These amendments are necessary to correctly reflect policies assumed in my FY 2022 Budget. The net discretionary budget authority in my FY 2022 Budget would increase by $5 million as a result of these technical corrections.

The details of these amendments are set forth in the enclosed letter from the Acting Director of the Office of Management and Budget.

Sincerely,

Proposed Amendment: Language
Revised Request: —

(In the appropriations language under the above heading, delete section 8077 and renumber subsequent sections accordingly.)

This amendment would delete section 8077, which was inadvertently included in the FY 2022 Budget and would have allowed certain expired funds to be redeposited into current appropriations accounts and made available for obligation.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in the first proviso, delete "2020" and substitute 2021.)

This amendment would revise the fiscal year referenced in the language. Without this amendment, funds available for the Bureau of Indian Education under this account would be limited to the amounts provided at the FY 2020 level instead of the FY 2021 level.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, delete section 311 and renumber the subsequent section accordingly.)

This amendment would remove language that was inadvertently retained from the FY 2021 enacted appropriations language. This section proposes enactment of a Non-recurring Expense Fund for the Department and is unnecessary because it was already enacted in the Department of Education Appropriations Act, 2021. This amendment would reflect correctly the policy assumed in the FY 2022 Budget.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, delete ": Provided further, That of the total amount appropriated:

Proposed Amendment: Language

Revised Request: —

(In the appropriations language under the above heading, in subsection (a) of section 236, delete "of" in the first place it appears and substitute as of the date of enactment of this Act from.)

This amendment would cancel all border barrier construction balances that remain unobligated on the date of enactment of the general provision.

The FY 2022 net budget authority totals would not be affected by this technical amendment.
(In the appropriations language under the above heading, in section 535, delete "or provided by previous appropriations Acts".)

This amendment would remove language included in section 535 of the FY 2022 Budget that seeks to allow transfers of funds provided by previous appropriations acts to the Department of Homeland Security for the IT Modernization Fund. The transfer authority of current year funding requested is sufficient for the IT Modernization Fund, so transfer authority for prior-year funding is not necessary.

The FY 2022 net budget authority totals would not be affected by this technical amendment.
(In the appropriations language under the above heading, in paragraph (2), delete the opening bracket immediately after "administered by the Secretary" and insert opening bracket immediately after "(42 U.S.C. 1437f(t))").

This amendment would restore a proviso that was inadvertently proposed for deletion, which allows the subset of tenant protection vouchers provided in the previous proviso to be enhanced vouchers or project-based assistance.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, delete the second reference to "2024" and substitute 2022.)

This amendment would correct the fiscal year to provide the Secretary certain obligation authority on an annual basis, consistent with historical practice.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, amend as follows:)

1) immediately after "exceed $30,000,000", insert a new closing bracket, and after such bracket:

   of the amount in the previous proviso, up to $30,000,000, to remain available until September 30, 2024, shall be for the cost of guaranteed loans to support: (1) a pilot expansion of the Good Neighbor Next Door program, notwithstanding any provision of section 204(a)(1) of the National Housing Act; and (2) a pilot of new loan products, which may include mortgagee and borrower incentives designed to lower barriers to homeownership, notwithstanding the limitations on eligibility in section 203(b) of the National Housing Act: Provided further, That such costs in the previous proviso, including the costs of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974;

2) delete “2021" immediately before "the Secretary may insure" and substitute 2022; and

3) insert a new opening bracket immediately after "under section 255 of the National Housing Act", remove the closing bracket after "zero", and insert a new closing bracket before the period.

This amendment would restore a proviso that was mistakenly proposed for deletion to allow the Department of Housing and Urban Development, Federal Housing Administration, to insure Home Equity Conversion Mortgages in FY 2022 by waiving the aggregate mortgage cap that otherwise would apply.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in section 221, delete "2021" and substitute 2022.)

This amendment would revise the fiscal year referenced in the language. Without this amendment, the ability for grantees to count program income towards program matching requirements would expire in 2021.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in subsection (c) of section 227, delete "230(b)" and substitute 226(b).)

This amendment would correct an error to a general provision reference.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in paragraph (9), insert and notwithstanding the restrictions of section 304(a)(2) of such Act immediately after "as authorized by section 304 of the 2005 Act", and delete ", which shall not be subject to the restrictions of section 304(a)(2) of such Act" from the end of the paragraph.)

This amendment clarifies that the Budget proposes to eliminate the statutory cap of $300,000 for all awards administered under the campus violence program, rather than only for funding reserved for Historically Black Colleges and Universities, Hispanic-Serving Institutions, and tribal colleges.

The FY 2022 net budget authority totals would not be affected by this technical amendment.
Agency: DEPARTMENT OF LABOR
Bureau: EMPLOYMENT AND TRAINING ADMINISTRATION

This amendment would make two changes to the Federal Unemployment Benefits and Allowances account of the Department of Labor: 1) a correction to reflect authorities under current law regarding the Trade Adjustment Assistance program; and 2) a correction that would decrease the amount of funding proposed for the account by $11 million to reflect lower training costs authorized under current law.

The FY 2022 net budget authority totals would decrease by $11 million as a result of this amendment.

This amendment would make three changes to the State Unemployment Insurance and Employment Service Operations account of the Department of Labor: 1) an increase in the amount of funding proposed to be available from the Trust Fund by $4 million for Federal administration of foreign labor certifications as a result of inadvertent error; 2) a correction to reflect authorities under current law regarding the Trade Adjustment Assistance program; and 3) a revision to the fiscal year referenced for Average Weekly Insured Unemployment projections.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in subsection (b)(1) of section 7046, delete the opening and closing brackets in subsection (b)(1), delete "), except for the provisions of this subsection" in subparagraph (A), and add: \textit{Provided, That funds provided by this Act may be made available for United States contribution to multilateral environmental funds and facilities to support adaptation and mitigation programs before the concluding period in subparagraph (B).})

This amendment would allow funds to be used for U.S. contributions to multilateral environmental funds. This language was inadvertently excluded from the FY 2022 Budget due to a technical error.

The FY 2022 net budget authority totals would not be affected by this amendment.
(In the appropriations language under the above heading, in subsection (b) of section 7057, delete "during any fiscal year" and substitute in this and subsequent fiscal years; and in subsection (c), add in this Act or subsequent appropriations Acts immediately after "(USAID) from appropriations available" and add in this Act or subsequent appropriations Acts immediately after "to USAID and any appropriation made available").

This amendment would clarify that transfers into the working capital fund only come from funds appropriated in FY 2022 or subsequent years, consistent with the policy assumed in the FY 2022 Budget.

The FY 2022 net budget authority totals would not be affected by this amendment.
