

ADVANCE APPROPRIATIONS

An advance appropriation is one made to become available one year or more beyond the year for which the appropriations act is passed. Advance appropriations in 2024 appropriations acts will become available for programs in 2025 or beyond. Since these appropriations are not available until after 2024, the amounts will not be included in the 2024 totals, but will be reflected in the totals for the year for which they are requested.

The Congressional Budget Act of 1974 (31 U.S.C. 1105(a)(17)) requires inclusion in the budget of "information on estimates of appropriations for the fiscal year following the fiscal year for which the budget is submitted for grants, contracts, and other payments under each program for which there is an authorization of appropriations for that following fiscal year when the appropriations are authorized to be included in an appropriation law for the fiscal year before the fiscal year in which the appropriation is to be available for obligation." In fulfillment of this requirement, the accompanying table lists those accounts that have either received discretionary or mandatory advance appropriations since 2022 or will request, in 2024, advance appropriations for 2025 and beyond and cites the applicable authorizing statute.

For additional information on advance appropriations, please refer to the Budget Concepts chapter in the *Analytical Perspectives* volume.
