of certain products in response to specific spills. EPA focuses its oil spill research efforts on human health impacts, ecological effects, and shoreline and coastal impacts from oil discharges and use of dispersants and other chemical agents, as well as spill remediation alternatives and innovative technology development and evaluation, including green technologies. Spill response is a priority for the Agency, and EPA has been instrumental in providing guidance for various response technologies. A key factor in providing guidance on spill response technologies is developing a firm understanding of the science behind spill behavior in the environment.

Appropriated funds for the Inland Oil Spill Programs support work designed to prevent oil spills using civil enforcement and compliance assistance approaches, as well as to prepare for and respond to any oil discharges affecting the inland waters of the United States. Pursuant to Clean Water Act section 311 (Oil Spill and Hazardous Substances Liability) requirements, EPA's Civil Enforcement program develops policies; issues administrative clean-up and removal orders and orders protecting public health; pursues administrative remedies and/or refers civil judicial actions to the Department of Justice; assesses civil penalties for discharges into the environment or violations of administrative orders or oil pollution prevention regulations; assists regulated entities in understanding their legal requirements under the Clean Water Act; and assists in the recovery of clean-up costs expended by the Government.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and function is Office of Mission Support (facilities infrastructure and operations).

## ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING TRANSFERS [AND RESCISSION] OF FUNDS)

For fiscal year [2021] 2022, notwithstanding 31 U.S.C. 6303(1) and 6305(1), the Administrator of the Environmental Protection Agency, in carrying out the Agency's function to implement directly Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally recognized Indian tribes or Intertribal consortia, if authorized by their member tribes, to assist the Administrator in implementing Federal environmental programs for Indian tribes required or authorized by law, except that no such cooperative agreements may be awarded from funds designated for State financial assistance agreements.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate pesticide registration service fees in accordance with section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136w–8): *Provided, That such fees collected shall remain available until expended.*

Notwithstanding section 33(d)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w–8(d)(2)), the Administrator of the Environmental Protection Agency may assess fees under section 33 of FIFRA (7 U.S.C. 136w–8) for fiscal year [2021] 2022.

*Notwithstanding any other provision of law, in addition to the activities specified in section 33 of Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w–8), fees collected in this and prior fiscal years under such section shall be available for the following activities as they relate to pesticide licensing: processing and review of data submitted in association with a registration, information submitted pursuant to section 6(a)(2) of FIFRA (7 U.S.C. 136d(a)(2)), supplemental distributor labels, transfers of registration and data compensation rights, additional uses registered by states under section 24(c) of FIFRA (7 U.S.C. 136v(c)), data compensation petitions, reviews of minor amendments, and notifications; review of applications for emergency exemptions under section 18 of FIFRA (7 U.S.C. 136p) and ensuing data collection activities; laboratory support and audits; administrative support; risk communication activities; development of policy and guidance; rule-making support; information collection activities; and the portions of salaries related to work in these areas.*

The Administrator is authorized to transfer up to \$330,000,000 of the funds appropriated for the Great Lakes Restoration Initiative under the heading "Environmental Programs and Management" to the head of any Federal department or agency, with the concurrence of such head, to carry out activities that would support the Great Lakes Restoration Initiative and Great Lakes Water Quality Agreement programs, projects, or activities; to enter into an interagency agreement with the head of such Federal department or agency to carry out these activities; and to make grants to governmental entities, nonprofit organizations, institutions, and individuals for planning, research, monitoring, outreach, and implementation in furtherance of the Great Lakes Restoration Initiative and the Great Lakes Water Quality Agreement.

The Science and Technology, Environmental Programs and Management, Office of Inspector General, Hazardous Substance Superfund, and Leaking Underground Storage Tank Trust Fund Program Accounts, are available for the construction, al-

teration, repair, rehabilitation, and renovation of facilities, provided that the cost does not exceed \$150,000 per project.

*The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g) for fiscal year 2022: Provided, That such fees collected shall remain available expended.*

*The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 26(b) of the Toxic Substances Control Act (15 U.S.C. 2625(b)) for fiscal year 2022: Provided, That such fees collected shall remain available until expended.*

For fiscal year **[2021]** 2022, and notwithstanding section 518(f) of the Federal Water Pollution Control Act (33 U.S.C. 1377(f)), the Administrator is authorized to use the amounts appropriated for any fiscal year under section 319 of the Act to make grants to Indian tribes pursuant to sections 319(h) and 518(e) of that Act.

The Administrator is authorized to use the amounts appropriated under the heading "Environmental Programs and Management" for fiscal year **[2021]** 2022 to provide grants to implement the Southeastern New England Watershed Restoration Program.

Notwithstanding the limitations on amounts in section 320(i)(2)(B) of the Federal Water Pollution Control Act, not less than \$1,500,000 of the funds made available under this title for the National Estuary Program shall be for making competitive awards described in section 320(g)(4).

For fiscal **[year 2021]** years 2022 through 2026, the Office of Chemical Safety and Pollution Prevention and the Office of Water may, using funds appropriated under the headings "Environmental Programs and Management" and "Science and Technology", contract directly with individuals or indirectly with institutions or

nonprofit organizations, without regard to 41 U.S.C. 5, for the temporary or intermittent personal services of students or recent graduates, who shall be considered employees for the purposes of chapters 57 and 81 of title 5, United States Code, relating to compensation for travel and work injuries, and chapter 171 of title 28, United States Code, relating to tort claims, but shall not be considered to be Federal employees for any other purpose: *Provided, That amounts used for this purpose by the Office of Chemical Safety and Pollution Prevention and the Office of Water collectively may not exceed \$2,000,000 per year.*

*The appropriation provided by 42 U.S.C. 9622(b)(3) is available for the hire, maintenance, and operation of aircraft.*

*The Environmental Protection Agency Working Capital Fund, 42 U.S.C. 4370e, is available for expenses and equipment necessary for modernization and development of information technology of, or for use by, the Environmental Protection Agency.*

*The Administrator may, after consultation with the Office of Personnel Management, employ up to seventy-five persons at any one time in the Office of Research and Development and twenty-five persons at any one time in the Office of Chemical Safety and Pollution under the authority provided in 42 U.S.C. 209, through fiscal year 2025.*

**[Of the unobligated balances available for the "State and Tribal Assistance Grants" account, \$27,991,000 are hereby permanently rescinded: *Provided, That no amounts may be rescinded from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985.*]** *(Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021.)*

The Office of Management and Budget (OMB) assists the President in the discharge of budgetary, management, and other executive responsibilities.

*National Security Programs; Transportation, Homeland Security, Justice, and Services Programs; Housing, Treasury, and Commerce Programs; Climate, Energy, Environment, and Science Programs; Health Programs; and Education, Income Maintenance, and Labor Programs.*—These offices examine Federal agency programs, budget requests, and management activities, analyze legislation, apportion appropriations, study proposed changes in agency functions, and conduct special studies aimed at establishing goals and objectives that would result in long- and short-range improvements in the agencies' financial, administrative, and operational management.

*Financial Management.*—The OMB Office of Federal Financial Management develops and provides direction on the implementation of financial management policies and systems. This office also supports the effective and transparent use of Federal financial resources by improving the quality, utility, and transparency of financial information, and protecting against waste, fraud and abuse in the Federal government.

*Information and Regulatory Affairs.*—The OMB Office of Information and Regulatory Affairs reviews and coordinates agency proposals to implement or revise Federal regulations and information collection requirements. In addition, it analyses, develops, coordinates, and maintains information resources management and statistical policies and practices.

*Procurement Policy.*—The OMB Office of Federal Procurement Policy provides overall direction of Government-wide procurement policies, regulations, and procedures for executive agencies.

*OMB-wide Offices.*—These offices provide executive direction and coordination for all OMB activities. This includes the Director's Office; the Deputy Director, the Deputy Director for Management and the Executive Associate Director; Communications; General Counsel; Legislative Affairs; Economic Policy; Management and Operations Division; the Legislative Reference Division; the Budget Review Division; and the Performance and Personnel Management. In addition, these offices provide overall leadership for OMB's activities; develop instructions and procedures on a wide range of management, legislative, legal, economic, budgetary, administrative, and IT-related issues; coordinate OMB review of agency activities; and prepare the President's Budget documents.

The Office of the United States Trade Representative (USTR) is responsible for developing and coordinating America's trade policy, leading trade negotiations with other nations, and enforcing compliance with our trade agreements and U.S. trade laws. USTR also coordinates with other Federal agencies in developing trade policy and advising the President on trade matters.

USTR provides trade policy leadership and negotiating expertise in its major areas of responsibility, including industrial, textile, agricultural, and services trade policy; bilateral, regional, and multilateral trade and investment issues; trade-related intellectual property protection, labor and environmental issues; all matters within the World Trade Organization; and direct investment matters dealt with by international institutions such as the Organization for Economic Cooperation and Development and the United Nations Conference on Trade Development. USTR is organized to accommodate sectoral, regional, and functional policy perspectives, which are integrated into the decision-making process and coordinated externally with the Congress, other government agencies, the private sector, and foreign entities.

Information Technology Oversight and Reform (ITOR) funding provides the Government with a resource base controlled by the Director of the Office of Management and Budget (OMB) to support activities and tools that enhance the efficiency, effectiveness, and security of Federal investments in information technology (IT). ITOR supports Government-wide efforts to modernize out-of-date and inefficient IT, secure Federal IT systems and the agency data within, increase transparency in IT spending, and improve the governance of IT projects and services.

*Information Technology Oversight and Analysis.*—Under the direction of the Federal Chief Information Officer (CIO), the Office of the Federal CIO (OFCIO) will continue engaging with agency CIOs to refine the guidance and tools supporting effective management of the large investment by Federal agencies in information technology. Additionally, ITOR funds will support policy analysis and development efforts to support innovative approaches to IT management, leveraging modern solutions to IT problems faced by all organizations, through reliance on cloud-based and shared solutions where appropriate. OMB will continue to ensure effective implementation by agencies of the Federal Information Technology Acquisition Reform Act (FITARA), as directed in OMB guidance.

*Cybersecurity.*—ITOR funding for cybersecurity will continue to enable OMB to expand its data-driven, risk-based oversight of agency and government-wide cybersecurity programs. It will ensure OMB continues the issuance and implementation of Federal policies consistent with emerging technologies and evolving cyber threats. OMB will expand its work with the FASC and its implementation, the sharing of supply chain risk information, and the exercise of its authorities to recommend issuances of removal and exclusion orders to address supply chain security risks within agencies. OFCIO will continue to develop and enhance strategies to protect Federal information assets, acting in cooperation with the Office of the National Cyber Director, National Security Council staff, the Department of Homeland Security, the National Institute for Standards and Technology, the Congress, and Federal agency Chief Information Officers and Chief Information Security Officers.

*United States Digital Service (USDS).*—USDS uses design and technology to deliver better services to the American people. USDS deploys teams of seasoned operational engineers, service designers, product managers, and procurement experts who bring best practices and new approaches to rapidly respond to technology emergencies and modernize systems for long-term stability. USDS received \$200 million in the American Rescue Plan (ARP) to staff relief implementation projects and improve urgent delivery during the current crises, along with providing system stability through recovery. USDS will primarily use the funding for additional staff to support response and relief work. USDS staff are engaged on ARP projects for COVID vaccines and testing; child tax credit; aid to State, Local, Territorial, and Tribal Governments; unemployment insurance; emergency rental assistance; emergency broadband; and support to benefits programs centered on food security. USDS is executing on high-impact relief projects and will respond dynamically to events.

The Spectrum Relocation Fund (SRF), created by the Commercial Spectrum Enhancement Act of 2004, as amended by the Middle Class Tax Relief and Job Creation Act of 2012, reimburses Federal agencies that must relocate or share wireless communications systems in Federal spectrum that has been or will be reallocated to commercial use. Auction receipts associated with the reallocated spectrum are deposited into the SRF to pay eligible pre- and post-auction costs that help efficiently and effectively transition Federal agencies off of the reallocated spectrum or facilitate the sharing of Federal systems with non-Federal systems. The Office of Management and Budget (OMB) administers the SRF in consultation with the National Telecommunications and Information Administration (NTIA) of the Department of Commerce. In 2015, a portion of receipts associated with the Advanced Wireless Services 3 (AWS-3) auction, which reallocates Federal and other spectrum for flexible commercial use, were deposited into the SRF. Funds from the AWS-3 auction are being transferred to agencies with approved transition plans to reimburse them for the costs associated with clearing or sharing the auctioned bands. Transfers were made in 2015, 2016, 2017, 2018, 2019, and 2020, and will continue in future years. Most funds in the SRF must be returned to the Treasury eight years after they are deposited.

The Spectrum Pipeline Act of 2015, part of the Bipartisan Budget Act of 2015, authorized the transfer to agencies of up to \$500 million of SRF balances, and a portion of future deposits into the SRF, to fund advance

planning and research projects that are expected to facilitate future spectrum auctions. OMB, NTIA, and the Federal Communications Commission have approved projects totaling \$400 million through the end of 2020.

# ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

## (INCLUDING TRANSFER OF FUNDS)

SEC. 201. From funds made available in this Act under the headings "The White House", "Executive Residence at the White House", "White House Repair and Restoration", "Council of Economic Advisers", "National Security Council and Homeland Security Council", "Office of Administration", "Special Assistance to the President", and "Official Residence of the Vice President", the Director of the Office of Management and Budget (or such other officer as the President may designate in writing), may, with advance [approval of] notice to the Committees on Appropriations of the House of Representatives and the Senate, transfer not to exceed 10 percent of any such appropriation to any other such appropriation, to be merged with and available for the same time and for the same purposes as the appropriation to which transferred: *Provided*, That the amount of an appropriation shall not be increased by more than 50 percent by such transfers: *Provided further*, That no amount shall be transferred from "Special Assistance to the President" or "Official Residence of the Vice President" without the approval of the Vice President.

SEC. 202. (a) During fiscal year 2021, any Executive order or Presidential memorandum issued or revoked by the President shall be accompanied by a written statement from the Director of the Office of Management and Budget on the budgetary impact, including costs, benefits, and revenues, of such order or memorandum.

(b) Any such statement shall include—

(1) a narrative summary of the budgetary impact of such order or memorandum on the Federal Government;

(2) the impact on mandatory and discretionary obligations and outlays as the result of such order or memorandum, listed by Federal agency, for each year in the 5-fiscal-year period beginning in fiscal year 2021; and

(3) the impact on revenues of the Federal Government as the result of such order or memorandum over the 5-fiscal-year period beginning in fiscal year 2021.

(c) If an Executive order or Presidential memorandum is issued during fiscal year 2021 due to a national emergency, the Director of the Office of Management and Budget may issue the statement required by subsection (a) not later than 15 days after the date that such order or memorandum is issued.

(d) The requirement for cost estimates for Presidential memoranda shall only apply for Presidential memoranda estimated to have a regulatory cost in excess of \$100,000,000.

SEC. 203. Not later than 30 days after the date of enactment of this Act, the Director of the Office of Management and Budget shall issue a memorandum to all Federal departments, agencies, and corporations directing compliance with the provisions in title VII of this Act.

This revolving fund provides for real property management and related activities, including operation, maintenance, and repair of federally owned buildings, and the construction of Federal buildings, courthouses, and land ports of entry. Expenses of the Federal Buildings Fund (FBF) are financed from rental charges assessed to occupants of General Services Administration (GSA)-controlled space. Rent assessments, by law, approximate commercial rates for comparable space and services. Rental income is augmented by appropriations to the Fund when new construction needs exceed the resources available for investment within the Fund.

The Budget requests \$11,001 million in new obligational authority for the FBF, which represents \$364 million in net positive net budget request. The Administration's proposal ensures that GSA spends at least at the level of anticipated rent that it collects from Federal departments and agencies in order to provide space and services to those customers.

Historically, the FBF has been permitted to spend at least what it collects from agencies to support leasing from the private sector, as well as maintenance, repairs, major renovations, and new construction to accommodate

agency needs in buildings that GSA owns and operates. However, in several recent years, the FBF appropriations were significantly below the anticipated level of rent collections from agencies, denying GSA the ability to pursue an appropriately-sized capital program relative to the size of its portfolio. This year's \$364 billion net positive budget request will allow GSA to proceed with important investments in the Federal real property portfolio improving resilience and utilization as well as proactively mitigate cost in leased facilities to deliver the best possible value in real estate management for our partners and across Government.

The FBF consists of the following activities:

**Construction and Acquisition of Facilities.**—This activity provides for the construction or purchase of prospectus-level facilities, prospectus-level additions to existing buildings, and remediation. All costs directly attributable to site acquisition, construction, and the full range of design and construction services, and management and inspection of construction projects are funded under this activity (estimated project cost in thousands).

**Repairs and Alterations.**—This activity provides for repairs and alterations of existing buildings as well as associated design and construction services. Protection of the Government's investment, the health and safety of building occupants, relocation of agencies from leased space, and cost effectiveness are the principle criteria used in establishing priorities. Repairs and altera-

tions to improve space utilization, address life safety issues, and prevent deterioration and damage to buildings, building support systems, and operating equipment are given priority (estimated project costs in thousands).

**Rental of Space.**—This activity provides for the leasing of privately-owned buildings when federally owned space is not available. This includes space occupied by Federal agencies, including in U.S. Postal Service facilities. GSA provided 179 million square feet of rental space in 2020. GSA expects to provide 178 million square feet of rental space in 2021 and 175 million in 2022.

**Building Operations.**—The Building Operations program provides services for both federally owned and leased facilities as well as administration and management of all PBS real property programs. Of the total amount requested in support of Building Operations, the Building Services allocation funds services and cost increases for cleaning, utilities, maintenance, and building services; the Salaries and Expenses allocation supports Public Building Service (PBS) personnel costs excluding reimbursable FTE, PBS-specific IT applications and PBSs contribution to the WCF. The President's Budget proposes \$69,024,000 for the first repayment of fifteen annual repayments associated with the first two projects identified for funding through the Federal Capital Revolving Fund as proposed in the American Jobs Plan. These repairs and alterations projects involve building system upgrades and investments in critical building infrastructure that will improve the energy efficiency, environmental impact, life safety, and climate resiliency of the buildings being upgraded.

In support of the Administration's goal to invest in the repair, sustainability, and climate resiliency of Federal buildings as well as promote economic recovery, the Budget includes funding proposed in the American Jobs Plan; \$3 billion for the modernization of Land Ports of Entry along the northern and southern United States borders and \$5 billion for the construction, acquisition, and repair and alterations to Federal buildings and courthouses within the portfolio of the Federal Buildings Fund. The proposed funding will enable the General Services Administration to make necessary acquisitions and improvements to the portfolio, improve border security and facilitate international commerce, provide more efficient office space for agencies to execute their mission, help Federal buildings to withstand the impacts of climate change, and reduce the Federal Government's carbon footprint.

The President's Budget reflects \$5 billion in funding in support of the Administration proposal in the American Jobs Plan to support a new Federal Capital Revolving Fund (FCRF) to finance federally-owned civilian real property projects.

The FCRF will create a mechanism that is similar to a capital budget but operates within the traditional rules used for the Federal budget. Upon approval in an Appropriations Act, the revolving fund will transfer money to agencies to finance large-dollar real property purchases. Executing agencies will then be required to repay the fund in 15 equal annual amounts using discretionary appropriations.

As a result, purchases/construction/renovation of real property assets will no longer compete with annual operating and programmatic expenses for the limited funding available under tight discretionary caps. Instead, agencies will pay for real property over time as it is utilized. Repayments will be made from future appropriations, which will incentivize project selection based on highest mission need and return on investment, including future cost avoidance. The repayments will also replenish the revolving fund so that real property can continually be replaced as needed.

#### ASSET PROCEEDS AND SPACE MANAGEMENT FUND

For carrying out section 16(b) of the Federal Assets Sale and Transfer Act of 2016 (40 U.S.C. 1303 note), \$16,000,000, to remain available until expended: *Provided, That any proceeds from the sale of assets deposited under this heading shall remain available until expended and may be used for implementing the property recommendations of the Public Buildings Reform Board. (Financial Services and General Government Appropriations Act, 2021.)*

This activity provides for the purposes of carrying out actions pursuant to the Public Buildings Reform Board recommendations for civilian real property. In addition, amounts received from the sale of any civilian real property pursuant to a recommendation of the Board are available, as provided in appropriations Acts. Activities authorized include consolidation, co-location, exchange, redevelopment, reconfiguration of space, disposal, covering costs associated with sales transactions, acquiring land, construction, constructing replacement facilities, and conducting advance planning and design as may be required to transfer functions from a Federal asset or property to another Federal civilian property.

This appropriation covers relocation costs involved in moving agencies from valuable underutilized property, targeted for public sale, to facilities determined to be more economically suitable to their needs. Relocation and disposal is considered when the benefit/cost ratio is at least 2:1. The sale of these valuable underutilized properties would provide significant revenue to the Treasury and would far outweigh the relocation costs involved.

No appropriation is requested for this program in 2022. The General Services Administration will solicit relocation proposals from agencies.

This mandatory appropriation provides for the efficient disposal of real property assets that no longer meet the needs of landholding Federal agencies. The following costs are paid through receipts from such disposals each fiscal year: fees of auctioneers, brokers, appraisers, and environmental consultants; surveying costs; costs of advertising; costs of environmental and historical preservation services; highest and best use of property studies; property utilization studies; deed compliance inspections; and other disposal costs. GSA leverages the expertise of auctioneers and brokers familiar with local markets to accelerate the disposal of surplus real property.

This permanent, indefinite appropriation provides for the detection and recovery of overpayments to carriers for Government moves under rate and service agreements established by the U.S. General Services Administration (GSA) or by other Federal agency transportation managers. Program expenses are financed from overcharges collected from transportation service providers (TSPs) as a result of post payment audits examining the validity, propriety, and conformity of charges with the proper rate authority. Funds recovered in excess of expenses are returned to the U.S. Department of the Treasury.

The Acquisition Services Fund (ASF) is a full cost recovery revolving fund financing a majority of the Federal Acquisition Service's (FAS) operations. FAS also includes organizations that are funded out of the Operating Expense appropriation, the Transportation Audits warrant, and the Federal Citizen Services Fund (FCSF). The ASF provides for the acquisition of information technology (IT) solutions, telecommunications, motor vehicles, supplies, and a wide range of goods and services for Federal agencies. This fund recovers costs through fees charged to Federal agencies for services rendered and commodities provided.

The ASF is authorized by section 321 of title 40, United States Code, which requires the Administrator to establish rates to be charged to agencies receiving services that: 1) recover costs; and 2) provide for the cost and capital requirements of the ASF. The ASF is authorized to retain earnings to cover these costs, such as replacing fleet vehicles maintaining supply inventories adequate for customer needs, and funding anticipated operating needs specified by the Cost and Capital Plan.

The ASF currently funds six business portfolios and one strategic initiative within FAS:

**Assisted Acquisition Services (AAS).**—Assists agencies in making informed procurement decisions and serves as a center of acquisition excellence for the Federal community. AAS provides acquisition, technical, and project management services related to information technology and professional services at the best value.

**Office of General Supplies and Services Categories (GS&S).**—Provides partner agencies with general products such as furniture, office supplies, and hardware products. GS&S centralizes acquisitions on behalf of the Government to strategically procure goods and services at reduced costs, while ensuring regulatory compliance for partner agency procurements. This portfolio also provides personal property disposal services to partner agencies, which are partially funded by the Operating Expenses appropriation.

**Information Technology Category (ITC).**—Makes available IT and telecommunications products and services to Federal, State, and local agencies. ITC provides access to IT services, hardware, software, telecommunications, and IT security services.

## ACQUISITION SERVICES FUND—Continued

**Professional Services & Human Capital Categories (PSHC).**—Provides Federal agencies with professional and human capital services contract solutions, including payment solutions through the GSA SmartPay program.

**Technology Transformation Services (TTS).**—Partners with Government agencies to transform the way they build, buy, and share technology. TTS uses modern methodologies and technologies to help Federal agencies improve the public's digital experience with the Government. TTS helps agencies make their services more accessible, efficient, and effective with modern applications, platforms, processes, personnel, and software solutions.

**Travel, Transportation, and Logistics Categories (TTL).**—Provides partner agencies with travel, transportation, and relocation services; motor vehicle acquisition; and motor vehicle fleet leasing services.

**Integrated Award Environment (IAE).**—IAE provides centralized technology to support a modernized Federal award environment. IAE provides a Government-wide service in collaboration with governance groups of interagency experts by providing technology solutions to manage the collection and display of standardized data that is critical to maintaining the integrity of Federal procurement and financial assistance awarding processes and navigating the Federal acquisition lifecycle.

The Technology Modernization Fund (TMF) is a revolving fund that finances Federal agencies' transition from antiquated legacy information technology (IT) systems to more effective, secure, and modern IT platforms. The National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91), Subtitle G—Modernizing Government Technology (MGT), Section 1078 established the TMF and Technology Modernization Board (Board). The TMF is administered by the U.S. General Services Administration (GSA) in accordance with recommendations made by the interagency TMF Board established by the MGT Act. The Board is chaired by the Administrator of the Office of Electronic Government and comprises six additional members, delineated in the Act, possessing expertise in IT development, financial management, cybersecurity and privacy, and acquisition.

In accordance with OMB guidance, the Board rigorously reviews agency modernization proposals and prioritizes projects that cut across agencies, address immediate security gaps, and improve the public's ability to access government services. The Fund will invest in a diverse portfolio of projects having varying levels of repayment risk and payment flexibility, and expects to recover a portion of the funds.

The MGT Act provides the GSA Administrator and OMB Director with the authority to establish and amend the terms of repayment to the TMF. Extending repayment flexibility to agencies gives the Fund the ability to

make smart investments and maximize the benefit to the government and public. It allows the Fund to continue investing in projects with (i) the highest probability of success and (ii) the highest value to the public and/or highest impact security outcomes, regardless of whether cost savings are expected. Repayment can range from full repayment on investments with direct cost savings, such as replacing a legacy system with one that can be operated and maintained more efficiently, to minimal repayment for proposals that tackle the most urgent IT cybersecurity and modernization problems facing our government, and where cost savings are not easily realized by the proposing agency.

Ultimately, retiring or modernizing vulnerable and inefficient legacy IT systems will make agencies more secure and save money. Absent immediate action, the cost to operate and maintain legacy systems will continue to grow while security vulnerabilities and other risks will remain unresolved. As a means of addressing these pressing challenges, the TMF is an important step in changing the way the Federal Government manages its IT portfolio.

The Board has reviewed more than 50 project proposals from Federal agencies requesting more than \$550 million and has approved 11 modernization projects totaling \$126 million in initial project awards, and \$89 million in current award amounts taking into agency's requests to change their project scope

The Civilian Board of Contract Appeals (CBCA) provides the prompt, efficient, and inexpensive resolution of various disputes involving Federal executive branch agencies. The CBCA adjudicates contract disputes under the Contract Disputes Act (CDA) between Government contractors and all civilian executive agencies other than the National Aeronautics and Space Administration (NASA), the United States Postal Service (USPS), the Postal Regulatory Commission (PRC), and the Tennessee Valley Authority (TVA). Resolving CDA disputes can be accomplished by holding a hearing, deciding on the record, or achieving settlement through alternative dispute resolution (ADR). To accomplish this, the CBCA judges will hold a hearing or engage in ADR in the CBCA's offices or they will travel, at the CBCA's expense, to a mutually agreed upon location.

This appropriation provides agency-wide audit, investigative, and inspection functions to identify and correct management and administrative deficiencies within the General Services Administration (GSA), including conditions for existing or potential instances of fraud, waste, and mismanagement. This audit function provides internal audit and contract audit services. Contract audits provide professional advice to GSA contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of GSA operations and programs, test internal control systems, and develop information to improve operating efficiencies and enhance customer services. The investigative function provides for the detection and investigation of improper and illegal activities involving GSA programs, personnel, and operations. The inspection function supplements traditional audits and investigations by providing systematic and independent assessments of the design, implementation, and/or results of GSA's operations, programs, or policies.

The Acquisition Workforce Training Fund (AWTF) is a permanent, indefinite appropriation providing a stable source of funds to train the Federal civilian acquisition workforce. The AWTF is financed through a credit of five percent of the fees collected from non-Department of Defense activities by the General Services Administration (GSA) and other civilian agencies that manage Government-wide Acquisition Contracts (GWACs), Multiple Award Schedules (MAS) contracts, and other multi-agency contracts. Receipts are available for expenditure in the fiscal year collected, in addition to the two following fiscal years. The AWTF is managed by GSA's Federal Acquisition Institute (FAI) in consultation with the Office of Federal Procurement Policy, and the FAI Board of Directors.

The Federal Citizen Services Fund (FCSF) enables public access and engagement with the Government through an array of public and agency facing products and programs. The FCSF initiatives help individuals, businesses, other governments, and the media to easily interact with Federal information, services, benefits, and business opportunities. The FCSF

supports agency facing programs that drive Government-wide transformation through shared services, platforms and solutions. The programs funded by the FCSF also provide technical expertise to agencies to improve their operations and the public's experience with Government in support of the Administration's priorities and Cross-Agency Priority Goals. The FCSF supports extensive communities of practice to drive adoption and improvement of digital services while also helping agencies develop and share best practices. GSA will continue to leverage the FCSF to support initiatives that drive innovation in Government operations and improve the transparency, efficiency, and effectiveness of Federal operations and quality of Government services.

The FCSF funds a portion of the authorized activities of the Technology Transformation Services (TTS), an organization within GSA's Federal Acquisition Service. The FCSF appropriation provides for the salaries and expenses of staff and programs authorized by 40 U.S.C. 323 and 44 U.S.C. 3604. Reimbursements from Federal agencies pay for the direct costs of the services provided on behalf of the agencies such as contact center services. The FCSF is also authorized to collect user fees from the public and to accept gifts for the purposes of defraying the costs of publishing consumer information activities. The income from gifts does not have fiscal year limitations. Other TTS programs not funded by FCSF are supported by the Acquisition Services Fund (ASF) as reimbursable services to agencies. The ASF-funded portion of TTS includes the Office of 18F, the Office of Acquisitions, the Centers of Excellence, the Presidential Innovation Fellows Program, Cloud.gov, and Login.gov.

The Working Capital Fund (WCF) is a revolving fund that finances GSA's administrative services. Examples of these core support services include: IT management; budget and financial management; legal services; human resources; equal employment opportunity services; procurement and contracting oversight; emergency planning and response; and facilities management of GSA-occupied space. This account also funds liaison activities

with the U.S. Small Business Administration to ensure that small and disadvantaged businesses receive a fair share of the Agency's business. WCF offices also provide external administrative services such as human resource management for other Federal agencies, including small boards and commissions on a reimbursable basis. GSA's WCF operations are divided into four types of services: Internal Services, External Services, Major Equipment Acquisition & Development, and Direct Appropriations.

## ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

SEC. 520. Funds available to the General Services Administration shall be available for the hire of passenger motor vehicles.

SEC. 521. Funds in the Federal Buildings Fund made available for fiscal year [2021] 2022 for Federal Buildings Fund activities may be transferred between such activities only to the extent necessary to meet program requirements: *Provided*, That notice of any proposed transfers shall be [approved] transmitted in advance [by] to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 522. Except as otherwise provided in this title, [funds made available by this Act shall be used to transmit a fiscal year 2022] any request for United States

Courthouse construction [only if the request] *transmitted using funds made available by this Act should:* (1) [meets] *meet* the design guide standards for construction as established and approved by the General Services Administration, the Judicial Conference of the United States, and the Office of Management and Budget; (2) [reflects] *reflect* the priorities of the Judicial Conference of the United States as set out in its approved [Courthouse Project Priorities] *five-year construction* plan; and (3) [includes] *include* a standardized courtroom utilization study of each facility to be constructed, replaced, or expanded.

SEC. 523. None of the funds provided in this Act may be used to increase the amount of occupiable square feet, provide cleaning services, security enhancements, or any other service usually provided through the Federal Buildings Fund, to any agency that does not pay the rate per square foot assessment for space and services as determined by the General Services Administration in consideration of the Public Buildings Amendments Act of 1972 (Public Law 92–313).

SEC. 524. From funds made available under the heading "Federal Buildings Fund, Limitations on Availability of Revenue", claims against the Government of less than \$250,000 arising from direct construction projects and acquisition of buildings may be liquidated from savings effected in other construction projects with prior notification to the Committees on Appropriations of the House of Representatives and the Senate.

[SEC. 525. In any case in which the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate adopt a resolution granting lease authority pursuant to a prospectus transmitted to Congress by the Administrator of the General Services Administration under 40 U.S.C. 3307, the Administrator shall ensure that the delineated

area of procurement is identical to the delineated area included in the prospectus for all lease agreements, except that, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to each of such committees and the Committees on Appropriations of the House of Representatives and the Senate prior to exercising any lease authority provided in the resolution.]

SEC. [526]525. With respect to [each project funded under the heading "Major Repairs and Alterations"] *the Federal Buildings Fund construction and acquisition and major repair and alteration programs*, and with respect to E-Government projects funded under the heading "Federal Citizen Services Fund", the Administrator of General Services shall submit a spending plan and explanation for each project to be undertaken to the Committees on Appropriations of the House of Representatives and the Senate not later than 60 days after the date of enactment of this Act.

SEC. 526. *Section 3173(d)(1) of title 40, United States Code, is amended by inserting before the period the following: "or for agency-wide acquisition of equipment or systems or the acquisition of services in lieu thereof, as necessary to implement the Act".*

SEC. 527. *Section 3173(b)(1) of title 40, United States Code, is amended by inserting ", including advance payments," after "Amounts received".*

SEC. 528. *Section 323 of title 40, United States Code, is amended by adding at the end a new subsection:*

*"(f) The Administrator may enter into agreements to provide services through the Fund on a fully reimbursable basis."*

*(Financial Services and General Government Appropriations Act, 2021.)*

The Science appropriation provides for NASA's science mission, which is comprised of the agency's Earth and space science programs: Earth Science, Planetary Science, Heliophysics, Biological and Physical Sciences, the James Webb Space Telescope, and Astrophysics. These programs, which are managed by the Science Mission Directorate, focus on three interdisciplinary objectives: discovering the secrets of the Universe; searching for life in the Solar System and beyond; and safeguarding and improving life on Earth. These objectives include research concerning the global Earth system; other planets in the solar system and around other stars; the connections among the Sun, Earth, and heliosphere; and the origin and evolution of planetary systems, the galaxy, and the universe, including the origin and distribution of life in the universe. Program objectives are pursued through robotic flight missions, ground-based scientific research and data analysis, and the development of new technologies for future missions. Additionally, the Budget funds within Science a lunar robotic exploration program that will support innovative approaches to achieving human and science exploration goals.

The Science appropriation provides for all of the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, and procurement. Performance goals associated with these activities are addressed in NASA's detailed budget request.

This appropriation provides for the full costs associated with NASA's Aeronautics Research mission, which aims to expand the boundaries of aeronautical knowledge for the benefit of the nation and the broad aeronautics community. The mission is managed by NASA's Aeronautics Research Mission Directorate, and consists of the following integrated research programs: Airspace Operations and Safety, Advanced Air Vehicles, Integrated Aviation Systems, Transformative Aeronautics Concepts, and Aerosciences Evaluation and Test Capabilities. Full costs of these programs include all labor, travel, procurement, test, and fabrication costs associated with the research, development, operations, and other general and administrative activities required to execute the programs. Performance goals associated with these activities are addressed in NASA's detailed budget request.

This appropriation provides for the costs associated with research and development in space technologies serving multiple customers within NASA, private industry, academia, and other government agencies. The full costs provide for all of the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, procurement, and those associated with fabrication, tests and flight demonstrations.

The programs within the Space Technology account enhance research and development at NASA to contribute to the United States' leadership in space technology and enable human and robotic exploration of the Moon, Mars, and Beyond. The Space Technology appropriation funds several programs: Small Business Innovative Research (SBIR), Small Business Technology Transfer (STTR), Early Stage Innovation & Partnerships, Technology Maturation, and Technology Demonstrations. Performance goals associated with these activities are addressed in NASA's detailed budget request.

This appropriation provides for costs associated with the development of systems and capabilities required for human exploration of space. The capabilities include launch and crew vehicles for missions beyond low Earth orbit; providing integrated systems to keep astronauts safe, healthy, and functional during deep space missions; and advancing the tools to increase exploration capabilities and reduce the launch mass and cost of deep space missions. The full costs provide for the research, development, operations, salaries and related expenses, and other general and administrative activities required to execute the programs within this account. Costs include labor, travel, procurement, test, and fabrication costs. Performance goals associated with these activities are addressed in NASA's detailed budget request.

## EXPLORATION—Continued

NASA's human deep space exploration programs include the Space Launch System, Orion, Exploration Ground Systems under the Exploration Systems Development theme, as well as the Exploration Research and Development theme which consists of Advanced Exploration Systems, the Gateway, Advanced Cislunar and Surface Capabilities, the Human Landing System, and the Human Research Program.

This appropriation provides for costs associated with the Office of Science, Technology, Engineering, and Mathematics (STEM) Engagement. This includes support for the following projects: the Minority University Research and Education Project (MUREP), to broaden participation in engineering and other STEM fields; Space Grant, which funds education and research projects through a national network of university-based consortia; Next Gen STEM, which provides competitive awards for informal educational institutions and sustains a national network of museums and science centers; and the Established Program to Stimulate Competitive Research (EPSCoR), which supports partnerships between government, higher education, and industry to build stronger research and development capabilities in eligible states or regions. NASA will expand its efforts to broaden diversity and inclusion in STEM, including working with partner organizations to attract and retain underrepresented students in STEM fields and providing greater access to NASA STEM learning opportunities.

Safety, Security, and Mission Services (SSMS) manages agency-wide mission support functions and some of NASA's research facilities. This appropriation provides for the operations and maintenance, salaries and related expenses, and other general and administrative activities that support all NASA's missions. SSMS programs, projects and activities fall under the two Themes described below.

Mission Services and Capabilities (MSaC) delivers enterprise solutions through three programs: Information Technology; Mission Enabling Services; and Infrastructure and Technical Capabilities. These programs meet workforce, infrastructure, information technology and business operations requirements necessary to enable NASA's mission. MSaC ensures that critical Agency operations across all NASA Centers are effective, efficient, safe, and meet statutory, regulatory, and fiduciary responsibilities.

Engineering, Safety, and Operations (ESO) provides for the ongoing management of NASA Headquarters, nine Centers, and component facilities. It funds medical and engineering technical authorities and contributes to the reduction of program risks by ensuring that technical skills and assets are ready and available to meet program and project requirements. ESO ensures that Center practices are technically and scientifically sound and that specialized infrastructure at the Centers is safe and reliable.

This appropriation provides for the full costs associated with human-related Low Earth Orbit (LEO) and spaceflight operations activities of the Agency. The full costs include all labor, travel, procurement, test, and fabrication costs associated with the research, development, operations, and other general and administrative activities conducted by the programs within this account. Major themes within the Space Operations account include the International Space Station, Space Transportation, Space and Flight Support, and Commercial LEO Development. Performance goals associated with these activities are addressed in NASA's detailed budget request.

The International Space Station (ISS) is a complex of research laboratories in LEO where America and its international partners, including Russia, Canada, Europe, and Japan, conduct unique scientific and technological investigations in a microgravity environment. The objective of the International Space Station is to support human space exploration and conduct science experiments and technology development activities unique to the on-orbit attributes of the facility.

The Space Transportation theme is comprised of the Commercial Crew Program and Crew and Cargo Program, which transport U.S. astronauts and cargo safely back and forth to the ISS and, in the future, to other orbital platforms and destinations. Maintaining the ISS requires a fleet of vehicles and launch locations to transport astronauts, science experiments, supplies, maintenance hardware, and propellant to the ISS, and to dispose of waste generated on the ISS. The Commercial Crew Program partners with two U.S. companies, SpaceX and Boeing, to develop and operate safe, reliable, and affordable crew transportation to LEO. The Crew and Cargo Program purchases cargo transportation services to the ISS through contracts with Northrop Grumman, SpaceX, and Sierra Nevada and purchases crew transportation services from Boeing and SpaceX. Payments to develop and test commercial crew vehicles, and for initial Post Certification Missions for each provider are funded by the Commercial Crew Program, whereas subsequent payments for operational commercial crew missions are funded by the Crew and Cargo Program.

Space and Flight Support is comprised of multiple programs that provide ongoing support for a wide range of services required for safe and successful space mission operations. These programs include Space Communications and Navigation, Communications Services Program, Human Space Flight Operations, Launch Services, and Rocket Propulsion Testing. Services are provided to a wide range of customers including NASA, other U.S. Federal agencies, foreign governments, and industry partners.

Commercial LEO Development supports efforts to expand commercial activities in LEO, with a focus on enabling, developing, and deploying commercial platforms that can be used by NASA and other customers and on supporting the growth of private sector activity in LEO.

This appropriation provides for the operations of the NASA Office of Inspector General. The mission of the Office of Inspector General is to conduct audits and investigations of agency activities to prevent and detect fraud, waste, abuse, and mismanagement. The Inspector General keeps the NASA Administrator and the Congress informed of problems and deficiencies in agency programs and operations.

The Working Capital Fund provides goods and services on a reimbursable basis. The Fund finances four program activities. The first is the Solutions for Enterprise-wide Procurement program, which finances, on an agency-wide basis, scientific and engineering workstation procurement. The second program is the Information Technology Infrastructure Integration Program which consolidates and centralizes management of NASA information technology services in the areas of customer service and ordering, web services and technologies, enterprise business and management applications, integrated network/communications services, end user services, and data center services. The third program, NASA's Shared Services Center, performs selected financial management, human resources, information technology, and procurement services for NASA Headquarters and Centers. The last program, the National Center for Critical Information Processing and Storage, provides federal customers collocation services with complete redundancy in the electrical distribution system from the national grid to the rack level.

## ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

Funds for any announced prize otherwise authorized shall remain available, without fiscal year limitation, until a prize is claimed or the offer is withdrawn.

Not to exceed 5 percent of any appropriation made available for the current fiscal year for the National Aeronautics and Space Administration in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers. Any funds transferred to "Construction and Environmental Compliance and Restoration" for construction activities shall not increase that account by more than 20 percent. Balances so transferred shall be merged with and available for the same purposes and the same time period as the appropriations to which transferred. Any transfer pursuant to this provision shall be treated as a reprogramming of funds under section [505] 504 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

Not to exceed 5 percent of any appropriation provided for the National Aeronautics and Space Administration under previous appropriations Acts that remains available for obligation or expenditure in fiscal year [2021] 2022 may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers. Any transfer pursuant to this provision shall retain its original availability and shall be treated as a reprogramming of funds under section [505] 504 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

The spending plan required by this Act shall be provided by the National Aeronautics and Space Administration at the theme [.] and program [.] project, and

activity] level. The spending plan, as well as any subsequent change of an amount established in that spending plan that meets the notification requirements of section [505] 504 of this Act, shall be treated as a reprogramming under section [505] 504 of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

[Not more than 40 percent of the amounts made available in this Act for the Gateway; Advanced Cislunar and Surface Capabilities; Commercial LEO Development; Human Landing System; and Lunar Discovery and Exploration, excluding the Lunar Reconnaissance Orbiter, may be obligated until the Administrator submits a multi-year plan to the Committees on Appropriations of the House of Representatives and the Senate that identifies estimated dates, by fiscal year, for Space Launch System flights to build the Gateway; the commencement of partnerships with commercial entities for additional LEO missions to land humans and rovers on the Moon; and conducting additional scientific activities on the Moon. The multi-year plan shall include key milestones to be met by fiscal year to achieve goals for each of the lunar programs described in the previous sentence and funding required by fiscal year to achieve such milestones, as well as funding provided in fiscal year 2021 and previous years.]

[Of the amounts provided for Exploration Systems Development, \$25,000,000 shall be transferred to Construction and Environmental Compliance and Restoration (CECR) for Exploration Construction of Facilities consistent with direction provided in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act). The authority provided by this paragraph is in addition to the authority provided by the second paragraph under this heading.]

Not more than 20 percent or [\$50,000,000] \$25,000,000, whichever is less, of the amounts made available in the current-year CECR appropriation may be applied to CECR projects funded under previous years' CECR appropriation Acts. Use of current-year funds under this provision shall be treated as a reprogramming of funds under section [505] 504 of this act and shall not be available for obligation except in compliance with the procedures set forth in that section. The Research and Related Activities appropriation enables the United States to provide leadership and promote progress across the expanding frontiers of scientific and engineering research and education.

The major research program activities of NSF are:

**Biological Sciences.**—This activity supports understanding how complex living systems function and interact with each other and with non-living systems, which has direct impacts on issues related to the economy, food, human welfare, and the environment. Research in this activity crosses scales from molecules to cells through organisms to ecosystems. This activity's investment portfolio includes projects on understanding the fundamental characteristics of biological energy systems; the changing dynamics of the biosphere; infrastructure and research resources such as databases, research centers, and observatories; and efforts to broaden participation and develop the next generation of biological researchers.

**Computer and Information Science and Engineering.**—This activity promotes the progress of computer and information science and engineering research and education, and advances the development and use of advanced cyberinfrastructure across the science and engineering research enterprise; promotes understanding of the principles and uses of computing and information technology in society; and contributes to universal, transparent, and affordable participation in a knowledge-based economy.

**Engineering.**—Research supported by this activity aims to increase and strengthen U.S. engineering capability and focus that capability on areas that are relevant to national problems and long-term needs.

## RESEARCH AND RELATED ACTIVITIES—Continued

**Geosciences.**—This activity supports research and associated infrastructure to advance knowledge of the properties and dynamics of the planet on which we live. Research includes understanding the causes and implications of earth system dynamics, as well as disruptive processes such as earthquakes and storms.

**Mathematical and Physical Sciences.**—Research in this activity is directed at increasing understanding of natural laws and phenomena across the astronomical sciences, chemistry, materials sciences, mathematical sciences, and physics. Research support is available in multiple modalities ranging from multi-user facilities and mid-scale instrumentation to individual investigator awards, from sites for undergraduate research experiences to early career faculty development and collaborative and international efforts.

**Social, Behavioral, and Economic Sciences.**—This activity supports research, education, and infrastructure in the social, behavioral, cognitive, and economic sciences and funds the collection and dissemination of statistics on the science and engineering enterprise.

**Office of International Science and Engineering (OISE).**—This activity serves as the focal point of international activities at NSF. In addition to strategic funding and co-funding that targets catalytic partnerships and workforce-building international research opportunities, OISE advances NSF's global science leadership through extensive interactions with U.S. and global counterpart agencies and organizations.

**Office of Polar Programs.**—This activity supports Arctic and Antarctic research and operational science support and other related activities for United States polar research programs, including the funding to reimburse Federal agencies for logistical and other related activities supported by the United States Antarctic Program.

**Integrative Activities.**—This activity supports innovative, transdisciplinary team science, advanced research infrastructure, use-inspired research, and emerging national research priorities. Integrative Activities supports jurisdictional and institutional capacity-building programs helping universities expand their research capacity and improve competitiveness in science and engineering research. Additionally, Integrative Activities funding supports activities that expand NSF's capacity to use evidence for decision making. This activity provides support for a federally funded Research and Development Center, the Science and Technology Policy Institute.

**Technology, Innovation, and Partnerships.**—This new activity catalyzes strategic partnerships linking academia, industry, government, nonprofits, civil society, and investors to cultivate twenty-first-century innovation ecosystems, advancing U.S. leadership in critical technologies as well as in addressing national and societal challenges. Working in close collaboration with all of the above activities, this activity advances science and engineering innovation addressing societal challenges, accelerates the translation of fundamental discoveries into breakthrough technologies, and creates education pathways and jobs for a diverse workforce of researchers, practitioners, and entrepreneurs. This activity also includes Small Business Innovation Research, Small Business Technology Transfer, Innovation Corps, Partnerships for Innovation, and Convergence Accelerators.

The *United States Arctic Research Commission (USARC)* is an independent agency, funded through NSF's appropriations. USARC promotes Arctic research and recommends national Arctic research policies to guide Federal agencies in developing and implementing their research programs in the Arctic region.

This activity from the American Jobs Plan includes \$50 billion for the National Science Foundation (NSF), including funding to create a technology directorate that will collaborate with and build on existing programs across the government. The new directorate will focus on fields like semiconductors and advanced computing, advanced communications technology, advanced energy technologies, and biotechnology.

The Education and Human Resources (EHR) appropriation funds and manages a comprehensive set of programs that further NSF's goals of ensuring a diverse, globally competitive U.S. science, technology, engineering, and mathematics (STEM) workforce, as well as a scientifically literate population. To advance those goals, EHR collaborates with other NSF research units and Federal agencies, and promotes public-private partnerships. EHR supports research on STEM teaching and learning to provide the evidence base for improvements in education at all levels in the STEM disciplines. Supporting development and effective implementation of new learning technologies is also a priority. EHR's pre-K-12 education-research programs, for example, develop and test new instruction materials for students and teachers, which incorporate the latest advances in teaching, learning, and education technologies. STEM teacher-education opportunities occur throughout the full continuum, from pre-service and in-service, through life-long learning. Research programs at the undergraduate level improve curricula, strengthen laboratory courses, enhance faculty effectiveness, and lead education reforms in STEM disciplines. Advanced technological education programs strengthen student preparation for the high-technology workforce. Support of graduate-level STEM education primarily includes fellowships and traineeships to sustain U.S. leadership in global science and technology. All EHR programs aim to broaden participation of groups underrepresented in STEM fields by, for example, improving infrastructure and academic programs at minority-serving institutions. EHR activities also include programs supported by H-1B non-immigrant visa fees, which provide undergraduate and graduate scholarships in STEM disciplines, improve educational opportunities for students, and provide research opportunities for STEM teachers and students.

This account consists of contributions from organizations and individuals to fund various cooperative efforts in science, research, and education. Activities supported include cooperative research, joint seminars, exchange of senior scientists, short-term research development visits, international conferences, and support for certain special functions of NSF and the National Science Board. These funds are not otherwise available.

## ADMINISTRATIVE PROVISIONS

## (INCLUDING TRANSFER OF FUNDS)

Not to exceed 5 percent of any appropriation made available for the current fiscal year for the National Science Foundation in this Act may be transferred between such appropriations, but no such appropriation shall be increased by more than 10 percent by any such transfers. Any transfer pursuant to this paragraph shall be treated as a reprogramming of funds under section [505] 504 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

The Director of the National Science Foundation (NSF) shall notify the Committees on Appropriations of the House of Representatives and the Senate at least 30 days in advance of any planned divestment through transfer, decommissioning, termination, or deconstruction of any NSF-owned facilities or any NSF capital assets (including land, structures, and equipment) valued greater than \$2,500,000. The Office of Personnel Management's (OPM) mission is to recruit, retain and honor a world-class workforce for the American people. OPM will lead the way in making the Federal Government the model employer by being the model agency in implementing best practices, leading by example, and becoming the change we want to see.

The functions and objectives of OPM's major organizations are:

**Employee Services.**—Develops human resource (HR) policies for Executive Branch agencies and provides policy direction and leadership in designing, developing, and promulgating Government-wide HR systems and programs for recruitment, staffing, classification, pay, leave, training, performance management and recognition, employee development, management of executive resources, work/life/wellness programs, and labor and employee relations.

**Merit System Accountability and Compliance.**—Ensures Federal agency HR programs are effective, efficient, and meet merit system principles and related civil service requirements by working directly with other Federal agency Chief Human Capital Officers, Accountability Program Managers, HR managers and specialists. It improves agency programs that are not in compliance with Federal HR policies and regulation; and

SALARIES AND EXPENSES—Continued

improves the effectiveness and efficiency of the agency programs to meet agency mission and objectives.

**Retirement Services Program.**—Administers the Civil Service Retirement System and the Federal Employees Retirement System, serving Federal retirees and survivors who receive monthly annuity payments. Retirement Services Program will continue to focus on making initial eligibility determinations, adjudicating new retirements, initiating survivor benefit payments, and calculating post retirement changes due to disability and death.

**Healthcare & Insurance.**—Administers the Federal Employees Health Benefits Program, the Federal Employees' Group Life Insurance Program, the Federal Flexible Spending Account Program, the Federal Long Term Care Insurance Program, and the Federal Employee Dental and Vision Insurance Program. These programs provide a complete suite of insurance benefits for more than eight million Federal employees, retirees, and their families.

This appropriation funds the U.S. Office of Personnel Management (OPM) Office of Inspector General's (OIG) efforts to protect the integrity of OPM's programs and operations. The OPM OIG's audits, investigations, evaluations, and administrative sanctions programs serve to prevent and detect fraud, waste, abuse, and mismanagement. The OPM OIG's Office of Audits conducts audits of OPM programs and operations. The Office of Audits issued 42 audit reports in 2020, with questioned costs totaling over \$23 million. The majority of the Office of Audits' work involves the Federal Employees Health Benefits Program (FEHBP), auditing the health insurance carriers that contract with OPM as well as the pharmacy benefit managers these carriers use to administer the pharmacy benefit. In addition, the Office of Audits focuses on other key OPM benefits programs, including the Federal retirement program, the Federal Employees' Group Life Insurance Program, the Federal Employee Dental and Vision Insurance Program, the Federal Long Term Care Insurance Program, and the Federal Flexible Spending Accounts. The OPM OIG also conducts information systems audits that cover general and application controls and security within OPM information systems and programs as well as OPM contractor systems, such as those of FEHBP insurance carriers. One key project is to provide ongoing oversight of OPM's information technology (IT) modernization efforts. The OPM OIG's longstanding expertise in these areas has been recognized and endorsed by the Congress. The OPM OIG's continued oversight of these efforts is essential to the IT security posture of OPM, its systems, and the highly sensitive data contained in these systems. The Office of Audits also conducts audits of OPM revolving fund programs and operations, and the Office of Audits is responsible for the oversight of the OPM financial statement audit, which is conducted by an independent public accounting firm. The OPM OIG's Office of Investigations detects and investigates improper and illegal activities potentially involving OPM programs, personnel, contractors or operations. The Office of Investigations

is a statutory law enforcement organization, with its special agents having the authority to carry firearms, issue subpoenas, and to seek and execute both search and arrest warrants. In 2020, the OPM OIG's activities led to 49 arrests, 47 indictments/criminal investigations, and 37 criminal convictions, resulting in over \$16 million in recoveries to the OPM Trust Funds. In addition, the Office of Investigations partnered with the U.S. Department of Justice (DOJ) and other Federal, state, and local law enforcement agencies to investigate and help prosecute and collect fines, penalties, and forfeitures to the Federal Government totaling over \$651 million. Based on the evidence gathered during OPM OIG investigations, the Office of Investigations pursues appropriate remedies, including referrals to the DOJ for criminal prosecutions or civil action, and/or referral to OPM or to the OIGs FEHBP Administrative Sanctions program. The Office of Investigations also investigates allegations of fraud against OPM programs, such as the FEHBP and the Civil Service and Federal Employees Retirement Systems. When appropriate, the Office of Investigations also conducts investigations of OPM internal operations and employee and contractor misconduct. The OPM OIG's Office of Evaluations conducts nationwide studies of OPM programs from a broad, issue-based perspective, as well as evaluations of specific areas of operation and matters of urgent concern. The Office of Evaluations conducts special reviews in response to Congressional requests for studies or information that may require immediate attention and OPM management requests for independent assessments. Evaluators in this office use a variety of methods and techniques to evaluate and assess an OPM operation or concern to develop recommendations for OPM management, the Congress, and the public. In 2020, the Office of Evaluations issued three final evaluations reports. Finally, the OPM OIG FEHBP Administrative Sanctions program debar and suspends health care providers whose loss of licensure or conduct may pose a health and safety risk to FEHBP enrollees and their families or a financial threat to the FEHBP. In 2020, the OPM OIG was responsible for 776 suspensions and debarments within the FEHBP. In January 2014, the Congress passed the OPM IG Act (P.L. 11380). This legislation has provided the necessary funding for the OPM OIG to audit, investigate, and provide other oversight of the activities of the OPM revolving fund programs and operations.

The Payment to the Civil Service Retirement and Disability Fund consists of an appropriation and a permanent indefinite authorization to pay the Government's share of retirement costs. The payment is made directly from the general fund of the U.S. Treasury into the Civil Service Retirement and Disability Fund and is in addition to appropriated funds that will be contributed from agency budgets.

**Current Appropriation Payment of Government Share of Retirement Costs.**—The Civil Service Retirement Amendments of 1969 provides for an annual appropriation to amortize, over a 30-year period, all increases in Civil Service Retirement System costs resulting from acts of the Congress granting new or liberalized benefits, extensions of coverage, or pay raises, exclusive of the effects of cost-of-living adjustments. The Office of Personnel Management notifies the Secretary of the Treasury each year of such sums as may be necessary to carry out these provisions.

**Permanent Indefinite Authorization.**—Transfers for interest on static unfunded liability and payment of military service annuities. The Civil Service Retirement Amendments of 1969 also provides permanent, indefinite authorization for the Secretary of the Treasury to transfer, on an annual basis, an amount equal to five percent interest on the Civil Service Retirement and Disability Fund's current statutory unfunded liability, calculated

based on static economic assumptions, and annuity disbursements attributable to credit for military service.

**Payments for Spouse Equity.**—The permanent, indefinite authorization also includes a payment which provides for the Secretary of the Treasury to transfer an amount equal to the annuities granted to eligible former spouses of annuitants who died between September 1978 and May 1985 who did not elect survivor coverage.

**Financing.**—The unfunded liability of new and increased annuity benefits becoming effective on or after October 20, 1969, and annuities under special Acts to be credited to the Civil Service Retirement and Disability Fund, may be paid out of the Civil Service Retirement and Disability Fund.

This account contains reserve resources required under the Office of Personnel Management's (OPM) contract with the administrator of the Flexible Benefits program. This account is funded by payments from Federal agencies based on the participation of their employees in the program and from net forfeitures, as authorized by the National Defense Authorization Act for Fiscal Year 2004 (P.L. 108–136). Account assets are available to indemnify the administrator when benefit payments exceed contributions, for program enhancements, and for OPM's administration of the program. The reserve account balance currently exceeds that deemed necessary to defray reasonable risk, so account balances are also being used to mitigate Federal agencies' contractual costs for the program. Cost mitigation is projected to continue at least through 2022.

vices that OPM is authorized or required to perform on a reimbursable basis. Under this guidance, OPM operates several programs, which are funded by fees or reimbursement payments collected from other agencies and other payments. The following programs are authorized to use Revolving Funds: Suitability Executive Agent, Human Resources Solutions, Enterprise Human Resources, Human Resources Line of Business, Human Resources Tools & Technology, and Credit Monitoring and Identity Protection Services.

**Operating Results.**—In 2020, OPM's Revolving Fund businesses revenue total was -\$297 million and the expenses total was \$477 million which produced a net loss on operations of -\$773 million. The cumulative net position of the fund is a positive \$255 million. The primary reason for the loss in FY 2020 is residual financial activity related to the transfer of the background investigations function to the Department of Defense.

**The OPM IG Act (the Act) (P.L. 113–80).**—The Act extends permitted uses of the Revolving Fund to include financing the cost of audits, investigations, and oversight activities of OPM's Office of the Inspector General. The Act limits the amount of revolving fund resources available to the Office of the Inspector General each year to 0.33 percent of the total budgetary authority estimated for the fund in the year.

The Emergency Federal Employee Leave Fund (Fund) was established by the American Rescue Plan Act of 2021 (P.L. 117–2). The Fund is available to reimburse Federal agencies for the cost of COVID-19 related paid leave granted under section 4001 of the Act during fiscal year 2021, or until the Fund is exhausted if sooner. Once the Fund is exhausted, the leave program created by the Act ceases. The Fund is also available for reasonable expenses incurred by the Office of Personnel Management.

The Civil Service Retirement and Disability Fund (CSRDF) is the oldest and largest of the four trust funds administered by the Office of Personnel Management. The fund is financed and structured very differently from the other three trust funds. It is characterized by permanent indefinite budget authority. Budget authority is the authority to incur obligations and pay expenses which become available to an agency during any fiscal year. Once approved, permanent budget authority is permanently available for all future years. Indefinite budget authority is used when the precise amount of budget authority required cannot be forecast in advance and must thus be determined at some future point in time (e.g., when actual receipts and expenses become known).

The CSRDF covers two Federal civilian retirement systems: the Civil Service Retirement System (CSRS) established on May 22, 1920, and the Federal Employees Retirement System (FERS) established on June 6, 1986. The Retirement Fund is a single plan even though there are two different benefit tiers and funding methods. CSRS is largely a defined benefit plan, covering Federal employees hired prior to 1984. CSRS participants do not participate in the Social Security system. FERS is a three-tiered pension program that uses Social Security as a base, provides an additional basic benefit, and includes the Thrift Savings Plan (TSP). FERS covers employees hired after 1983 and formerly CSRS-covered employees who elected to join FERS.

The Budget proposes that the United States Patent and Trademark Office (PTO) continue to fund the full retirement benefits cost for PTO's employees covered under CSRS.

**Financing.**—CSRS has been financed under a statutory funding method passed by the Congress in 1969. This funding method is based on the static economic assumptions of no future inflation, no future General Schedule salary increases, and a 5.0 percent interest rate. Under CSRS, regular employees contribute 7.0 percent of pay. Law enforcement officers, firefighters, and congressional employees contribute an extra 0.5 percent of pay, and members of the Congress an extra 1.0 percent of pay. Non-United States Postal Service (USPS) agencies match the employee contributions. Also under the static funding method for CSRS, the Treasury pays interest on any static unfunded liabilities that are not being financed by USPS. The Treasury also makes payments to amortize, over a 30-year period, any increases in the static unfunded liability due to salary increases for non-USPS (non-Postal) employees that occurred during the year, and pays for the cost of any benefits attributable to military service for both Postal and non-Postal employees that were paid out during the year.

FERS is funded under a dynamic entry age normal funding method. Employees and agencies together contribute the full amount of the dynamic normal cost rate. The normal cost rate is for the defined benefit plan only, and does not include the cost of Social Security or the TSP. FERS regular employees contribute a percentage of salary that is equal to the contribution rate for CSRS employees, 7.0 percent, as set forth above, less the 6.2 percent tax rate under the Old-Age, Survivors and Disability Insurance portion of Social Security. Under FERS, the dynamic normal cost rates are as follows: Regular FERS non-Postal employees hired before 2013, the rate is 18.1 percent of pay (employee's share of 0.8 percent and employer's share of 17.3 percent). Regular FERS Postal employees rate is 16.5 percent of pay (employee's share, 0.8 percent, and employer's share, 15.7 percent); Regular FERS non-Postal employees hired during 2013 (known as FERS RAE/Revised Annuity Employee), the rate is 18.6 percent of pay (employee's share of 3.1 percent and employer's share of 15.5 percent). FERS RAE Postal employees rate is 16.9 percent of pay (employee's share, 3.1 percent, and employer's share, 13.8 percent); the Bipartisan Budget Act of 2013 included a provision to increase the normal cost rate of employee's contribution to FERS for individuals hired after 2013 and to maintain the employer's contribution rate at its current normal cost rate. Any contributions in excess of the amount necessary to satisfy FERS normal cost percentage will be credited to the assets of the fund, thereby reducing the unfunded liability. Regular employees hired after 2013 (known as FERS FRAE/Further Revised Annuity Employee), the rate is 19.9 percent of pay (employee's share of 4.4 percent and employer's share of 15.5 percent, and less excess of 1.1 percent to be credited to the assets of the CSRDF). FERS FRAE Postal employees rate is 17.1 percent of pay (employee's share, 4.4 percent, and employer's share, 12.7 percent).

Effective 2022, there will be a change in the normal cost rates for Postal FERS Employee/Employer Contributions and non-Postal FERS Employer Contributions. For regular FERS non-Postal employees (other than RAE and FRAE), the normal cost rate will be 19.2 percent of pay (employee's share, 0.8 percent, and employer's share, 18.4 percent). Regular FERS Postal employees will be 17.0 percent of pay (employee's share, 0.8 percent, and employer's share, 16.2 percent). For FERS RAE non-Postal employees, the normal cost rate will be 19.7 percent of pay (employee's share, 3.1 percent, and employer's share, 16.6 percent). FERS RAE Postal employees will be 17.5 percent of pay (employee's share, 3.1 percent, and employer's share, 14.4 percent). For FERS FRAE non-Postal employees, the normal cost rate will be 21.0 percent of pay (employee's share, 4.4 percent, employer's share, 16.6 percent, and less excess of 1.1 percent to be credited to the assets of the CSRDF). FERS FRAE Postal employees will be 17.8 percent of pay (employee's share, 4.4 percent, and employer's share, 13.4 percent). Under the Postal Accountability and Enhancement Act (P.L. 109435), USPS must make annual amortization payments beginning in 2017 to reduce any unfunded

This fund finances payments to private insurance companies for Federal Employees' Group Life Insurance and expenses of the Office of Personnel Management in administering the program.

The Administration proposes that the United States Patent and Trademark Office (PTO) will continue to fund the accruing costs associated with post-retirement life insurance benefits for PTO's employees.

**Budget program.**—The status of the Basic (regular and optional) life insurance program on September 30 is as follows:

Life insurance in force (in billions of dollars):	2020 actual	2021 est.	2022 est.
On active employees .....	843.1	863.2	883.7

This display combines the Federal Employees Health Benefit (FEHB) fund and the Retired Employees Health Benefits (REHB) fund. The FEHB fund provides for the cost of health benefits for: 1) active employees; 2) employees who retired after June 1960, or their survivors; 3) annuitants transferred from the REHB fund as authorized by Public Law 93–246; and 4) tribal organizations. The REHB fund, created by the Retired Federal Employees Health Benefits Act of 1960, provides for: 1) the cost of health benefits for retired employees and survivors who were enrolled in a Government-sponsored uniform health benefits plan; 2) the contribution to retired employees and survivors who retain or purchase private health insurance; and 3) expenses of OPM in administering the program.

**Budget program.**—The balance of the FEHB fund is available for payments without fiscal year limitation. Numbers of participants at the end of each fiscal year are as follows:

	2020 actual	2021 est.	2022 est.
Active employees .....	2,055,682	2,118,000	2,118,000
USPS active employees (non-add) .....	418,000	418,000	418,000
Annuity holders .....	1,937,285	1,959,820	1,981,619
Tribal Organizations .....	28,133	28,133	28,133
Total .....	4,021,100	4,105,953	4,127,752

In determining a biweekly subscription rate to cover program costs, one percent is added for administrative expenses and three percent is added for a contingency reserve held by OPM for each carrier. OPM is authorized to transfer unused administrative reserve funds to the contingency reserve. The REHB fund is available without fiscal year limitation. The amounts contributed by the Government are paid into the fund from annual appropriations. The number of participants at the end of each fiscal year are as follows:

	2020 actual	2021 est.	2022 est.
Uniform plan .....	31	26	21
Private plans .....	57	47	39
Total .....	88	73	60

**Financing.**—The funds are financed by: 1) withholdings from active employees and annuitants; 2) agency contributions for active employees; 3) Government contributions for annuitants appropriated to OPM; and 4) contributions made by the United States Postal Service in accordance with the provisions of Public Law 101–508.

Funds made available to carriers but not used to pay claims in the current period are carried forward as special reserves for use in subsequent periods. OPM maintains a contingency reserve, funded by employee and Government contributions, which may be used to defray future cost increases or provide increased benefits. OPM makes payments to carriers from this reserve whenever carrier-held reserves fall below levels prescribed by OPM regulations or when carriers can demonstrate good cause such as unexpected claims experience or variations from expected community rates.

This account funds the administrative expenses of SBA headquarters and field office operations. Appropriations for the administration of the disaster and business loan programs are transferred to and merged with this account. The 2022 Budget provides \$6 million in funding for the continued modernization of the loan management accounting systems, which will improve oversight of SBA's more than \$835 billion portfolio of loans and loan guarantees. Funding is also requested for core agency activities, including information technology investments and human capital development and enterprise-wide technology modernization initiatives including hardware, software and application standardization, mobile shared services implementation, security vulnerability reduction, and infrastructure upgrades.

The 2022 Budget proposes \$9.6 million in new budget authority for the Office of Advocacy to carry out its statutory duties, including those under the Regulatory Flexibility Act. The Office of Advocacy's advice and small business research help the Federal Government take into account the concerns of small businesses when it develops policies and regulations. The Office's regional advocates support regulatory flexibility at the State level, work with the regional Regulatory Fairness Boards established by the Small Business Regulatory Enforcement Fairness Act, and promote the use of Advocacy research and data products in the curricula of universities and other schools in their respective regions.

## ENTREPRENEURIAL DEVELOPMENT PROGRAMS—Continued

This account supports SBA's core counseling, training and technical assistance programs, including Small Business Development Centers (SBDC), SCORE, Women's Business Centers, Veterans' Business Outreach Centers (VBOC), and Microloan technical assistance, as well as various entrepreneurial development programs and initiatives. These include Entrepreneurial Education, a program designed to train and develop small business owners who are poised for growth; the State Trade Expansion Program (STEP), which helps small businesses tap global markets and expand exports; and Veterans Outreach programs like the Boots to Business program, which provides entrepreneurship training to America's veterans transitioning to civilian life. The Budget also supports other efforts, such as the HUBZone Program, Federal and State Technology (FAST) Partnership Program, and other outreach and contracting activities supporting underserved communities and fostering innovation.

SBA is authorized to issue bond guarantees to surety companies for construction, service, and supply contracts or work orders, and to reimburse these sureties up to 90 percent of the losses sustained if the contractor defaults. SBA's guarantees provide an incentive for sureties to issue bonds to small contractors who could not otherwise secure them and compete in the contracting industry. It is estimated that there are sufficient funds in reserve to cover the cost of claim defaults in 2022. Therefore, no new appropriated funds are requested in the Budget.

As required by the Federal Credit Reform Act of 1990, as amended, this account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the business loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

For 2022, the Budget proposes \$171.3 million in new budget authority for the Business Loans Program account. This includes \$160.3 million in administrative expenses funding; \$5.0 million to help facilitate access to capital to support climate change resiliency and the clean energy economy; and \$6.0 million in credit subsidy for the direct Microloan Program to support a program level of \$110 million. The 2022 Budget requests no subsidy appropriation for SBA's business loan guarantee programs, the 7(a), 504 Certified Development Company (CDC), 504 Debt Refinancing, and Small Business Investment Company (SBIC) programs. The Budget supports a program level of \$30 billion in Section 7(a) loan guarantees that provide general business credit assistance, while waiving upfront fees on SBA Express loans to Veterans. The Budget also proposes a program level of \$7.5 billion for the guaranteed loan program authorized by Section 503 of the Small Business Investment Act of 1958 for long-term, fixed-rate financing and a program level of \$7.5 billion for purposes of refinancing existing commercial mortgage and equipment debt authorized by Section 502(7)(C) of the Small Business Investment Act of 1958. The 2022 Budget continues to support innovative financial instruments through the SBA's SBIC program by providing up to \$4 billion in long-term guaranteed loans to support venture capital investments in small businesses. In addition, the Budget supports a \$13 billion program level for the Secondary Market Guarantee (SMG) program, which allows SBA's fiscal agent to pool the guaranteed portion of 7(a) loans and sell the securities to investors, in turn providing liquidity to participating 7(a) program lenders.

As required by the Federal Credit Reform Act of 1990, as amended, for loans made pursuant to Section 7(b) of the Small Business Act, as amended, this account records the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the disaster loan program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

Disaster loans made pursuant to Section 7(b) of the Small Business Act provide Federal assistance for non-farm, private sector disaster losses. Through the disaster assistance program, SBA helps homeowners, renters, businesses of all sizes, and non-profit organizations pay for the cost of replacing, rebuilding or repairing property damaged by disasters. The program is the only form of SBA financial assistance not limited to small businesses. The program provides subsidized loans for up to 30 years to borrowers who have incurred uninsured physical losses or economic injury as the result of a disaster. This includes Economic Injury Disaster Loans for COVID-19.

The Budget requests \$143 million in new budget authority for administrative expenses related to major disasters (pursuant to a determination under section 102(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act) and \$35 million for administrative expenses related

to non-major disasters and disaster mitigation. This includes \$5 million to help facilitate access to capital to support climate change resiliency and the clean energy economy,

**ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION**

(INCLUDING TRANSFERS OF FUNDS)

SEC. 540. Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Small Business Administration in this Act may be transferred between such appropriations, but no such appropriation shall be increased by more than 10 percent by any such transfers: *Provided*, That any transfer pursuant to this paragraph shall be treated as a reprogramming of funds under section 608 of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

SEC. 541. Not to exceed 3 percent of any appropriation made available in this Act for the Small Business Administration under the headings "Salaries and Expenses" and "Business Loans Program Account" may be transferred to the Administration's information technology system modernization and working capital fund (IT WCF), as authorized by section 1077(b)(1) of title X of division A of the National Defense Authorization Act for Fiscal Year 2018, for the purposes specified in section 1077(b)(3) of such Act, upon the advance [approval of] notice to the Committees on Appropriations of the House of Representatives and the Senate: *Provided*, That amounts transferred to the IT WCF under this section shall remain available for obligation through September 30, [2024] 2025.

SEC. 542. *DEVELOPMENT COMPANY LOANS TO SMALL MANUFACTURERS.*—Section 502(2)(A)(iii) of the Small Business Investment Act of 1958 (15 U.S.C. 696(2)(A)(iii)) is amended by striking "\$5,500,000" and inserting "\$6,500,000".

SEC. 543. *MICROLOAN PROGRAM FUNDING LEVEL CHANGE.*—Section 7(m)(7)(B)(i)(I)(bb) of the Small Business Act (15 U.S.C. 636(m)(7)(B)(i)(I)(bb)) is amended by striking "1/55" and inserting "1/25".

SEC. 544. *CHANGES TO 7(a) SECONDARY MARKET FEE PROVISIONS.*—Section 5(g)(2) of the Small Business Act is amended—

- (1) by redesignating the current paragraph as subparagraph (A); and
- (2) by adding a new subparagraph (B) to read as follows:

"(B) With respect to the Administration's guarantee of the payment of the principal of and interest on the trust certificates issued under this subsection, the Administration may assess, collect, and retain an annual fee, in an amount established once annually by the Administration in the Administration's budget request to Congress, not to exceed 0.05 percent per year of the outstanding balance of such trust certificates. The fee shall, at a minimum, offset the cost (as that term is defined in section 502 of the Federal Credit Reform Act of 1990) to the Administration of such guarantee, and any amounts received that exceed the cost of the payment guarantee shall be maintained in accordance with the Federal Credit Reform Act. The fee shall be payable solely by the holders of such trust certificates and shall not be charged to any borrower whose loan is part of such trust or pool. The Administration may contract with an agent to carry out, on behalf of the Administration, the assessment and collection of this fee. The fee shall be deducted from the amounts otherwise payable to such holders of the trust certificates."

SEC. 545. *REPEAL OF CERTAIN DISASTER AND BUSINESS LOAN PROGRAM AUTHORITIES.*—

(a) Section 42 of the Small Business Act (15 U.S.C. 657n) is repealed.

(b) Section 7(c) of the Small Business Act (15 U.S.C. 636(c)) is repealed.

(c) Section 7(a)(31)(H) of the Small Business Act (15 U.S.C. 636(a)(31)(H)) is repealed.

SEC. 546. *PERMANENT INCREASE TO THE UNSECURED THRESHOLD ON PHYSICAL DISASTER LOANS.*—Section 2102(b) of the RISE After Disaster Act of 2015 (Public Law 114–88) is repealed.

SEC. 547. *SMALL BUSINESS DEVELOPMENT CENTERS AND WOMENS BUSINESS CENTER PROGRAM EVALUATIONS.*—

(a) Section 21(a)(7)(A) of the Small Business Act (15 U.S.C. 648(a)(7)(A)) is amended by—

- (1) striking the word "or" at the end of clause (i);
- (2) striking the period at the end of clause (ii) and inserting "; or;" and
- (3) adding the following new clause:

"(iii) the Administrator considers such a disclosure to be necessary for the purpose of conducting a program evaluation."

(b) Section 29(n)(1) of the Small Business Act (15 U.S.C. 656(n)(1)) is amended by

- (1) striking the word "or" at the end of subparagraph (A);
- (2) striking the period at the end of subparagraph (B) and inserting "; or;" and
- (3) adding the following new subparagraph:

"(C) the Administrator considers such a disclosure to be necessary for the purpose of conducting a program evaluation."

Public Law 111-5 provided funding to process disability and retirement work, to replace the National Computer Center, and to administer \$250 economic recovery payments to eligible Social Security and Supplemental Security Income beneficiaries. The funds for administering the \$250 economic recovery payments were obligated by the end of the first quarter of 2011, as payments ended on December 31, 2010. All obligations since 2012 are for the replacement of the National Computer Center. SSA received a Presidential Waiver on December 28, 2012, allowing the agency to retain and continue to obligate funds appropriated for expenses of the replacement of the National Computer Center.

The Limitation on Administrative Expenses (LAE) account provides resources for Social Security to administer the Old-Age and Survivors Insurance (OASI) and Disability Insurance (SSDI) programs, the Supplemental Security Income (SSI) program, the Special Benefits for Certain World War II Veterans program, and certain health insurance functions for the aged and disabled. Public Law 114-10 prohibits displaying, coding, or embedding Social Security numbers on a beneficiary's Medicare card. In order to fund implementation costs to comply with this provision, SSA received \$98 million funded incrementally from FY 2015 to FY 2018. The account also includes funding to expand outreach to vulnerable populations.

The proposed \$1.7 billion in discretionary funding in 2022 for dedicated program integrity activities, including a \$1.4 billion allocation adjustment, allows SSA to conduct continuing disability reviews (CDRs) and SSI redeterminations to confirm that participants remain eligible to receive benefits, and it supports anti-fraud cooperative disability investigation (CDI) units and Special Assistant U.S. Fraud Attorneys. To continue to support these important anti-fraud activities, appropriations language provides for SSA to transfer up to \$12.1 million to the SSA Office of the Inspector General to fund CDI unit costs.

The Commission was established in the 400 Years of African-American History Commission Act to coordinate the 400th anniversary of the arrival of the first enslaved Africans in the English colonies. The Commission's purpose is to plan, develop, and carry out programs and activities throughout the United States that recognize and highlight the resilience and cultural contributions of Africans and African Americans over 400 years; acknowledge the impact that slavery and laws that enforced racial discrimination had on the United States; encourage civic, patriotic, historical, educational, artistic, religious, and economic organizations to organize and take part in anniversary activities; assist states, localities, and nonprofit organizations to further the commemoration; and coordinate public scholarly research about the arrival of Africans and their contributions to the United States.

The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies and standards under section 510 of the Rehabilitation Act for accessible medical diagnostic equipment. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of Advisors and the Technical Guidelines Development Committee, which helps the Election Assistance Commission develop voluntary guidelines and guidance for voting systems, including accessibility for people with disabilities.

The Administrative Conference of the United States is an independent agency that assists the President, the Congress, the Judicial Conference, and Federal agencies in improving the regulatory and legal process through consensus-driven applied research. The Conference analyzes the administrative law process and, among its many activities, issues formal recommendations for improvements that reduce costs to government agencies, promote effective public participation in the rulemaking process, and reduce unnecessary litigation. The Conference is a public-private partnership comprised of senior government officials and private sector leaders in law, business, and academia.

The Budget provides \$235 million for Appalachian Regional Commission (ARC), which was established as a Federal-State partnership in 1965 to invest in sustainable economic development in the 420-county Appalachian Region. The Commission is comprised of 13 members representing the states in the region and a Federal Co-Chair, who represents the Federal Government. ARC's mission is to help the Appalachian Region plan and coordinate regional investments and target resources to those communities with the greatest needs by innovating, partnering, and investing to build community capacity and strengthening economic growth. ARC's activities include area development, technical assistance, capacity-building, research, and coordination of regional investments and initiatives. In addition, ARC administers the POWER (Partnerships for Opportunity and Workforce and Economic Revitalization) Initiative, a competitive grant program for communities adversely impacted by the declining use of coal to develop economic diversification activities in emerging opportunity sectors.

The Consumer Financial Protection Bureau (CFPB or Bureau) was established under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203) as an independent bureau in the Federal Reserve System. The Act consolidated authorities previously shared by seven Federal agencies under Federal consumer financial laws into the CFPB and provided the Bureau with additional authorities to conduct

rulemaking, supervision, and enforcement. Funding required to support the CFPB's operations is obtained primarily through transfers from the Board of Governors of the Federal Reserve System. Pursuant to the Act, the CFPB is also authorized to collect civil penalties in any judicial or administrative action under Federal consumer financial laws. These amounts are maintained and displayed in a separate account titled "Consumer Financial Civil Penalty Fund."

Pursuant to Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), the Consumer Financial Protection Bureau (CFPB or Bureau) is authorized to collect civil penalties obtained in any judicial or administrative action under Federal consumer financial laws. Per the Act, such funds will be available for payments to the victims of activities for which civil penalties have been imposed under the Federal consumer financial laws. Obligations related to victim compensation are contingent upon identifying the specific victims qualifying for payments. To the extent that such victims cannot be located or such payments are otherwise not practicable, the Bureau may use such funds for the purpose of consumer education and financial literacy programs.

Independent actuarial projections show the CIARDS Fund with an unfunded liability of \$4.4 billion. To ensure that the Fund remains solvent and authorized payments to beneficiaries continue, the Budget proposes \$514 million in 2022. This amount reflects the amortized cost of recapitalizing the CIARDS Fund over twenty years.

The Chemical Safety and Hazard Investigation Board, as authorized by the Clean Air Act Amendments of 1990, became operational in 1998. It is an independent, non-regulatory agency that promotes chemical safety and accident prevention through investigating chemical accidents; making recommendations for accident prevention; conducting special studies; broadly disseminating its findings to industry and labor organizations; and informing stakeholder discussions on chemical safety and on actions taken by the Environmental Protection Agency, the Department of Labor, and other entities to implement Board recommendations. As authorized by law, the Board will submit a concurrent request for 2022 to the Congress and OMB.

The Budget includes \$5 million for the National Capital Arts and Cultural Affairs grant program which supports larger artistic and cultural institutions operating in the District of Columbia. The Budget maintains the requirement under current law that grantees have annual income, exclusive of Federal funds, of at least \$1 million for each of the three years prior to receipt of a grant. However, in order to partly compensate for the economic impacts of the Covid–19 pandemic on eligible applicants, particularly organizations with smaller annual operating budgets that may not otherwise qualify in 2021, 2022, and 2023 due to reduced levels of income resulting from mandatory closures and reduced programming, the Budget proposes to exclude 2020 from the grant eligibility calculation for 2021, 2022, and 2023.

Originally established by the Civil Rights Act of 1957, the U.S. Commission on Civil Rights is an independent, bipartisan, fact-finding Federal

agency. Its mission is to inform the development of national civil rights policy and enhance enforcement of Federal civil rights laws. The Commission pursues this mission by studying alleged deprivations of voting rights and alleged discrimination based on race, color, religion, sex, age, disability, or national origin, or in the administration of justice. The Commission plays a vital role in advancing civil rights through objective and comprehensive investigation, research, and analysis on issues of fundamental concern to the Federal government and the public. The Commission also supports a network of State Advisory Committees, each composed of a diverse group of citizen volunteers, which conduct civil rights research at the State and regional levels.

The National Defense Authorization Act for Fiscal Year 2020 established the Commission on Combatting Synthetic Opioid Trafficking. See Section 7221, Sub. B, Tit. LXXII, Div. F, of P.L. 116-92. The Commission has 15 members, seven representing the Executive Branch and eight Congressional appointees. The Commission authorized ONDCP to manage the Commission's funds. One of the Commission's key responsibilities is to develop a consensus on a strategic approach to combating the flow of

synthetic opioids into the United States, and thereafter, submit a mandated report to Congress.

The Committee for Purchase From People Who Are Blind or Severely Disabled (operating as the U.S. AbilityOne Commission, hereafter "Commission") administers the AbilityOne Program under the authority of the

## SALARIES AND EXPENSES—Continued

Javits-Wagner-O'Day Act of 1971, as amended. The principal objective of AbilityOne is to leverage the purchasing power of the Federal Government to provide employment opportunities for people who are blind or have other significant disabilities. The Commission accomplishes its mission by identifying Government procurement requirements that can create employment opportunities for individuals who are blind or have other significant disabilities. Following opportunities for public comment and after due deliberation, the Commission then places such products and service requirements on the AbilityOne Procurement List, requiring Federal departments and agencies to procure the designated products and services from a network of approximately 500 qualified State and private nonprofit agencies (NPAs) employing people who are blind or have other significant disabilities. The long-term vision of AbilityOne is to enable people who are blind or have other significant disabilities to achieve their maximum employment potential. In FY 2020, more than 42,000 AbilityOne employees earned a combined total of \$675,852,534 million in wages, with an average hourly wage of \$14.70. The AbilityOne Program continues to emphasize providing employment to veterans, with more than 3,200 employed in direct labor positions. More than 1,700 AbilityOne employees moved into competitive or supported employment in FY 2020 after gaining skills and experience on AbilityOne jobs.

While pursuing its core mission to increase employment opportunities for people who are blind or have other significant disabilities, the Commission is dedicated to effective stewardship and program integrity. The Commission continues to strengthen its Procurement List business processes and to enhance its oversight of AbilityOne Program participants. The resources proposed for 2022 will enable the Commission to continue implementing the requirements of the Consolidated Appropriations Act of 2016. These requirements include establishing and staffing the Commission and the Office of Inspector General for the AbilityOne Program. The requirements also include establishing and administering written agreements that govern the Commission's relationship with its designated central nonprofit agencies, evaluating reports and data from such central nonprofit agencies, implementing the recommendations of the 898 Panel to enhance stewardship, modernizing our information technology and maintaining the Commission's compliance and operations capacity to oversee a national program with more than \$4 billion in annual sales of products and services to the Government.

The mission of the Commodity Futures Trading Commission (CFTC or Commission) is to: foster open, transparent, competitive, and financially sound markets; prevent and deter price manipulation and other disruptions to market integrity; and protect market participants and the public from fraud, exploitation, and abusive practices related to derivatives and other products that are subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA). The CEA established a comprehensive regulatory structure to oversee the futures trading complex, commodity options trading, intermediaries, and swap dealer activities.

The Commission's regulatory landscape is continually changing. As a responsible regulator, the CFTC seeks to promote responsible innovation and development that is consistent with its statutory mission to enhance the derivative trading markets. Further, the agency seeks to lower the systemic risk of the futures and swaps markets to the economy and the public.

The markets under the CFTC's regulatory purview are economically significant. In the United States, the markets for futures and options on futures represent trillions of dollars of notional value while the swaps markets represents hundreds of trillions of dollars in notional value.

The Budget proposes legislation authorizing user fees to fund certain Commission activities, as specified by the CFTC, in line with nearly all other Federal financial and banking regulators. Contingent upon enactment of authorizing legislation, the Budget proposes collections of \$116 million to offset a portion of the CFTC's annual appropriation, providing total CFTC funding of \$394 million in FY 2022. CFTC fees would be designed in a way that supports market access, liquidity, and the efficiency of the Nation's derivatives markets.

Of the \$394 million proposed, \$332 million would sustain Commission operations. The remaining \$62 million is associated with the relocation of headquarters offices due to lease expirations occurring in FY 2025. The lease expirations provide the Commission with the opportunity to obtain space through occupancy agreements with the General Services Administration (GSA), rather than executing replacement leases directly. The amount proposed includes costs related to relocation, including build out, furnishings, information technology infrastructure, security-related equipment, logistical support, and appropriate GSA fees. The funds support the current schedule which projects funding for GSA in FY 2022 for the Washington, D.C. relocation. The \$62 million associated with relocation would not be used for the operations of the Commission.

Section 748 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) (the Dodd-Frank Act) amended the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA) to establish the Customer Protection Fund (Fund). The Fund is used to pay whistleblower awards, finance customer education initiatives, and administer the programs. The Dodd-Frank Act also authorized the Commodity Futures Trading Commission (Commission) to issue rules implementing incentives and protections for whistleblowers and to conduct customer education initiatives designed to help customers protect themselves against fraud and other violations of the CEA.

The Commission deposits monetary sanctions it collects in covered judicial or administrative actions into this revolving fund. The Commission may deposit such sanctions unless the balance in the Fund at the time the sanction is collected exceeds \$100 million. The Commission does not deposit restitution awarded to victims into the Fund.

The Commission is required to submit an annual report on the whistleblower award program and customer education initiatives to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. The report includes: a description of the number of whistleblower awards granted, and the types of cases in which these awards were granted, during the preceding fiscal year; the balance in the Fund; the amounts credited to and paid from the Fund; and a complete set of audited financial statements.

The U.S. Consumer Product Safety Commission (CPSC) is an independent federal regulatory agency, created in 1972 by the Consumer Product Safety Act (CPSA). In addition to the CPSA, as amended by the Consumer Product Safety Improvement Act of 2008 (CPSIA), and Public Law 112–28, the CPSC also administers other laws, including the Federal Hazardous Substances Act, the Flammable Fabrics Act, the Child Safety Protection Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, the Virginia Graeme Baker (VGB) Pool and Spa Safety Act, and the Children's Gasoline Burn Prevention Act. In FY 2022, CPSC will focus on the highest priority risks to consumers by expanding its hazard identification portfolio and adapting to consumer marketplace changes resulting from the expansion of e-commerce with enhanced internet surveillance. The CPSC will continue to build a robust import surveillance and targeting system to better identify and stop non-compliant or defective products from entering the U.S. market at ports of entry, and expand to locations with the highest volume of *de minimis* shipments. CPSC will enhance its outreach and communication efforts and expand data collections and analytical tools, particularly focusing on safety disparities among vulnerable populations.

#### ADMINISTRATIVE PROVISION—CONSUMER PRODUCT SAFETY COMMISSION

##### [ADMINISTRATIVE PROVISION—CONSUMER PRODUCT SAFETY COMMISSION]

##### [SEC. 501.]

During fiscal year 2021, none of the amounts made available by this Act may be used to finalize or implement the Safety Standard for Recreational Off-Highway Vehicles published by the Consumer Product Safety Commission in the Federal Register on November 19, 2014 (79 Fed. Reg. 68964) until after—

(1) the National Academy of Sciences, in consultation with the National Highway Traffic Safety Administration and the Department of Defense, completes a study to determine—

(A) the technical validity of the lateral stability and vehicle handling requirements proposed by such standard for purposes of reducing the risk of Recreational Off-Highway Vehicle (referred to in this section as "ROV") rollovers in the off-road environment, including the repeatability and reproducibility of testing for compliance with such requirements;

(B) the number of ROV rollovers that would be prevented if the proposed requirements were adopted;

(C) whether there is a technical basis for the proposal to provide information on a point-of-sale hangtag about a ROV's rollover resistance on a progressive scale; and

(D) the effect on the utility of ROVs used by the United States military if the proposed requirements were adopted; and

(2) a report containing the results of the study completed under paragraph (1) is delivered to—

(A) the Committee on Commerce, Science, and Transportation of the Senate;

(B) the Committee on Energy and Commerce of the House of Representatives;

(C) the Committee on Appropriations of the Senate; and

(D) the Committee on Appropriations of the House of Representatives. ]

The Corporation for National and Community Service (CNCS) provides service opportunities for Americans of all ages through institutions that include: nonprofits, schools, faith-based and other community organizations, and local governments. CNCS is now operating as AmeriCorps, which is a name adopted after extensive consultations with stakeholders to help streamline, align, and strengthen the agency's brand.

**AmeriCorps State and National.**—With funds channeled through States, Territories, Tribes, and community-based organizations, AmeriCorps grants enable communities to recruit, train, and place AmeriCorps members to serve in the areas of disaster services, economic opportunity, education, environmental stewardship, healthy futures, and veterans and military families, as directed by the Edward M. Kennedy Serve America Act of 2009.

**AmeriCorps National Civilian Community Corps.**—AmeriCorps NCCC is a ten-month residential national service program for people ages 18 to 24. AmeriCorps NCCC members are deployed to respond to natural disasters and engage in urban and rural development projects across the nation.

**AmeriCorps VISTA.**—Provides full-time members to community organizations and public agencies working to resolve local poverty-related problems.

**State Service Commission Support Grants.**—These grants support the operation of State Service Commissions that administer approximately two-thirds of AmeriCorps State and National grant funds.

**Retired Senior Volunteer Program.**—RSVP grants support volunteers aged 55 and older with service opportunities, including mentoring children and providing independent living services to adults.

**Foster Grandparent Program.**—Grants provide low-income volunteers age 55 and older with service opportunities to provide one-on-one mentoring and support to at-risk children.

**Senior Companion Program.**—Grants support low-income volunteers who provide companionship, transportation, help with light chores, and

respite to assist seniors and people with disabilities to remain in their own homes.

**Innovation, Demonstration, and Assistance.**—These initiatives and programs are aimed at incubating new ideas, while expanding proven initiatives that address specific community needs. For example, the Volunteer Generation Fund focuses on strengthening the ability of nonprofits and other organizations to recruit, retain, and manage volunteers.

**Evaluation.**—This activity supports the design and implementation of research and evaluation studies and facilitates the use of evidence and evaluation by CNCS and national service organizations.

**ADMINISTRATIVE PROVISIONS**

SEC. 401. CNCS shall make any significant changes to program requirements, service delivery or policy only through public notice and comment rulemaking. For fiscal year [2021] 2022, during any grant selection process, an officer or employee of CNCS shall not knowingly disclose any covered grant selection information regarding such selection, directly or indirectly, to any person other than an officer or employee of CNCS that is authorized by CNCS to receive such information.

SEC. 402. AmeriCorps programs receiving grants under the National Service Trust program shall meet an overall minimum share requirement of 24 percent for the first 3 years that they receive AmeriCorps funding, and thereafter shall meet the overall minimum share requirement as provided in section 2521.60 of title 45, Code of Federal Regulations, without regard to the operating costs match requirement in section 121(e) or the member support Federal share limitations in section 140 of the 1990 Act, and subject to partial waiver consistent with section 2521.70 of title 45, Code of Federal Regulations.

SEC. 403. Donations made to CNCS under section 196 of the 1990 Act for the purposes of financing programs and operations under titles I and II of the 1973 Act or subtitle B, C, D, or E of title I of the 1990 Act shall be used to supplement and not supplant current programs and operations.

SEC. 404. In addition to the requirements in section 146(a) of the 1990 Act, use of an educational award for the purpose described in section 148(a)(4) shall be limited to individuals who are veterans as defined under section 101 of the Act.

SEC. 405. For the purpose of carrying out section 189D of the 1990 Act—

(1) entities described in paragraph (a) of such section shall be considered "qualified entities" under section 3 of the National Child Protection Act of 1993 ("NCPA");

(2) individuals described in such section shall be considered "volunteers" under section 3 of NCPA; and

(3) State Commissions on National and Community Service established pursuant to section 178 of the 1990 Act, are authorized to receive criminal history record information, consistent with Public Law 92-544.

SEC. 406. Notwithstanding sections 139(b), 146 and 147 of the 1990 Act, an individual who successfully completes a term of service of not less than 1,200 hours during a period of not more than one year may receive a national service education award having a value of 70 percent of the value of a national service education award determined under section 147(a) of the Act.

SEC. 407. Section 148(f)(2)(A)(i) of the 1990 Act shall be applied for this fiscal year by striking "a national service program that receives a grant under subtitle C" and inserting "an approved national service position".

SEC. 408. (a) Section 137(a)(5) of the 1990 Act shall be applied in fiscal year 2022 as if the following were inserted before the period: ", or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)";

(b) Section 146(a)(3) of the 1990 Act shall be applied in fiscal year 2022 as if the following were inserted before the period: ", or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)".

(c) Notwithstanding sections 141 and 146 of the 1990 Act, or any other provision of law, a participant in a national service program carried out under the authority of the 1973 Act shall be eligible for the national service educational award described in subtitle D of title I of the 1990 Act if the participant—

(1) meets the criteria specified in paragraphs (1) through (4) of subsection (a) of section 137 of the 1990 Act; and

(2) is a citizen or national of the United States or lawful permanent resident alien of the United States, is able to provide evidence from the Department of Homeland Security that he or she is in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident, or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)".

The Budget proposes an advance appropriation of \$475 million for the Corporation for Public Broadcasting (CPB) for fiscal year 2024. In 1975, Congress first agreed to begin providing CPB with a two-year advance appropriation to support long-range financing planning and to insulate programming decisions. This commitment of future federal dollars helps leverage investments from other sources and gives producers essential lead time to plan, design, create, and support programming and services. CPB uses funding to provide grants to qualified public television and radio stations to be used at their discretion for purposes related to program production or acquisition, as well as for general operations. CPB also supports the production and acquisition of radio and television programs for national distribution. In addition, CPB assists in the financing of several system-wide activities, including interconnection services and limited technical assistance, research, and planning services to improve systemwide capacity and performance.

The Inspector General (IG) Reform Act of 2008 (P.L. 110–409) created the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to address program integrity, efficiency, and effectiveness issues that transcend individual Government agencies and to increase the professionalism and effectiveness of IG staff.

Pursuant to Section 7 of the Inspector General Reform Act of 2008, the revolving fund provides resources for CIGIE activities primarily through interagency funding, which includes member contributions and tuition. Additional appropriations are provided for mandated activities such as Oversight.gov. Consistent with prior years, CIGIE plans to collect member contributions for 2022 during the second half of 2021, to be used primarily for the CIGIE Training Institute and operations. Although CIGIE will collect the required member contributions for 2022 from agency IGs in the second half of 2021, the Budget includes funds in individual IG budgets that are dedicated to CIGIE and will be collected in 2022 for use in 2023.

public safety, prevent crime, reduce recidivism, and support the fair administration of justice in close collaboration with the community.

The CSOSA appropriation supports the Community Supervision Program and the Pretrial Services Agency.

**Community Supervision Program.**—This activity provides supervision of adult offenders on probation, parole, or supervised release, consistent with a crime prevention strategy that emphasizes public safety and successful reintegration. The Community Supervision Program employs an integrated system of close supervision, drug testing, graduated sanctions, treatment, transitional housing, and other offender support services, including services from community and faith-based collaborations. The Community Supervision Program also develops and provides the courts and the U.S. Parole Commission with critical information for probation, parole, and supervised release decisions.

**Pretrial Services Agency.**—This activity assists judicial officers in both the D.C. Superior Court and the U.S. District Court for the District of Columbia by formulating release recommendations and providing supervision and treatment services to defendants that reasonably assure that individuals on conditional release return to court and do not engage in criminal activity pending their trial and/or sentencing. The Pretrial Services Agency is responsible for enforcing conditions of release, conducting drug testing, administering graduated sanctions, referring defendants to treatment and other social services, and reporting to the courts defendants' compliance with their conditions of release.

## SALARIES AND EXPENSES

For expenses necessary for the Defense Nuclear Facilities Safety Board in carrying out activities authorized by the Atomic Energy Act of 1954, as amended by Public Law 100–456, section 1441, \$31,000,000, to remain available until September 30, [2022] 2023. (*Energy and Water Development and Related Agencies Appropriations Act, 2021.*)

The National Capital Revitalization and Self-Government Improvement Act of 1997 established the Court Services and Offender Supervision Agency (CSOSA) for the District of Columbia as an independent Federal agency to perform community supervision of D.C. Code offenders. CSOSA assumed the adult probation function from the D.C. Superior Court and the parole supervision function from the D.C. Board of Parole. The Pretrial Services Agency for the District of Columbia, responsible for supervising pretrial defendants, is an independent entity within CSOSA with its own budget and organizational structure. The mission of CSOSA is to increase

The Defense Nuclear Facilities Safety Board, an independent, non-regulatory agency within the Executive Branch, is responsible for evaluating the content and implementation of the standards relating to the design, construction, operation, and decommissioning of Department of Energy (DOE) defense nuclear facilities. The Board also reviews the design of new DOE defense nuclear facilities and periodically reviews and monitors construction of such facilities to ensure adequate protection of public and worker health and safety. The Board is also responsible for investigating any event or practice at a defense nuclear facility that has or may adversely affect public health and safety. The Board makes specific recommendations to the Secretary of Energy on measures that should be adopted to protect both public and employee health and safety.

The Budget provides \$30.1 million for the Delta Regional Authority (DRA). Established by Congress in 2000, DRA is a Federal-State partnership created to address the economic needs of the eight-state or 252 county/parish Mississippi Delta region. DRA's economic development investments, including regional planning, support the creation and sustainability of strong local and regional economies. Leveraging private and non-profit sectors, DRA's strategic investments support projects in the following categories: basic public infrastructure, transportation infrastructure, business development with an emphasis in entrepreneurship, and workforce development, as well as increasing access to quality healthcare.

The Budget provides \$18.1 million for the Denali Commission, of which an estimated \$3 million is from the Oil Spill Liability Trust Fund. Denali Commission was established by the Denali Commission Act of 1998 and is composed of seven members including the Federal Co-Chair. Denali's mission is to promote and provide sustainable infrastructure improvement, job training, and other economic development services that improve health, safety, and economic self-sufficiency within rural communities in Alaska and alleviate the long-term economic disparities suffered by Alaska Native communities.

The Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (P.L. 105-277) established the annual transfer of interest from the investment of the Trans-Alaska Pipeline Liability Fund balance into the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. As required by the Act, the Denali Commission, in consultation with the Coast Guard, developed a program to use these funds to repair or replace bulk fuel storage tanks in Alaska that were not in compliance with Federal law, including the Oil Pollution Act of 1990, or State law.

Under the National Capital Revitalization and Self-Government Improvement Act of 1997, the Federal Government is required to finance the District of Columbia Courts. This payment to the District of Columbia Courts funds the operations of the District of Columbia Court of Appeals, Superior Court, and the Court System, as well as capital improvements.

The Budget provides resources to support the D.C. Courts' core functions, including an increase in the fee paid to jurors, an initiative to expand access to justice, additional magistrate judges to resolve a variety of case types, and support staff to, for example, strengthen information security. In addition, the Budget provides resources for capital improvements necessary to stabilize the historic Recorder of Deeds building, to upgrade courtrooms and judges' chambers, and to maintain court facilities in Judiciary Square.

By law, the Courts' annual budget includes estimates of the expenditures for the operations of the District of Columbia Courts prepared by the Joint Committee on Judicial Administration in the District of Columbia and the President's recommendation for funding the District of Columbia Courts. The President's recommended level of \$273.5 million includes \$231.6 million for the District of Columbia Court of Appeals, the Superior Court of the District of Columbia, and the District of Columbia Court System operations and \$41.9 million for capital improvements for District courthouse facilities. Under a separate transmittal to the Congress, the District of Columbia Courts are requesting \$357.8 million: \$237.6 million for operations and \$120.2 million for capital improvements.

Under three Defender Services programs, the District of Columbia Courts appoint and compensate attorneys to represent persons who are financially unable to obtain such representation on their own. The Defender Services programs are the Criminal Justice Act program, which provides court-appointed attorneys to indigent persons who are charged with criminal offenses; the Counsel for Child Abuse and Neglect program, which provides court-appointed attorneys for family proceedings in which child neglect is alleged or where the termination of the parent-child relationship is under consideration and the parent, guardian, or custodian of the child is indigent; and the Guardianship program, which provides for the representation and protection of mentally incapacitated individuals and minors whose parents are deceased. In addition to legal representation, these programs provide indigent persons with services such as transcripts of court proceedings, expert witness testimony, foreign and sign language interpretation, investigations, and genetic testing. The President's recommended funding level for Defender Services is \$46.0 million, the same as the Courts' request.

The Superior Court of the District of Columbia administers the Crime Victims Compensation Fund, which finances assistance for innocent victims of violent crime, survivors of homicide victims, and dependent family members of homicide victims. The program provides compensation for certain costs related to the crime, such as medical expenses, temporary emergency housing, and funeral expenses. The Fund is financed through assessments imposed in criminal cases, court fines and fees, and a grant from the U.S. Department of Justice. Under the 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States (P.L. 107–206), one half of the Fund's unobligated balances at the end of each year are transferred to the District of Columbia Government for outreach activities designed to increase the number of crime victims who apply for compensation.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year, beginning in 1998, from the General Fund of the Treasury into the District of Columbia Judicial Retirement and Survivors Annuity Fund (Judicial Fund). Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund the normal cost and administrative expenses for the year. This ac-

count receives the annual payments from the General Fund and immediately transfers these amounts into the Judicial Fund.

DISTRICT OF COLUMBIA JUDICIAL RETIREMENT AND SURVIVORS ANNUITY  
FUND—Continued

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended (the Act), established the District of Columbia Judicial Retirement and Survivors Annuity Fund to pay retirement and survivor benefits for District of Columbia judges and expenses necessary to administer the Fund or incurred by the Secretary of the Treasury in carrying out responsibilities regarding such benefits. The Judicial Fund consists of amounts contributed by the judges, proceeds of accumulated pension assets transferred from the District of Columbia and liquidated pursuant to the Act, income earned from the investment of the assets in public debt securities, and amounts appropriated to the Fund.

The D.C. Tuition Assistance Grant program enables students from the District of Columbia to attend eligible public universities and colleges nationwide at in-state tuition rates. The program also provides grants for students to attend private institutions in the D.C. metropolitan area or private Historically Black Colleges and Universities nationwide, as well as public 2-year community colleges. The Budget proposes to increase the annual and lifetime grant limits, which have not been adjusted since the program's creation, to partially address the increasing costs of higher education.

## FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

For a Federal payment for a school improvement program in the District of Columbia, \$52,500,000, to remain available until expended, for payments authorized under the Scholarships for Opportunity and Results Act (division C of Public Law 112-10): *Provided*, That, to the extent that funds are available for opportunity scholarships and following the priorities included in section 3006 of such Act, the Secretary of Education shall make scholarships available to students eligible under section 3013(3) of such Act (Public Law 112-10; 125 Stat. 211) including students who were not offered a scholarship during any previous school year: *Provided further*, That within funds provided for opportunity scholarships up to \$1,750,000 shall be for the activities specified in sections 3007(b) through 3007(d) of the Act and up to \$500,000 shall be for the activities specified in section 3009 of the Act. The Budget includes \$5 million to fund the D.C. Department of Health's continued efforts to prevent the spread of HIV/AIDS in the District. This funding will allow the District to focus on service saturation in areas of combined high risk and high poverty in order to ensure that ward-level counseling and testing, prevention, and treatment services are readily available and fully utilized. Funding will also be used to bolster social marketing and outreach campaigns for these important public health pro-

grams. The Budget also includes \$8 million for the D.C. Water and Sewer Authority to continue implementation of the Combined Sewer Overflow Long-Term Plan, \$2.15 million for the Criminal Justice Coordinating Council, \$0.63 million for judicial commissions, and \$0.6 million for the D.C. National Guard.

#### FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

For a Federal payment of necessary expenses, as determined by the Mayor of the District of Columbia in written consultation with the elected county or city officials of surrounding jurisdictions, [\$38,400,000] \$25,000,000, to remain available until expended, for an additional amount for fiscal year 2021, for the costs of providing public safety at events related to the presence of the National Capital in the District of Columbia, including support requested by the Director of the United States Secret Service in carrying out protective duties under the direction of the Secretary of Homeland Security, and for the costs of providing support to respond to immediate and specific terrorist threats or attacks in the District of Columbia or surrounding jurisdictions: *Provided*, That, of the amount provided under this heading in this Act, \$21,872,372 shall be used for costs associated with the Presidential Inauguration held in January 2021, and shall be in addition to the amount made available for this purpose in section 131 of the Continuing Appropriations Act, 2021 and Other Extensions Act (Public Law 116–159). The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year from the General Fund of the Treasury into the District of Columbia Federal Pension Fund. This account receives the annual payments from the General Fund and immediately transfers these amounts into the District of Columbia Federal Pension Fund. Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund administrative expenses for the year.

The 1990 District of Columbia Appropriations Act established a system "to improve the means by which the District of Columbia (now the District of Columbia Water and Sewer Authority) is paid for water and sanitary sewer services furnished to the Government of the United States or any department, agency, or independent establishment thereof." Each agency is required to pay on a quarterly basis 25 percent of its estimated yearly bill into this account. If an agency fails to pay its obligation on time, the Treasury Department is authorized to pay the full government-wide bill by making up the missed agency payment(s) with a permanent, indefinite appropriation, which must then be reimbursed by the appropriate agency or agencies.

**TITLE VIII—GENERAL PROVISIONS—DISTRICT OF COLUMBIA****(INCLUDING TRANSFERS OF FUNDS)**

SEC. 801. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of legal settlements or judgments that have been entered against the District of Columbia government.

SEC. 802. None of the Federal funds provided in this Act shall be used for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

SEC. 803. (a) None of the Federal funds provided under this Act to the agencies funded by this Act, both Federal and District government agencies, that remain available for obligation or expenditure in fiscal year [2021] 2022, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditures for an agency through a reprogramming of funds which—

- (1) creates new programs;
- (2) eliminates a program, project, or responsibility center;
- (3) establishes or changes allocations specifically denied, limited or increased under this Act;
- (4) increases funds or personnel by any means for any program, project, or responsibility center for which funds have been denied or restricted;
- (5) re-establishes any program or project previously deferred through reprogramming;
- (6) augments any existing program, project, or responsibility center through a reprogramming of funds in excess of \$3,000,000 or 10 percent, whichever is less; or
- (7) increases by 20 percent or more personnel assigned to a specific program, project or responsibility center, unless prior [approval is received from] notice is provided to the Committees on Appropriations of the House of Representatives and the Senate.

(b) The District of Columbia government is authorized to approve and execute reprogramming and transfer requests of local funds under this title through November 7, [2021] 2022.

SEC. 804. None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses, or other costs associated with the offices of United States Senator or United States Representative under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979 (D.C. Law 3-171; D.C. Official Code, sec. 1-123).

SEC. 805. Except as otherwise provided in this section, none of the funds made available by this Act or by any other Act may be used to provide any officer or employee of the District of Columbia with an official vehicle unless the officer or employee uses the vehicle only in the performance of the officer's or employee's official duties. For purposes of this section, the term "official duties" does not include travel between the officer's or employee's residence and workplace, except in the case of—

- (1) an officer or employee of the Metropolitan Police Department who resides in the District of Columbia or is otherwise designated by the Chief of the Department;
- (2) at the discretion of the Fire Chief, an officer or employee of the District of Columbia Fire and Emergency Medical Services Department who resides in the District of Columbia and is on call 24 hours a day;
- (3) at the discretion of the Director of the Department of Corrections, an officer or employee of the District of Columbia Department of Corrections who resides in the District of Columbia and is on call 24 hours a day;
- (4) at the discretion of the Chief Medical Examiner, an officer or employee of the Office of the Chief Medical Examiner who resides in the District of Columbia and is on call 24 hours a day;
- (5) at the discretion of the Director of the Homeland Security and Emergency Management Agency, an officer or employee of the Homeland Security and Emergency Management Agency who resides in the District of Columbia and is on call 24 hours a day;
- (6) the Mayor of the District of Columbia; and
- (7) the Chairman of the Council of the District of Columbia.

SEC. 806. (a) None of the Federal funds contained in this Act may be used by the District of Columbia Attorney General or any other officer or entity of the District government to provide assistance for any petition drive or civil action which seeks to require Congress to provide for voting representation in Congress for the District of Columbia.

(b) Nothing in this section bars the District of Columbia Attorney General from reviewing or commenting on briefs in private lawsuits, or from consulting with officials of the District government regarding such lawsuits.

SEC. 807. None of the Federal funds contained in this Act may be used to distribute any needle or syringe for the purpose of preventing the spread of blood borne pathogens in any location that has been determined by the local public health or local law enforcement authorities to be inappropriate for such distribution.

SEC. 808. Nothing in this Act may be construed to prevent the Council or Mayor of the District of Columbia from addressing the issue of the provision of contraceptive coverage by health insurance plans, but it is the intent of Congress that any legislation

enacted on such issue should include a "conscience clause" which provides exceptions for religious beliefs and moral convictions.

SEC. 809. (a) None of the Federal funds contained in this Act may be used to enact or carry out any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative.

(b) No funds available for obligation or expenditure by the District of Columbia government under any authority may be used to enact any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative for recreational purposes.

SEC. 810. No funds available for obligation or expenditure by the District of Columbia government under any authority shall be expended for any abortion except where the life of the mother would be endangered if the fetus were carried to term or where the pregnancy is the result of an act of rape or incest.]

SEC. [811]810. (a) No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council of the District of Columbia, a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42), for all agencies of the District of Columbia government for fiscal year [2021]2022 that is in the total amount of the approved appropriation and that realigns all budgeted data for personal services and other-than-personal services, respectively, with anticipated actual expenditures.

(b) This section shall apply only to an agency for which the Chief Financial Officer for the District of Columbia certifies that a reallocation is required to address unanticipated changes in program requirements.

SEC. [812]811. No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council for the District of Columbia, a revised appropriated funds operating budget for the District of Columbia Public Schools that aligns schools budgets to actual enrollment. The revised appropriated funds budget shall be in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1–204.42).

SEC. [813]812. (a) Amounts appropriated in this Act as operating funds may be transferred to the District of Columbia's enterprise and capital funds and such amounts, once transferred, shall retain appropriation authority consistent with the provisions of this Act.

(b) The District of Columbia government is authorized to reprogram or transfer for operating expenses any local funds transferred or reprogrammed in this or the four prior fiscal years from operating funds to capital funds, and such amounts, once transferred or reprogrammed, shall retain appropriation authority consistent with the provisions of this Act.

(c) The District of Columbia government may not transfer or reprogram for operating expenses any funds derived from bonds, notes, or other obligations issued for capital projects.

SEC. [814]813. None of the Federal funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. [815]814. Except as otherwise specifically provided by law or under this Act, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year [2021]2022 from appropriations of Federal funds made available for salaries and expenses for fiscal year [2021]2022 in this Act, shall remain available through September 30, [2022]2023, for each such account for the purposes authorized: *Provided*, That a [request]notice shall be submitted to the Committees on Appropriations of the House of Representatives and the Senate [for approval] prior to the expenditure of such funds: *Provided further*, That these [requests]notices shall be made in compliance with reprogramming guidelines outlined in section 803 of this Act.

SEC. [816]815. (a)

(1) During fiscal year [2022]2023, during a period in which neither a District of Columbia continuing resolution or a regular District of Columbia appropriation bill is in effect, local funds are appropriated in the amount provided for any project or activity for which local funds are provided in the Act referred to in paragraph (2) (subject to any modifications enacted by the District of Columbia as of the beginning of the period during which this subsection is in effect) at the rate set forth by such Act.

(2) The Act referred to in this paragraph is the Act of the Council of the District of Columbia pursuant to which a proposed budget is approved for fiscal year [2022]2023 which (subject to the requirements of the District of Columbia Home Rule Act) will constitute the local portion of the annual budget for the District of Columbia government for fiscal year [2022]2023 for purposes of section 446 of the District of Columbia Home Rule Act (sec. 1–204.46, D.C. Official Code).

(b) Appropriations made by subsection (a) shall cease to be available—

(1) during any period in which a District of Columbia continuing resolution for fiscal year [2022]2023 is in effect; or

(2) upon the enactment into law of the regular District of Columbia appropriation bill for fiscal year [2022]2023.

(c) An appropriation made by subsection (a) is provided under the authority and conditions as provided under this Act and shall be available to the extent and in the manner that would be provided by this Act.

(d) An appropriation made by subsection (a) shall cover all obligations or expenditures incurred for such project or activity during the portion of fiscal year [2022]2023 for which this section applies to such project or activity.

(e) This section shall not apply to a project or activity during any period of fiscal year [2022]2023 if any other provision of law (other than an authorization of appropriations)—

(1) makes an appropriation, makes funds available, or grants authority for such project or activity to continue for such period; or

(2) specifically provides that no appropriation shall be made, no funds shall be made available, or no authority shall be granted for such project or activity to continue for such period.

(f) Nothing in this section shall be construed to affect obligations of the government of the District of Columbia mandated by other law.

SEC. [817]816. (a) Section 244 of the Revised Statutes of the United States relating to the District of Columbia (sec. 9–1201.03, D.C. Official Code) does not apply with respect to any railroads installed pursuant to the Long Bridge Project.

(b) In this section, the term "Long Bridge Project" means the project carried out by the District of Columbia and the Commonwealth of Virginia to construct a new Long Bridge adjacent to the existing Long Bridge over the Potomac River, including related infrastructure and other related projects, to expand commuter and regional passenger rail service and to provide bike and pedestrian access crossings over the Potomac River.

SEC. [818]817. Not later than 45 days after the last day of each quarter, each Federal and District government agency appropriated Federal funds in this Act shall submit to the Committees on Appropriations of the House of Representatives and the Senate a quarterly budget report that includes total obligations of the Agency for that quarter for each Federal funds appropriation provided in this Act, by the source year of the appropriation.

SEC. [819]818. Except as expressly provided otherwise, any reference to "this Act" contained in this title or in title IV shall be treated as referring only to the provisions of this title or of title IV.

SEC. 819. Section 3 of the District of Columbia College Access Act of 1999 (Public Law 106–98; D.C. Official Code, sec. 38–2702), is amended—

(1) in subsection (a)(2)(A), by striking "\$10,000" and inserting "\$15,000";

(2) in subsection (a)(2)(B), by striking "\$50,000" and inserting "\$75,000";

(3) in subsection (b)(1)(A), by striking the word "and" at the end;

(4) by redesignating subparagraph (B) of paragraph (1) of subsection (b) as subparagraph (C);

(5) by inserting after subparagraph (A) of paragraph (1) of subsection (b) the following new subparagraph:

"(B) After making reductions under subparagraph (A) of this paragraph, ratably reduce the amount of the tuition and fee payments for students receiving more than \$10,000 annually; and"; and

(6) in subsection (b)(1)(C), as so redesignated, by striking "subparagraph (A)" and inserting "subparagraphs (A) and (B)".

The 2022 Budget is an opportunity to advance the work the Commission began with the adoption of the Strategic Plan for 2018–2022. The strategic plan outlines a framework for achieving the EEOC's mission to "Prevent and Remedy Unlawful Employment Discrimination and advance equal opportunity for all in the workplace". The plan's strategic objectives include: 1) Combat and prevent employment discrimination through strategic law enforcement; and 2) Prevent employment discrimination and promote inclusive workplaces through education and outreach. The Budget will permit EEOC to improve efficiencies through data resource consolidation, promote knowledge sharing, and foster communication to avoid unnecessary duplication of effort and continue its standards of providing quality service to the public through enforcement and prevention activities. EEOC's enforcement responsibilities are in two areas: The private sector and the Federal sector.

*Private Sector.*—EEOC addresses equal employment opportunity in several ways. The agency investigates charges alleging employment discrimination; makes findings on the allegations; resolves charges through mediation; negotiates settlement or conciliation; and litigates cases of employment discrimination by enforcing compliance with existing laws and regulations. The priority for agency resources continues to be litigating systemic cases and maintaining a manageable inventory of cases.

The Export-Import Bank of the United States (EXIM or the Bank) is the official export credit agency of the United States. EXIM is an independent, Federal agency that supports American jobs by facilitating the export of U.S. goods and services. To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet officially sponsored foreign export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The Bank provides its export credit support through direct loan, loan guarantee, and insurance programs.

The 2022 Budget estimates that the Bank's export credit support will total \$9.6 billion, and will be funded entirely by receipts collected from the Bank's users. The Bank estimates it will collect \$352.0 million in 2022 in receipts in excess of expected losses on transactions authorized in 2022 and prior years. Consistent with 31 U.S.C. 1105, these amounts will be used to cover administrative expenses in an amount not to exceed \$114.0 million, of which \$12.1 million is requested for technology expenses. Any excess will be deposited in the General Fund of the Treasury. The 2022 Budget requests \$10 million in program budget costs.

As required by the Federal Credit Reform Act of 1990, this account records the costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The credit transactions are estimated on a present value basis; administrative expenses are estimated on a cash basis.

EXIM's liquidating account records all cash flows to and from the Government resulting from all EXIM direct loans obligated and loan guarantees committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance exports. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new EXIM credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System (System) for safety and soundness and program compliance. The System is a cooperative agricultural credit system of farm credit banks and associations that lend to farmers, ranchers, and their cooperatives; farm-related businesses; rural homeowners; and rural utilities. FCA also performs the examination and general supervision of Farmer Mac. In addition, FCA examines the National Consumer Cooperative Bank, which is not a System institution.

As of October 1, 2020, the System was composed of three Farm Credit Banks, one Agricultural Credit Bank, 68 associations, six service corporations, the Federal Farm Credit Banks Funding Corporation, and Farmer Mac.

Assessments based upon estimated administrative expenses are collected from institutions in the System, including Farmer Mac, and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the FCA Board. Section 6(g)(1) of the Inspector General Act of 1978, as amended, (IG Act) requires an Inspector General (IG) to include specific information in the budget request that the IG submits to its designated Federal entity to which the IG reports. To fulfill the requirement of Section 6(g)(2) of the IG Act as it pertains to FCA, the FCA Board must in turn include this same information in the budget request that the Agency submits to the President.

The information that the IG Act requires to be included is provided below:

The aggregate budget request for the Office of Inspector General (OIG) is \$1,894,523.

The amount needed for OIG training is \$28,000.

The amount needed to support the Council of the Inspectors General on Integrity and Efficiency is \$6,796.

The FCA IG's budget request for 2022 is being submitted unchanged by the FCA Board.

The Farm Credit System Insurance Corporation (Corporation) was established to ensure the timely payment of principal and interest on insured System debt obligations purchased by investors. The Corporation is managed by a three-member board of directors that consists of the same individuals as the Farm Credit Administration Board. However, the same member may not serve as a chair of both entities. The Corporation derives its revenues from insurance premiums collected from insured System banks and from the investment income earned on its investment portfolio. Insurance premiums are assessed on System banks based on the level of adjusted insured obligations outstanding at each bank. Congress established a secure base amount of 2 percent of adjusted outstanding insured System obligations, or such other amount determined by the Corporation's board of directors to be actuarially sound to maintain in the Insurance Fund. As of September 30, 2020, the Insurance Fund was \$36 million above the 2 percent secure base amount at 2.01 percent. Insurance premium rates are reviewed semiannually. For 2020, the board of directors set premium rates at its January 30, 2020 meeting at 8 basis points on average adjusted insured debt and continued the assessment of the 10 basis point surcharge on the average principal balance outstanding for nonaccrual loans and other-than-temporarily impaired investments. The board of directors again reviewed premiums at its June 25, 2020 meeting and voted to increase the premium accrual rate on average adjusted insured debt to 11 basis points and continued the assessment of the 10 basis point surcharge on the average principal balance outstanding for nonaccrual loans and other-than-temporarily impaired investments for the remainder of 2020. In January 2021, the Corporation's Board set insurance premium rates for calendar year 2021 at 16 basis points. The Corporation has the authority to make refunds of excess Insurance Fund balances.

The Insurance Fund is available for payment of insured System obligations if a System bank defaults on its primary liability. The Insurance Fund is also available to pay the operating costs of the Corporation and to exercise its authority to make loans, borrow, purchase System bank assets or obligations, provide other financial assistance and otherwise act to reduce its exposure to losses.

The Federal Communications Commission (FCC or Commission) works to ensure that rapid and efficient communications are available across the country at a reasonable cost. In support of this mission, the FCC's strategic goals for 2022 are: Pursue a "100 Percent" Broadband Policy; Promote Equity and Inclusion; Empower Consumers; Enhance Public Safety; Advance Americas Global Competitiveness and National Security; and Foster Operational Excellence. The 2022 Budget includes an overall request of \$388 million to fund the Commission. Of that amount, the requested funding for the FCC's Inspector General is \$12 million. The Commission is also requesting \$129 million for the Spectrum Auctions Program for 2022.

In 2020, the Commission established the COVID-19 Telehealth Program, which was funded through a \$200 million appropriation as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, to help eligible health care providers deliver telecommunications services, information services, and connected devices necessary to provide critical connected services to their patients whether for treatment of the COVID-19 disease or other health conditions during the COVID-19 pandemic. An additional \$250 million was appropriated to the Commission's COVID-19 Telehealth Program, as part of the Consolidated Appropriations Act, 2021.

Pursuant to the Communications Act of 1934, as amended by the Telecommunications Act of 1996 (1996 Act), all telecommunications service providers and certain other providers of telecommunications contribute to the Federal Universal Service Fund (USF) based on a percentage of their interstate and international end-user telecommunications revenues. These companies include wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers. The goals of USF are to increase access to both telecommunications and advanced services, such as high-speed Internet, for all consumers at just, reasonable and affordable rates. The 1996 Act established principles for universal service that specifically focused on increasing access to evolving services for consumers living in rural and insular areas, and for consumers with low incomes. Additional principles called for increased access to high-speed Internet in the nation's schools, libraries and rural health care facilities. The FCC established four programs within the USF to implement the statute. The four programs are: (1) High Cost—ensures consumers in rural, insular, and high cost areas have access to modern communications networks capable of providing voice and broadband service, both fixed and mobile, at rates that are reasonably comparable to those in urban areas; (2) Lifeline (for low-income consumers)—provides a monthly benefit on home or wireless phone and broadband service to eligible households and includes initiatives to expand phone service for residents of Tribal lands; (3) Schools and Libraries (E-rate)—provides funding to schools and libraries to obtain broadband, among other things; and (4) Rural Health Care—provides funding to eligible health care providers for telecommunications and broadband services necessary for the provision of health care. In addition, in 2020 the Commission established the Connected Care Pilot Program, to provide \$100 million in funding for select pilot projects covering 85% of the eligible costs of broadband connectivity, network equipment, and information services necessary to provide connected care services to the intended population over a three year period.

As part of the Americans with Disabilities Act of 1990 Congress amended the Communications Act of 1934 to direct the Federal Communications Commission "to ensure that interstate and intrastate telecommunications relay services (TRS) are available, to the extent possible and in the most efficient manner, to hearing and speech-impaired individuals in the United States." Section 225 of the Communications Act also directs the Commission to prescribe regulations that "generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay service shall be recovered from the intrastate jurisdiction." The shared-funding mechanism requires providers of interstate telecommunications services to contribute to a fund that reimburses TRS providers for the cost of providing interstate TRS. All telecommunications service providers and certain other providers of telecommunications contribute to the TRS Fund based on a percentage of their end-user telecommunications revenues. These companies include, but are not limited to, wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers.

This program provided direct loans for the purpose of purchasing spectrum licenses at the Federal Communications Commission's auctions. The licenses were purchased on an installment basis, which constitutes an extension of credit. The first year of activity for this program was 1996. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and administrative expenses are estimated on a cash basis. The FCC no longer offers credit terms on purchases through spectrum auctions. Program activity relates to maintenance and close-out of existing loans.

The Emergency Broadband Connectivity Fund was established in the Consolidated Appropriations Act of 2021 in the amount of \$3.2 billion, and FCC was directed to establish an Emergency Broadband Benefit Program (EBB Program). Under this program, eligible households may receive a discount off the cost of broadband service and certain connected devices during an emergency period relating to the COVID-19 pandemic, and participating providers can receive a reimbursement for such discounts. The EBB Program will conclude when the fund is expended or six months after the end of the public health emergency.

The Secure and Trusted Communications Networks Act of 2019 directed the Commission to establish a Reimbursement Program, and as part of the Consolidated Appropriations Act of 2021, \$1.9 billion was appropriated to carry out the program. The Reimbursement Program was established to fund the removal, replacement, and disposal of covered communications equipment or services that pose an unacceptable risk to the national security

of the United States or the security and safety of U.S. persons from the networks of providers of advanced communications service.

The Reimbursement Program will provide funding allocations to eligible providers based on their estimated costs. Program recipients can then obtain funding disbursements from their allocation upon showing of actual expenses incurred. Program recipients will have one year from the initial disbursement to complete the permanent removal, replacement, and disposal of covered communications equipment or services with the potential for a general and individual extensions of time.

## FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation (FDIC) was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The Federal Deposit Insurance Corporation Im-

provement Act of 1991 generally requires the FDIC to use the least costly method to resolve failed banks and mandates that the FDIC take prompt corrective action against under-capitalized financial institutions. To protect depositors, the FDIC is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as an insurer.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101–73) established the Bank Insurance Fund (BIF), the Savings Association Insurance Fund (SAIF), and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund (FRF). Under the Deposit Insurance Reform Act of 2005, the BIF and SAIF were merged into a new Deposit Insurance Fund (DIF) in 2006.

The primary purpose of the Deposit Insurance Fund (DIF) is to insure deposits and protect the depositors of failed banking institutions. Under the Deposit Insurance Reform Act of 2005, the FDIC's Bank Insurance Fund (BIF) and its Savings Association Insurance Fund (SAIF) were merged into the new DIF on March 31, 2006. Through the DIF, the FDIC resolves and recovers funds disbursed from the assets of failed institutions. The FDIC is authorized to charge risk-based premiums on member institutions to restore and maintain adequate fund reserves, defined as a designated percentage of estimated insured deposits set by the FDIC before the beginning of each year. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), enacted July 21, 2010, increased the minimum DIF reserve ratio (ratio of the DIF balance to total insured deposits) to 1.35 percent, up from 1.15 percent. In addition to raising the minimum reserve ratio, the Act also: 1) eliminated the FDIC's requirement to rebate premiums when the reserve ratio is between 1.35 and 1.5 percent; 2) gave the FDIC discretion to suspend or limit rebates when the DIF reserve ratio is at least 1.5 percent, effectively removing the 1.5 percent cap on the DIF; 3) required the FDIC to offset the effect on small insured depository institutions (defined as banks with assets less than \$10 billion) when setting assessments to raise the reserve ratio from 1.15 to 1.35 percent; and 4) permanently increased the insured deposit level to \$250,000 at banks insured by the FDIC. The FDIC Board has issued a final rule setting a long-term (greater than 10 years) reserve ratio target of 2 percent, with the goal of maintaining a positive fund balance during any future economic crises and maintaining a moderate, steady, long-term assessment rate that provides transparency and predictability to the banking sector.

As of September 30, 2020, the DIF balance stood at \$116.4 billion on an accrual basis, measuring expected losses to current balances. This level is equivalent to a reserve ratio of 1.30 percent. Pursuant to the Act, on September 15, 2020, the FDIC adopted a Restoration Plan to restore the DIF reserve ratio to at least the statutory minimum of 1.35 percent within 8 years after, as of June 30, 2020, the DIF reserve ratio fell to 1.30 percent. The decline was a result of strong one-time growth in insured deposits. Projected growth in the DIF balance in the Budget reflects projections of bank failures in line with historical experience and assessment revenue required to increase the reserve ratio over time.

The FSLIC Resolution Fund (FRF) is the ultimate successor to FSLIC assets and liabilities from thrift resolutions prior to August 1989. Beginning in August 1989, the Resolution Trust Corporation (RTC) assumed responsibility for the FSLIC's unresolved cases. On December 31, 1995, the RTC was terminated and its assets and liabilities were transferred to FRF.

Funds for FRF operations have come from: 1) income earned on its assets; 2) liquidation proceeds from receiverships; 3) the proceeds of the sale of bonds by the Financing Corporation; and 4) a portion of insurance premiums paid by Savings Association Insurance Fund (SAIF) members prior to 1993. The Financial Institutions Reform, Recovery, and Enforcement Act

or FIRREA (P.L. 101-73) authorizes appropriations to make up for any shortfall. Currently, the FRF consists of two distinct pools of assets and liabilities. One is composed of the assets and liabilities of the FSLIC transferred to the FRF (FRF-FSLIC) and the other is composed of the RTC assets and liabilities (FRF-RTC). The assets of one pool are not available to satisfy obligations of the other. The FRF will continue operations until all of its assets are sold or otherwise liquidated and all its liabilities are satisfied. Any funds remaining in the FRF-FSLIC will be paid to the U.S. Treasury. Any remaining funds of the FRF-RTC will be distributed to the Resolution Funding Corporation to pay interest on its bonds.

Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) established an Orderly Liquidation Authority (OLA) permitting the appointment of the FDIC as receiver of financial companies whose failure and resolution under otherwise applicable Federal or State law is determined to have serious adverse effects on financial stability in the United States. The Federal Reserve Board and the FDIC, the Securities and Exchange Commission (for brokers or dealers) or the Federal Insurance Office (for insurance companies) must recommend in writing that the Secretary of the Treasury appoint the FDIC as the company's receiver.

The Secretary of the Treasury must then, in consultation with the President, determine whether seven criteria authorizing the appointment of the FDIC as receiver for the failing financial company have been satisfied, including finding that resolution under otherwise applicable law would have serious adverse effects on financial stability in the United States.

The FDIC's Office of Inspector General (FDIC OIG) is an independent unit within the FDIC that conducts audits, evaluations, and investigations of corporate activities. In addition, the OIG assists the FDIC in preventing and detecting fraud, waste, abuse, and mismanagement. The OIG was established by the FDIC Board pursuant to the Inspector General Act amendments of 1988 (P.L. 100–504). The Resolution Trust Corporation Completion Act (P.L. 103–204), enacted December 17, 1993, provided that the FDIC Inspector General be appointed by the President and confirmed by the Senate. The Completion Act thus added the FDIC to the list of establishments whose OIGs have separate appropriation accounts under Section 1105(a) of Title 31, United States Code, thereby safeguarding FDIC OIG's independence. Assessments paid to the Deposit Insurance Fund (DIF) by insured financial institutions, and administered by the FDIC, fully fund FDIC OIG's appropriation. To the extent that FDIC OIG performs work in connection with the FSLIC Resolution Fund (FRF), the cost of such work is derived from the FRF.

The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988, as amended, to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking. The HIDTA program provides resources to Federal, State, local, and tribal agencies in each HIDTA region to carry out activities that address the specific drug threats of that region. A central feature of the HIDTA program is the discretion granted to HIDTA Executive Boards to design and carry out activities that reflect the specific drug trafficking threats found in each HIDTA region. This discretion ensures that each HIDTA Executive Board can tailor its strategy and initiatives closely to local conditions and can respond quickly to changes in those conditions. Among the types of activities funded by the HIDTA program are: drug enforcement task forces comprised of multiple Federal, State, local, and tribal agencies designed to dismantle and disrupt drug trafficking organizations; multi-agency intelligence centers that provide drug intelligence to HIDTA initiatives and participating agencies; initiatives to establish or improve interoperability of communications and information systems between and among law enforcement agencies; and investments in technology infrastructure.

This account is for other drug control activities authorized by the Office of National Drug Control Policy Reauthorization Act of 1998, as amended through Public Law 115–271. The funds appropriated support high-priority drug control programs and may be transferred to drug control agencies. For FY 2022, funds appropriated to this account will be used for the following activities:

**Drug Free Communities Support Program.**—The Drug Free Communities Support (DFC) Program provides small grants (no more than \$125,000 per year for an initial 5-year period) to established local community drug free coalitions. The grants are awarded competitively to community coalitions that organize multiple sectors of a community to focus on local needs as a means for reducing and/or preventing youth substance use. The Budget also proposes to increase the cap on DFC administrative costs from 8 percent to 12 percent due to the significant level of effort required to effectively manage the DFC Program and ensure continued use of evidence-based prevention in all coalitions funded by the DFC Program.

**Drug Court Training & Technical Assistance.**—This funding is provided to further the development and sustainability of drug courts in the United States through the review and dissemination of science-based methods to overcome barriers to drug court sustainability, provide up-to-date guidance and training to practitioners and inter-disciplinary drug court teams to increase drug court participant retention and completion rates, and provide a state-by-state examination of drug courts.

**Anti-Doping Activities.**—This funding continues the effort to educate athletes on the dangers of drug use and to eliminate illegal drug use in Olympic and associated sports in the United States.

**World Anti-Doping Agency (WADA) Dues.**—WADA was established in 1999 as an international independent agency composed and funded equally by the sport movement and governments of the world. Its key activities include scientific research, education, development of anti-doping capacities, and monitoring of the World Anti-Doping Code—the document harmonizing anti-doping policies in all sports and all countries. ONDCP represents the United States before the agency and is responsible for the payment of U.S. dues.

**Model Acts Program.**—This funding provides resources to: (1) advise states on establishing laws and policies to address illicit drug use issues; and (2) revise such model state drug laws and draft supplementary model state laws to take into consideration changes in illicit drug use issues in the state involved.

**Sec. 103 of Public Law 114–198 (Community-based coalition enhancement grants to address local drug crises).**—This funding provides grants to eligible entities to implement comprehensive community-wide strategies that address local drug crises and emerging drug abuse issues within the area served by the eligible entity. The Budget also proposes to increase the cap on administrative costs for these grants from 8 percent to 12 percent due to the significant amount of program management and support required for these grants.

The Federal Election Commission is responsible for facilitating transparency in the Federal election process through public disclosure of campaign finance activity and for encouraging voluntary compliance with the Federal Election Campaign Act by providing information and policy guidance about the Act and Commission regulations to the public, media, political committees, and election officials. The Commission is also responsible for enforcing the Act through audits, investigations, and civil litigation, and for developing the law by administering and interpreting the Act, the Presidential Election Campaign Fund Act, and the Presidential Primary Matching Payment Account Act.

The Commission is authorized to submit, concurrently, budget estimates to the President and the Congress.

and Interest Rate Control Act of 1978 (FIRA) (P.L. 95–630). In 1989, pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (P.L. 101–73), the Appraisal Subcommittee (ASC) was established within the Council. The Council has limited specified responsibilities regarding the ASC.

The Council is a formal interagency body empowered to prescribe uniform principles, standards, and report forms for the Federal examination of financial institutions; to make recommendations to promote uniformity in the supervision of financial institutions; and to conduct examiner training. Council members include a member of the Board of Governors of the Federal Reserve System, the Chairman of the Federal Deposit Insurance Corporation, the Chairman of the National Credit Union Administration, the Comptroller of the Currency, the Director of the Consumer Financial Protection Bureau, and the Chairman of the State Liaison Committee, which is made up of five representatives from state regulatory agencies that supervise financial institutions.

In addition to its responsibilities under FIRA and FIRREA, the Council was given responsibilities by the Housing and Community Development Act of 1980 (P.L. 96–399) and the Economic Growth and Regulatory Paperwork Reduction Act of 1996 (P.L. 104–208).

The Budget estimates the Council will spend approximately \$16 million during 2022 from resources provided by its Federal members and other fees and reimbursements.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (P.L. 101–73) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (ASC). The ASC is composed of representatives of the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration, the Office of the Comptroller of the Currency, the Department of Housing and Urban Development, the Consumer Financial Protection Bureau, and the Federal Housing Finance Agency.

The ASC is charged with ensuring that real estate appraisals used in federally-related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the states. Its responsibilities include: 1) monitoring the requirements established by the states for the certification and licensing of appraisers and the registration and supervision of the operations and activities of appraisal management companies; 2) monitoring the requirements established by the Federal financial institutions' regulatory agencies regarding appraisal standards for federally-related transactions under their jurisdiction; 3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; 4) maintaining the National Registry of licensed and certified appraisers and appraisal management companies; 5) transmitting an annual report to Congress no later than June 15 of each year; and 6) making grants to the Appraisal Foundation and state appraiser certifying and licensing agencies.

The ASC's activities, including grants awarded to the Appraisal Foundation, were initially funded from a one-time appropriation of \$5 million. These funds were repaid to Treasury in 1998. The ASC is now operating on fee income from 1) appraisal management companies and 2) state-licensed and state-certified real estate appraisers in the National Registry.

The Budget projects that the ASC will spend approximately \$9 million in 2022.

The Federal Labor Relations Authority (FLRA) is an independent administrative Federal agency created by Title VII of the Civil Service Reform Act of 1978 (the Statute) with a mission to carry out five statutory responsibilities: 1) determining the appropriateness of units for labor organization representation; 2) resolving complaints of unfair labor practices; 3) adjudicating exceptions to arbitrators' awards; 4) adjudicating legal issues relating to duty to bargain; and 5) resolving impasses during negotiations. All work throughout the agency is undertaken to support a single program—to administer and enforce the Statute by determining the respective rights of employees, agencies, and labor organizations in their relations with one another.

FLRA's authority is divided by law and by delegation among a three-member Authority and an Office of General Counsel, appointed by the President and subject to Senate confirmation; and the Federal Service Impasses Panel, which consists of seven part-time members appointed by the President.

FLRA does not initiate cases. Proceedings before FLRA originate from filings arising through the actions of Federal employees, Federal agencies, or Federal labor organizations. Nationwide, FLRA includes five Regional Offices and a Headquarters site in Washington, D.C.

**Authority.**—The Authority adjudicates appeals filed by either Federal agencies or Federal labor organizations on negotiability issues, exceptions to arbitration awards, appeals of representation decisions, eligibility of labor organizations for national consultation rights, and unfair labor practice complaints.

**Office of the General Counsel.**—The General Counsel investigates allegations of unfair labor practices and processes representation petitions. In addition, the General Counsel conducts elections concerning the exclusive recognition of labor organizations and certifies the results of elections.

**Federal Service Impasses Panel.**—The Panel resolves labor negotiation impasses between Federal agencies and labor organizations.

The Federal Maritime Commission (FMC or Commission) regulates oceanborne transportation in the foreign commerce of the United States. The Commission administers the Shipping Act of 1984 (1984 Act) as amended; section 19 of the Merchant Marine Act, 1920 (1920 Act); the Foreign Shipping Practices Act of 1988 (FSPA); Sections 2 and 3 of Public Law 89–777; and Section 834 of the Frank LoBiondo Coast Guard Authorization Act of 2018 (LoBiondo Act). The Commission monitors the activities of ocean common carriers, marine terminal operators (MTOs), ports, and ocean transportation intermediaries who operate in U.S. foreign commerce to ensure that they maintain just and reasonable practices.

*Ocean Transportation Intermediaries (OTIs).*—The Commission issues licenses to qualified OTIs operating in the United States and ensures that U.S. OTIs are bonded or maintain other evidence of financial responsibility.

*Passenger Vessel Operators.*—The Commission ensures that passenger vessel operators demonstrate adequate financial responsibility to indemnify passengers in the event of nonperformance of voyages or passenger injury or death.

*Shipping Act Compliance.*—The FMC maintains trade monitoring and enforcement programs designed to assist regulated entities in achieving compliance and to detect and appropriately remedy malpractices and violations of the prohibited acts set forth in section 10 of the 1984 Act; offers a dispute resolution program to resolve disputes impeding the transportation of cargo; reviews competitive activities of common carrier alliances and other agreements among common carriers and/or terminal operators; monitors the laws and practices of foreign governments which could have a discriminatory or otherwise adverse impact on shipping conditions in U.S. trades, and imposes remedial action, as appropriate, pursuant to section 19 of the 1920 Act or FSPA; enforces special regulatory requirements applicable to carriers owned or controlled by foreign governments; processes and reviews agreements, service contracts, and service arrangements pursuant to the 1984 Act for compliance with statutory requirements; and reviews common carriers' privately published tariff systems for accessibility, accuracy, and reasonable terms.

The Federal Mediation and Conciliation Service (FMCS) provides assistance to parties in labor disputes in industries affecting commerce through conciliation and mediation.

**Dispute Mediation.**—FMCS assists labor and management in the mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment to the national defense. FMCS also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. FMCS provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments in both the private and public sectors. These numbers include collective bargaining and grievance mediation.

This appropriation supports the authorized activities of the Environmental Review Improvement Fund and the Federal Permitting Improvement Steering Council (Permitting Council) established under Title 41 of the Fixing America's Surface Transportation (FAST) Act of 2015 (Public Law 114–94). The Permitting Council leads ongoing Government-wide efforts to modernize the Federal environmental review and permitting process for major infrastructure projects and works with Federal agency partners to implement and oversee adherence to the statutory requirements set forth in Title 41 of the FAST Act (FAST-41). FAST-41 is a voluntary program for large, complex infrastructure projects that provides oversight, strengthens cooperation and communication among permitting agencies, enhances transparency for the project sponsor and other stakeholders, and emphasizes concurrent permit processing for covered infrastructure projects. Projects receive these benefits without modifying or undermining any underlying federal statutes or regulations, or the status of any mandatory reviews. Beginning in 2020, prior year appropriations to the General Services Administration for this activity are transferred and merged with this independent account in accordance with Public Law 116–93.

The FTC's mission is to protect consumers and competition by preventing anticompetitive, deceptive, and unfair business practices through law enforcement, advocacy, and education without unduly burdening legitimate business activity. The FTC's mission is based on a vision of a vibrant economy characterized by vigorous competition and consumer access to accurate information.

**Protect Consumers.**—This goal is to prevent fraud, deception, and unfair business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address deceptive or unfair practices that harm consumers; 2) Provide the public with knowledge and tools to prevent harm to consumers; and 3) Collaborate with domestic and international partners to enhance consumer protection.

**Promote Competition.**—This goal is to prevent anticompetitive mergers and other anticompetitive business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address anticompetitive mergers and practices that harm consumers; 2) Engage in effective research and stakeholder outreach to promote competition, advance its understanding, and create awareness of its benefits to consumers; and 3) Collaborate with domestic partners and international partners to preserve and promote competition.

The 2022 Budget includes a program level for the Commission of \$389.8 million, funded by \$240.8 million from the General Fund of the U.S. Treasury and offsetting collections from two sources: \$136 million from fees for Hart-Scott-Rodino Act premerger notification filings as authorized by 15 U.S.C. 18a and \$13 million from fees sufficient to implement and enforce the Telemarketing Sales Rule, promulgated under the Telemarketing and Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6101 et seq., as amended).

The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012, or the RESTORE Act, dedicates 80 percent of any civil and administrative penalties paid under the Clean Water Act by responsible parties in connection with the Deepwater Horizon oil spill to the Gulf Coast Restoration Trust Fund (the Trust Fund). These funds may be used for ecosystem restoration, economic recovery, and tourism promotion in the Gulf Coast region.

In addition to establishing the Trust Fund, the RESTORE Act established the Gulf Coast Ecosystem Restoration Council (the Council). The Council has oversight over the expenditure of sixty percent of the funds made available from the Trust Fund. Thirty percent will be administered for restoration and protection according to the Comprehensive Plan developed by the Council. The other thirty percent will be allocated to the States according to a formula set forth in the RESTORE Act and spent according to individual State expenditure plans to contribute to the overall economic and ecological recovery of the Gulf. The Council includes the Governors of the States of Alabama, Florida, Louisiana, Mississippi and Texas and the Secretaries of the U.S. Departments of Agriculture, Army, Commerce, Homeland Security and the Interior, and the Administrator of the U.S. Environmental Protection Agency.

Public Law 93-642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal

memorial to the 33rd President of the United States. Appropriations in 1975 and 1976, totaling \$30 million, established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. For several years, the Foundation has also received appropriations that are deposited in the trust fund and available for obligation. The Budget proposes no new federal funding for the Foundation in FY 2022.

The Foundation awards scholarships for qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector. In its annual competition, the Foundation selects up to 60 new Truman Scholars. The maximum award is \$30,000 toward a graduate level degree program.

**Scholarship awards.**—This activity is comprised of scholarships awarded to cover eligible educational expenses.

**Program administration.**—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

Title XV of Public Law 99–498 established the Institute of American Indian and Alaska Native Culture and Arts Development as an independent non-profit educational institution. The mission of the Institute is to serve as a multi-tribal center of higher education for Native Americans and is dedicated to the study, creative application, preservation and care of Indian arts and culture. The Institute is federally chartered and under the direction and control of a Board of Trustees appointed by the President of the United States.

*Payment to the Institute.*—This activity supports the operations of the Institute.

The Institute of Museum and Library Services (IMLS) is the primary source of Federal support for the nation's more than 116,000 libraries and 30,000 museums. Through strategic grantmaking, policy development, research and data collection, and strategic engagement, IMLS supports libraries and museums as community anchors that provide vital learning experiences and broad access to resources, in particular in under-served communities. IMLS provides leadership to help Americans build critical skills such as digital literacy; pursue education and training; access early learning opportunities; and participate in the workforce and civil society. Through its programs of support, including for State Library Administrative Agencies, Native American and Native Alaskan tribes, and Native Hawaiian organizations, IMLS helps ensure that all Americans, wherever located, have access to essential information and educational resources. The Institute's organization, mission, and functions are defined in the Museum and Library Services Act, as amended, Public Law 115–410; the National Museum of African American History and Culture Act, Public Law 108–184; and the National Museum of the American Latino Act, Public Law 116–260, the Consolidated Appropriations Act, 2021.

The Intelligence Community Management Account (ICMA) provides resources that directly support the Director of National Intelligence (DNI) in managing intelligence integration across the Intelligence Community (IC), such as the IC Inspector General, the IC Chief Information Officer, the IC Equal Employment Opportunity Office, Civil Liberties, Privacy, and Transparency Office and the IC Chief Financial Officer responsible for oversight of the National Intelligence Program annual budget cycle.

The ICMA funds the support functions of the Office of the Director of National Intelligence, including Legislative Affairs, Chief Operating Officer, Strategic Communications, and Military Affairs. ICMA also funds elements of the Policy and Capabilities Directorate which is focused on policy and strategy, acquisitions and procurement, facilities, human capital, domestic engagement, information sharing and data, and science and technology initiatives.

The ICMA also funds select IC elements such as the National Intelligence Council, the President's Daily Briefing Staff, and the National Intelligence University. These elements are the DNI's principal advisory sources in executing their IC-wide management responsibilities and executing their role as advisor to the President. The National Intelligence Council provides analytical support to the DNI and to senior policy makers. The President's Daily Briefing Staff supports the production of the daily intelligence briefing provided to the President and his senior staff. The National Intelligence University is a federal degree-granting institution with a far-reaching mission to educate and prepare intelligence officers to meet current and future challenges to the United States' national security.

The U.S. International Trade Commission (Commission) is an independent, nonpartisan Federal agency with specific responsibilities in investigating, adjudicating, and enforcing certain U.S. trade laws, providing relevant and timely analysis to the President and the Congress on trade issues, and maintaining the Harmonized Tariff Schedule of the United States (HTS).

For FY 2022, the Commission requests an appropriation of \$118.8 million to support its authorized operations. Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are transmitted to Congress without revision by the President. The Administration's FY 2022 request for the Commission is \$103 million, reflected in the Appendix table and appropriations language.

Although the Commission has one program activity set forth in the Budget of the United States, the Commission's Strategic Plan for FY 2018–2022 sets two strategic goals that cover its programmatic responsibilities. The Commission's goal to produce sound, objective, and timely determinations in trade remedy proceedings focuses on its import injury and unfair import investigative responsibilities. The Commission's goal to provide independent, objective, and timely analysis and information on tariffs, trade, and competitiveness encompasses two areas. First, it focuses on the agency's role to independently provide the highest caliber of information and analysis to U.S. policymakers in a timely manner to assist them when they are securing benefits to the United States in trade negotiations and when they enact legislation or take other policy actions that affect the U.S. economy and industry competitiveness. The Commission's analysis of industry competitiveness has expanded with new responsibilities under the United States-Mexico-Canada Agreement (USMCA) Implementation Act. Among other things, USMCA requires the Commission to conduct investigations and make determinations in response to petitions alleging material harm to the U.S. long-haul trucking industry due to increased competition from cross-border services provided by Mexican trucking firms in the United States. Second, it focuses on the responsibility to maintain the HTS of the United States. The Commission also set a management goal to efficiently and effectively advance its mission. The Commission's focus is on four functional areas—human resources; budget, acquisitions, and finance; information technology; and processes and communications—as they play a critical role in supporting programmatic activities.

The Strategic Plan identifies strategic objectives for each strategic or management goal, strategies to meet these objectives, and specific performance goals. The performance goals provide the basis by which the Commission can assess whether it is making progress toward its strategic objectives.

The Commission makes available its Strategic Plan, Agency Financial Report, Annual Performance Plan, Annual Performance Report, and Budget Justification at [https://www.usitc.gov/budget\\_planning\\_and\\_organization](https://www.usitc.gov/budget_planning_and_organization).

Public Laws 99–500, 101–208, and 102–221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and 1989 established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The Foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and civics. College seniors and recent college graduates who want to become secondary school teachers of these subjects are also eligible.

*Fellowship awards.*—This activity is comprised of fellowship awards to cover educational expenses. It also supports the Foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational experience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights.

*Program administration.*—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

The Japan-U.S. Friendship Commission was established as an independent Federal Government agency by the United States Congress in 1975 (P.L. 94–118) to strengthen the U.S.-Japan relationship through educational, cultural, and intellectual exchange. It administers a U.S. Government trust fund that originated in connection with the return to the Japanese government of certain U.S. facilities in Okinawa and for postwar U.S. assistance to Japan. The Commission is allowed to make expenditures from the fund in an amount, not to exceed five percent annually of the fund's original principal, to pay Commission expenses and to make grants to support its mission. The Commission is a grant making agency that supports research, education, public affairs and exchange with Japan. Its mission is to support reciprocal people-to-people understanding, and to promote partnerships that advance common interests between Japan and United States.

The Legal Services Corporation (LSC) distributes appropriated funds to local non-profit organizations that provide free civil legal assistance to people living in poverty, according to locally-determined priorities. The Congress chartered the corporation as a private, non-profit entity outside of the Federal Government. Funding for LSC helps ensure that low-income Americans have an opportunity to obtain access to the courts, due process, and fair treatment. LSC operates under rules and requirements set by the LSC Act, 42 U.S.C. 2996–2996l, and by LSC's annual appropriations. The Administrative Provisions would make two changes. First, they would permit LSC recipients to operate with boards of directors that have as few as 33% attorneys without requiring appointment by bar associations and suspend the 60% attorney requirement in the LSC Act. This will greatly improve recipients' ability to have fiscal experts and community representatives on their governing bodies. Second, they would continue to apply the appropriations restrictions on recipients' use of these appropriated funds while permitting recipients to use funds from other sources as intended by those funders.

## ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

None of the funds appropriated in this Act to the Legal Services Corporation shall be expended for any purpose prohibited or limited by, or contrary to any of the

provisions of, sections 501, 502, 503, 504, 505, and 506 of Public Law 105–119, and all funds appropriated in this Act to the Legal Services Corporation shall be subject to the same terms and conditions set forth in such sections, except that all references in sections 502 and 503 to 1997 and 1998 shall be deemed to refer instead to [2020] 2021 and [2021] 2022, respectively.

*Section 501 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (Public Law 105–119) is amended by adding the following new subsection at the end:*

*"(d) MODIFIED GOVERNING BODY REQUIREMENT.—For purposes of this Act, section 1007(c) of the Legal Services Corporation Act (42 U.S.C. 2996f(c)) shall be applied by substituting "33 percent" for "60 percent"."*

*Section 502(2) of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended by striking subparagraph (B) in its entirety and replacing it with the following:*

*"(B) is governed by a board of directors or other governing body, 33 percent of which is comprised of attorneys who are members of the bar of a State, as defined in section 1002(8) of the Legal Services Corporation Act (42 U.S.C. 2996a(8)), in which the legal assistance is to be provided;"*

*Section 504 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended in subsection (a) by striking everything before the first paragraph and inserting the following:*

*"(a) None of the funds appropriated in this Act to the Legal Services Corporation may be used to provide financial assistance to any person or entity (which may be referred to in this section as a recipient) for any expenditure or activity—".* (*Commerce, Justice, Science, and Related Agencies Appropriations Act, 2021.*)

The Merit Systems Protection Board (MSPB) is an independent agency in the Executive Branch of the Federal Government that serves as the guardian of Federal merit systems. The Board's mission is to protect Federal merit systems and the rights of individuals within those systems. The MSPB accomplishes its mission by: hearing and deciding employee appeals from agency actions; hearing and deciding cases brought by the Office of Special Counsel involving alleged abuses of the merit systems, and other cases arising under the Board's original jurisdiction; conducting studies of the civil service and other merit systems in the Executive Branch to determine whether they are free from prohibited personnel practices; and providing oversight of the significant actions and regulations of the Office of Personnel Management (OPM) to determine whether they are in accord with merit system principles. The MSPB's inception began in 1883, when the Congress passed the Pendleton Act establishing the Civil Service Commission and a merit-based employment system for the Federal Government. The Pendleton Act grew out of the 19th century reform movement to curtail the excesses of political patronage in Government. As the Commission's responsibilities multiplied, a growing consensus emerged that it could not properly and adequately perform managerial and adjudicatory functions simultaneously. Concern over the inherent conflict of interest in the Commission's role as both rule-maker and judge was a principal motivating factor behind the enactment by the Congress of the Civil Service Reform Act of 1978. The Act replaced the Civil Service Commission with three new independent agencies: OPM, the Federal Labor Relations Authority, and MSPB. MSPB assumed the employee appeals functions of the Commission and was given the new responsibilities to perform merit systems studies and to review the significant actions of OPM.

The Morris K. Udall and Stewart L. Udall Fund is invested in Treasury securities with maturities suitable to the needs of the Fund. Interest earnings from the investments are used to carry out the activities of the Udall Foundation. The Foundation is authorized to award scholarships, fellowships, and internships and, as required by its enabling legislation, funds specified activities of the Udall Center for Studies in Public Policy, based at the University of Arizona.

The Udall Foundation is authorized by 20 U.S.C. 5604(7) to establish training programs for professionals in Native American and Alaska Native health care and public policy. The Foundation provides these programs through the Native Nations Institute (NNI), which is housed at the University of Arizona and provides Native Americans and Alaska Natives with leadership and management training and assists in policy analysis relevant to tribes.

In 1998, Public Law 105–56 established the U.S. Institute for Environmental Conflict Resolution (U.S. Institute) as a part of the Udall Foundation. The Further Consolidated Appropriations Act, 2020 renamed the U.S. Institute as the John S. McCain III National Center for Environmental Conflict Resolution (National Center) to honor the legacy of the late Senator John McCain who was instrumental in the establishment of the Udall Foundation and its programs. The National Center provides impartial collaboration, consensus-building, and conflict resolution services on a wide range of environmental, natural and cultural resources, Tribal, and public lands issues involving the Federal Government. The National Center's work enhances project efficiency, reduces costs, increases government capacity to serve citizens, increases the likelihood of avoiding litigation, and delivers better and more durable outcomes. The National Center's range of services include consultations, assessments, process design, convening, mediation, facilitation, training, stakeholder engagement, and other related collaboration and conflict resolution activities. The National Center specializes in providing assistance with national and regionally important environmental challenges; multiparty high-conflict cases where an impartial Federal convener is needed to broker participation in a collaborative process or conflict resolution effort; collaborative efforts involving Tribes and Native people, including government-to-government consultation between Tribes and Federal agencies; interagency and interdepartmental collaborations; issues involving multiple levels of government (Federal, State, local, tribal) and the public; issues that require substantive expertise (e.g., National Environmental Policy Act, transportation infrastructure projects, endangered species, cultural resources); and projects that require funding from multiple agencies and/or private organizations.

This appropriation provides for the operation of the Federal Government's archives and records management activities, the preservation of permanently valuable historical records, and their access and use by the public.

*Legislative Archives, Presidential Libraries, and Museum Services.*—This activity provides for the Center for Legislative Archives and the Presidential Materials Division, which provide records management services to Congress and the White House; the Presidential Libraries of fifteen former Presidents; and nationwide education, outreach, and exhibits programs, including the National Archives Museum in Washington, DC.

*Citizen Services.*—This activity provides for public access to and engagement with permanently valuable Federal Government records by the researcher community and the general public at public research rooms, online at [www.archives.gov](http://www.archives.gov), and through innovative tools and technology to support collaboration with the public.

*Agency and Related Services.*—This activity provides for the services NARA provides to other Federal agencies, including records management, appropriate declassification of classified national security information, oversight of the classification system and controlled, unclassified information, and improvements to the administration of the Freedom of Information Act by the Office of Government Information Services; the electronic records management activities of the Electronic Records Archives system; and publication of the Federal Register, U.S. Statutes-at-Large, and Presidential Papers.

*Facility Operations.*—This activity provides for the operations and maintenance of NARA facilities.

*Electronic Records Initiative.*— This activity provides for expenses necessary to enhance the Federal Government's ability to electronically preserve, manage, and store Government records.

The National Capital Planning Commission (NCP) is the central planning agency for the Federal Government in the National Capital Region. Through its planning initiatives, policy-making, and review of development proposals, NCP helps guide Federal development while preserving the Capital City's unique resources. NCP will continue to work with the District of Columbia and Federal and regional partners to develop comprehensive policies and planning initiatives that support the Federal interest and contribute to the best urban design, infrastructure, resource, and land-use outcomes for the Region. In addition, NCP will continue to ensure

that all Federal development in the Region meets the highest design standards and will review Federal plans for regional capital improvements.

The National Council on Disability (NCD), an independent Federal agency, is composed of nine members appointed by the President and the Congress. Established under the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act, the NCD is responsible for reviewing the Federal Government's laws, programs, and policies which affect people with disabilities. The NCD also makes recommendations on issues affecting individuals with disabilities and their families to the President; the Congress; the Rehabilitation Services Administration; the National Institute on Disability, Independent Living, and Rehabilitation Research; and other Federal Departments and agencies.

The mission of the National Credit Union Administration (NCUA) is to provide, through regulation and supervision, a safe and sound credit union system, which promotes confidence in the national system of cooperative credit. Credit unions are member-owned, cooperative associations organized for the purpose of promoting thrift and creating a source of credit for members. As of September 30, 2020, there were 3,213 federally-chartered credit unions with total assets of more than \$906 billion.

NCUA, through its Operating Fund, conducts activities prescribed by the Federal Credit Union Act of 1934, which include: 1) chartering new Federal credit unions; 2) approving field of membership applications of Federal credit unions; 3) promulgating regulations and providing guidance; 4) performing regulatory compliance and safety and soundness examinations; 5) implementing and administering enforcement actions, such as prohibition orders, orders to cease and desist, orders of conservatorship and orders of liquidation; and 6) administering the National Credit Union Share Insurance Fund (SIF), which provides insurance to Federal credit unions (FCUs) and federally-insured state-chartered credit unions (FISCUs).

To better demonstrate how the NCUA's budget is used to achieve its strategic goals, the Operating Fund's obligations by program activity are presented in the same categories shown in the 2021 Budget. Amounts shown for "Safety and Soundness" correspond to programs that contribute to the NCUA's goal to "Ensure a Safe and Sound Credit Union System." Amounts shown for "Regulation and Consumer Protection" correspond to programs that contribute to the NCUA's goal to "Provide a Regulatory Framework that is Transparent, Efficient, and Improves Customer Access." Amounts shown for "Mission Support" correspond to programs that contribute to the NCUA's goal to "Maximize Organizational Performance to Enable Mission Success."

NCUA funds its activities through operating fees levied on all FCUs, and through reimbursements from the SIF, which is funded by FCUs and FISCUs.

The primary purpose of the National Credit Union Share Insurance Fund (SIF) is to provide insurance for deposits of member accounts (also known as insured member shares) for nearly 124 million members in federally-chartered credit unions and state-chartered credit unions that qualify for insurance under the Federal Credit Union Act. As of September 30, 2020, over 5,100 state and Federal credit unions and 11 corporate credit unions were insured by the SIF, with insured member shares of \$1.4 trillion—an increase of \$212 billion, or 17.6 percent, year-on-year.

Following a cost allocation method that distributes NCUA costs between its insurance and regulatory functions, the SIF reimburses the NCUA Operating Fund for its share of administrative costs. In calendar year 2020, the SIF paid reimbursements of approximately \$219 million to the Operating Fund.

On September 28, 2017, the NCUA Board voted unanimously to close the Temporary Corporate Credit Union Stabilization Fund (TCCUSF) and to distribute the TCCUSF's remaining funds, property, and other assets to the SIF. Through the distribution, the SIF assumed the activities and obligations of the TCCUSF, including NCUA Guaranteed Notes (NGN).

As of September 30, 2020, the outstanding principal balance of the NGNs was \$2.3 billion. This amount represents the maximum potential, but not the expected cost, of future guaranteed payments that NCUA could be required to make under the program. The NCUA currently anticipates a total of \$1.97 billion in NGN guarantee payments to be made through 2021, of which some payments will be made from the balances the NCUA manages as a fiduciary for certain failed corporate credit union estates. The final tranche of NGNs will mature in 2021. The NCUA currently estimates that after all of the NGNs mature, the receivables due to the SIF from the estates of failed corporate credit unions will be equal to or greater than the amount of guarantee payments paid by the SIF.

The SIF's normal operating level, which is the Fund's equity level above which the Board would be expected to authorize distributions remains at 1.38 percent of insured shares in 2021.

The purpose of the Central Liquidity Facility (CLF), established under Title III of the Federal Credit Union (FCU) Act, is to improve the general financial stability of member credit unions by lending, subject to statutory limitations, to member credit unions experiencing unusual or unexpected liquidity shortfalls. The two primary sources of funds for the CLF are stock subscriptions from member credit unions and borrowings from the Federal Financing Bank.

In response to the COVID-19 pandemic, several temporary changes to the FCU Act and the NCUA's rules and regulations were made, by Congress and the NCUA Board, respectively, in 2020. The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) temporarily increased the CLF borrowing authority from 12 to 16 times the subscribed capital stock and surplus. As of September 30, 2020, the borrowing authority of the CLF was \$32.4 billion.

The Community Development Revolving Loan Fund (CDRLF) was established by Congress in 1979 with a \$6 million appropriation to assist credit unions serving low-income communities to: 1) provide financial services to their communities; 2) stimulate economic activities in their communities, resulting in increased income and employment; and 3) operate more efficiently. CDRLF funds a revolving loan program and a technical assistance grant program.

For the revolving loan program, CDRLF had outstanding loans of \$6.8 million (22 loans outstanding to 21 credit unions) as of September 30, 2020. For the 2020 round of technical assistance grants, which are administered on a calendar-year basis, NCUA awarded \$2.6 million in technical assistance grants to help 302 low-income credit unions provide affordable financial services to their members and communities during the COVID-19 pandemic, and to establish professional mentoring relationships between staff at larger and smaller minority depository institutions to increase staff capacity and improve operations.

The mission of the National Endowment for the Arts is to strengthen the creative capacity of our communities by providing all Americans with diverse opportunities for arts participation. As the independent federal agency that supports and funds the arts in America, the National Endowment for the Arts achieves its mission primarily through grant programs, special initiatives and honorific awards. The agency partners closely with the nation's state and regional arts organizations, as well as private partners, leveraging resources to provide more funding and programs across the country. In 2022, the National Endowment for the Arts will continue to incorporate the principles of racial equity, civil rights, racial justice, and equal opportunity by extended outreach to underserved communities and will continue to promote arts engagement with underserved communities, including those in rural America, in our grant programs and special initiatives. In 2022, support will continue for Creative Forces: NEA Military Healing Arts Network, a partnership with the Departments of Defense and Veterans Affairs and the state and local arts agencies that seeks to improve the health, wellness, and quality of life for military and veteran populations exposed to trauma, as well as their families and caregivers. In 2022, the National Endowment for the Arts will continue to implement programming funded by the \$135 million provided in the American Rescue Plan.

The National Foundation on the Arts and the Humanities Act of 1965, as amended, also authorizes the National Endowment for the Arts to receive money and other donated property; such gifts may be used, sold, or otherwise disposed of to support arts projects and activities. This presentation also includes the Arts and Artifacts Indemnity Fund, which the National Endowment for the Arts administers on behalf of the Federal Council on the Arts and the Humanities.

The National Endowment for the Humanities (NEH) serves and strengthens our republic by promoting excellence in the humanities and conveying the lessons of history to all Americans. In 2022, NEH will continue to support partnerships with state humanities councils; the strengthening of humanities teaching and learning in the nation's schools and institutions of higher education; basic research and original scholarship

in the humanities; innovative use of digital information technology; efforts to preserve and increase access to books, U.S. newspapers, documents, and other reference materials; and museum exhibitions, documentary films, radio programming, and reading programs that reach millions of Americans. In 2022, NEH will bring fresh perspectives to its ongoing special initiative, "A More Perfect Union." The initiative is designed to demonstrate and enhance the critical role the humanities play in our nation, while also supporting projects that will help American commemorate the 250th anniversary of the Declaration of Independence in 2026. Support is provided through outright grants, matching grants, and a combination of the two. Eligible applicants include state humanities councils, educational institutions, libraries, archives, museums, historical organizations, and other scholarly and cultural institutions and organizations. Support is also provided to individuals for advanced research and scholarship in the humanities. This presentation also includes the Gifts and Donations account. The National Foundation on the Arts and the Humanities Act of 1965, as amended, authorizes the Humanities Endowment to receive money and other donated property. Such gifts may be used, sold, or otherwise disposed of to support humanities projects and activities. Budget authority in this schedule reflects cash received each year by the Endowment.

The National Labor Relations Board resolves representation disputes in industry and also remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake and additional program statistics appear in the table below.

	2020 actual	2021 est.	2022 est.
Case intake:			
Unfair labor practice cases .....	15,869	14,510	17,439
Representation cases .....	1,764	1,496	1,969

Board decisions requiring court enforcement .....	57	56	71

*Casehandling (formerly Field investigations in 2015 and earlier).*—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Approximately 90 percent of merit unfair labor practice cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. About 85–90 percent of representation elections are held pursuant to agreement of the parties. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

*Administrative law judge hearing.*—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

*Board adjudication.*—In an unfair labor practice case, a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder, with exceptions filed, require a Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases. Unlike other Federal agencies, Board orders are not self-enforcing in the absence of a timely petition to review. If the parties do not voluntarily comply with a Board order involving unfair labor practices, the Board must request that an appellate court enforce the decision.

*Internal Review.*—Office of the Inspector General.

*Mission Support.*—Previously spread across other program activities; includes administrative, personnel, and financial management functions conducted in the Headquarters office.

*Mediator and alternative dispute resolution (ADR) services.*—The National Mediation Board mediates disputes over wages, hours, and working conditions for some 746 rail and air carriers and approximately 795,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries. The Board's ADR program provides collective bargaining training, facilitation, and grievance mediation services to the labor-management community.

*Emergency disputes.*—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President, when notified of disputes which substantially threaten to interrupt essential service, may appoint emergency boards to investigate and report on the dispute. Such reports usually serve as a basis for resolving the disputes.

*Arbitration services.*—Arbitration is governed by sections 3 and 7 of the Railway Labor Act. Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the NRAB are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89-456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry and for disputes otherwise referable to the NRAB. In these disputes, the National Mediation Board compensates the neutral party selected to help resolve these grievances.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

The National Transportation Safety Board (NTSB) is an independent nonregulatory agency that promotes transportation safety by maintaining independence and objectivity; conducting objective, precise accident investigations and safety studies; performing fair and objective airman and mariner certification appeals; and advocating and promoting NTSB safety recommendations. The NTSB also provides assistance to victims of transportation accidents and their families.

In 2022, the Administration proposes a total funding level of \$121.4 million for NTSB Salaries and Expenses to allow the NTSB to fulfill its role in improving safety on the Nation's transportation system.

The National Transportation Safety Board is mandated by the Congress to investigate all catastrophic transportation accidents and, therefore, has no control over the frequency of costly accident investigations. The emergency fund provides a funding mechanism by which periodic accident investigation cost fluctuations can be met without delaying critical phases of the investigations. The current balance of \$2 million is sufficient to cover unanticipated costs associated with an increased number of accidents, and thus the Administration does not propose new funding in 2022.

The Neighborhood Reinvestment Corporation (NRC), doing business as "NeighborWorks America," was established by Federal charter in 1978 as a community/public/private partnership providing financial support (e.g. housing counseling, operating and capital grants), technical assistance, and training for affordable housing and community-based revitalization efforts nationwide. NRC receives both Federal and non-Federal funding to finance its program activities. The Budget requests \$170 million for NRC for its core operations, along with support and grants to its 250 network member organizations, and other non-profit organizations and local governments.

This account also includes \$100 million for housing counseling activities, provided by the American Rescue Plan Act of 2021 (P.L. 117-2).

The Budget provides \$30.1 million for the Northern Border Regional Commission (NBRC). NBRC, authorized by P.L. 110-234, was established as a Federal-State partnership to provide a comprehensive approach to addressing persistent economic distress in the northern border region. Covering portions of Maine, New Hampshire, New York, and Vermont, the NBRC helps coordinate Federal efforts to develop the basic building blocks for economic development, such as transportation and basic public infrastructure, job skills training and workforce development, and business development.

**Nuclear Reactor Safety.**—The Nuclear Regulatory Commission (NRC) Nuclear Reactor Safety Program encompasses licensing and overseeing civilian nuclear power reactors, research and test reactors, and other non-power production and utilization facilities (e.g., medical radioisotope facilities) in a manner that adequately protects public health and safety. This program also provides reasonable assurance of the security of facilities and protection against radiological sabotage. This program contributes to the NRC's safety and security strategic goals through the activities of the Operating Reactors and New Reactors Business Lines that regulate existing and new nuclear reactors to ensure they meet applicable requirements.

**Nuclear Materials and Waste Safety.**—The Nuclear Materials and Waste Safety Program encompasses the NRC's licensing and oversight of nuclear materials in a manner that adequately protects public health and safety. This program provides assurance of the physical security of the materials and waste and protection against radiological sabotage, theft, or diversion of nuclear materials. Through this program, the NRC regulates uranium processing and fuel facilities; research and pilot facilities; nuclear materials users (medical, industrial, research, and academic); spent fuel storage; spent fuel material transportation and packaging; decontamination and decommissioning of facilities; and low-level and high-level radioactive waste. The program contributes to the NRC's safety and security strategic goals through the activities of the Spent Fuel Storage and Transportation, Nuclear Materials Users, Decommissioning and Low-Level Waste, and Fuel Facilities Business Lines.

**Corporate Support.**—The NRC's Corporate Support Business Line involves centrally managed activities that are necessary for agency programs to accomplish the agency's mission. These activities include administrative services, financial management, human resource management, information technology (IT) and information management (IM), outreach, policy support, training, and acquisitions.

**GENERAL PROVISIONS—INDEPENDENT AGENCIES**

**[SEC. 401.** The Nuclear Regulatory Commission shall comply with the July 5, 2011, version of Chapter VI of its Internal Commission Procedures when responding to Congressional requests for information, consistent with Department of Justice guidance for all Federal agencies.]

**SEC. [402]** 401. (a) The amounts made available by this title for the Nuclear Regulatory Commission may be reprogrammed for any program, project, or activity, and the Commission shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would cause any program funding level to increase or decrease by more than \$500,000 or 10 percent, whichever is less, during the time period covered by this Act.

(b)

(1) The Nuclear Regulatory Commission may waive the notification requirement in subsection (a) if compliance with such requirement would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Nuclear Regulatory Commission shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver and shall provide a detailed report to the Committees of such waiver and changes to funding levels to programs, projects, or activities.

(c) Except as provided in subsections (a), (b), and (d), the amounts made available by this title for "Nuclear Regulatory Commission—Salaries and Expenses" shall be expended as directed in the *joint* explanatory statement [described in section 4 (in the matter preceding division A of this consolidated Act)] *accompanying this Act*.

(d) None of the funds provided for the Nuclear Regulatory Commission shall be available for obligation or expenditure through a reprogramming of funds that increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act.

(e) The Commission shall provide a monthly report to the Committees on Appropriations of both Houses of Congress, which includes the following for each program, project, or activity, including any prior year appropriations—

- (1) total budget authority;
- (2) total unobligated balances; and
- (3) total unliquidated obligations.

As mandated by the Nuclear Waste Policy Amendments Act of 1987, the Nuclear Waste Technical Review Board (Board) evaluates the technical and scientific validity of all activities undertaken by the Department of Energy (DOE) related to the management and disposition of spent nuclear fuel and high-level radioactive waste. The Board's purpose is to provide independent expert advice to DOE and Congress on technical issues and to review DOE's efforts to implement the relevant sections of the Nuclear Waste Policy Act. The Board must report its findings, conclusions, and recommendations to Congress and the Secretary of Energy.

The U.S. Office of Government Ethics (OGE), established by the Ethics in Government Act of 1978, provides overall leadership and oversight of the Executive Branch ethics program designed to prevent and resolve conflicts of interest. OGE's mission is part of the very foundation of public service. The first principle in the Fourteen Principles of Ethical Conduct for Government Officers and Employees provides that, "[p]ublic service is a public trust, requiring employees to place loyalty to the Constitution, the laws and ethical principles above private gain." OGE undertakes this important prevention mission as part of a framework comprising Executive Branch agencies and entities whose work focuses on institutional integrity.

Within this framework, the ethics program works to ensure that public servants carry out the governmental responsibilities entrusted to them with impartiality, and that they serve as good stewards of public resources.

To carry out its vital leadership and oversight responsibilities for the Executive Branch ethics program, OGE promulgates, maintains, and advises on enforceable standards of ethical conduct for more than 2.7 million employees in over 130 Executive Branch agencies, including the White House; offers education and training to the more than 5,000 ethics officials Executive Branch-wide; oversees a financial disclosure system that reaches more than 26,000 public and more than 380,000 confidential financial disclosure report filers; operates and maintains *Integrity*, a public financial disclosure management application required by the Representative Louise McIntosh Slaughter Stop Trading on Congressional Knowledge (STOCK) Act; monitors Executive Branch agency ethics programs and senior leaders' compliance with applicable ethics laws and regulations; prepares for presidential transitions and provides assistance to the President and Senate in the presidential appointments process; conducts outreach to the general public, the private sector, and non-governmental organizations; and makes ethics documents publicly available.

The Office of Special Counsel (OSC): 1) investigates Federal employee and applicant allegations of prohibited personnel practices (including reprisal for whistleblowing), and other activities prohibited by civil service law and, when appropriate, prosecutes before the Merit Systems Protection Board; 2) provides a safe channel for whistleblowing by Federal employees and applicants; 3) investigates and enforces the Uniformed Services Employment and Reemployment Rights Act (USERRA); and, 4) advises on and enforces civil provisions of the Hatch Act. OSC may transmit whistleblower allegations to the agency head concerned and require an agency investigation. OSC submits the agency's investigative report to the President and the Congress when appropriate.

OSC received 4,453 new cases in fiscal year (FY) 2020. While this is approximately 25 percent below the average caseload level received from FYs 2015 to 2019, OSC attributes this decrease largely to the COVID-19 pandemic, and the resulting operational impact on most federal agencies during much of FY 2020. OSC expects a return to pre-pandemic caseload levels in future fiscal years, barring additional, unforeseen circumstances. Despite receiving fewer cases in FY 2020, OSC achieved significantly increased favorable outcomes across multiple programmatic units.

Specifically, OSC achieved an agency-record 405 favorable actions on prohibited personnel practice cases, approximately 34 percent above the prior five-year average. OSC also resolved 280 Hatch Act cases, which is approximately 186 percent above the level resolved during the last election cycle in FY 2016. In addition, OSC issued 34 warning letters and successfully obtained eight disciplinary actions against agency officials who committed Hatch Act violations. OSC also experienced increased success in its USERRA cases, assisting 24 service members in asserting their employment and reemployment rights.

Of the 4,453 cases OSC received in FY 2020, 1,160 were new disclosures. While this number is more than 200 cases fewer than the number of disclosures received in FY 2019, primarily because of the pandemic, the four-year average of new disclosures is still nearly 1,400. Further, OSC expects caseloads to increase when government agency operations return to normal, once the pandemic subsides. OSC processed and closed 1,213 disclosures, and referred 81 disclosures of waste, fraud, and abuse to agency heads for investigation. During the last several years, OSC has received numerous whistleblower disclosures from employees at the Department of Veterans

Affairs (VA). OSC's work with VA whistleblowers has been featured in the media, and has helped promote accountability and improvements within VA. OSC continues to receive a disproportionately large number of cases from VA employees and, to address this, has established a priority intake system for VA claims.

OSC conducts outreach and education activities on its programmatic areas to inform and train agencies to prevent prohibited personnel practices, whistleblower reprisals, and Hatch Act and USERRA violations, and encourage reporting of claims of fraud, waste and abuse. In FY 2020, OSC conducted 207 outreach activities throughout the Federal Government.

Case Type:	Cases Received 2020	Cases Resolved 2020
Prohibited personnel practice complaints .....	2,829	3,096
Hatch Act complaints .....	440	280
Whistleblower Disclosures .....	1,160	1,213
USERRA cases .....	24	26
Totals .....	4,453	4,615

OSC projects intakes for whistleblower disclosures, Hatch Act, and prohibited personnel practice cases to return to recent trends, and stabilize at around 6,000 total new cases received in future, nonpandemic years, likely beginning in FY 2022. OSC's caseload will likely remain high in light of the increased media exposure whistleblowers in general are receiving.

Overall, the requested funding for FY 2022 will enable OSC to meet demands for OSC's services, protect whistleblowers in the VA and other agencies, protect the employment rights of returning service members, and protect the Federal merit system from prohibited personnel and partisan political practices.

The Postal Reorganization Act of 1970, Public Law 91-375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the executive branch. The Postal Service commenced operations July 1, 1971. The Agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The Postal Service is governed by an 11-member Board of Governors, including nine Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

The activities of the Postal Service are financed from: 1) mail and services revenue; 2) reimbursements from Federal and non-Federal sources; 3) proceeds from borrowing; 4) interest from U.S. securities and other investments; and 5) appropriations by the Congress. All receipts and deposits are made to the Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities.

Since 1971, there have been several reforms. Notably, the Omnibus Budget Reconciliation Act of 1989 moved the Postal Service "off-budget" so that, beginning in 1990, the receipts and disbursements of the Fund are not considered as part of the congressional and executive budget process. More recently, the 2006 Postal Accountability and Enhancement Act (P.L. 109-435) made a number of changes affecting the operations and oversight of the Postal Service. The Act provided for separate accounting and reporting for market-dominant products such as First-Class Mail and competitive products such as package delivery. The Act also amended the process for determining rate increases for market-dominant products, in part by imposing a limit on rate increases linked to the Consumer Price Index for All Urban Consumers (CPI-U). In 2017, the Postal Regulatory Commission announced proposed changes to the rate structure including increases above the cap of the CPI-U. In November 2020, the Postal Regulatory Commission adopted final rules to give the Postal Service greater flexibility in establishing prices for Market Dominant mail products.

P.L. 109-435 also created the Postal Service Retiree Health Benefits Fund to place the Postal Service on a path that fully funds its substantial retiree (annuitant) health benefits liabilities. This Fund was to receive from the Postal Service: 1) the pension savings provided to the Postal Service by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108-18) that were held in escrow during 2006; 2) a 10-year stream of payments defined within P.L. 109-435 to begin the liquidation of the Postal Service's unfunded liability for post-retirement health benefits; 3) beginning in 2017, payments for the actuarial cost of Postal Service contributions for the post-retirement health benefits for its current employees; 4) beginning in 2017, a 40-year amortization payment to fund any remaining unfunded liabilities associated with post-retirement health benefits of Postal Service employees; and 5) the surplus resources of the Civil Service Retirement and Disability Fund that are not needed to finance future retirement benefits under the Civil Service Retirement System (CSRS) to current or former employees of the Postal Service that are attributable to civilian employment with the Postal Service. Since passage in 2006, the

## POSTAL SERVICE FUND—Continued

Postal Service had contributed more than \$50 billion to the Fund but has failed to make required payments each year since FY 2012, thus steadily increasing the size of the unfunded liability.

Beginning in 2017, P.L. 109–435 also required the Postal Service to begin a 27-year amortization to retire its unfunded liability under the CSRS. However, the Postal Service has failed to make payments each year since that time. In total, as of September 30, 2020 the Postal Service reported \$63 billion in past due obligations to the Office of Personnel Management (OPM) related to retiree health benefits, CSRS, and the Federal Employees Retirement System (FERS).

As amended by P.L. 109–435, the Postal Service has statutory borrowing authority capped at \$15 billion with the annual increase in outstanding debt limited to \$3 billion. As of March 31, 2021, the total debt instruments issued and outstanding pursuant to this authority amounted to \$14 billion. This total includes \$3 billion in short-term debt that was repaid on April 2, 2021. Section 6001 of the Coronavirus Aid, Relief and Economic Security (CARES) Act of 2020, P.L. 116–136, provided an additional \$10 billion in borrowing authority to be used exclusively for COVID-19 related operating expenses. Pursuant to Section 801 of the Consolidated Appropriations Act of 2021, P.L. 116–260, no repayment is required for amounts borrowed under the CARES Act.

Given the Postal Service's history of using defaults to continue operations despite losses, the Budget reflects defaults on required pension and retiree health amortization and normal cost payments to prevent the Postal Service from running unsustainable deficits. The U.S. Postal Service Office of Inspector General (USPS OIG) is an independent organization charged with reporting to Congress on the overall efficiency, effectiveness, and economy of Postal Service programs and operations. The USPS OIG meets this responsibility by conducting audits, investigations, and other reviews. The USPS OIG focuses on the prevention, identification, and elimination of: 1) waste, fraud, and abuse; 2) violations

of laws, rules, and regulations; and 3) inefficiencies in Postal Service programs and operations.

The Budget proposes \$263,000,000 for the 2022 USPS OIG's operations.

Pursuant to P.L. 109–435, the 2022 appropriation request of the USPS OIG is \$263,000,000.

Section 603(b)(1) of P.L. 109–435 (Postal Accountability and Enhancement Act) authorizes appropriations for the USPS OIG out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of USPS OIG spending from off-budget mandatory to off-budget discretionary.

The Postal Regulatory Commission is an independent agency that oversees the U.S. Postal Service to ensure transparency and accountability of the Postal Service to Congress, stakeholders, and the public in order to foster a vital and efficient universal mail system. The Commission ensures the Postal Service complies with the applicable laws by conducting expert review and analysis of postal rates, product offerings, service quality, nationwide service changes, post office closing appeals, and complaints. The Commission also conducts data analysis in order to support accurate and objective regulatory decision-making, and provides transparency of postal data for policymakers and stakeholders.

Pursuant to P.L. 109–435, the 2022 appropriation request of the Commission is \$19,585,000. Section 603(a) of PAEA authorizes appropriations for the Commission out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of the Commission's spending from off-budget mandatory to off-budget discretionary.

The Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) created the Privacy and Civil Liberties Oversight Board (PCLOB). The IRTPA originally placed the Board within the Executive Office of the President. The Implementing Recommendations of the 9/11 Commission Act of 2007 reconstituted the Board as an independent oversight agency within the Executive Branch. All five members of the Board are nominated by the President and confirmed by the Senate for staggered six-year terms. The Board has two main responsibilities: 1) to analyze and review actions the executive branch takes to protect the United States from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and 2) to ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the Nation against terrorism. The Board is required to report semi-annually on its operations to the U.S. Congress, as well as inform the public of its activities, as appropriate.

The Federal Assets Sale and Transfer Act of 2016 (Public Law 114-287), enacted in December 2016, authorizes the Public Buildings Reform Board. The role of the Board is to identify opportunities for the Government to significantly reduce its inventory of civilian real property and reduce cost to the Government, subject to approval by the Office of Management and Budget. By law, the Board sunsets in 2025.

The Public Defender Service for the District of Columbia (PDS) is a federally funded, independent organization governed by an eleven-member Board of Trustees. PDS was created in 1970 by a Federal statute (P.L. 91-358; see also D.C. Code Sec. 2-1601, et seq.) to fulfill the constitutional mandate (under *Gideon v. Wainwright*) to provide criminal defense counsel for individuals who cannot afford to hire a lawyer. PDS's mission is to provide and promote quality legal representation for indigent adults and children facing a loss of liberty in the District of Columbia justice system and thereby protect society's interest in the fair administration of justice. PDS specializes in representation in the most complex and resource-intensive criminal and delinquency cases. PDS also represents individuals facing involuntary civil commitment in the District's mental health system and individuals facing parole revocation for D.C. Code offenses.

The recent enactment of a new re-sentencing statute in the District of Columbia (the Incarceration Reduction Amendment Act of 2016, D.C. Code Section 24-403.03 as amended by the Omnibus Public Safety and Justice Amendment Act of 2020, District of Columbia Act 23-528) generated new ongoing demand for PDS's services and created an immediate and significant backlog of cases. The Budget includes annual and multi-year funding for additional staff who will enable PDS to represent the greatly increased number of clients eligible to seek re-sentencing pursuant to the statute and provide the surge capacity via term appointments needed to manage and to substantially reduce the immediate case backlog.

The Puerto Rico Oversight, Management, and Economic Stability Act (P.L. 114-187) created an oversight board that is not a department, agency, establishment, or instrumentality of the Federal Government but is an entity within the territorial government, which is not subject to the supervision or control of any Federal agency. See 42 U.S.C. 2121(c). Although the Board's financing is derived entirely from the territorial government, the flow of funds from the territory to the Board is mandated by Federal law. Because Federal law prescribes the flow of funds to the Board, the Budget reflects the allocation of resources by the territorial government to the new territorial entity with a net zero Federal deficit impact, consistent with long-standing budgetary concepts. Because the Board itself is not a Federal entity, its operations will not be included in the Federal Government's Budget. Data are presented here on a Puerto Rico fiscal year basis (July 1 to June 30).

Pending, end of year .....	10,039	10,150	10,693	10,579

As shown below, the Board projects this workload will continue to decline as the number of beneficiaries declines.

	1980 act.	1990 act.	2010 act.	2019 act.	2020 act.	2021 est.
Total beneficiaries .....	1,009,500	894,196	549,154	508,774	502,553	496,000

In recognition of the continuing decline in virtually all its major workloads, the Board will explore and adopt new approaches to improve service to beneficiaries.

The President's Budget includes three (3) legislative proposals: the first legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board (RRB) to utilize various hiring authorities available to other Federal agencies. Section 7(b)(9) of the Railroad Retirement Act contains language requiring that all employees of the RRB, except for one assistant for each Board Member, must be hired under the competitive civil service. Elimination of this requirement would enable the RRB to use various hiring authorities offered by the Office of Personnel Management; the second legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board to utilize student and recent graduate hiring authority available to other Federal agencies; lastly the third legislative proposal is to amend the Railroad Retirement Act and the Railroad Unemployment Insurance Act to include a felony charge for individuals committing fraud against the Agency. Under this proposal, both the Railroad Retirement Act and the Railroad Unemployment Insurance Act would be amended to include a felony charge similar to violations under 42 U.S.C. 408, 18 U.S.C. 1001, or 18 U.S.C. 287.

All railroad retirees receive the equivalent of a social security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and supplemental annuities. Social security benefits for former railroad employees are funded by the social security trust funds, and rail industry pension payments are the responsibility of the rail sector.

Under current law, a financial interchange occurs once each year between the social security trust funds and the social security equivalent benefit (SSEB) account. SSEB receives monthly advances from the general fund equal to an estimate of the transfer SSEB would have received for the previous month if the financial interchange transfers were on a monthly basis. Advances from the previous year are repaid annually to the general fund immediately after the financial interchange is received. In 2020, \$4.752 million was advanced and \$4.337 million was repaid.

The primary mission of the Securities and Exchange Commission (SEC) is to: protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation. The SEC's six major programs include the following:

**Enforcement.**—The Division of Enforcement investigates and prosecutes civil violations of the Federal securities laws and works closely with the Department of Justice and other law enforcement partners to coordinate and assist in criminal prosecutions.

**Examinations.**—The Division of Examinations conducts the SEC's examination program to detect violations of the Federal securities laws and evaluate internal compliance controls at securities firms registered with the SEC.

**Corporation Finance.**—The Division of Corporation Finance selectively reviews company disclosures to ensure that investors have the information necessary to make informed investment decisions and to help deter fraud and misrepresentation in securities transactions.

**Trading and Markets.**—The Division of Trading and Markets' (TM) mission is to establish and maintain standards for fair, orderly, and efficient markets while fostering investor protection and confidence in the markets. TM oversees the activities of industry self-regulatory organizations, such

as the Financial Industry Regulatory Authority, and directly regulates market participants where Commission rulemaking is more effective than self-regulation.

**Investment Management.**—The Division of Investment Management works to protect investors, promote informed investment decision making, and facilitate appropriate innovation in investment products and services through regulation of the asset management industry.

**Economic and Risk Analysis.**—The Division of Economic and Risk Analysis integrates financial economics and rigorous data analytics into the core mission of the SEC.

Additional program offices directly support the major programs: the Office of International Affairs, the Office of the Chief Accountant, the Office of Credit Ratings, the Office of Investor Education and Advocacy, the Office of the Investor Advocate, the Administrative Law Judges, the Office of the Advocate for Small Business Capital Formation, the Office of Municipal Securities, and the Strategic Hub for Innovation and Financial Technology (FinHub).

The SEC is funded through offsetting fees and assessments collected pursuant to section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) at a rate intended to fully offset our appropriation. The Budget proposes \$1.993 billion in collections to fund SEC operations in 2022.

In addition to \$1.993 billion in support of operations, the Budget proposes an amount for move, replication, and related costs associated with a replacement lease for the Commission's Fort Worth Regional Office facilities. At this time, this amount is estimated at \$6.7 million. This amount would not be used for the operations of the SEC, and the proposed appropriations language provides a mechanism whereby any unused portion of these funds could be refunded to fee payers (or returned to the general fund of the Treasury) as rapidly as practicable.

Section 991 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act) amended section 4 of

the Securities Exchange Act of 1934 (15 U.S.C. 78d) to establish the Securities and Exchange Commission Reserve Fund. The Reserve Fund is a separate fund in the Treasury from which the Commission may obligate amounts determined necessary to carry out Commission functions. The Reserve Fund provisions took effect on October 1, 2011.

The Reserve Fund is funded by deposits from registration fees collected by the Commission under section 6(b) of the Securities Act of 1933 (15 U.S.C. 77f(b)) and section 24(f) of the Investment Company Act of 1940 (15 U.S.C. 80a-24(f)). In any one fiscal year, the amount deposited in the Reserve Fund may not exceed \$50 million and obligations from the Reserve Fund may not exceed \$100 million. The balance in the Reserve Fund may not exceed \$100 million. Amounts in the Reserve Fund are available until expended. (The remainder of registration fee collections for each fiscal year are deposited in the general fund of the Treasury and are not available for obligation by the Commission.)

Amounts collected and deposited in the Reserve Fund are not subject to appropriation or apportionment. However, the Commission is required to notify the Congress of the amount and purpose of any obligations made utilizing amounts from the Reserve Fund within 10 days.

As part of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act), the Congress substantially expanded the Securities and Exchange Commission's (SEC or Commission) authority to pay whistleblower awards and enhanced the anti-retaliation protections available to whistleblowers. The intent is to incentivize submission of high-quality tips by motivating persons with knowledge of possible securities laws violations to assist the Federal Government in identifying and prosecuting individuals who violate the Federal securities laws.

To comply with direction provided in the Dodd-Frank Act, the SEC's Division of Enforcement established an Office of the Whistleblower to administer and enforce the whistleblower award program. The Investor Protection Fund (the Fund), established by the Dodd-Frank Act, provides resources for payments to whistleblowers and for the SEC's Office of the Inspector General Employee Suggestion Program. Deposits into the Fund are comprised of a portion of monetary sanctions collected by the SEC in judicial or administrative actions brought by the Commission under the Federal securities laws that are not added to a disgorgement fund or other fund under section 308 of the Sarbanes-Oxley Act of 2002 (P.L. 107-204), as well as amounts in such funds that will not be distributed to injured investors. No sanction collected by the Commission can be deposited into the Fund if the balance at the time the sanction is collected exceeds \$300 million. No funds have been taken or withheld from harmed investors to pay whistleblower awards. The Commission is required to submit an annual report on the whistleblower award program to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

The figures reported for 2021 and 2022 are based on assumptions regarding several variables inherent to litigation and to the Commission's whistleblower award process. Given the potential for significant variation in the payouts and their timing, it is possible that actual payouts will be either significantly higher or significantly lower than these estimates.

The Smithsonian Institution conducts research in natural and physical sciences, history and the history of cultures, technology and the arts. The Institution acquires and preserves more than 155 million items of scientific, cultural, and historic importance for reference and study purposes. These resources may be accessed by millions of visitors and researchers worldwide either in person, or increasingly online. Smithsonian's public exhibitions delve into subjects from aeronautics to zoology.

The Institution operates 19 museums and galleries, a zoological park and animal conservation and research center, research facilities, and supporting facilities.

Included in the presentation of the Salaries and Expenses account are data for the Canal Zone biological area fund. Donations, subscriptions, and fees are appropriated and used to defray part of the expenses of maintaining and operating the Canal Zone biological area (60 Stat. 1101; 20 U.S.C. 79, 79a).

This account provides funding for major new construction projects to support the Smithsonian's existing and future programs in research, collections management, public exhibitions, and education. This account also includes major repairs, revitalization, code compliance changes, minor construction, alterations and modifications, and building system renewals of Smithsonian museum buildings and facilities for storage and conservation of collections, research, and support. The Facilities Capital account also includes planning and design funding related to these activities and to plan new museums authorized by Congress. The President's Budget for Fiscal Year 2022 includes funds for critical infrastructure improvements at the National Museum of Natural History, the National Zoological Park, and the National Museum of American History. In addition, funds are included for improvements to the Donald W. Reynolds Center, the Smithsonian Tropical Research Institute and Astrophysical Observatory and other important revitalization projects throughout the Institution. Current long-term projects in this account include the Suitland Collections Facility and renovations at the National Air and Space Museum facilities, the Smithsonian Castle and Arts and Industries Building and the Hirshhorn Museum and Sculpture Garden, the American Women's History Museum and the National Museum of the American Latino.

The Budget provides \$2.5 million for the Southwest Border Regional Commission (SBRC). SBRC, authorized by P.L. 110–234, was established as a Federal-State partnership to provide a comprehensive approach to addressing persistent economic distress in the southwest border region. SBRC covers parts of Arizona, California, New Mexico, and Texas.

The State Justice Institute (SJI) was established by Federal law (42 U.S.C. 10701 et seq.) as a non-profit corporation to award grants and undertake other activities to improve the quality of justice in State courts and foster innovative, efficient solutions to common issues faced by all courts. SJI has the authority to assist all State courts—criminal, civil, juvenile, family, and appellate—and the mandate to share the success of one State's innovations with every State court system and the Federal courts. The FY 2022 budget proposes a \$600,000 enhancement to address the unique challenges of the opioid epidemic, mental health issues, and technology in state courts.

The Surface Transportation Board (STB or Board) is primarily charged with the economic oversight of the nation's freight rail system. The economics of freight rail regulation impact the national transportation network and are important to our nation's economy. For this reason, Congress gave the STB sole jurisdiction over railroad entry and exit licensing, mergers, and consolidations, exempting STB-approved transactions from federal antitrust laws and state and municipal laws. The Board also has exclusive authority to determine whether certain railroad rates and practices are reasonable.<sup>[1]</sup> The bipartisan Board was established in 1996 as the successor

agency to the Interstate Commerce Commission.<sup>[2]</sup> The Board was administratively aligned with the Department of Transportation until the enactment of the Surface Transportation Board Reauthorization Act of 2015.<sup>[3]</sup>

While a majority of the Board's work involves freight railroads, the Board also performs certain oversight of passenger rail matters, the intercity bus industry, non-energy pipelines, household goods carriers' tariffs, and rate regulation of non-contiguous domestic water transportation (marine freight shipping involving the mainland United States, Hawaii, Alaska, Puerto Rico, and other U.S. Territories and possessions).

Fiscal Year (FY) 2022 Program: The Board requests \$39,152,000 to carry out its mission as directed under the law. This includes a request for \$1,250,000 from offsetting collections of fees as a credit to the appropriation received, to the extent collected.

The STB's FY 2022 budget request would maintain current operational funding to meet its statutory responsibilities and continue meeting the needs of stakeholders and the public. The Board's non-personnel budget supports several information technology system and infrastructure maintenance and modernization efforts. The requested funding would continue to support improvements to the Board's cybersecurity program, as well as support additional data and analytical capabilities to continue to enhance the Board's evidence-based decision-making. In FY 2022, the STB would continue to

modernize its enterprise-wide data and analytics technology, skills, processes, and products to better leverage its data as a strategic asset.

The Tennessee Valley Authority (TVA) was created in 1933 as a government-owned corporation charged with the mission to improve the quality of life in the Tennessee Valley through the integrated management of the region's resources. The TVA Act sets forth the agency's purpose: to address the Valley's most important issues in energy, environmental stewardship, and economic development. TVA is currently self-funded, financing its operations almost entirely from revenues and power system financings.

**TVA's Power Program.**—TVA supplies electric power to an area of 80,000 square miles covering parts of the seven Tennessee Valley states, Tennessee, Alabama, Mississippi, Kentucky, Georgia, North Carolina and Virginia. Estimated income from power operations, net of interest charges, depreciation, and other operating expenses, is expected to be \$0.9 billion in 2022 on operating revenues of \$10.3 billion. Power generating facilities are financed from power revenues and power system financings. TVA's power system financings consist primarily of the sale of debt securities and secondarily of alternative forms of financing, such as lease arrangements.

**TVA's Non-Power Programs.**—TVA operates a series of 49 dams and 47 reservoirs to reduce the risk of flooding, enable year-round navigation, supply affordable and reliable electricity, improve water quality and water supply, provide recreational opportunities, stimulate economic growth, and provide other public benefits. TVA is responsible for stewardship activities within the Tennessee Valley that include: water release regulation; maintenance of dam machinery and spillway gates; modifications on nine main and four auxiliary navigation locks and associated mooring facilities; im-

provement of water quality and supply; management of shoreline erosion; regulation of shoreline development along the Tennessee River and its tributaries; planning and management of 293,000 acres of public land; and operation of public recreation areas. These services are funded entirely by TVA's power revenues and its user fees.

**Economic Development.**—TVA is charged with providing the people of the Tennessee Valley region greater opportunities for prosperity. To that end, TVA works to foster capital investment and job growth in the Valley in collaboration with regional, state and local organizations. In fiscal year 2020, TVA worked in partnership with communities and the business sector to spur \$8.6 billion in capital investment in the Tennessee Valley region and helped attract and retain approximately 67,000 jobs.

**Strategic Financial Plan.**—In August 2019, the TVA Board approved an annual budget that reflects the first year of a new Strategic Financial Plan. The Strategic Financial Plan, which extends from FY 2020 through FY 2030, is flexible in aligning customer preferences and TVA's mission while at the same time establishing a forecast of financial results. Key focus areas of the Strategic Financial Plan include (1) establishing better alignment between the length of local power company (LPC) contracts and TVA's long-term commitments, (2) stabilizing debt, (3) maintaining rates as low as feasible, (4) maintaining current levels of cash, and (5) pursuing operational efficiencies.

(1) **Contract Alignment:** As part of this new Strategic Financial Plan, and in order to better align customer contractual commitments with TVA's overall financial obligations, a long-term partnership proposal was made available to all TVA-served LPCs on August 22, 2019, after Board approval. Under this long-term partnership proposal, LPCs that agree to contractual changes, which include a rolling 20-year term and a termination notice period of 20 years, will receive a long-term partner credit. That credit is currently 3.1% of wholesale standard service demand, energy, and grid access charges. TVA's effective wholesale rate and annual revenues will decline as LPCs commit to becoming long-term partners, but TVA's overall financial health will improve through better alignment of customer contract terms with TVA's overall financial obligations. As of September 30, 2020, 142 of the 153 LPCs served by TVA have signed the long-term partnership proposal, thus closing the gap between TVA's committed revenues and long-term obligations.

(2) **Stabilizing Debt:** In 2020, TVA fulfilled its commitment to lower debt to \$21.8 billion by 2023, while simultaneously achieving its lowest debt level in the last 30 years. TVA's ending 2020 debt level, \$21.4 billion, was nearly \$400 million lower than the committed 2023 target and three years ahead of schedule. This achievement was obtained, in part, due to TVA's cost-saving initiatives which reduced annual operating costs by \$800 million relative to the 2013 budget levels beginning in 2015.

(3) **Maintaining Low Rates:** The aforementioned savings in TVA's annual operating costs have been sustained since 2015, which has contributed in allowing TVA to forego any previously planned rate increases in both 2020 and 2021, and TVA currently has no plans in place to implement any rate increases in the near-term. TVA is committed to future continuous improvement initiatives, and TVA's rate position compared to peers has improved since embarking on the strategic debt reduction plan.

(4) **Maintaining Cash Levels:** TVA's Strategic Financial Plan included the expectation of maintaining cash targets of \$300 million. However, due to higher volatility in the financial markets associated with the COVID-19 pandemic, TVA increased its balance of cash and cash equivalents to roughly \$500 million in 2020. TVA will continue to monitor the environment in which it operates to ensure that it is maintaining an appropriate and flexible cash balance in response to the pandemic, as well as other economic factors causing market volatility.

(5) **Pursuing Operational Efficiencies:** In accordance with TVA's approach to develop a more flexible, cleaner, and low-cost energy portfolio, TVA retired Paradise Fossil Unit 3 on February 1, 2020 after

Board approval. Additionally, at its February 2019 meeting, the TVA Board voted to retire Bull Run Fossil Plant by December 2023. Consistent with TVA's 2019 Integrated Resource Plan, ongoing evaluations of TVA's energy portfolio have resulted in the Board's approval of three new combustion turbine gas plants to support its operational fleet. These plants will be located in Colbert, AL, Paradise, KY, and Johnsonville, TN. The total construction cost for each new plant is estimated at roughly \$500 million, for a total combined cost of \$1.5 billion for all three plants. These new combustion turbine plants will include modern technologies which will allow TVA to operate more efficiently when meeting peak demands for power in the Tennessee Valley. Modernizing the fleet with such technologies will enhance the portfolio's flexibility with more efficient and low-cost operating characteristics given the designs of modern plants. The plants at Colbert, AL and Paradise, KY are expected to be placed in service by the end of 2023, and the plant at Johnsonville, TN is expected to be placed in service by the end of 2024. Additionally, TVA completed all physical work associated with an extended power uprate at its Browns Ferry Nuclear Plant in 2019. The uprate is expected to provide an additional 465 MW of generating capacity after sufficient run time to validate the new capacity, which is expected to occur in 2021.

**Financing.**—Amounts estimated to become available for TVA programs in 2022 are to be derived from operating revenues of \$10.3 billion. The outstanding balance of TVA's bonds, notes, and other evidences of indebtedness is limited by statute and cannot exceed \$30 billion. TVA's outstanding debt and debt-like obligations were \$21.4 billion at the beginning of 2021 and are estimated to be \$21.5 billion by the end of 2022. At the beginning of 2021, TVA had \$1.3 billion in debt-like obligations that was not counted against its statutory debt cap. In addition, TVA had an unfunded pension liability of \$5.7 billion as of September 30, 2020.

**Operating results and financial conditions.**—Payments to the Treasury from power proceeds in 2022 are estimated at an \$8 million return on the appropriation investment in the power program. Total capital spending for 2022 is estimated at \$2.8 billion, which in addition to new generation capacity includes over \$100 million for environmental projects and \$1.1 billion to maintain TVA's existing generation assets. Total government equity at September 30, 2022, is estimated to be \$0.9 billion more than that at September 30, 2021. This change includes the estimated net income from power operations and payments to the Treasury. As of September 30, 2020, the funding status of TVA employees' defined benefit pension plan (TVARS) was that of a 58% funding ratio and a \$5.7 billion unfunded liability. This compares to a 60% funding ratio and \$5.3 billion unfunded liability in 2019, and a 68% funding ratio and \$3.7 billion unfunded liability in 2018. The decrease in funding ratio and increase in unfunded liability in 2020 was caused by a decrease in the liability discount rate. TVA contributed \$300 million to TVARS, and incurred \$321 million in actuarial costs in 2020. TVARS made \$726 million in payments to beneficiaries and earned \$397 million, or a 4.5 percent rate of return, on the plan's investments in 2020. TVA is committed to meeting its obligations to current and future retirees and has worked with the TVARS Board in recent years to implement several significant changes to ensure the long-term health of the retirement system.

**COVID-19 Response.**—For the year ended September 30, 2020, TVA estimates base revenues were reduced by approximately \$185 million due to the impacts of COVID-19. Due to reductions in TVA's revenue for 2020 and expected reductions in revenue in 2021, TVA has and will continue to implement various cost savings initiatives, such as deferring and prioritizing certain capital projects and decreasing discretionary spending. Additionally, the COVID-19 pandemic has created economic uncertainty for TVA's customers and the communities they serve. To support and strengthen the public power response to the COVID-19 pandemic, TVA announced the following initiatives, among others, in FY 2020:

**Back-to-Business Credit Program:** TVA created the Back-to-Business Credit Program to enable TVA and LPCs the ability to provide relief to certain large customers affected by the COVID-19 pandemic by providing certain credits when returning to operations. As of September 30, 2020, TVA had provided approximately \$10 million in Back-to-Business credits under this program.

**Community Care Fund:** TVA is also partnering with LPCs through the Community Care Fund by making available over \$4 million in matching funds to support local initiatives that address hardships created by the pandemic. Over \$2 million in matching funds had been provided as of September 30, 2020.

**Pandemic Relief Credit:** In August 2020, the TVA Board approved a \$200 million Pandemic Relief Credit. This 2.5 percent base rate credit was applied beginning in October 2020 and will remain in effect through the end of FY 2021. The credit will apply to service provided to TVA's LPCs, their large commercial and industrial customers, and TVA directly served customers.

These actions continue to show TVA's commitment to support both LPCs and the communities they serve across the Tennessee Valley during these challenging economic conditions caused by the COVID-19 pandemic. TVA is closely monitoring developments and will continue adjusting its response as necessary to ensure reliable service while protecting the safety of its workforce and supporting those in the Tennessee Valley.

The United States Court of Appeals for Veterans Claims (Court) is a national court of record established by the Veterans Judicial Review Act (Public Law 100–687), Division A (1988) (Act). The Act, as amended, is

codified in part at 38 U.S.C. 7251–7299. The Court is located in Washington, D.C., but as a national court may sit anywhere in the United States.

The Court is part of the Federal judicial system and has a permanent authorization for seven judges, one of whom serves as chief judge. Per Public Law 114–315, the Congress temporarily authorized expansion of the Court to nine active judges. Judges are appointed by the President, and with the advice and consent of the Senate, for 15-year terms. The Court is currently staffed with nine active judges. Upon retirement, a judge may choose to be recall eligible, and thus willing to be recalled to service by the chief judge. Currently eight of the Court's ten retired judges are recall eligible and are recalled to service on a rotational basis. Recall-eligible judges may elect full retirement at any time.

The Court has exclusive jurisdiction to review decisions made by the Department of Veterans Affairs Board of Veterans' Appeals (Board) that adversely affect a person's entitlement to Department of Veterans Affairs benefits. This judicial review, although specialized in scope, is the same as that performed by all other United States Courts of Appeals. In cases before it, the Court has the authority to decide all relevant questions of law; to interpret constitutional, statutory, and regulatory provisions; and to determine the meaning or applicability of actions/decisions by the Secretary of Veterans Affairs. The Court may affirm, set aside, reverse, or remand those decisions as appropriate. Additionally, the Court has class action authority, has jurisdiction under 28 U.S.C. 1651 to issue all writs necessary or appropriate in aid of its jurisdiction, and may act on applications under 28 U.S.C. 2412(d), the Equal Access to Justice Act. Certain decisions by the Court are reviewable by the United States Court of Appeals for the Federal Circuit and, if *certiorari* is granted, by the Supreme Court of the United States. For management, administration, and expenditure of funds in areas beyond the bounds of Chapter 72 of Title 38, the Court may exercise the authorities provided for such purposes applicable to other courts as defined in Title 28, U.S. Code.

In 1992, the Congress authorized the Court to transfer funds from its appropriation that year to the Legal Services Corporation (LSC), for the purpose of providing, facilitating, and furnishing legal and other assistance, through grant or contract, to veterans and others seeking recourse in the Court. That program, often referred to as the pro bono representation program, has been ongoing since that time, with LSC responsible for oversight and grant distribution responsibilities. The Appropriations Subcommittees consider LSC's budget request separately from the Court's budget request, although both are submitted together.

The United States Court of Appeals for Veterans Claims Retirement Fund (Retirement Fund or Fund), established under 38 U.S.C. 7298, is used for judges' retired pay and for annuities, refunds, and allowances provided to surviving spouses and dependent children. Participating judges pay 1-percent of their salaries to cover creditable service for retired pay purposes and 2.2-percent of their salaries for survivor annuity purposes. Additional funds needed to cover the unfunded liability may be transferred to the Retirement Fund from the Court's annual appropriation. The Court's contribu-

tion to the Fund is estimated annually by an actuarial firm retained by the Court. The Fund is invested solely in government securities.

The Vietnam Education Foundation Act of 2000 (Title II of Public Law 106-554) created the Vietnam Education Foundation (VEF) to administer an international fellowship program under which Vietnamese nationals can undertake graduate and post-graduate level studies in the United States in the sciences (natural, physical, and environmental), mathematics, medicine, and technology, and American citizens can teach in these fields in appropriate Vietnamese institutions of higher education. The Act also authorized the establishment of the Vietnam Debt Repayment Fund, in which all payments (including interest payments) made by the Socialist Republic of Vietnam under the United States-Vietnam debt agreement shall be deposited as offsetting receipts. Beginning in 2002, and in each subsequent year through 2018, \$5 million of the amounts deposited into the fund from USDA and USAID shall be available to VEF for operations and fellowship programs. Beginning in 2015, and in each subsequent year through 2018, the remaining amounts deposited into the fund from USDA and USAID shall be available to support the establishment of an independent, not-for-profit academic institution in the Socialist Republic of Vietnam.

## FEDERALLY CREATED NON-FEDERAL ENTITIES

The majority of budgetary accounts are associated with departments or other entities that are clearly Federal agencies. In other cases, budgetary accounts reflect a measure of Governmental activity in the economy, though the activity may have no direct relationship with the United States Treasury. Federally created non-Federal entities may be in the Budget because they were created by Federal law, they have some measure of regulatory or other authority conferred to them by law, or because they serve a public good directed by the Government. The following accounts are each deemed to be budgetary and fulfill the goal of presenting a Budget that is comprehensive of the full range of Federal activities.

The Affordable Housing Program was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). FIRREA requires each of the Federal Home Loan Banks to contribute 10-percent of its previous year's net earnings to an Affordable Housing Program (AHP) to be used to subsidize the cost of affordable homeownership and rental housing. The Federal Housing Finance Agency (FHFA) regulates the AHP and ensures that the AHP fulfills its mission.

The Corporation for Travel Promotion (also known as Brand USA) was established by the Travel Promotion Act of 2009 to lead the nation's first global marketing effort to promote the United States as a premier travel destination and to communicate U.S. entry/exit policies and procedures. The public-private partnership, funded through a combination of private sector contributions and Federal matching funds, works closely with the travel industry to encourage increased travel and tourism in the United States.

A surcharge to the Electronic System for Travel Authorization (ESTA) fee that travelers from visa waiver countries pay before arriving in the United States provides Brand USA's Federal matching funds. Authorization to collect the surcharge under the Travel Promotion Act was set to expire September 30, 2020, but was extended to September 30, 2027, in the Brand USA Extension Act (part of the Further Consolidated Appropriations Act, 2020).

The Energy Policy Act of 2005 (P.L. 109-58) authorizes the Federal Energy Regulatory Commission (FERC) to certify an Electric Reliability Organization (ERO) to establish and enforce reliability standards for the electric bulk-power system. These standards include requirements for operating existing bulk-power system facilities, including cybersecurity protection, and design of planned additions or modifications to these facilities to provide for reliable operation, but does not include requirements to construct new transmission or generation capacity. On July 20, 2006, FERC certified the North American Electric Reliability Corporation as the ERO. ERO is funded by fees on end users of the bulk-power system. Since the ERO does not report budget data to Treasury, ERO funding is based on estimates.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. Program administration for the Fund is financed from the Fund. Program expenses are funded first from forfeitures and loan fees and then from earnings on all participant and agency contributions to the Fund.

The Thrift Savings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Fund, it is not included in the totals of the Federal Budget. Information on the financial status and activities of the Fund follows this account.

services are eligible to contribute to the Fund. Civilian employees covered by the Federal Employees Retirement System (or equivalent retirement systems) receive an automatic agency 1 percent contribution and matching contributions in accordance with the formulas prescribed by law. Beginning in January 2018, all new members of the uniformed services, and those members of the uniformed services with less than 12 years of service who have made an affirmative election, receive an automatic agency one percent contribution and matching contributions in accordance with the formulas prescribed by law. Employees can invest in five investment funds: a U.S. Government securities investment fund; a fixed income index investment fund; a common stock index investment fund; a small capitalization stock index investment fund; an international stock index investment fund; or in ten lifecycle funds. These funds are composed of varying allocations of the five core investment funds. The allocations are based on the target maturity date of each fund.

The National Oilheat Research Alliance (NORA) was first authorized by The National Oilheat Research Alliance Act of 2000, as amended in 2014 (P.L. 113-79), and reauthorized by the Agriculture Improvement Act of 2018 (P.L. 115-334) to develop programs and projects and enter into contracts or other agreements to enhance consumer and employee safety and training; to provide for research, development, and demonstration of clean and efficient oilheat fuel utilization equipment; and to educate consumers. NORA is funded via statutorily-mandated fees of \$0.002 on every gallon of heating oil sold, collected at the wholesale level. Since NORA does not report budget data to Treasury, NORA funding is based on estimates.

Note: Because the Public Company Accounting Oversight Board (PCAOB) does not report budgetary data to Treasury, amounts shown above were derived from the PCAOB's financial data, which is based on a calendar year.

The Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203), established the PCAOB to oversee the audits and auditors of both public companies that are subject to Federal securities laws and broker-dealers registered with the Securities and Exchange Commission (SEC) in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports.

Funding for the PCAOB comes from registration and annual fees paid by public accounting firms and accounting support fees paid by public companies and SEC-registered broker-dealers. The Act designated the Commission to oversee the PCAOB and specifies that the PCAOB's budget and the accounting support fee be subject to approval by the Commission.

Note: Because the Securities Investor Protection Corporation (SIPC) does not report budgetary data to Treasury, amounts shown above were derived from SIPC's financial data, which is based on a calendar year. Earnings on investments are presented for all three years using an unamortized cost rather than the market value, to comply with OMB Circular A-11 requirements.

SIPC was created by the Securities Investor Protection Act of 1970 (SIPA). Its purpose is to protect customers against loss resulting from broker-dealer failure and, thereby, promote investor confidence in the Nation's securities markets. SIPC is a non-profit membership corporation. Its members are, with some exceptions, all persons registered as brokers or dealers under section 15(b) of the Securities Exchange Act of 1934 and all persons who are members of a national securities exchange. SIPC's funding is derived entirely from assessments on its membership and from interest earned on its investments in U.S. Government securities.

SIPC may borrow up to \$2.5 billion from the U.S. Department of the Treasury, through the Securities and Exchange Commission, in the event that the fund maintained by SIPC is insufficient to satisfy the claims of customers of brokerage firms in SIPA liquidation or for other purposes under the Act. SIPC has not accessed these loans to date and the Budget does not project that SIPC will require use of these loans over the next 10 years.

Note: Because the standard setting body does not provide budgetary data to Treasury, amounts shown above were derived from the standard setting body's financial data, which is based on a calendar year.

The Financial Accounting Standards Board (FASB) is an independent, private-sector organization organized in 1973 within the Financial Accounting Foundation (FAF), which is an independent, private-sector, not-for-profit corporation. The FASB consists of a seven-member board, whose members are appointed by the FAF. The FASB was originally designated by the Securities and Exchange Commission (Commission) as the authoritative standard setter for purposes of the Federal securities laws in 1973. In April 2003, the Commission reaffirmed the status of the FASB as a designated private-sector standard setting body pursuant to the Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107-204), stating that the FASB's financial accounting and reporting standards are recognized as "generally accepted" for purposes of the Federal securities laws.

The Act authorizes funding for the standard setting body to be derived from an accounting support fee assessed on public companies, although the FAF has, on a voluntary basis, partially offset the fees that could be assessed pursuant to the Act by payments derived from publication sales and licensing fees. Prior to the Act, the FASB was funded by voluntary contributions from public companies, public accounting firms, and other stakeholders. The standard setting body's accounting support fee is subject to review by the Commission.

The Combined Benefit Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; past transfers from the United Mine Workers pension fund; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1992 Benefit Plan was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care for those miners who retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is supported by signers of the 1988 labor agreement with the United Mine Workers of America; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1993 Benefit Plan provides health benefits to certain retired mine workers and disabled mine workers who are not eligible for benefits under the Coal Industry Retiree Health Benefit Act of 1992 and who are not receiving benefits from employers' benefit plans. The 1993 Benefit Plan was established through collective bargaining under the National Bituminous Coal Wage Agreement of 1993. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is financed by signatories to the National Bituminous Coal Wage Agreement; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1974 United Mine Workers of America Pension Plan provides pensions to eligible mine workers who retire, to those who become totally disabled as a result of mine accidents, and to the eligible surviving spouses of mine workers. The Bipartisan Miners Act of 2019 (Division M of Public Law 116–94), authorizes mandatory Treasury payments to the 1974 United Mine Workers of America Pension Plan, subject to certain limitations, until the Plans funded percentage reaches 100 percent.

# AMENDMENTS TO AND REVISIONS IN BUDGET AUTHORITY FOR 2021

## STATEMENT ON CHANGES

### (Between the Transmittal of the 2021 and 2022 Budgets)

A statement of all amendments to, or revisions in, budget authority requested between transmittal of the 2021 Budget and the 2022 Budget is presented below. This statement is included in the Budget in accordance with the Congressional Budget Act of 1974 (31 U.S.C. 1105(d)).

The modifications to proposals for 2021 budget authority that were made through the course of the past year took the form of Presidential amendments to the budget transmitted on February 10, 2020, and other requests.

These modifications were printed in the documents of the House of Representatives that are identified on the following listing.

## ADVANCE APPROPRIATIONS

An advance appropriation is one made to become available one year or more beyond the year for which the appropriations act is passed. Advance appropriations in 2022 appropriations acts will become available for programs in 2023 or beyond. Since these appropriations are not available until after 2022, the amounts will not be included in the 2022 totals, but will be reflected in the totals for the year for which they are requested.

The Congressional Budget Act of 1974 (31 U.S.C. 1105(a)(17)) requires inclusion in the budget of "information on estimates of appropriations for the fiscal year following the fiscal year for which the budget is submitted for grants, contracts, and other payments under each program for which there is an authorization of appropriations for that following fiscal year when the appropriations are authorized to be included in an appropriation law for the fiscal year before the fiscal year in which the appropriation is to be available for obligation." In fulfillment of this requirement, the accompanying table lists those accounts that have either received discretionary or mandatory advance appropriations since 2020 or will request, in 2022, advance appropriations for 2023 and beyond and cites the applicable authorizing statute.

For additional information on advance appropriations, please refer to the Budget Concepts chapter in the *Analytical Perspectives* volume.

## FINANCING VEHICLES AND THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE

This chapter contains descriptions of, and data on, financing vehicles and the Board of Governors of the Federal Reserve System (Board). The Financing Corporation functions as a financing vehicle for the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund. The Resolution Funding Corporation provided financing for the Resolution Trust Corporation (RTC) and is subject to the general oversight and direction of the Secretary of the Treasury.

The Board's transactions are not included in the Budget because of its unique status in the conduct of monetary policy. The Board provides data on its administrative budget, which is included here for information. Its budget is not subject to review by the President and is executed and presented here on a calendar-year basis. The previous year's data reflects the final budget, as approved by the Board.

The 2019 balance sheets for the Financing Corporation and Resolution Funding Corporation are as of December 31, 2019, and the 2020 balance sheets are as of September 30, 2020.

### FINANCING CORPORATION

The Financing Corporation (FICO) was a mixed-ownership Government corporation, chartered by the Federal Home Loan Bank Board pursuant to the Federal Savings and Loan Insurance Corporation Recapitalization Act of 1987, as amended (the Act). FICO's sole purpose was to function as a financing vehicle for the FSLIC Resolution Fund, formerly the Federal Savings and Loan Insurance Corporation. Pursuant to the Act, FICO had been authorized to issue debentures, bonds, and other obligations subject to limitations contained in the Act, the net proceeds of which were to be used solely to purchase capital certificates issued by the FSLIC Resolution Fund or to refund any previously issued obligations. The Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 terminated FICO's borrowing authority. FICO paid off its last long-term debt obligation on September 26, 2019, and on October 2, 2019, commenced the process of dissolution in accordance with relevant statutory requirements and the terms of a plan of dissolution approved by the Director of the Federal Housing Finance Agency (FHFA) on November 30, 2018.

The Act provided formulas pursuant to which the Federal Home Loan Banks (FHLBanks) made capital contributions to FICO. FICO used the proceeds received from the sales of such capital stock to purchase non-interest bearing securities for deposit in a segregated account as required by the Act. The non-interest bearing securities held in the segregated account were the primary source of repayment of the principal of FICO obligations. Securities in the segregated account were kept separate from other FICO accounts and funds, but were not specifically pledged as collateral for the payment of obligations. The primary source of payment of interest on the obligations was the receipt of assessments imposed on and collected from institutions' accounts, which are insured by the Federal Deposit Insurance Corporation's Deposit Insurance Fund.

FICO was dissolved after the satisfaction of claims and payment of other administrative expenses in 2020, at which point any surplus and remaining cash on hand of FICO was distributed to the FHLBanks, as FICO's sole stockholders, in proportion to their ownership in FICO's nonvoting capital stock. The receipt by the FHLBanks of any such distribution from FICO was treated as a partial return of their prior capital contributions to FICO and credited to their unrestricted retained earnings. The FHLBanks' combined financial condition or combined results of operations were not materially affected by the FICO distribution.

### RESOLUTION FUNDING CORPORATION

The Resolution Funding Corporation (REFCORP) is a mixed-ownership Government corporation established by Title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101-73). The sole purpose of REFCORP was to provide financing for the Resolution Trust Corporation (RTC). Pursuant to FIRREA, REFCORP was authorized to issue debentures, bonds, and other obligations, subject to limitations contained in the Act and regulations established by the Thrift Depositor Protection Oversight Board. The proceeds of the debt (less any discount, plus any premium, net of issuance cost) were used solely to purchase nonredeemable capital certificates of RTC or to refund any previously issued obligations.

Until October 29, 1998, REFCORP was subject to the general oversight and direction of the Thrift Depositor Protection Oversight Board. At that time, the Oversight Board was abolished and its authority and duties were transferred to the Secretary of the Treasury. The day-to-day operations of REFCORP are under the management of a three-member Directorate composed of the Chief Executive Officer of the Office of Finance of the Federal Home Loan Banks and two members selected from among the presidents of the 11 Federal Home Loan Banks (FHLBs). Members of the Directorate serve without compensation, and REFCORP is not permitted to have any paid employees.

FIRREA, as amended, and the regulations adopted by the Thrift Depositor Protection Oversight Board and the Secretary of the Treasury required that FHLBs contribute 20 percent of net earnings annually to assist in the payment of interest on bonds issued by REFCORP until such time as the total payments are equivalent to a \$300 million annual annuity with a final maturity date of April 15, 2030. The FHLBs fulfilled this obligation on August 5, 2011. Since then, with the exception of funds derived from the sale of former RTC assets managed by the Federal Deposit Insurance Corporation's Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund, only the U.S. Treasury has paid interest on REFCORP's long-term obligations. For details, please see the Payment to the Resolution Funding Corporation account in the Department of the Treasury section of the *Appendix* volume of the Budget.

The Federal Reserve System operates under the provisions of the Federal Reserve Act of 1913, as amended, and other acts of the Congress. To carry out its responsibilities under this Act, the Board of Governors (Board) determines general monetary, credit, and operating policies for the System as a whole and formulates the rules and regulations necessary to carry out the purposes of the Act. The Board's principal duties consist of exerting

an influence over credit conditions and supervising the Federal Reserve banks and member banks.

Under the provisions of section 10 of the Federal Reserve Act, the Board levies upon the Federal Reserve banks, in proportion to their capital and surplus, an assessment sufficient to pay its estimated expenses. Also under the Act, the Board determines and prescribes the manner in which its obligations are incurred and its expenses paid. Funds derived from assessments are deposited in the Federal Reserve Bank of Richmond and the Act provides that such funds "not be construed to be Government funds or appropriated moneys." No Government appropriation is required to support operations of the Board.

The Board issues U.S. currency (Federal Reserve notes) and the Reserve Banks distribute currency through depository institutions. The Board incurs costs and assesses the Reserve Banks for these costs related to producing, issuing, and retiring Federal Reserve notes, as well as providing other services. The assessment is allocated based on each Reserve Bank's share of the number of notes comprising the System's net liability for Federal Reserve notes on December 31 of the prior year. The Board recognizes the assessment in the year in which the associated costs are incurred.

Since 2017, the Board has undertaken a greater role in the currency program, including in research and development and quality assurance. This expanded role is reflected in the reclassification of certain transactions compared to prior years. The information presented pertains to Board operations only, which includes these new programs; expenditures for the currency program costs specific to the work performed by Treasury, including production, issuance and retirement, are not included.

The Dodd-Frank Act (P.L. 111-203), enacted July 21, 2010, directed the Board to collect assessments, fees, or other charges equal to the total expenses the Board estimates are necessary or appropriate to carry out the supervisory and regulatory responsibilities of the Board for certain bank holding companies and savings and loan holding companies, as well as nonbank financial companies designated for Board supervision by the Financial Stability Oversight Council (FSOC). The Board does not recognize the supervision and regulation assessments as revenue nor does the Board use the collections to fund Board expenses; the funds are transferred to the Treasury. The Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA, P.L. 115-174), enacted May 24, 2018, directed the Board to collect these assessments, fees, or other charges on such companies with total consolidated assets of \$100 billion (from \$50 billion in the Dodd-Frank Act), as well as to adjust amounts charged to reflect changes in supervisory and regulatory responsibilities resulting from EGRRCPA on firms with total consolidated assets less than \$250 billion.

## GOVERNMENT-SPONSORED ENTERPRISES

This chapter contains descriptions of the data on the Government-sponsored enterprises listed below. These enterprises were established and chartered by the Federal Government for public policy purposes. They are not included in the Federal Budget because they are private companies, and their securities are not backed by the full faith and credit of the Federal Government. However, because of their public purpose, statements of financial condition are presented, to the extent such information is available, on a basis that is as consistent as practicable with the basis for the budget data of Government agencies.

—The Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation provide assistance to the secondary market for residential mortgages.

—The Federal Home Loan Banks assist thrift institutions, banks, insurance companies, and credit unions in providing financing for housing and community development.

—Institutions of the Farm Credit System, which include the Agricultural Credit Bank and Farm Credit Banks, provide financing to agriculture. They are regulated by the Farm Credit Administration.

—The Federal Agricultural Mortgage Corporation, also a Farm Credit System institution under the regulation of the Farm Credit Administration, provides a secondary market for agricultural real estate, rural housing loans, and certain rural utility loans, as well as for farm and business loans guaranteed by the U.S. Department of Agriculture.

The Federal National Mortgage Association (Fannie Mae) is a Government-sponsored enterprise (GSE) in the housing finance market. As a housing GSE, Fannie Mae is a federally chartered, shareholder-owned, private company with a public mission to provide stability in and increase the liquidity of the residential mortgage market and to help increase the availability of mortgage credit to low- and moderate-income families and in underserved areas. Fannie Mae engages primarily in two forms of business: guaranteeing residential mortgage securities and investing in portfolios of residential mortgages.

Fannie Mae was established in 1938 to assist private markets in providing a steady supply of funds for housing. Fannie Mae was originally a subsidiary of the Reconstruction Finance Corporation and was permitted to purchase only loans insured by the Federal Housing Administration (FHA). In 1954, Fannie Mae was restructured as a mixed ownership (part government, part private) corporation. Legislation directed the sale of the Government's remaining interest in Fannie Mae in 1968 and completed the transformation to private shareholder ownership in 1970.

The Housing and Economic Recovery Act of 2008 reformed housing GSE regulation by creating the Federal Housing Finance Agency (FHFA), a new independent regulator, and providing temporary authority for the U.S. Department of the Treasury to purchase obligations of the housing GSEs. On September 6, 2008, FHFA placed Fannie Mae under Federal conservatorship in response to the GSEs' declining capital adequacy and to support the safety and soundness of the GSEs. On the following day, the U.S. Department of the Treasury entered into a Senior Preferred Stock Purchase Agreement (PSPA) with Fannie Mae to make investments of up

to \$100 billion in senior preferred stock as required to maintain positive equity. In May 2009, Treasury increased the funding commitments for the PSPA to \$200 billion and in December 2009, Treasury modified the funding commitments in the PSPA to the greater of \$200 billion or \$200 billion plus cumulative net worth deficits experienced during 2010–2012, less any surplus remaining as of December 31, 2012. Based on the financial results reported by Fannie Mae as of December 31, 2012, and under the terms of the PSPA, the cumulative funding commitment cap for Fannie Mae was set at \$233.7 billion. As of March 31, 2021, Fannie Mae had received \$119.8 billion under the PSPA, and had made a total of \$181.4 billion in dividend payments to Treasury on the senior preferred stock. The Budget continues to reflect the GSEs as non-budgetary entities, though their status will continue to be reviewed. All of the current Federal assistance being provided to Fannie Mae, including the PSPA, is shown on-budget. For additional discussion of Fannie Mae, please see the *Analytical Perspectives* volume of the Budget documents.

The Federal Home Loan Mortgage Corporation (Freddie Mac) is a Government-sponsored enterprise (GSE) in the housing finance market. As a housing GSE, Freddie Mac is a federally chartered, shareholder-owned, private company with a public mission to provide stability in and increase the liquidity of the residential mortgage market, and to help increase the availability of mortgage credit to low- and moderate-income families and in underserved areas. Freddie Mac engages primarily in two forms of business: guaranteeing residential mortgage securities and investing in portfolios of residential mortgages.

Freddie Mac was established in 1970 under the Emergency Home Finance Act. The Congress chartered Freddie Mac to provide mortgage lenders with an organized national secondary market enabling them to manage their conventional mortgage portfolio more effectively and gain indirect access to a ready source of additional funds to meet new demands for mortgages. Freddie Mac serves as a conduit facilitating the flow of investment dollars from the capital markets to mortgage lenders, and ultimately, to homebuyers.

The Housing and Economic Recovery Act of 2008 reformed housing GSE regulation by creating the Federal Housing Finance Agency (FHFA), a new independent regulator, and provided temporary authority for the U.S. Department of the Treasury to purchase obligations of the housing GSEs. On September 6, 2008, FHFA placed Freddie Mac under Federal conservatorship in response to the GSEs' declining capital adequacy and to support the safety and soundness of the GSEs. On the following day, the U.S. Department of the Treasury entered into a Senior Preferred Stock Purchase Agreement (PSPA) with Freddie Mac to make investments of up to \$100 billion in senior preferred stock as required to maintain positive equity. In May 2009, Treasury increased the funding commitments for the PSPA to \$200 billion and in December 2009, Treasury modified the funding commitments in the PSPA to the greater of \$200 billion or \$200 billion plus cumulative net worth deficits experienced during 2010–2012, less any surplus remaining as of December 31, 2012. Based on the financial results reported by Freddie Mac as of December 31, 2012, and under the terms of the PSPA, the cumulative funding commitment cap for Freddie Mac was set at \$211.8 billion. As of March 31, 2021, Freddie Mac had received \$71.6 billion under the PSPA, and had made a total of \$119.7 billion in dividend payments to Treasury on the senior preferred stock. The Budget continues to reflect the GSEs as non-budgetary entities, though their status will continue to be reviewed. All of the current federal assistance being provided to Freddie Mac, including the PSPA, is shown on-budget. The Federal Home Loan Bank System is a Government-sponsored enterprise (GSE) in the housing finance market. The Federal Home Loan Banks (FHLBanks) were chartered by the Federal Home Loan Bank Board under the authority of the Federal Home Loan Bank Act of 1932 (Act). The 11 Federal Home Loan Banks are under the supervision of the Federal Housing Finance Agency (FHFA), established by the Congress in 2008. The common mission of FHLBanks is to facilitate the extension of credit through their members. To accomplish this mission, FHLBanks make loans, called "advances", and provide other credit products and services to their nearly 6,700 member commercial banks, savings associations, insurance companies, and credit unions. Advances and letters of credit must be fully secured by eligible collateral, and long-term advances may be made only for the purpose of providing funds for residential housing finance. However, "community financial institutions" may also use long-term advances to finance small businesses, small farms, and small agribusinesses. Specialized advance programs provide funds for community reinvestment and affordable housing programs. All regulated financial depositories, certified community development financial institutions, and insurance companies engaged in residential housing finance are eligible for membership, and must meet other requirements in the Act to obtain membership. Each FHLBank operates in a geographic district and together FHLBanks cover all of the United States, including the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands. The principal source of funds for the lending operation is the sale of consolidated obligations to the public. The consolidated obligations are not guaranteed by the U.S. Government as to principal or interest. Other sources of lendable funds include members' deposits and capital. Funds not immediately needed for advances to members are invested. The capital stock of the Federal Home Loan Banks is owned entirely by the members. Initially the U.S. Government purchased stock of the banks in the amount of \$125 million. The banks had repurchased the Government's investment in full by mid-1951. The Act, as amended in 1989, requires each FHLBank to operate an Affordable Housing Program (AHP). Each FHLBank provides subsidies in the form of direct grants or below-market rate advances for members that use the funds for qualifying affordable housing projects. Each of the FHLBanks must set aside annually 10 percent of its previous year's net earnings, subject to an aggregate minimum of \$100 million, for the AHP. For additional discussion of the FHLBanks, please see the *Analytical Perspectives* volume of the Budget.

## FARM CREDIT SYSTEM

The Farm Credit System (System) is a Government-sponsored enterprise that provides privately financed credit to agricultural and rural communities. The major functional entities of the System are: (1) the Agricultural Credit Bank (ACB); (2) the Farm Credit Banks (FCBs); and (3) the direct-lender associations. The Federal Agricultural Mortgage corporation (Farmer Mac), which is also an institution of the System, is discussed separately below. The history and specific functions of the bank entities are discussed after the presentation of financial schedules for each bank entity. System entities are regulated and examined by the Farm Credit Administration (FCA), an independent Federal agency. The administrative costs of FCA are financed by assessments on System institutions, including Farmer Mac. System banks finance loans primarily from sales of bonds to the public and their own capital funds. The System bonds issued by the banks are not guaranteed by the U.S. Government as to either principal or interest. The bonds are backed by an insurance fund, administered by the Farm Credit System Insurance Corporation (FCSIC), an independent Federal Government-controlled corporation that collects insurance premiums from member banks to fund insurance reserves. All of the FCSIC's operating expenses are also paid from the insurance premiums it receives from the System banks; as a result, the FCSIC does not require budgetary resources from the Federal Government.

CoBank, Agricultural Credit Bank (ACB), which is headquartered near Denver, Colorado, provides funding to eligible cooperatives nationwide and Agricultural Credit Associations (ACAs) in its chartered district. CoBank is the only Agricultural Credit Bank (ACB) in the System. An ACB operates under statutory authority that combines the authorities of an FCB and a bank for cooperatives (BC). CoBank is the only System bank with the authorities of a BC. In exercising its FCB authority, CoBank's charter limits its lending to 21 ACAs located in the northeast, central, and western regions of the country. And, in exercising its BC authority, CoBank is chartered to provide credit and related services nationwide to eligible cooperatives primarily engaged in farm supply, grain, marketing, and processing (including sugar, dairy, and ethanol). CoBank also makes loans to rural utilities, including telecommunications companies, and it provides international loans for the financing of agricultural exports.

The Agricultural Credit Act of 1987 (1987 Act) required the Federal Land Banks (FLBs) and Federal Intermediate Credit Banks (FICBs) to merge into an FCB in each of the 12 Farm Credit districts. FCBs operate under statutory authority that combines the prior authorities of an FLB and of an FICB. Mergers and consolidations of FCBs across district lines, which began in 1992, have continued to date. As a result of this restructuring activity, three FCBs, headquartered in the following cities, remain as of October 1, 2020: AgFirst Farm Credit Bank, Columbia, South Carolina; AgriBank, FCB, St. Paul, Minnesota; and FCB of Texas, Austin, Texas.

FCBs serve as discount banks and, as of October 1, 2020, provided funds to one Federal Land Credit Association and 46 Agricultural Credit Associations. These direct-lender associations, in turn, primarily make short- and intermediate-term production loans and long-term real estate loans to eligible farmers and ranchers, farm-related businesses, and rural homeowners. FCBs can also lend to other financing institutions, including commercial banks, as authorized by the Farm Credit Act of 1971, as amended (1971 Act).

All the capital stock of FICBs, from their organization in 1923 to December 31, 1956, was held by the U.S. Government. The Farm Credit Act of 1956 provided a long-range plan for the eventual ownership of the FICBs by the production credit associations and the gradual retirement of

the Government's investment in the banks. This retirement was accomplished in full on December 31, 1968. The last of the Government capital that had been invested in FLBs was repaid in 1947.

## FARMER MAC

Farmer Mac is authorized under the Farm Credit Act of 1971 (as amended by the 1987 Act) to create a secondary market for agricultural real estate and rural home mortgages. The Farmer Mac title of the 1971 Act was amended by the 1990 farm bill to authorize Farmer Mac to purchase, pool, and securitize the guaranteed portions of farmer program, rural business,

and community development loans guaranteed by the U.S. Department of Agriculture (USDA). The Farmer Mac title was amended in 1991 to clarify Farmer Mac's authority to issue debt obligations, provide for the establishment of minimum capital standards, establish the Office of Secondary Market Oversight at the Farm Credit Administration (FCA), and expand the Agency's rulemaking authority. The Farm Credit System Reform Act of 1996 (1996 Act) amended the Farmer Mac title to allow Farmer Mac to purchase loans directly from lenders and to issue and guarantee mortgage-backed securities without requiring that a minimum cash reserve or subordinated (first loss) interest be maintained by poolers as had been required under its original authority. The 1996 Act expanded FCA's regulatory authority to include provisions for establishing a conservatorship or receivership, if necessary, and provided for increased core capital requirements at Farmer Mac phased in over three years. The 2008 Farm Bill, the Food, Conservation and Energy Act of 2008, amended the Farmer Mac title to authorize the financing of rural electric and telephone cooperatives. Most recently, the 2018 Farm Bill, the Agricultural Improvement Act of 2018, increase the acreage exception provided in section 8.8(c)(2) of the Farm Credit Act of 1971 from 1,000 acres to 2,000 acres. The change became effective on June 18, 2020.

Farmer Mac operates through several programs: the "Farm & Ranch" program involves mortgage loans secured by first liens on agricultural real estate or rural housing (qualified loans); the "USDA guarantees" program involves the guaranteed portions of certain USDA-guaranteed loans; and the "Rural Utilities" program involves rural electric and telecommunications loans. Farmer Mac operates by: (1) purchasing, or committing to purchase, newly originated or existing qualified loans or guaranteed portions from lenders; (2) purchasing or guaranteeing "AgVantage" bonds backed by qualified loans; and (3) exchanging qualified loans, or guaranteed portions of qualified loans, for guaranteed securities. Loans purchased by Farmer Mac may be aggregated into pools that back Farmer Mac guaranteed securities, which are held by Farmer Mac or sold into the capital markets.

Farmer Mac is governed by a 15-member Board of Directors. Ten board members are elected by stockholders, including five by stockholders that are Farm Credit System (FCS) institutions and five by stockholders that are non-FCS financial services firms. Five are appointed by the President, subject to Senate confirmation.

#### FINANCING

Financial support and funding for Farmer Mac's operations come from several sources: sale of common and preferred stock, issuance of debt ob-

ligations, and income. Under procedures specified in the Act, Farmer Mac may issue obligations to the U.S. Treasury in a cumulative amount not to exceed \$1.5 billion to fulfill Farmer Mac's guarantee obligations.

#### GUARANTEES

Farmer Mac provides a guarantee of timely payment of principal and interest on securities backed by qualified loans or pools of qualified loans. These securities are not guaranteed by the United States and are not "Government securities."

Farmer Mac is subject to reporting requirements under securities laws, and its guaranteed mortgage-backed securities are subject to registration with the Securities and Exchange Commission under the 1933 and 1934 Securities Acts.

#### REGULATION

Farmer Mac is federally regulated by FCA, acting through its Office of Secondary Market Oversight. FCA is responsible for the supervision of, examination of, and rulemaking for Farmer Mac.
