

**PHYSICIAN TO THE PRESIDENT
THE WHITE HOUSE**

12 JUN 2023

MEMORANDUM FOR: KARINE JEAN-PIERRE
ASSISTANT TO THE PRESIDENT AND
WHITE HOUSE PRESS SECRETARY

FROM: KEVIN C. O'CONNOR, D.O., FAAFP
PHYSICIAN TO THE PRESIDENT

SUBJECT: President Biden's Current Dental Work

1. 11 June, 2023, the President identified that he was experiencing some dental pain in his lower right premolar (tooth 29).
2. Our Presidential Dental Team from Walter Reed National Military Medical Center was able to perform an examination, to include x-rays, in the White House Dental Operatory. They determined that endodontic treatment (root canal) was most appropriate. Initial root canal procedure was performed at the time, with a plan for specialized endodontal follow up in the near future. The President tolerated the procedure well. There were no complications.
3. He is experiencing further discomfort this morning, which was anticipated. The endodontal specialty team from Walter Reed will complete the President's root canal today, at the White House.
4. As always, I will provide you updated information as it becomes available.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "K. O'Connor".

Kevin C. O'Connor, D.O., FAAFP
Physician to the President
The White House

Associate Professor, The George Washington University School of Medicine & Health Sciences
