

ENVIRONMENTAL PROTECTION AGENCY

Federal Funds

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, \$55,865,000, to remain available until September 30, 2024.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Program and Financing (in millions of dollars)

Identification code 068-0112-0-1-304	2021 actual	2022 est.	2023 est.
Obligations by program activity:			
0003 Rule of Law and Process	41	102	99

4190 Outlays, net (total)	41	79	98

This appropriation supports the Environmental Protection Agency's (EPA) core programs by providing funds for independent Office of Inspector General (OIG) audit, evaluation, and investigative products and advisory services. These products and services consistently provide significant positive monetary return on investment and contribute substantially to risk reduction, improved environmental quality and human health, as well as improved business practices, operational efficiency, and accountability. Specifically, the OIG performs contract audits and investigations that focus on costs claimed by contractors and assess the effectiveness of contract management. Assistance agreement audits and investigations evaluate the award, administration, and costs of assistance agreements. Program audits, evaluations, and investigations determine the extent to which the desired results or benefits envisioned by the Administration and the Congress are being achieved, and identify activities that could undermine the integrity, efficiency, and effectiveness of EPA programs. Financial statement audits review financial systems and statements to ensure that adequate controls are in place and EPA's accounting information is timely, accurate, reliable and useful, and complies with applicable laws and regulations. Efficiency, risk assessment, and program performance audits review the economy, efficiency, and effectiveness of operations by examining EPA's structure and processes for achieving environmental goals, including assessing risk, setting priorities, developing implementation strategies, and measuring performance. Information resource management audits review EPA information technology and systems to test the integrity of data and systems controls, as well as compliance with a variety of Federal information security laws and requirements. Investigations prevent, detect, and seek prosecution for criminal activity and serious misconduct in EPA programs and operations. Major areas of investigative focus include: financial fraud; infrastructure/terrorist threat; program integrity; employee integrity; cybercrimes; and theft of intellectual or sensitive data. In addition, the EPA Inspector General serves as the IG for the U.S. Chemical Safety and Hazard Investigation Board, providing the full range of audit, evaluation, and investigative services specified by the Inspector General Act, as amended. Additional funds for audit, evaluation, and investigative activities associated with the Hazardous Substance Superfund are appropriated under that account and transferred to the Inspector General account.

Object Classification (in millions of dollars)

Identification code 068-0112-0-1-304	2021 actual	2022 est.	2023 est.
Direct obligations:

This appropriation finances salary, travel, science, technology, environmental monitoring, research, and development activities including laboratory and center supplies, certain operating expenses (including activities under the Working Capital Fund), contracts, grants, intergovernmental agreements, and purchases of scientific equipment. In addition, the Administrator will employ persons in the Office of Research and Development (ORD) under the authority provided in 42 U.S.C. 209. The Budget proposes to increase ORD's appointment ceiling under this authority and extend the authority to the Office of Chemical Safety and Pollution Prevention. Furthermore, the Budget proposes to extend student contractor hiring authority for the Office of Chemical Safety and Pollution Prevention and the Office of Water through 2027. These activities prioritize robust science and strengthen the Environmental Protection Agency's (EPA) research and scientific analysis to inform EPA policy and regulatory development actions to ensure good stewardship and positive environmental outcomes. Specifically in 2023, EPA will place emphasis on the following:

The Air, Climate, and Energy (ACE) research program will conduct a range of science and technology activities to develop and implement strategies to improve air quality and take action on climate change. These include: research to inform the review of the national ambient air quality standards to improve understanding of ozone, particulate matter, lead, sulfur dioxide, carbon monoxide, and nitrogen dioxide; system research and life cycle analysis to understand the production, operation, and impacts of energy systems on health and the environment; research on the generation, fate, transport, and chemical transformation of air emissions to identify individual and population health risks to inform clean air management decisions; research on the impacts of climate change on human health and the environment; development and evaluation of new approaches for monitoring levels of air pollutants (including air toxics); development of tools to provide technical assistance to State and local governments and Tribes to use in developing clean air plans to achieve air quality standards; and the production of information, decision support tools, and adaptation strategies to enable stakeholders to account for climate change when making decisions. EPA will continue to implement the renewable fuels provisions of the Energy Policy Act of 2005 (P.L. 109–58) and the Energy Independence and Security Act of 2007 (P.L. 110–140), and will develop, implement, and ensure compliance with regulatory programs that will significantly reduce emissions from highway and non-road sources.

The Safe and Sustainable Water Resources (SSWR) research program conducts research to meet the science needs in EPA's water program, including: evaluating groups of contaminants for the protection of human health and the environment; developing innovative tools, technologies, and strategies for managing water resources (including stormwater); and supporting a systems approach for protecting and restoring aquatic systems. The systems approach includes: research to inform setting water quality criteria; establishing measures to assess and manage watersheds; and developing effective source control and management methods, especially for urban uses. A major component of the research program is working to support EPA's Drinking Water Strategy. Within the SSWR program, research will assess, develop, and compile scientifically rigorous tools and models that will be used by the Agency, States, Tribes, and municipalities to address issues such as lead in drinking water and excess nutrient loading.

The Sustainable and Healthy Communities (SHC) research program, including Superfund research, implements system-based research to develop a new generation of smart technologies to address environmental conditions in a community. Superfund research costs are appropriated to the Hazardous Substance Superfund Trust Fund appropriation and transferred to this account to allow for proper accounting. The SHC research program develops

decision support tools to enable communities' decision makers to solve complex human health and environmental problems. The program will identify health risks and stressors, especially those that disproportionately impact vulnerable populations such as children and the elderly. The decision support tools support critical policy, regulatory, and non-regulatory needs related to contaminated site remediation, children's health protection, waste management, and our economy's reliance on quality ecosystem goods and services. These tools account for the interrelationships between social, economic, health, ecological, and environmental factors with the aim to minimize unintended consequences that can result from decisions about land use, transportation, and solid waste management, as well as promote more robust and efficient infrastructure.

The Health and Environmental Risk Assessment (HERA) research program develops assessments and scientific products that are used extensively by EPA's Program and Regional offices, and other parties, to estimate the potential risk to public health from exposure to environmental contaminants, to develop regulatory standards, and to manage environmental clean-ups. This includes EPA's All Ages Lead Model which predicts lead concentration in body tissues and organs for a hypothetical individual, based on a simulated lifetime of lead exposure. The HERA research program provides the scientific foundation for Agency actions to protect public health and the environment.

The Homeland Security Research Program (HSRP) will continue to support research efforts on evaluating chemical, biological, and radiological (CBR) analytical methods. The HSRP will conduct research on decontamination and methods to manage potential public health consequences and develop methods to protect water infrastructures and assess threats and consequences. In 2023, decontamination research will continue to address existing scientific knowledge gaps in responding to and recovering from wide-area CBR attacks on urban centers and public areas. Water Infrastructure Protection Research will focus on developing and testing decontamination approaches for water infrastructure and on treating CBR contaminated water caused by terrorist attacks, natural disasters, and/or accidents. Research on real-time distribution system models and methods to isolate and treat contaminated water, clean distribution systems, redirect water, and return water systems to service quickly and affordably is in progress. EPA also will continue to support water sector-specific agency responsibilities to protect the Nation's critical water infrastructure.

EPA's Chemical Safety for Sustainability (CSS) research program is designed to strengthen the Agency's ability to evaluate and predict the potential environmental and human health impacts from use of manufactured chemicals throughout their lifecycle. The CSS program supports the development and application of improved and new computational systems; models of pathways and tissues; rapid cost-efficient exposure models; and user-friendly web-based tools for analysis and decision support. The CSS program will continue to develop approaches for using toxicity and exposure data to inform screening and prioritization of the over 40,000 chemicals currently on the TSCA Active List, and will continue to inform the Agency's implementation of key environmental regulations and to address contaminants of emerging concern, such as Per- and Polyfluoroalkyl Substances (PFAS). As it relates to the Science and Technology account and the overall mission of EPA, the protection of human health includes: ensuring the availability of appropriate analytical methods for detecting pesticide residues in food and feed; ensuring suitability for monitoring pesticide residues; and enforcing tolerances. The program accomplishes this by developing and validating multi-residue pesticide analytical methods for food, feed, and water for use by other Federal and State laboratories and EPA's programs and regions. Laboratories further support the estimation of human health risks from pesticide use by operating the National Pesticide Standard Repository (NPSR).

EPA's Forensics Support program provides expert scientific and technical support for criminal and civil environmental enforcement cases, as well as technical support for the Agency's compliance efforts. EPA's National Enforcement Investigations Center (NEIC) is an environmental forensic

center accredited for both laboratory and field sampling operations that generate environmental data for law enforcement purposes. It is fully accredited under International Standards Organization 17025, the main standard used by testing and calibration laboratories, as recommended by the National Academy of Sciences (see Strengthening Forensic Science in the United States: A Path Forward, National Academy of Sciences, 2009). The NEIC maintains a sophisticated chemistry laboratory and a corps of highly trained inspectors and scientists with expertise across media. The NEIC works closely with EPA's Criminal Investigation Division to provide technical support (e.g., sampling, analysis, consultation, and testimony) to criminal investigations. The NEIC also works closely with EPA's Program and Regional Offices to provide technical support, consultation, on-site inspection, investigation, and case resolution services in support of the Agency's Civil Enforcement program.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and the functions it performs is: Office of Mission Support (facilities infrastructure and operations and information technology/data management).

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

For environmental programs and management, including necessary expenses not otherwise provided for, for personnel and related costs and travel expenses; hire and purchase of passenger motor vehicles, including zero emission passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase of reprints; library memberships in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members; administrative costs of the brownfields program under the Small Business Liability Relief and Brownfields Revitalization Act of 2002; implementation of a coal combustion residual permit program under section 2301 of the Water and Waste Act of 2016; and not to exceed \$9,000 for official reception and representation expenses, \$3,796,280,000, to remain available until September 30, 2024: Provided, That of the funds included under this heading, \$578,336,000 shall be for Geographic Programs specified in the explanatory statement: Provided further, That of the funds included under this heading, the Chemical Risk Review and Reduction program

ENVIRONMENTAL PROGRAMS AND MANAGEMENT—Continued

project shall be allocated for this fiscal year, excluding the amount of any fees appropriated, not less than the amount of appropriations for that program project for fiscal year 2014: *Provided further*, That of the funds included under this heading, \$140,000,000, to remain available until expended, shall be for environmental justice implementation grants, of which \$50,000,000 shall be for competitive grants to reduce the disproportionate health impacts of environmental pollution in the environmental justice community; \$25,000,000 shall be for an Environmental Justice Community Grant Program for grants to nonprofits to reduce the disproportionate health impacts of environmental pollution in the environmental justice community; \$25,000,000 shall be for an Environmental Justice State Grant Program for grants to states to create or support state environmental justice programs; \$25,000,000 shall be for a Tribal Environmental Justice Grant Program for grants to tribes or intertribal consortia to support tribal work to eliminate disproportionately adverse human health or environmental effects on environmental justice communities in Tribal and indigenous communities; and \$15,000,000 shall be for a competitive Community-based Participatory Research Grant Program for grants to institutions of higher education to develop partnerships with community-based organizations to improve the health outcomes of residents and workers in environmental justice communities: *Provided further*, That up to 5% of the funds provided by the previous proviso may be reserved for salaries, expenses, and administration: *Provided further*, That of the funds included under this heading, \$10,000,000, to remain available until expended, shall be for an Environmental Justice Training Program for grants to nonprofits for multi-media or single media activities to increase the capacity of residents of underserved communities to identify and address disproportionately adverse human health or environmental effects of pollution: *Provided further*, That up to 5% of the funds provided by the previous proviso may be reserved for salaries, expenses, and administration.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

[(INCLUDING TRANSFERS OF FUNDS)]

[For an additional amount for "Environmental Programs and Management", \$1,959,000,000, which shall be allocated as follows:]

[(1) \$1,717,000,000, to remain available until expended, for Geographic Programs as specified in the explanatory statement described in section 4 of the matter preceding division A of Public Law 116—260: *Provided*, That \$343,400,000, to remain available until expended, shall be made available for fiscal year 2022, \$343,400,000, to remain available until expended, shall be made available for fiscal year 2023, \$343,400,000, to remain available until expended, shall be made available for fiscal year 2024, \$343,400,000, to remain available until expended, shall be made available for fiscal year 2025, and \$343,400,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the funds made available in this paragraph in this Act, the following amounts shall be for the following purposes in equal amounts for each of fiscal years 2022 through 2026—]

[(A)\$1,000,000,000 shall be for Great Lakes Restoration Initiative;]

[(B)\$238,000,000 shall be for Chesapeake Bay;]

[(C)\$24,000,000 shall be for San Francisco Bay;]

[(D)\$89,000,000 shall be for Puget Sound;]

[(E)\$106,000,000 shall be for Long Island Sound;]

[(F)\$53,000,000 shall be for Gulf of Mexico;]

[(G)\$16,000,000 shall be for South Florida;]

[(H)\$40,000,000 shall be for Lake Champlain;]

[(I)\$53,000,000 shall be for Lake Pontchartrain;]

[(J)\$15,000,000 shall be for Southern New England Estuaries;]

[(K)\$79,000,000 shall be for Columbia River Basin; and]

[(L)\$4,000,000 shall be for other geographic activities which includes Pacific Northwest:]

[*Provided further*, That the Administrator may waive or reduce the required non-Federal share for amounts made available under this paragraph in this Act for the purposes described in the preceding proviso;]

[(2) \$132,000,000, to remain available until expended, for the National Estuary Program grants under section 320(g)(2) of the Federal Water Pollution Control Act, notwithstanding the funding limitation in section 320(i)(2)(B) of the Act: *Provided*, That \$26,400,000, to remain available until expended, shall be made available for fiscal year 2022, \$26,400,000, to remain available until expended, shall be made available for fiscal year 2023, \$26,400,000, to remain available until expended, shall be made available for fiscal year 2024, \$26,400,000, to remain available until expended, shall be made available for fiscal year 2025, and

\$26,400,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That the Administrator may waive or reduce the required non-Federal share for amounts made available under this paragraph in this Act: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act shall be for salaries, expenses, and administration;]

[(3) \$60,000,000, to remain available until expended, for actions under the Gulf Hypoxia Action Plan: *Provided*, That \$12,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$12,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$12,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$12,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$12,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That funds shall be provided annually to the twelve states serving as members of the Mississippi River/Gulf of Mexico Watershed Nutrient Task Force (Arkansas, Iowa, Illinois, Indiana, Kentucky, Louisiana, Minnesota, Missouri, Mississippi, Ohio, Tennessee, and Wisconsin) in equal amounts for each state for the period of fiscal year 2022 to fiscal year 2026: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act shall be for salaries, expenses, and administration;]

[(4) \$25,000,000, to remain available until expended, to support permitting of Class VI wells as authorized under section 40306 of division D of this Act, to be carried out by Drinking Water Programs: *Provided*, That \$5,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$5,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$5,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$5,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$5,000,000, to remain available until expended, shall be made available for fiscal year 2026;]

[(5) \$10,000,000, to remain available until September 30, 2026, for developing battery recycling best practices, as authorized under section 70401(b) of division G of this Act, to be carried out by the Resource Conservation and Recovery Act program;]

[(6) \$15,000,000, to remain available until September 30, 2026, for developing voluntary battery labeling guidelines, as authorized under section 70401(c) of division G of this Act, to be carried out by the Resource Conservation and Recovery Act program;]

[*Provided*, That funds provided for the purposes described in paragraphs (1), (2), and (3) under this heading in this Act may be transferred to the United States Fish and Wildlife Service and the National Marine Fisheries Service for the costs of carrying out their responsibilities under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) to consult and conference, as required by section 7 of such Act, in connection with Geographic programs, the National Estuary Program, and the Gulf Hypoxia Action Plan: *Provided further*, That amounts provided under this heading in this Act shall be in addition to amounts otherwise available for such purposes: *Provided further*, That one-half of one percent of the amounts made available under this heading in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act: *Provided further*, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985.] (*Infrastructure Investments and Jobs Appropriations Act.*)

This appropriation includes funds for salaries, travel, contracts, grants, and cooperative agreements for pollution abatement, control, and compliance activities and administrative activities of the operating programs, including activities under the Working Capital Fund. This appropriation supports core agency programs implementing environmental statutes.

To protect and improve air quality, the Environmental Protection Agency (EPA) applies a variety of approaches and tools. These include: developing and implementing strategies to attain ambient air quality standards for the six criteria pollutants; reducing regional haze through regional approaches

where significant transport of pollutants occurs; and developing control measures for sources that are appropriately regulated at the Federal level. EPA develops and issues national technology-based and risk-based standards using a sector-based approach to reduce the quantity of toxic air pollutants emitted from industrial and manufacturing processes, as well as from urban sources. The Acid Rain program will continue its market-based approach to achieving reduced emissions of sulfur dioxide, primarily from electric utilities. The market-based approach also will be used in other programs, where permitted under the Clean Air Act, to reduce emissions of air pollutants. EPA will work with States and sources to implement the Greenhouse Gas Reporting Rule to obtain high quality data in a cost-effective manner. In addition, EPA will develop and use public information and training to reduce public exposure to radiation. EPA will focus its domestic efforts to ensure that ozone-depleting substance production and import caps under the Montreal Protocol and Clean Air Act continue to be met.

EPA works to protect and restore our waters to ensure that drinking water is safe, and that aquatic ecosystems sustain fish, plants and wildlife, as well as support economic, recreational, and subsistence activities. EPA will focus on core statutory requirements and water infrastructure. EPA will support the following Clean Water Act program components: water quality criteria, standards and technology; National Pollutant Discharge Elimination System (NPDES); water monitoring; Total Maximum Daily Loads (TMDLs); watershed management; water infrastructure and grants management; core wetlands programs and Clean Water Act section 106 program management. EPA also will work with States and Tribes to reduce risks to drinking water contaminants, for example, through proposed revisions to the Lead and Copper Rule. In addition, EPA will continue work with States to transition to the next generation management and reporting tool, the Safe Drinking Water Information System (SDWIS) Prime used by the majority of state drinking water programs. The new SDWIS Prime management and reporting tool will provide improvements in program efficiency and data quality, greater public access to drinking water data, facilitation of electronic reporting, reductions in reporting burdens on laboratories and water utilities, reductions in data management burdens, and ultimately reduction in public health risk.

EPA's programs work to preserve land by ensuring proper management of waste under multiple environmental statutes. EPA will continue to assist States in putting in place and maintaining permits at facilities that treat, store, or dispose of hazardous waste. Although States are the primary implementers of the Corrective Action program, which requires facilities managing hazardous waste to clean up past releases, EPA directly implements the program in six States and provides technical support and oversight for State activities. EPA also works with Tribes to maintain tribal underground storage tank (UST) programs. EPA also supports the operations and management of the Brownfields program, including training and technical support to assist communities to address issues associated with redevelopment or reuse of properties that may be complicated by the presence of contamination. EPA works with State, local, and tribal partners to help protect the public and the environment from releases of hazardous substances from chemical handling facilities by helping them develop area-wide emergency response and contingency plans. EPA conducts audits and inspections of those facilities handling more than a threshold quantity of certain extremely hazardous chemicals and that are required to implement a Risk Management Program to prevent releases.

In collaboration with our tribal government partners, EPA works to strengthen human health and environmental protection in Indian Country. EPA works to ensure that its environmental protection programs are implemented in Indian Country either by EPA or by the Tribes. EPA will continue the direct implementation assessment to better understand EPA direct implementation responsibilities and activities on a program-by-program basis in Indian Country. Also, EPA provides resources and technical assistance for federally recognized Tribes to create and maintain effective environmental programs by collaborating with Tribes to develop long-term EPA-Tribal Environmental Plans (ETEP) for all federally recognized Tribes.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT—Continued

To ensure that food will be free from unsafe levels of pesticide residues, EPA applies strict health-based standards in establishing and reevaluating tolerances for residues in food or animal feed. EPA also works to expedite the registration of reduced risk pesticides when possible, and to ensure that older pesticides meet current health and environmental standards. To respond to emerging health issues, EPA develops methods to evaluate the efficacy of products intended to combat public health pests. EPA intends to reduce potential human and environmental risks from commercial and residential exposure to pesticides through programs that focus on farm worker protection, pollinator health and protection, endangered species protection, environmental stewardship, and integrated pest management. EPA's toxics program will continue to make substantial progress in protecting public health and the environment from potentially harmful industrial chemicals by assessing the safety of new and existing chemicals, reducing gaps in the availability of chemical data, strengthening management of chemical information, and providing easier and more complete public access to non-confidential chemical data. EPA will conduct existing chemical prioritization and evaluations under the provisions of the Toxic Substances Control Act (TSCA) as amended by the Frank R. Lautenberg Chemical Safety for the Twenty-First Century Act, and address any unreasonable risks identified through such evaluations.

EPA will engage both bilaterally and through multilateral institutions to improve international cooperation to prevent and address the transboundary movement of pollution and coordinate with other nations to protect the environment and human health.

Combined with public demand for information, unprecedented changes in information technology are altering the way EPA, States, and Tribes collect, manage, analyze, use, secure, and provide access to quality environmental information. EPA is working with the States and Tribes to strengthen our information quality, leverage information maintained by other government organizations, and develop new tools that provide the public with simultaneous access to multiple data sets, allowing users to understand local, tribal, State, regional, and national environmental conditions. Key to achieving information quality will be the further development of the National Environmental Information Exchange Network, which is primarily an affiliation between EPA and the States and Tribes. EPA will continue to reduce reporting burdens, improve data quality, and accelerate data publications by accelerating the replacement of paper-based submissions with electronic reporting under the Toxic Release Inventory and other programs.

EPA works in partnership with State and tribal agencies to enforce and build compliance with Federal environmental laws passed by the Congress that ensure our communities have clean air, water, and land. EPA will enforce environmental laws to correct noncompliance and promote cleanup of contaminated sites. To improve compliance with environmental laws, EPA works to provide easy access to tools that help regulated entities, Federal agencies, and the public understand these laws and find efficient, cost-effective means for putting them into practice. EPA's enforcement program targets inspections and other compliance monitoring activities according to the degree of health and environmental risk. The program collaborates with the Department of Justice, States, local government agencies, and tribal governments to ensure consistent and fair enforcement of all environmental laws and regulations. The program seeks to aggressively pursue violations that threaten communities, ensure a level economic playing field by ensuring that violators do not realize an economic benefit from noncompliance, and deter future violations. The Civil Enforcement program develops, litigates, and settles administrative and civil judicial cases against serious violators of environmental laws. The Criminal Enforcement program enforces the nation's environmental laws through targeted investigations of criminal conduct, committed by individual and corporate defendants, that threatens public health and the environment. Bringing criminal cases sends a strong deterrence message to potential violators, enhances aggregate compliance with laws and regulations and

protects our communities. To maximize compliance, the Agency will re-focus efforts towards areas with significant noncompliance issues and where enforcement can address the most substantial impacts to human health and the environment.

The Budget identifies environmental justice priority areas that aim to expand EPA's work to ensure environmental justice in underserved communities and cumulative impacts of environmental pollution. It includes proposed authorization language to carry out new environmental justice grants aimed at reducing the disproportionate health impacts of environmental pollution and to establish an Environmental Justice Training Program charged with increasing the capacity of residents of underserved communities to identify and address disproportionately adverse human health or environmental effects.

EPA's internal operations programs provide centralized management services and leadership to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Environmental Programs and Management appropriation are: the Office of the Administrator (civil rights/Title VII compliance; congressional, intergovernmental and external relations; Science Advisory Board; children's health; Small Business Ombudsman; Small Minority Business Assistance; Environmental Justice; NEPA Implementation; and regulatory and economic management and analysis work); the Office of the Chief Financial Officer (strategic planning, annual planning, and budgeting, financial services, financial management, analysis, and accountability); the Office of General Counsel (FOIA management, civil rights/Title VI compliance, alternate dispute resolution, and legal advice); and the Office of Mission Support (facilities, infrastructure and operations; acquisition management; human resources management services; grants and interagency agreements; suspension and debarment; administrative law exchange network; information security; and information technology/data management). Since these centralized services provide support across EPA, many of these programs are funded across EPA's appropriations.

STATE AND TRIBAL ASSISTANCE GRANTS

For environmental programs and infrastructure assistance, including capitalization grants for State revolving funds and performance partnership grants, \$5,729,143,000, to remain available until expended, of which—

(1) \$1,638,847,000 shall be for making capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act; and of which \$1,126,095,000 shall be for making capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: Provided, That for fiscal year 2023, to the extent there are sufficient eligible project applications and projects are consistent with State Intended Use Plans, not less than 10 percent of the funds made available under this title to each State for Clean Water State Revolving Fund capitalization grants shall be used by the State for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities: Provided further, That the Administrator is authorized to use any remaining funds made available under section 608(f) of title VI of the Federal Water Pollution Control Act (33 U.S.C. 1388), in addition to amounts otherwise available, after necessary funds are used to carry out the management and oversight of section 608, up to \$1,500,000 for conducting the Clean Watersheds Needs Survey: Provided further, That for fiscal year 2023, funds made available under this title to each State for Drinking Water State Revolving Fund capitalization grants may, at the discretion of each State, be used for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities: Provided further, that the Administrator is authorized to use any remaining funds made available under section 1452(4)(F) of the Safe Drinking Water Act, in addition to amounts otherwise available, after necessary funds are used to carry out the management and oversight of section 1452(4), up to \$1,500,000 for conducting the Drinking Water Needs Survey: Provided further, That notwithstanding section 603(d)(7) of the Federal Water Pollution Control Act, the limitation on the amounts in a State water pollution control revolving fund that may be used by a State to administer the fund shall not apply to amounts included as principal in loans made by such fund in fiscal year 2023 and prior years where such amounts represent costs of administering the fund to the extent that such amounts are or were deemed reasonable by the Administrator, accounted for separately from other assets in the fund, and used for eligible purposes of the fund, including administration: Provided further, That for fiscal year 2023, notwithstanding the provisions of subsections (g)(1), (h), and (l) of section 201 of the Federal Water Pollution Control Act, grants made under title II of such Act for American Samoa, Guam, the Commonwealth of the Northern Marianas, the United States Virgin Islands, and the District of Columbia may also be made for the purpose of providing assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or more principal residences or small commercial establishments: Provided further, That for fiscal year 2023, notwithstanding the provisions of such subsections (g)(1), (h), and (l) of section 201 and section 518(c) of the Federal Water Pollution Control Act, funds reserved by the Administrator for grants under section 518(c) of the Federal Water Pollution Control Act may also be used to provide assistance: (1) solely for facility plans, design activities, or plans, specifications, and estimates for any proposed project for the construction of treatment works; and (2) for the construction, repair, or replacement of privately owned treatment works serving one or more principal residences or small commercial establishments: Provided further, That for fiscal year 2023, notwithstanding any provision of the Federal Water Pollution Control Act and regulations issued pursuant thereof, up to a total of \$2,000,000 of the funds reserved by the Administrator for grants under section 518(c) of such Act may also be used for grants for training, technical assistance, and educational programs relating to the operation and management of the treatment works specified in section 518(c) of such Act: Provided further, That for fiscal year 2022, funds reserved under section 518(c) of such Act shall be available for grants only to Indian tribes, as defined in section 518(h) of such Act and former Indian reservations in Oklahoma (as determined by the Secretary of the Interior) and Native Villages as defined in Public Law 92-203: Provided further, That for fiscal year 2023, notwithstanding the limitation on amounts in section 518(c) of the Federal Water Pollution Control Act, up to a total of 2 percent of the funds appropriated, or \$30,000,000, whichever is greater, and notwithstanding the limitation on amounts in section 1452(i) of the Safe Drinking Water Act, up to a total of 2 percent of the funds appropriated, or \$20,000,000, whichever is greater, for State Revolving Funds under such Acts may be reserved by the Administrator for grants under section 518(c) and section 1452(i) of such Acts: Provided further, That for fiscal year 2023, notwithstanding the amounts specified in section 205(c) of the Federal Water Pollution Control Act, up to 1.5 percent of the aggregate funds appropriated for the Clean Water

BUILDINGS AND FACILITIES

For construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by, the Environmental Protection Agency, \$80,570,000, to remain available until expended.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

This appropriation provides for the construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities of, or for use by the Environmental Protection Agency (EPA). This appropriation supports providing centralized management services to ensure that EPA is fulfilling its mission. EPA's management infrastructure will set and implement quality standards for effective internal management and fiscal responsibility. The facilities funded by this account will provide quality work environments and laboratories that address employee safety and security and pollution prevention. The appropriation would also include costs associated with climate resiliency and sustainability for Agency facilities, and costs associated with a growing workforce.

STATE AND TRIBAL ASSISTANCE GRANTS—Continued

State Revolving Fund program under the Act less any sums reserved under section 518(c) of the Act, may be reserved by the Administrator for grants made under title II of the Federal Water Pollution Control Act for American Samoa, Guam, the Commonwealth of the Northern Marianas, and United States Virgin Islands: Provided further, That for fiscal year 2023, notwithstanding the limitations on amounts specified in section 1452(j) of the Safe Drinking Water Act, up to 1.5 percent of the funds appropriated for the Drinking Water State Revolving Fund programs under the Safe Drinking Water Act may be reserved by the Administrator for grants made under section 1452(j) of the Safe Drinking Water Act: Provided further, That 10 percent of the funds made available under this title to each State for Clean Water State Revolving Fund capitalization grants and 14 percent of the funds made available under this title to each State for Drinking Water State Revolving Fund capitalization grants shall be used by the State to provide additional subsidy to eligible recipients in the form of forgiveness of principal, negative interest loans, or grants (or any combination of these), and shall be so used by the State only where such funds are provided as initial financing for an eligible recipient or to buy, refinance, or restructure the debt obligations of eligible recipients only where such debt was incurred on or after the date of enactment of this Act, or where such debt was incurred prior to the date of enactment of this Act if the State, with concurrence from the Administrator, determines that such funds could be used to help address a threat to public health from heightened exposure to lead in drinking water or if a Federal or State emergency declaration has been issued due to a threat to public health from heightened exposure to lead in a municipal drinking water supply before the date of enactment of this Act: Provided further, That in a State in which such an emergency declaration has been issued, the State may use more than 14 percent of the funds made available under this title to the State for Drinking Water State Revolving Fund capitalization grants to provide additional subsidy to eligible recipients: Provided further, That notwithstanding section 1452(o) of the Safe Drinking Water Act (42 U.S.C. 300j–12(o)), for fiscal years 2023–2027, the Administrator shall reserve \$12,000,000 of amounts made available for making capitalization grants for the Drinking Water State Revolving Funds to pay the costs of monitoring for unregulated contaminants under section 1445(a)(2)(C) of such Act;

(2) \$30,000,000 shall be for architectural, engineering, planning, design, construction and related activities in connection with the construction of high priority water and wastewater facilities in the area of the United States-Mexico Border, after consultation with the appropriate border commission: Provided, That no funds provided by this appropriations Act to address the water, wastewater and other critical infrastructure needs of the colonias in the United States along the United States-Mexico border shall be made available to a county or municipal government unless that government has established an enforceable local ordinance, or other zoning rule, which prevents in that jurisdiction the development or construction of any additional colonia areas, or the development within an existing colonia the construction of any new home, business, or other structure which lacks water, wastewater, or other necessary infrastructure;

(3) \$40,000,000 shall be for grants to the State of Alaska to address drinking water and wastewater infrastructure needs of rural and Alaska Native Villages: Provided, That of these funds: (A) the State of Alaska shall provide a match of 25 percent; (B) no more than 5 percent of the funds may be used for administrative and overhead expenses; and (C) the State of Alaska shall make awards consistent with the Statewide priority list established in conjunction with the Agency and the U.S. Department of Agriculture for all water, sewer, waste disposal, and similar projects carried out by the State of Alaska that are funded under section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301) or the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) which shall allocate not less than 25 percent of the funds provided for projects in regional hub communities;

(4) \$130,982,000 shall be to carry out section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), including grants, interagency agreements, and associated program support costs;

(5) \$150,000,000 shall be for grants under title VII, subtitle G of the Energy Policy Act of 2005;

(6) \$59,000,000 shall be for targeted airshed grants in accordance with the terms and conditions in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act);

(7) \$4,000,000 shall be to carry out the water quality program authorized in section 5004(d) of the Water Infrastructure Improvements for the Nation Act (Public Law 114–322);

(8) \$80,002,000 shall be for grants under subsections (a) through (j) of section 1459A of the Safe Drinking Water Act (42 U.S.C. 300j–19a);

(9) \$36,500,000 shall be for grants under section 1464(d) of the Safe Drinking Water Act (42 U.S.C. 300j–24(d));

(10) \$182,002,000 shall be for grants under section 1459B of the Safe Drinking Water Act (42 U.S.C. 300j–19b);

(11) \$25,000,000 shall be for grants under section 1459A(l) of the Safe Drinking Water Act (42 U.S.C. 300j–19a(l));

(12) \$18,000,000 shall be for grants under section 104(b)(8) of the Federal Water Pollution Control Act (33 U.S.C. 1254(b)(8));

(13) \$280,000,000 shall be for grants under section 221 of the Federal Water Pollution Control Act (33 U.S.C. 1301);

(14) \$17,711,000 shall be for grants under section 4304(b) of the America's Water Infrastructure Act of 2018 (Public Law 115–270);

(15) \$1,311,004,000 shall be for grants, including associated program support costs, to States, federally recognized tribes, interstate agencies, tribal consortia, and air pollution control agencies for multi-media or single media pollution prevention, control and abatement, and related activities, including activities pursuant to the provisions set forth under this heading in Public Law 104–134, and for making grants under section 103 of the Clean Air Act for particulate matter monitoring and data collection activities subject to terms and conditions specified by the Administrator, and under section 2301 of the Water and Waste Act of 2016 to assist States in developing and implementing programs for control of coal combustion residuals, of which: \$46,954,000 shall be for carrying out section 128 of CERCLA; \$15,000,000 shall be for Environmental Information Exchange Network grants, including associated program support costs; \$1,505,000 shall be for grants to States under section 2007(f)(2) of the Solid Waste Disposal Act, which shall be in addition to funds appropriated under the heading "Leaking Underground Storage Tank Trust Fund Program" to carry out the provisions of the Solid Waste Disposal Act specified in section 9508(c) of the Internal Revenue Code other than section 9003(h) of the Solid Waste Disposal Act; \$18,500,000 of the funds available for grants under section 106 of the Federal Water Pollution Control Act shall be for State participation in national- and State-level statistical surveys of water resources and enhancements to State monitoring programs; \$10,200,000 shall be for multipurpose grants, including interagency agreements, in accordance with the terms and conditions described in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act);

(16) \$10,000,000 shall be for carrying out section 302(a) of the Save Our Seas 2.0 Act (Public Law 116–224), including up to two percent of this amount for the Environmental Protection Agency's administrative costs: Provided, That notwithstanding section 302(a) of such Act, the Administrator may also provide grants pursuant to such authority to intertribal consortia, consistent with the requirements in 40 C.F.R. 35.504(a), to former Indian reservations in Oklahoma (as determined by the Secretary of the Interior), and Alaskan Native Villages as defined in Public Law 92–203;

(17) \$50,000,000 shall be for grants under section 1442(b) of the Safe Drinking Water Act (42 U.S.C. 300j–1(b)), of which \$15,000,000 shall be for emergency situations affecting small public water systems;

(18) \$5,000,000 shall be for grants under section 1454(c) of the Safe Drinking Water Act (42 U.S.C. 300j–14(c));

(19) \$20,000,000 shall be for grants under section 1459A(m) of the Safe Drinking Water Act (42 U.S.C. 300j–19a(m));

(20) \$50,000,000 shall be for grants under section 1459A(n) of the Safe Drinking Water Act (42 U.S.C. 300j–19a(n));

(21) \$50,000,000 shall be for grants under section 1459E of the Safe Drinking Water Act (42 U.S.C. 300j–19f);

(22) \$50,000,000 shall be for grants under section 1459F of the Safe Drinking Water Act (42 U.S.C. 300j–19g);

(23) \$50,000,000 shall be for carrying out section 2001 of the America's Water Infrastructure Act of 2018 (Public Law 115–270, 42 U.S.C. 300j–3c note); Provided, that the Administrator may award grants and enter into contracts with tribes, intertribal consortia, public or private agencies, institutions, organizations, and individuals, without regard to section 3324(a) and (b) of title 31 and section 6101 of title 41, United States Code, and enter into interagency agreements as appropriate;

(24) \$10,000,000 shall be for grants under section 1459G(b) of the Safe Drinking Water Act (42 U.S.C. 300j–19h(b));

(25) \$75,000,000, in addition to amounts otherwise available, shall be for grants under sections 104(b)(3), 104(b)(8), and 104(g) of the Federal Water Pollution Control Act (33 U.S.C. 1254(b)(3), 1254(b)(8) and 1254(g));

(26) \$20,000,000 shall be for grants under section 222 of the Federal Water Pollution Control Act (33 U.S.C. 1302);

(27) \$25,000,000 shall be for grants under section 223 of the Federal Water Pollution Control Act (33 U.S.C. 1302a);

(28) \$10,000,000 shall be for grants under section 224 of the Federal Water Pollution Control Act (33 U.S.C. 1302b);

(29) \$50,000,000 shall be for grants under section 226 of the Federal Water Pollution Control Act (33 U.S.C. 1302d);

(30) \$40,000,000 shall be for grants under section 227 of the Federal Water Pollution Control Act (33 U.S.C. 1302e);

(31) \$15,000,000 shall be for grants under section 50213 of the Infrastructure Investment and Jobs Act (42 U.S.C. 10361 note; Public Law 117–58);

(32) \$5,000,000 shall be for grants under section 50217(b) of the Infrastructure Investment and Jobs Act (33 U.S.C. 1302f(b); Public Law 117–58);

(33) \$10,000,000 shall be for grants under section 50217(c) of the Infrastructure Investment and Jobs Act (33 U.S.C. 1302f(c); Public Law 117–58);

(34) \$25,000,000 shall be for grants under section 220 of the Federal Water Pollution Control Act (33 U.S.C. 1300);

(35) \$5,000,000 shall be for grants under section 124 of the Federal Water Pollution Control Act (33 U.S.C. 1276); and

(36) \$25,000,000, in addition to amounts otherwise available, shall be for competitive grants to meet cybersecurity infrastructure needs within the water sector.

Provided, That up to 5 percent of the funds appropriated under this heading in each of paragraphs (17) through (35) may be reserved for salaries, expenses, and administration, and may be transferred to the Environmental Programs and Management account or the Science and Technology account as needed.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

STATE AND TRIBAL ASSISTANCE GRANTS

[(INCLUDING TRANSFERS OF FUNDS)]

[For an additional amount for "State and Tribal Assistance Grants", \$55,426,000,000, to remain available until expended: *Provided, That amounts made available under this heading in this Act shall be allocated as follows:*]

[(1) \$11,713,000,000 for capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act: *Provided, That \$1,902,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$2,202,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$2,403,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$2,603,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$2,603,000,000, to remain available until expended, shall be made available for fiscal year 2026: Provided further, That for the funds provided under this paragraph in this Act in fiscal year 2022 and fiscal year 2023, the State shall deposit in the State loan fund from State moneys an amount equal to at least 10 percent of the total amount of the grant to be made to the State, notwithstanding sections 602(b)(2), 602(b)(3) or 202 of the Federal Water Pollution Control Act: Provided further, That for the funds made available under this paragraph in this Act, forty-nine percent of the funds made available to each State for Clean Water State Revolving Fund capitalization grants shall be used by the State to provide subsidy to eligible recipients in the form of assistance agreements with 100 percent forgiveness of principal or grants (or any combination of these), notwithstanding section 603(i)(3)(B) of the Federal Water Pollution Control Act (33 U.S.C. 1383): Provided further, That up to three percent of the amounts made available under this paragraph in this Act in fiscal year 2022 and up to two percent in each of fiscal years 2023 through 2026 shall be for salaries, expenses, and administration: Provided further, That not less than 80 percent of the amounts the Administrator uses in each fiscal year for salaries, expenses, and administration from amounts made available under this paragraph in this Act for such purposes shall be used for purposes other than hiring full-time employees: Provided further, That 0.35 percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]*

[(2) \$11,713,000,000 for capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: *Provided, That \$1,902,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$2,202,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$2,403,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$2,603,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$2,603,000,000, to remain available until expended, shall be made available for fiscal year 2026: Provided further, That for the funds provided under this paragraph in this Act in fiscal year 2022 and fiscal year 2023, the State shall deposit in the State loan fund from State moneys an amount equal to at least 10 percent of the total amount of the grant to be made to the State, notwithstanding section 1452(e)*

of the Safe Drinking Water Act: *Provided further, That for the funds made available under this paragraph in this Act, forty-nine percent of the funds made available to each State for Drinking Water State Revolving Fund capitalization grants shall be used by the State to provide subsidy to eligible recipients in the form of assistance agreements with 100 percent forgiveness of principal or grants (or any combination of these), notwithstanding section 1452(d)(2) of the Safe Drinking Water Act (42 U.S.C. 300j—12): Provided further, That up to three percent of the amounts made available under this paragraph in this Act in fiscal year 2022 and up to two percent in each of fiscal years 2023 through 2026 shall be for salaries, expenses, and administration: Provided further, That not less than 80 percent of the amounts the Administrator uses in each fiscal year for salaries, expenses, and administration from amounts made available under this paragraph in this Act for such purposes shall be used for purposes other than hiring full-time employees: Provided further, That 0.35 percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]*

[(3) \$15,000,000,000 for capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: *Provided, That \$3,000,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$3,000,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$3,000,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$3,000,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$3,000,000,000, to remain available until expended, shall be made available for fiscal year 2026: Provided further, That the funds provided under this paragraph in this Act shall be for lead service line replacement projects and associated activities directly connected to the identification, planning, design, and replacement of lead service lines: Provided further, That for the funds made available under this paragraph in this Act, forty-nine percent of the funds made available to each State for Drinking Water State Revolving Fund capitalization grants shall be used by the State to provide subsidy to eligible recipients in the form of assistance agreements with 100 percent forgiveness of principal or grants (or any combination of these), notwithstanding section 1452(d)(2) of the Safe Drinking Water Act (42 U.S.C. 300j—12): Provided further, That the funds provided under this paragraph in this Act shall not be subject to the matching or cost share requirements of section 1452(e) of the Safe Drinking Water Act: Provided further, That up to three percent of the amounts made available under this paragraph in this Act in fiscal year 2022 and up to two percent in each of fiscal years 2023 through 2026 shall be for salaries, expenses, and administration: Provided further, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]*

[(4) \$1,000,000,000 for capitalization grants for the Clean Water State Revolving Funds under title VI of the Federal Water Pollution Control Act: *Provided, That \$100,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$225,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$225,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$225,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$225,000,000, to remain available until expended, shall be made available for fiscal year 2026: Provided further, That funds provided under this paragraph in this Act shall be for eligible uses under section 603(c) of the Federal Water Pollution Control Act that address emerging contaminants: Provided further, That funds provided under this paragraph in this Act shall not be subject to the matching or cost share requirements of sections 602(b)(2), 602(b)(3), or 202 of the Federal Water Pollution Control Act: Provided further, That funds provided under this paragraph in this Act deposited into the state revolving fund shall be provided to eligible recipients as assistance agreements with 100 percent principal forgiveness or as grants (or a combination of these): Provided further, That up to three percent of the amounts made available under this paragraph in this Act in fiscal year 2022 and up to two percent in each of fiscal years 2023 through 2026 shall be for salaries, expenses, and administration: Provided further, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]*

[(5) \$4,000,000,000 for capitalization grants for the Drinking Water State Revolving Funds under section 1452 of the Safe Drinking Water Act: *Provided, That \$800,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$800,000,000, to remain available until expended, shall be made*

STATE AND TRIBAL ASSISTANCE GRANTS—Continued

available for fiscal year 2023, \$800,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$800,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$800,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That funds provided under this paragraph in this Act shall be to address emerging contaminants in drinking water with a focus on perfluoroalkyl and polyfluoroalkyl substances through capitalization grants under section 1452(t) of the Safe Drinking Water Act for the purposes described in section 1452(a)(2)(G) of such Act: *Provided further*, That funds provided under this paragraph in this Act deposited into the State revolving fund shall be provided to eligible recipients as loans with 100 percent principal forgiveness or as grants (or a combination of these): *Provided further*, That funds provided under this paragraph in this Act shall not be subject to the matching or cost share requirements of section 1452(e) of the Safe Drinking Water Act: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in fiscal year 2022 and up to two percent in each of fiscal years 2023 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(6) \$5,000,000,000 for grants for addressing emerging contaminants under subsections (a) through (j) of section 1459A of the Safe Drinking Water Act (42 U.S.C. 300j—19a): *Provided*, That \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That funds provided to States under this paragraph may be used for projects that address emerging contaminants supporting a community described in section 1459A, subsection (c)(2), of the Safe Drinking Water Act, notwithstanding the definition of underserved communities in section 1459A, subsection (a)(2), of the Safe Drinking Water Act: *Provided further*, That funds provided under this paragraph in this Act shall not be subject to the matching or cost share requirements of section 1459A of the Safe Drinking Water Act: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(7) \$50,000,000, to remain available until expended, to award Underground Injection Control grants, as authorized under section 40306 of division D of this Act, and for activities to support states' efforts to develop programs leading to primacy: *Provided*, That up to three percent of the amounts made available under this paragraph in this Act shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(8) \$1,500,000,000 for brownfields activities: *Provided*, That \$300,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$300,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$300,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$300,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$300,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the amounts made available in this paragraph in this Act, the following amounts shall be for the following purposes, in equal amounts for each of fiscal years 2022 through 2026—]

[(A) \$1,200,000,000 shall be to carry out Brownfields projects authorized by section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), including grants, interagency agreements and associated program support costs, of which up to \$600,000,000, notwithstanding funding limitations in such sections of such Act, may be for—]

[(i) grants under section 104(k)(3)(A)(ii) of CERCLA to remediate brownfields sites in amounts not to exceed \$5,000,000 per grant;]

[(ii) multipurpose grants under section 104(k)(4)(B)(i) of CERCLA in amounts not to exceed \$10,000,000 per grant;]

[(iii) grants under sections 104(k)(2)(B) and 104(k)(5)(A)(i) of CERCLA for site characterization and assessment activities on a community-wide or site-by-site basis in amounts not to exceed \$10,000,000 per grant and without further limitation on the amount that may be expended for any individual brownfield site;]

[(iv) grants under sections 104(k)(3)(A)(i) and 104(k)(5)(A)(ii) of CERCLA for capitalization of revolving loan funds in amounts not to exceed \$10,000,000 per grant; and]

[(v) grants under section 104(k)(7) of CERCLA for job training in amounts not to exceed \$1,000,000 per grant; and]

[(B) \$300,000,000 shall be to carry out section 128 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980:]

[(*Provided further*, That funds provided under this paragraph in this Act shall not be subject to cost share requirements under section 104(k)(10)(B)(iii) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980: *Provided further*, That the Administrator of the Environmental Protection Agency shall annually report to Congress on the status of funded projects: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(9) \$100,000,000 for all costs for carrying out section 6605 of the Pollution Prevention Act: *Provided*, That \$20,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$20,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$20,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$20,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$20,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That funds provided under this paragraph in this Act shall not be subject to cost share requirements under section 6605(c) of the Pollution Prevention Act: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(10) \$275,000,000 for grants under section 302(a) of the Save Our Seas 2.0 Act (Public Law 116—224): *Provided*, That \$55,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$55,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$55,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$55,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$55,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That notwithstanding section 302(a) of such Act, the Administrator may also provide grants pursuant to such authority to tribes, intertribal consortia consistent with the requirements in 40 CFR 35.504(a), former Indian reservations in Oklahoma (as determined by the Secretary of the Interior), and Alaskan Native Villages as defined in Public Law 92—203: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;]

[(11) \$75,000,000 to award grants focused on improving material recycling, recovery, management, and reduction, as authorized under section 70402 of division G of this Act: *Provided*, That \$15,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$15,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$15,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$15,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$15,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That one-half of one percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of

Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act;】

【(12) \$5,000,000,000 for the Clean School Bus Program as authorized under section 741 of the Energy Policy Act of 2005 (42 U.S.C. 16091), as amended by section 71101 of division G of this Act: *Provided*, That \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2022, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2023, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2024, \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2025, and \$1,000,000,000, to remain available until expended, shall be made available for fiscal year 2026: *Provided further*, That of the funds provided, \$500,000,000 shall be provided annually for zero-emission school buses, as defined in section 741(a)(8) of the Energy Policy Act of 2005 (42 U.S.C. 16091(a)(8)), as amended by section 71101 of division G of this Act, and \$500,000,000 shall be provided annually for clean school buses and zero-emission school buses, as defined in section 741(a)(3) of the Energy Policy Act of 2005 (42 U.S.C. 16091(a)(3)), as amended by section 71101 of division G of this Act: *Provided further*, That up to three percent of the amounts made available under this paragraph in this Act in each of fiscal years 2022 through 2026 shall be for salaries, expenses, and administration: *Provided further*, That up to one-half of one percent of the of the amounts made available under this heading in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act: *Provided further*, That if there are unobligated funds in any of fiscal years 2022 through 2026 after the Administrator of the Environmental Protection Agency issues awards for that fiscal year, States may compete for those funds, notwithstanding the 10 percent limitation under section 741(b)(7)(B) of the Energy Policy Act of 2005 (42 U.S.C. 16091(b)(7)(B)), as amended by section 71101 of division G of this Act:】

【*Provided further*, That amounts provided under this heading in this Act shall be in addition to amounts otherwise available for such purposes: *Provided further*, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985.】 (*Infrastructure Investments and Jobs Appropriations Act.*)

This appropriation supports core Environmental Protection Agency (EPA) programs through grants to States, Tribes and U.S. districts and Territories. Funding is provided to assist State and tribal partners in implementing their environmental programs to protect human health and the environment. EPA is using common elements for State and tribal grant agreements, including Performance Partnership Grants.

The EPA will provide financial and technical assistance to assist States and Tribes in the development and management of their clean air plans and support solutions that address their local air quality management needs. EPA also will provide funds to States and Tribes using section 105 authority of the Clean Air Act to operate and maintain air monitoring networks to obtain data on emissions of criteria pollutants and air toxics. EPA has funded State and local fine particulate monitoring using the requirements of section 103 of the Clean Air Act, as authorized in annual appropriation bills. EPA also is committed to transitioning funding for fine particulate monitoring into the funding authorized by section 105 of the Clean Air Act. Section 103 provides full funding for pilot programs, demonstrations, research, and other one-time activities, whereas section 105 requires States and local agencies to provide matching funds of at least 40 percent of the amount required for the entire continuing State or local clean air program. Using funds provided by EPA under Clean Air Act sections 103 and 105, States and Tribes will prepare State Implementation Plans and Tribal Implementation Plans to achieve the National Ambient Air Quality Standards, implement monitoring requirements, and support the National Air Toxics Trends Stations monitoring network. Additionally, States may utilize funding to support States' collection, review, and use of greenhouse gas (GHG) emissions data and permitting of large sources of GHG's. EPA also will implement the Diesel Emissions Reduction Act Grant Program by providing funding through grants and rebates to continue to reduce diesel emissions in priority areas and areas of highly concentrated diesel pollution.

EPA also will support its partnerships with States, Tribes, and U.S. Territories through water grants and Performance Partnership grants to carry out core statutory requirements of the Clean Water Act and the Safe Drinking Water Act. Funding supports work to reduce human exposure to contaminants in drinking water, fish and shellfish, and recreational waters and to protect and restore watersheds and aquatic ecosystems. Funding is provided through the Drinking Water State Revolving Fund (SRF) for States and Tribes to make low interest loans to public water systems to upgrade drinking water infrastructure to help them provide safe drinking water. In addition, Clean Water SRF funding provides low interest loans to communities and includes a set-aside for Tribes and U.S. Territories to construct wastewater treatment infrastructure, in addition to other projects that enhance water quality. In sum, the Federal Government has invested over \$72 billion in grants to help capitalize the SRFs. With the required State match, additional State contributions, and funds from program leveraging, funds made available for loans total over \$200 billion since their inception. EPA will continue to work with its partners to enhance the

STATE AND TRIBAL ASSISTANCE GRANTS—Continued

capacity of communities, States, and private investors to plan and finance drinking water and wastewater infrastructure improvements.

Direct grants also are provided to help address the significant water and wastewater infrastructure needs of Alaska Native Villages. EPA has implemented a management plan that optimizes the pace of the program. EPA will continue to strengthen State core water quality protection and water enforcement programs.

The Budget proposes funds for the America's Water Infrastructure Act and Water Infrastructure Improvements for the Nation Act grant programs that will assist in lead testing in schools, reducing lead in drinking water, increasing resiliency at drinking water systems, sewer overflow control, and water infrastructure workforce investment. These resources would complement State and local drinking water and wastewater infrastructure investments as well as funding provided through other Federal channels.

The Budget proposes funds for several new grants authorized by the Drinking Water Infrastructure Act of 2021 (DWWIA). The Budget proposes funds for several new grants authorized by the Drinking Water Infrastructure Act of 2021 (DWWIA). DWWIA takes important steps towards providing everyone in this country with access to clean, safe, and affordable water. It authorizes increased funding for new and existing drinking water, wastewater, and stormwater programs that will help to provide critical resources to communities across the country. While much more needs to be done, including acting upon President Biden's ambitious proposals for addressing our water infrastructure problems, DWWIA makes important contributions to the tremendous task of fixing our failing infrastructure.

Consistent with the Biden-Harris Lead Pipe and Paint Action Plan, the Budget includes a lead pipe inventory of existing funding that tracks Administration-wide investments in lead pipe replacement. This crosscut can be found in the Supplemental Materials of the Analytical Perspectives published by the Office of Management and Budget.

EPA's Brownfields program supports land revitalization by providing grants to States, Tribes, and local communities to assess and clean up real property which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. EPA Brownfields assessment and clean-up projects assist local communities in paving the way for the productive reuse of contaminated properties and abandoned sites.

Hazardous and non-hazardous wastes on the land can migrate to the air, groundwater, and surface water, contaminating drinking water supplies, causing acute illnesses or chronic diseases, and threatening healthy ecosystems in urban, rural, and suburban areas. Under the Resource Conservation and Recovery Act of 1976, as amended, EPA provides grants to States to strengthen their ability to implement hazardous waste programs. When appropriate, EPA also may provide financial and technical assistance to eligible tribal governments and inter-tribal consortia to conduct hazardous waste work in Indian Country. The Budget proposes resources for carrying out section 302(a) of the Save our Seas 2.0 Act.

In addition, EPA provides grants to assist States, Tribes, and other partners with worker safety activities, protection of endangered species and water sources, and promotion of environmental stewardship. To protect, sustain or restore the health of people, communities and ecosystems, EPA focuses on the geographic areas with human and ecological communities at most risk. EPA is working to protect, sustain, and restore the health of natural habitats and ecosystems by identifying and evaluating problem areas, developing tools, and improving community capacity to address problems.

Under Federal environmental statutes, EPA is responsible for protecting human health and the environment in Indian Country. EPA works with over 560 federally recognized Tribes located across the United States to improve environmental and human health outcomes. Indian Country totals more than 70 million acres, with reservations ranging from less than 10 acres to more than 14 million acres. EPA will provide funding to build and enhance the capacity of Tribes to address environmental and public health challenges in Indian Country, including lack of access to safe drinking

water, sanitation, adequate waste facilities, and other environmental safeguards taken for granted elsewhere.

EPA will provide funding to States, U.S. Territories, Tribes, and inter-tribal consortia to help them develop their information management and technology capabilities. The purpose of this support is two-fold: to assist the Agency in providing ready access to real-time environmental information; and to allow States and Tribes to better integrate and share their environmental information.

To promote compliance with laws intended to protect human health and the environment, EPA will continue to award State and tribal grants to assist in the implementation of compliance and enforcement provisions of environmental laws. EPA provides funding to States and Tribes for compliance assurance activities including inspections and enforcement case support activities. EPA programs will provide Pesticide Program State and Tribal Assistance Grants that support pesticide product and user compliance with provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through cooperative agreements with States and Tribes. The cooperative agreements support State and tribal compliance and enforcement activities under FIFRA.

Toxic Substance Compliance Grants are provided to States and Tribes to prevent or eliminate unreasonable risks to human health or the environment and to ensure compliance with toxic substance regulations. The grants support inspection programs associated with the Asbestos Hazard Emergency Response Act (AHERA), lead-based paint (402(a), 406(b), and the Renovation, Repair and Painting rule [RRP]), and polychlorinated biphenyls (PCBs). The compliance monitoring activities conducted by the States will be a cooperative endeavor addressing the priorities of the Federal Toxic Substances Control Act program and State toxics program issues.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

For the cost of direct loans and for the cost of guaranteed loans, as authorized by the Water Infrastructure Finance and Innovation Act of 2014, \$72,108,000, to remain available until expended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize gross obligations for the principal amount of direct loans, including capitalized interest, and total loan principal, including capitalized interest, any part of which is to be guaranteed, not to exceed \$12,500,000,000: Provided further, That of the funds made available under this heading, \$5,000,000 shall be used solely for the cost of direct loans and for the cost of guaranteed loans for projects described in section 5026(9) of the Water Infrastructure Finance and Innovation Act of 2014 to State infrastructure financing authorities, as authorized by section 5033(e) of such Act: Provided further, That the use of direct loans or loan guarantee authority under this heading for direct loans or commitments to guarantee loans for any project shall be in accordance with the criteria published in the Federal Register on June 30, 2020 (85 FR 39189) pursuant to the fourth proviso under the heading "Water Infrastructure Finance and Innovation Program Account" in division D of the Further Consolidated Appropriations Act, 2020 (Public Law 116-94): Provided further, That none of the direct loans or loan guarantee authority made available under this heading shall be available for any project unless the Administrator and the Director of the Office of

Management and Budget have certified in advance in writing that the direct loan or loan guarantee, as applicable, and the project comply with the criteria referenced in the previous proviso: Provided further, That, for the purposes of carrying out the Congressional Budget Act of 1974, the Director of the Congressional Budget Office may request, and the Administrator shall promptly provide, documentation and information relating to a project identified in a Letter of Interest submitted to the Administrator pursuant to a Notice of Funding Availability for applications for credit assistance under the Water Infrastructure Finance and Innovation Act Program, including with respect to a project that was initiated or completed before the date of enactment of this Act.

In addition, fees authorized to be collected pursuant to sections 5029 and 5030 of the Water Infrastructure Finance and Innovation Act of 2014 shall be deposited in this account, to remain available until expended.

In addition, for administrative expenses to carry out the direct and guaranteed loan programs, notwithstanding section 5033 of the Water Infrastructure Finance and Innovation Act of 2014, \$8,236,000, to remain available until September 30, 2024.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

This appropriation supports all activities necessary for the implementation of the Water Infrastructure Finance and Innovation program established by the Water Resources Reform and Development Act of 2014, Title V, Subtitle C. The program will provide low-interest Federal loans or loan guarantees to eligible entities for a wide range of nationally and regionally significant water and wastewater projects. Eligible assistance recipients include corporations, partnerships, government entities, and State Revolving Fund (SRF) programs, among others. Eligible projects include, among others: Clean and Drinking Water State Revolving Fund eligible projects; projects for enhanced energy efficiency at drinking water and wastewater facilities; brackish or seawater desalination, aquifer recharge, water recycling; acquisition of property if it is integral to the project or will mitigate the environmental impact of a project; bundled SRF projects under one application; and a combination of projects secured by a common security pledge. Of the total \$80 million request to implement the Water Infrastructure Finance and Innovation Act (WIFIA) program, \$8 million is for the Environmental Protection Agency's (EPA) management and operation of the program, including contract support and associated payroll. The WIFIA program will be administered by EPA's Office of Water.

The Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, authorizes appropriations from the general fund to finance activities conducted through the Hazardous Substance Superfund. The Administration proposes to continue the payment from the general fund in 2023 in amounts necessary to reach the full appropriated amount for carrying out CERCLA. In addition, Superfund excise tax revenues are expected to be collected in 2022 and available for use in 2023. The Biden-Harris Administration looks forward to working with Congress to change the Superfund excise tax outlays from discretionary to mandatory.

TSCA Service Fees are authorized by section 26 of the Toxic Substances Control Act, as amended by Public Law 114-182, the Frank R. Lautenberg Chemical Safety for the 21st Century Act. Fees deposited in this account are paid by chemical manufacturers (including importers) and, in limited circumstances, processors who are required to: submit test data (TSCA section 4); submit notification of or information related to intent to manufacture a new chemical or significant new use of a chemical (TSCA section 5); manufacture a chemical substance that is subject to a risk evaluation (TSCA section 6); or request that the Environmental Protection Agency (EPA) conduct a risk evaluation on an existing chemical (TSCA section 6), subject to the agency's approval of the request. TSCA Service Fees are estimated to offset 25 percent of the costs to administer sections 4, 5, and 6 of the law as well as collecting, processing, reviewing, and protecting information about chemical substances from disclosure as appropriate under TSCA section 14. The statute requires that fees for manufacturer-requested risk evaluations offset 50 or 100 percent of the costs of those evaluations. EPA finalized a rule for the collection of TSCA fees on September 27, 2018. The final rule became effective in October 2018.

Fees deposited in this account are paid by industry to partially offset the costs associated with reviewing all applications for which registration service fees have been paid, including for associated establishment of tolerances for pesticides to be used in or on food and animal feed; and to partially fund the enhancement of scientific and regulatory activities relating to worker protection, to partially fund partnership grants, and to partially fund the pesticide safety education program. These Pesticide Registration Service fees are authorized by section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 116-8, the Pesticide Registration Improvement Extension Act of 2018.

Pesticide maintenance fees are paid by industry to partially offset the costs of pesticide reregistration and expedited processing of certain registration applications; to partially offset the costs of registration review; to review and evaluate inert ingredients; to support enhancements to the Good Laboratory Practices program inspections and audits; and to support efficacy guideline development and rulemaking. This fee is authorized in section 4(i) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 116-8, the Pesticide Registration Improvement Extension Act of 2018.

Fee Spending Restrictions. Current statutory language in the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) restricts the activities that Environmental Protection Agency can fund from collections deposited in the Reregistration and Expedited Processing Revolving Fund. The Budget proposes language to clarify the Agency's authority to utilize resources in the Fund to review existing pesticide registrations for their compliance with current FIFRA standards, ensuring market access for pesticide registrants. Specifically, fees collected would be available for the following pesticide regulatory activities: processing and review of submissions made under FIFRA, data submitted in association with a current registration, information submitted pursuant to section 6(a)(2), processing and review of additional uses registered by States under section 24(c), applications for emergency exemptions, and notifications; laboratory support; administrative and systems support; development of policy and guidance; rulemaking

support; information collection activities; and the portions of salaries related to work in these areas.

In accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g(c)), the Administrator of the Environmental Protection Agency is authorized to collect and obligate e-Manifest user fees. In 2023, EPA will continue to operate the e-Manifest system established by the Hazardous Waste Electronic Manifest Establishment Act (Public Law 112-195). Based upon authority to collect and spend e-Manifest fees

provided by the Congress in annual appropriations bills, the Agency anticipates collecting and depositing approximately \$26.6 million in e-Manifest user fees into the Hazardous Waste Electronic Manifest System Fund. Fees deposited in this account will fully support the e-Manifest program, including operation of the system, necessary program expenses, and future development costs.

These funds pay for the Environmental Protection Agency's (EPA) assessment and restoration activities resulting from the Deepwater Horizon Oil Spill in conjunction with injury to, destruction of, or loss of the use of natural resources, including their supporting ecosystems. EPA was designated as a trustee for Natural Resource Damage Assessment (NRDA) under Executive Order 13626, and this fund was established under the authority of section 1006(f) (33 U.S.C. 2706(f)) of the Oil Pollution Act of 1990.

The Environmental Protection Agency (EPA) received authority to establish a Working Capital Fund (WCF) and was designated a pilot franchise fund under Public Law 103-356, the Government Management and Reform

Act of 1994. EPA received permanent authority for the WCF in Public Law 105-65, as part of an effort to increase competition for governmental administrative services. The Modernizing Government Technology (MGT) Act (Public Law 115-91) provided additional authority for information technology development activities in agency working capital funds. EPA's WCF became operational in 1997 and funds the following main activities: information technology services, agency postage costs, Cincinnati voice services background investigations, and enterprise human resources IT services managed by the Office of Mission Support; financial and administrative systems, employee relocations, and a budget formulation system managed by the Office of the Chief Financial Officer; the Agency's Continuity of Operations (COOP) site managed by the Office of Land and Emergency Management; legal services managed by the Office of General Counsel; regional information technology service and support managed by EPA Region 8; and multimedia and agency servicing contracts managed by the Office of the Administrator. The 2023 amount reflects only base resources and may change during the year in accordance with programmatic needs.

Object Classification (in millions of dollars)

Trust Funds

HAZARDOUS SUBSTANCE SUPERFUND
(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses to carry out the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), including sections 111(c)(3), (c)(5), (c)(6), and (e)(4) (42 U.S.C. 9611), and hire, maintenance, and operation of aircraft, \$1,154,168,000, to remain available until expended, consisting of such sums as are available in and not already appropriated from the Trust Fund on September 30, 2022, as authorized by section 517(a) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and up to \$1,154,168,000 as a payment from general revenues to the Hazardous Substance Superfund for purposes as authorized by section 517(b) of SARA: Provided, That funds appropriated under this heading may be allocated to other Federal agencies in accordance with section 111(a) of CERCLA: Provided further, That of the funds appropriated under this heading, \$12,062,000 shall be paid to the "Office of Inspector General" appropriation to remain available until September 30, 2024, and \$31,368,000 shall be paid to the "Science and Technology" appropriation, to remain available until September 30, 2024: Provided further, That of the amounts provided under this heading for Superfund—Enforcement, up to eleven percent shall be transferred to "Department of Justice—Legal Activities—Salaries and Expenses—General Legal Activities" and shall remain available until expended for expenses of CERCLA-related activities conducted by the Environment and Natural Resources Division on behalf of the Environmental Protection Agency.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing

Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

HAZARDOUS SUBSTANCE SUPERFUND

[(INCLUDING TRANSFERS OF FUNDS)]

For an additional amount for "Hazardous Substance Superfund", \$3,500,000,000, to remain available until expended, consisting of such sums as are available in the Trust Fund on September 30, 2021, as authorized by section 517(a) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and up to \$3,500,000,000 as a payment from general revenues to the Hazardous Substance Superfund for purposes as authorized by section 517(b) of SARA, for all costs associated with Superfund: Remedial activities: *Provided*, That in providing technical and project implementation assistance for amounts made available under this heading in this Act, the Administrator shall consider the unique needs of Tribal communities with contaminated sites where the potentially responsible parties cannot pay or cannot be identified, but shall not alter the process for prioritizing site cleanups: *Provided further*, That amounts provided under this heading in this Act shall be in addition to amounts otherwise available for such purposes: *Provided further*, That amounts provided under this heading in this Act shall not be subject to cost share requirements under section 104(c)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) (42 U.S.C. 9604(c)(3)): *Provided further*, That the Administrator of the Environmental Protection Agency shall annually report to Congress on the status of funded projects: *Provided further*, That one-half of one percent of the amounts made available under this heading in this Act in each of fiscal years 2022 through 2026 shall be transferred to the Office of Inspector General of the Environmental Protection Agency for oversight of funding provided to the Environmental Protection Agency in this title in this Act: *Provided further*, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 4112(a) of H. Con. Res. 71 (115th Congress), the concurrent resolution on the budget for fiscal year 2018, and to section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985. (Infrastructure Investments and Jobs Appropriations Act.)

This appropriation provides funds for the implementation of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA). This appropriation supports core Environmental Protection Agency (EPA) programs.

To preserve and restore land and to protect human health and the environment, EPA reduces the risks posed by releases of hazardous substances, pollutants, and contaminants, and protects against unacceptable exposure by cleaning up contaminated sites and restoring ground water to beneficial use. EPA applies the most effective and scientifically sound methods to address the risks associated with the presence of hazardous substances, pollutants, and contaminants, improve response capabilities, and maximize the effectiveness of response and cleanup actions. Cleanup and response activity at contaminated sites addresses environmental concerns, such as the removal of contaminated soil and treatment of contaminated groundwater, to reduce human exposures to hazardous substances, pollutants, and contaminants, and to provide long-term human health protection. EPA works to ensure that all releases of hazardous substances, pollutants, and contaminants into the environment are appropriately addressed by responding to incidents and providing technical support. To prepare for and respond to incidents of national significance, EPA includes among its efforts improving decontamination readiness. EPA conducts research to improve methods and models and to accelerate scientifically defensible and cost-effective decisions for cleanup at complex contaminated sites in accordance with CERCLA. EPA also works to maximize responsible parties' participation in site cleanups and pursue greater recovery of EPA's cleanup costs.

EPA protects communities and helps return contaminated properties to productive use by ensuring that responsible parties pay for and/or conduct cleanups. The enforcement program recovers Federal cleanup funds from responsible parties to save taxpayer dollars. The goal is to maximize the participation of liable and viable parties in performing and paying for cleanups in both the remedial and removal programs. EPA investigates and refers for prosecution criminal and civil violations of CERCLA.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform within the Superfund appropriation are: the Office of the Administrator (environmental justice); the Office of Chief Financial Officer (strategic planning, annual planning and budgeting, financial services, and financial management, analysis, and accountability); the Office of General Counsel (alternate dispute resolution and legal advice); and the Office of Mission Support (facilities infrastructure and operations; acquisition management; human resources management services; grant and inter-agency agreement management; suspension and debarment; exchange network; information security; and information technology/data management) Because these centralized services provide support across EPA, the internal operations programs are funded across EPA's appropriations.

The Leaking Underground Storage Tank (LUST) Trust Fund, authorized by the Superfund Amendments and Reauthorization Act of 1986, as amended by the Omnibus Budget Reconciliation Act of 1990, the Taxpayer Relief Act of 1997, the Energy Policy Act (EPAct) of 2005, the Moving Ahead for Progress in the 21st Century Act (MAP-21), and the Fixing America's Surface Transportation Act (FAST Act), provides funds for preventing and responding to releases from underground storage tanks. The Trust Fund is financed by a 0.1 cent per gallon tax on motor fuels through September 30, 2022.

LUST funds are allocated to States through cooperative agreements to clean up sites posing the greatest threat to human health and the environment as authorized under section 9003(h) of the Solid Waste Disposal Act of 1965, as amended, and also to implement the activities authorized by Title XV, Subtitle B of EPAct. Funds also are used for grants to non-state entities under section 8001 of the Resource Conservation and Recovery Act of 1976, as amended. Federally recognized Tribes receive grant funding under Public Law 105-276. The Environmental Protection Agency (EPA) supports oversight, clean-up, and enforcement programs which are implemented by the States. LUST Trust Fund dollars can be used for state-led clean-ups and for State oversight of responsible party clean-ups. The LUST program promotes effective responses to releases from federally regulated underground storage tanks containing petroleum by enhancing State, local, and tribal enforcement and response capability. This appropriation supports core agency programs.

To protect the Nation's groundwater and drinking water from petroleum releases from Underground Storage Tanks (UST), EPA provides compliance assistance tools, technical assistance and training to promote and enforce UST systems compliance and clean-ups. EPA also focuses its LUST research efforts on assessing sites and evaluating the implications of alternative remediation technologies, policies, and management actions to assess and cleanup leaks at fueling stations.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The offices and the functions they perform are: Office of Mission Support (facilities infrastructure and operations, and acquisition management); and the Office of Chief Financial Officer (strategic planning; annual planning and budgeting; financial services; and financial management, analysis, and accountability).

INLAND OIL SPILL PROGRAMS

For expenses necessary to carry out the Environmental Protection Agency's responsibilities under the Oil Pollution Act of 1990, including hire, maintenance, and operation of aircraft, \$26,502,000, to be derived from the Oil Spill Liability trust fund, to remain available until expended.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

This appropriation provides for the Environmental Protection Agency's (EPA) responsibilities for prevention, preparedness, response, and enforcement activities authorized under the Federal Water Pollution Control Act, as amended by the Oil Pollution Act of 1990 (OPA). This appropriation supports core Agency programs.

EPA's Oil Spill program protects U.S. waters by preventing, preparing for, responding to, and monitoring oil discharges. Under the regulatory framework established by the Spill Prevention, Control, and Countermeasure (SPCC) and Federal Response Plan (FRP) regulations, EPA conducts oil spill prevention, preparedness, inspection, and enforcement activities associated with more than 600,000 non-transportation-related oil storage facilities. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) identifies EPA's jurisdiction over inland oil spills and sets forth the framework for response. EPA accesses the Oil Spill Liability Trust Fund, administered by the U.S. Coast Guard, to obtain reimbursement for site-specific spill response activities. More than 30,000 oil and hazardous substance discharges occur in the United States every year, with a significant portion of these discharges occurring in the inland zone over which EPA has jurisdiction.

EPA develops and manages the regulations and protocols under Subpart J of the NCP which require manufacturers of various oil spill response products to test their products prior to listing on a Product Schedule. The Product Schedule identifies those oil spill remediation agents, such as dispersants and surface washing agents, which could be authorized for use by an On-Scene Coordinator (OSC) on an oil discharge. Product testing ensures their effectiveness and provides toxicity information used by OSCs and Regional Response Teams in making informed decisions regarding the use of certain products in response to specific spills. EPA focuses its oil spill research efforts on human health impacts, ecological effects, and shoreline and coastal impacts from oil discharges and use of dispersants and other chemical agents, as well as spill remediation alternatives and innovative

technology development and evaluation, including green technologies. Spill response is a priority for the Agency, and EPA has been instrumental in providing guidance for various response technologies. A key factor in providing guidance on spill response technologies is developing a firm understanding of the science behind spill behavior in the environment.

Appropriated funds for the Inland Oil Spill Programs support work designed to prevent oil spills using civil enforcement and compliance assistance approaches, as well as to prepare for and respond to any oil discharges affecting the inland waters of the United States. Pursuant to Clean Water Act section 311 (Oil Spill and Hazardous Substances Liability) requirements, EPA's Civil Enforcement program develops policies; issues administrative clean-up and removal orders and orders protecting public health; pursues administrative remedies and/or refers civil judicial actions to the Department of Justice; assesses civil penalties for discharges into the environment or violations of administrative orders or oil pollution prevention regulations; assists regulated entities in understanding their legal requirements under the Clean Water Act; and assists in the recovery of clean-up costs expended by the Government.

EPA's internal operations programs provide centralized management services to ensure that EPA is fulfilling its mission. The office and function is Office of Mission Support (facilities infrastructure and operations).

ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING TRANSFERS OF FUNDS)

For fiscal year 2023, notwithstanding 31 U.S.C. 6303(1) and 6305(1), the Administrator of the Environmental Protection Agency, in carrying out the Agency's function to implement directly Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, may award cooperative agreements to federally recognized Indian tribes or Intertribal consortia, if authorized by their member tribes, to assist the Administrator in implementing Federal environmental programs for Indian tribes required or authorized by law, except that no such cooperative agreements may be awarded from funds designated for State financial assistance agreements.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate pesticide registration service fees in accordance with section 33 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136w-8): Provided, That such fees collected shall remain available until expended.

Notwithstanding section 33(d)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w-8(d)(2)), the Administrator of the Environmental Protection Agency may assess fees under section 33 of FIFRA (7 U.S.C. 136w-8) for fiscal year 2023.

Notwithstanding any other provision of law, in addition to the activities specified in section 33 of Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136w-8), fees collected in this and prior fiscal years under such section shall be available for the following activities as they relate to pesticide licensing: processing and review of data submitted in association with a registration, information submitted pursuant to section 6(a)(2) of FIFRA (7 U.S.C. 136d(a)(2)), supplemental distributor labels, transfers of registration and data compensation rights, additional uses registered by states under section 24(c) of FIFRA (7 U.S.C. 136v(c)), data compensation petitions, reviews of minor amendments, and notifications; review of applications for emergency exemptions under section 18 of FIFRA (7 U.S.C. 136p) and ensuing data collection activities; laboratory support and audits; administrative support; risk communication activities; development of policy and guidance; rule-making support; information collection activities; and the portions of salaries related to work in these areas.

The Administrator is authorized to transfer up to \$340,110,000 of the funds appropriated for the Great Lakes Restoration Initiative under the heading "Environmental Programs and Management" to the head of any Federal department or agency, with the concurrence of such head, to carry out activities that would support the Great Lakes Restoration Initiative and Great Lakes Water Quality Agreement programs, projects, or activities; to enter into an interagency agreement with the head of such Federal department or agency to carry out these activities; and to make grants to governmental entities, nonprofit organizations, institutions, and individuals for planning, research, monitoring, outreach, and implementation in furtherance of the Great Lakes Restoration Initiative and the Great Lakes Water Quality Agreement.

The Science and Technology, Environmental Programs and Management, Office of Inspector General, Hazardous Substance Superfund, and Leaking Underground Storage Tank Trust Fund Program Accounts, are available for the construction, alteration, repair, rehabilitation, and renovation of facilities, provided that the cost does not exceed \$350,000 per project.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 3024 of the Solid Waste Disposal Act (42 U.S.C. 6939g) for fiscal year 2023: Provided, That such fees collected shall remain available expended.

The Administrator of the Environmental Protection Agency is authorized to collect and obligate fees in accordance with section 26(b) of the Toxic Substances Control Act (15 U.S.C. 2625(b)) for fiscal year 2023: Provided, That such fees collected shall remain available until expended.

For fiscal year 2023, and notwithstanding section 518(f) of the Federal Water Pollution Control Act (33 U.S.C. 1377(f)), the Administrator is authorized to use the amounts appropriated for any fiscal year under section 319 of the Act to make grants to Indian tribes pursuant to sections 319(h) and 518(e) of that Act.

The Administrator is authorized to use the amounts appropriated under the heading "Environmental Programs and Management" for fiscal year 2023 to provide grants to implement the Southeastern New England Watershed Restoration Program.

Notwithstanding the limitations on amounts in section 320(i)(2)(B) of the Federal Water Pollution Control Act, not less than \$1,500,000 of the funds made available under this title for the National Estuary Program shall be for making competitive awards described in section 320(g)(4).

For fiscal years 2023 through 2027, the Office of Chemical Safety and Pollution Prevention and the Office of Water may, using funds appropriated under the headings "Environmental Programs and Management" and "Science and Technology", contract directly with individuals or indirectly with institutions or nonprofit organizations,

without regard to 41 U.S.C. 5, for the temporary or intermittent personal services of students or recent graduates, who shall be considered employees for the purposes of chapters 57 and 81 of title 5, United States Code, relating to compensation for travel and work injuries, and chapter 171 of title 28, United States Code, relating to tort claims, but shall not be considered to be Federal employees for any other purpose: Provided, That amounts used for this purpose by the Office of Chemical Safety and Pollution Prevention and the Office of Water collectively may not exceed \$2,000,000 per year.

The appropriation provided by 42 U.S.C. 9622(b)(3) is available for the hire, maintenance, and operation of aircraft.

The Environmental Protection Agency Working Capital Fund, 42 U.S.C. 4370e, is available for expenses and equipment necessary for modernization and development of information technology of, or for use by, the Environmental Protection Agency.

The Administrator may, after consultation with the Office of Personnel Management, employ up to seventy-five persons at any one time in the Office of Research and Development and twenty-five persons at any one time in the Office of Chemical Safety and Pollution under the authority provided in 42 U.S.C. 209, through fiscal year 2025.

GENERAL PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY

[(INCLUDING TRANSFERS OF FUNDS)]

【SEC. 611. Funds made available to the Environmental Protection Agency by this Act for salaries, expenses, and administration purposes may be transferred to the

"Environmental Programs and Management" account or the "Science and Technology" account as needed for such purposes.】

【SEC. 612. Not later than 90 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall submit to the House and Senate Committees on Appropriations a detailed spend plan for the funds provided to the Environmental Protection Agency in this title for fiscal year 2022, and for each fiscal year through 2026, as part of the annual budget submission of the President under section 1105(a) of title 31, United States Code, the Administrator of the Environmental Protection Agency shall submit a detailed spend plan for the funds provided to the Environmental Protection Agency in this title for that fiscal year.】

【SEC. 613. For this fiscal year and each fiscal year thereafter, such sums as are available in the Hazardous Substance Superfund established under section 9507 of the Internal Revenue Code of 1986 at the end of the preceding fiscal year from taxes received in the Treasury under subsection (b)(1) of such section shall be available, without further appropriation, to be used to carry out the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).】

【SEC. 614. (a) DRINKING WATER.—There is authorized to be appropriated to carry out the purposes of section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12), in addition to amounts otherwise authorized to be appropriated for those purposes, an additional \$1,126,000,000 for each of fiscal years 2022 through 2026.

(b) CLEAN WATER.—There is authorized to be appropriated to carry out the purposes of title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.), in addition to amounts otherwise authorized to be appropriated for those purposes, an additional \$1,639,000,000 for each of fiscal years 2022 through 2026.】

(Infrastructure Investments and Jobs Appropriations Act.)
