

President Biden's Economic Plan is Working for Kansas

Several economic indicators demonstrate robust economic progress in Kansas since President Biden took office. Below are key metrics—such as state employment, unemployment insurance claims, GDP, supplemental poverty, and vaccination rates—that help us interpret the current moment and highlight our progress on economic recovery and enhanced support for workers and families.

Employment:

- Since January 2021, the Kansas economy has added 26,900 **jobs** (2.0 percent of January 2021 employment in Kansas). The state economy has recovered 77 percent of the jobs lost between February 2020 and April 2020.
 - In the largest sector (trade, transportation, and utilities), the Kansas economy added 5,300 jobs between January 2021 and April 2022.
- The state's **unemployment rate** fell from 3.8 percent in January 2021 to 2.4 percent in April 2022. This is equal to the lowest unemployment rate for the state on record (series started in 1976).
- **Initial claims for Unemployment Insurance** in Kansas fell 93 percent since President Biden took office, from around 17,000 at the start of the Administration to about 1,200 for the week ending May 28, 2022.
- The **quits rate**, a measure of labor market strength (since people generally quit jobs to take better jobs), rose from 2.3 percent in January 2021 to 2.6 percent in March 2022.

GDP:

- Kansas's **real GDP** grew 1.5 percent at an annual rate in the 4th quarter of 2021.
 - This is a substantial acceleration compared with growth in 2020, when Kansas's real GDP *decreased* by 1.1 percent Q4/Q4, and similar to 2019, when Kansas's real GDP grew by 1.4 percent Q4/Q4.

Small Businesses:

- Residents of Kansas [applied](#) to start more **new businesses** during President Biden's first year in office than in any other year since the series started in 2005.
- Congressional Republicans' tax plan would raise taxes on 53.5 percent of small business owners in Kansas, and 81.8 percent of small business owners earning less than \$50,000 per year. The typical affected small business owner would see their taxes increase by \$900.

Poverty:

- Kansas's **Supplemental Poverty Measure** was [projected](#) to be 7.6 percent in 2021, lower than 11.0 percent on a comparable measure in 2018.
- The Supplemental Poverty Measure for children under 18 in Kansas was projected to be 5.3 percent in 2021, lower than 9.0 percent on a comparable measure in 2018.

Vaccinations:

- The number of **fully vaccinated people** in Kansas has increased from approximately 0 in January 2021 to 1,800,000 as of May 2022.
