

Demis Hassabis, PhD, FRS
Co-Founder and CEO, Google DeepMind

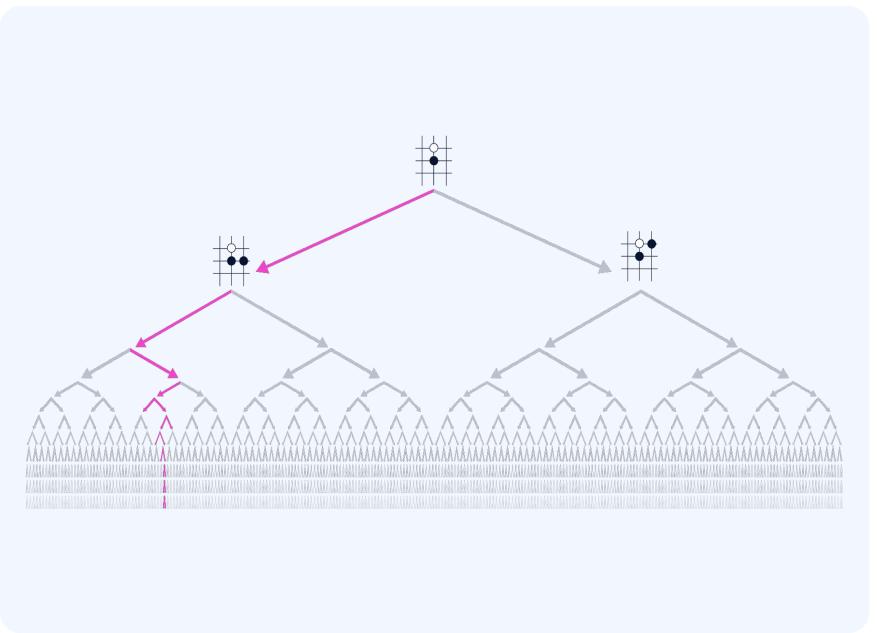

PCAST

19 May 2023

### Al breakthroughs in games laid the foundation for scientific applications

AlphaGo - mastering Go through self-learning

Guiding the search with the model

#### The Protein Folding Problem

Proteins are essential to all life - their function partially depends on their 3D structure

Determining the structure often takes years of painstaking experimental work

"The 3D structure of a protein... should be fully determined by the amino acid sequence"

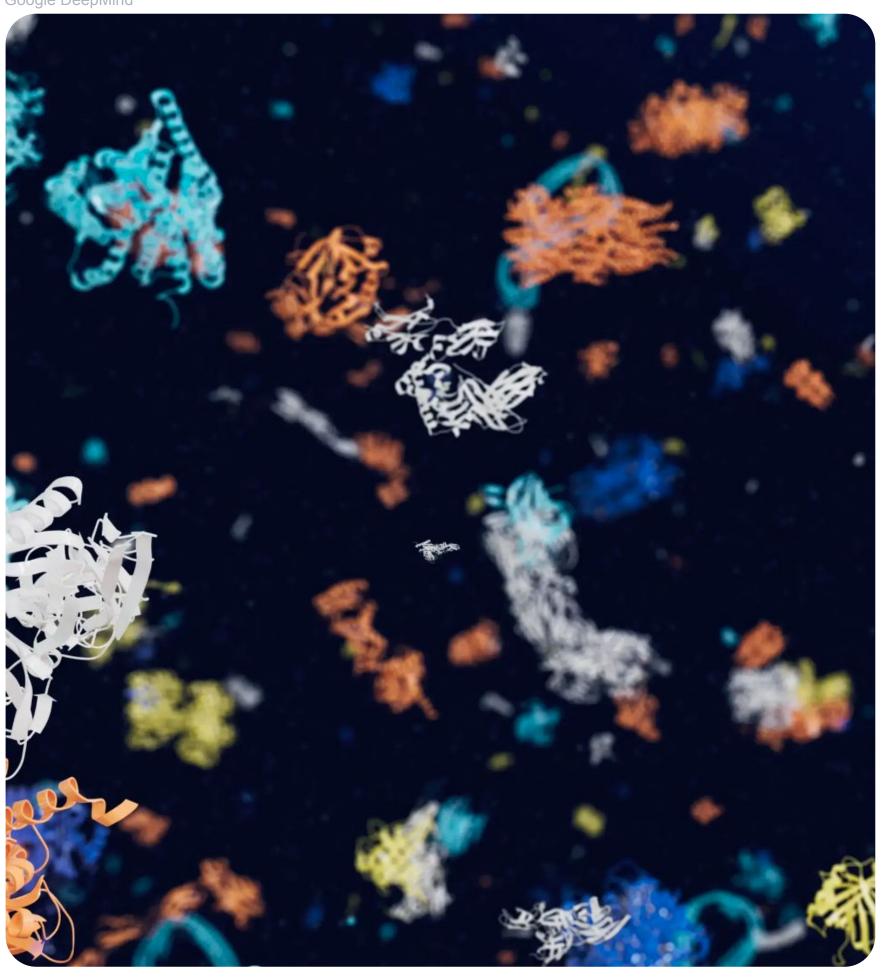

Christian Anfinsen, Nobel Lecture 1972

A 50-year-old grand challenge in biology

Google DeepMind

# We folded all 200M+ proteins known to science with AlphaFold

All predictions are freely available in the AlphaFold Protein Structure Database

1M+ users

190+ countries

10000+ citations

~1B years of PhD time

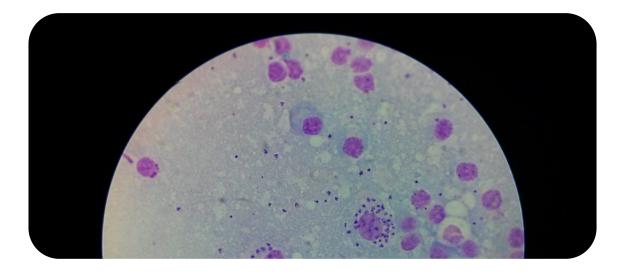

### AlphaFold is accelerating progress on a range of important problems

See more **#Unfolded** stories at **unfolded.deepmind.com** 

Plastic pollution

Designing plastic eating enzymes McGeehan et al. (Portsmouth)

Neglected diseases

Accelerating drug discovery in Leishmaniasis Benjamin Perry (DNDi)

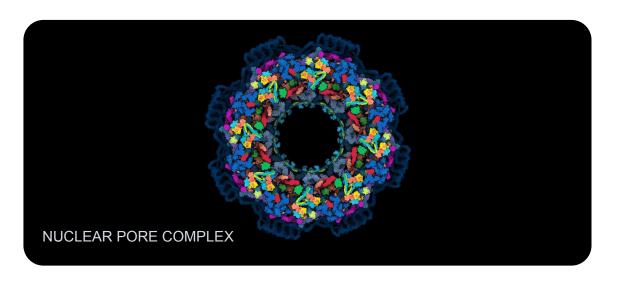

Antibiotic resistance

Blocking antibiotic resistance mechanisms Sousa & Mitchell (Colorado)

Malaria vaccine

Designing a more effective malaria vaccine Matthew Higgins (Oxford)

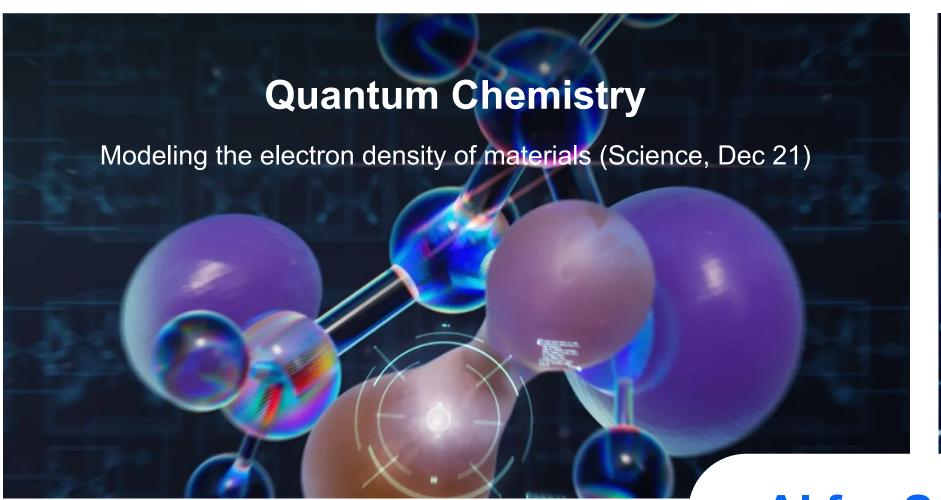

Structural biology

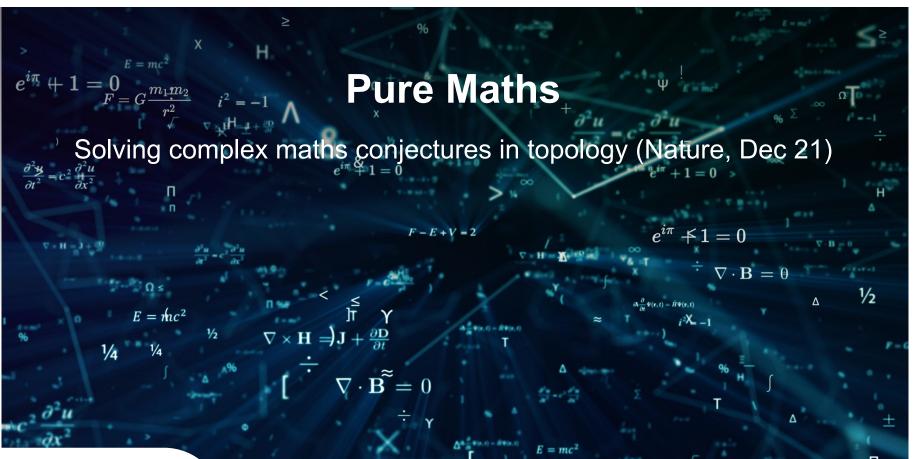

Determined structure of nuclear pore complex Fontana et al., Mosalaganti, et al. (Science)

Drug delivery

Molecular syringe for protein delivery Feng Zhang (Broad Institute)

Al for Science

Genomics

Effective gene expression prediction (Nature Methods, Oct 21)

## Pioneering Responsibly

We need to be bold *and* responsible. Transformative technology deserves exceptional care

Al has incredible potential to help with humanity's greatest challenges like science and medicine

But AI must be built responsibly and safely, and be used for the benefit of everyone

Ethics and safety has been central to our mission from the beginning - evolved into Google's AI Principles

We continue to provide responsible thought leadership on AI strategy, risks, ethics and safety for the community

Al - the ultimate general-purpose tool to help us understand the universe
