# GENERAL NOTES

- All years in the tables are fiscal years.
- The detailed amounts in tables and charts are rounded and therefore may not add to the listed totals.
- At the time the budget was prepared, no annual appropriations bills for 2022 had been enacted. Programs and activities normally provided for in annual appropriations bills were operating under a continuing resolution (Public Law 117-43, as amended). For these programs, references to 2022 obligations in the text and tables reflect the levels provided by the continuing resolution.

# OBJECT CLASSIFICATION

# Object Classification Narrative

---

This report presents the Federal Government’s obligations in terms of the object classification prescribed in section 83 of OMB Circular No. A-11. Object classes describe the “nature” of the service or article for which obligations are first incurred, regardless of the purpose, function, or program served.

***Object classes.*** There are five major object classes:

- 10 Personnel Compensation and Benefits
- 20 Contractual Services and Supplies
- 30 Acquisition of Assets
- 40 Grants and Fixed Charges
- 90 Other

These major object classes are then divided into smaller classes. The tables included in this report provide the amounts shown in the object class schedules of the 2023 Budget *Appendix*. The 2021 column reflects the actual obligations recorded in the prior year, the 2022 column reflects estimated obligations incurred in the current year, and the 2023 column reflects estimated obligations for all proposed appropriations in the budget year.

Direct obligations are financed from appropriations that agencies receive from the Congress. These appropriations are funded by tax dollars. To show how the taxpayers’ money is being spent, the reports detail direct obligations by thirty-four object class codes. In contrast, reimbursable obligations are financed from offsetting collections, which are received as payment for the sale of goods and services. These collections can come from Federal or non-Federal sources. When a Federal entity purchases goods or services from another Federal entity, the purchasing entity reports direct obligations using the object class that best show the purpose of the obligation, e.g. equipment or rental payments to GSA. When obligating against the offsetting collections it receives, the performing entity reports reimbursable obligations. The performing entity may use a different object class than the purchasing entity to characterize its obligation, e.g. personnel compensation. This report shows reimbursable obligations on one total line, as these are not financed directly from appropriations.
