October 20, 2023

The Honorable Patrick McHenry
Speaker Pro Tempore of the House of Representatives
Washington, DC 20515

Dear Speaker Pro Tempore:

Over the coming weeks, the Administration looks forward to continued engagement with members of both parties to reach a comprehensive, bipartisan agreement to fund the Government and invest in critical national priorities. As part of that process, the Congress has an opportunity and obligation to advance our national security by addressing critical needs that should earn bipartisan support. Today, I am writing to provide you with the President’s request for Fiscal Year (FY) 2024 emergency supplemental funding for these key national security priorities.

This request reflects how, under President Biden’s leadership, the U.S. has marshalled a robust response to Putin’s brutal invasion of Ukraine and is now coming to the aid of our ally Israel. As we replenish our stocks of weapons, we are partnering with the U.S. defense industry to increase our capacity and meet the needs of the United States and our allies both now and in the future. This supplemental request invests over $50 billion in the American defense industrial base—ensuring our military continues to be the most ready, capable, and best equipped fighting force the world has ever seen. The funding will expand production lines, strengthening the American economy and creating new American jobs. This request also addresses the global humanitarian impacts of Russia’s brutal invasion of Ukraine and of Hamas’ horrific attacks on Israel, including by extending humanitarian assistance to civilians in Gaza. The request provides resources to the World Bank and the International Monetary Fund to ensure we can provide an alternative to coercive financing provided by the People’s Republic of China (PRC), and it supports U.S. capabilities and initiatives that bolster security and stability in the Indo-Pacific. Finally, it bolsters our Nation’s border enforcement and will help stop the flow of fentanyl coming into the United States.

First, the United States unequivocally condemns the horrific terrorist attacks by Hamas in Israel. More than 1,300 innocent civilians were murdered, including at least 32 American citizens. Additionally, there are 12 Americans unaccounted for, some of whom we know to be held hostage by Hamas. President Biden directed his Administration to take immediate action and do everything we can to ensure the government of Israel has what it needs. To build on that support, today the Administration is requesting funding to aid Israel’s defense, an unprecedented commitment to Israel’s security. This funding will increase security assistance for Israel as it seeks to reestablish territorial security and deterrence and will bolster Israel’s ability to protect itself. The request also includes humanitarian support to provide life-saving humanitarian assistance in Gaza and support Palestinian refugees in the West Bank and surrounding areas. The request will also help the
Administration enhance embassy security by sustaining Mission Israel and our embassies in neighboring countries.

Second, the President has reaffirmed that we must stand up to tyranny and with Ukraine as it defends its sovereignty. We must send the unmistakable message that in the 21st Century, a dictator cannot conquer or carve up his neighbors’ territory. The United States has rallied the world to stand with Ukraine and built a coalition of more than 50 countries that are providing weapons and equipment to help Ukraine defend itself against Russian aggression. However, as we shared with the Congress as part of our recent supplemental funding request in August, previous supplemental appropriations for direct military aid, economic and humanitarian assistance, and other support have been committed or nearly committed. As Ukrainians wage a tough counteroffensive and as winter fast approaches, the world is watching what the Congress does next. It is important that we continue to do everything we can to help Ukraine succeed on the battlefield and protect its people. As the President said, we cannot under any circumstances allow America’s support for Ukraine to be interrupted—we are the indispensable Nation in the world, let’s act like it.

Third, it is critically important that we maintain our focus on the importance of integrated deterrence in the Indo-Pacific for the purpose of maintaining peace and stability. Our allies and partners in the region need our support more than ever, and this request provides resources to help them build the capabilities necessary to address threats from an increasingly assertive PRC and to meet emerging challenges. Key investments are also needed in the American submarine industrial base to increase our ability to build and sustain attack submarines—one of our most effective deterrence capabilities. This request makes urgent and strategic investments—including workforce development, infrastructure, and supplier capacity building—that are necessary to meet U.S. military requirements. The Administration is also requesting funding to materially expand low-cost and transparent financing for developing countries provided by the World Bank and the International Monetary Fund. This is a high leverage way to provide an alternative to the PRC’s unsustainable and coercive financing and to alleviate the pressure on partners hard hit by the spillovers of Russia’s war.

Fourth, we have been clear that Congressional Republicans need to stop playing political games with border security and provide the resources our law enforcement personnel need to keep the Southwest border secure and stop the flow of fentanyl into the United States. This request includes resources for an additional 1,300 border patrol agents to work alongside the 20,200 agents already funded in the FY2024 Budget; 375 immigration judge teams to strengthen the immigration court system—the largest incremental request ever; 1,600 asylum officers to speed up processing of asylum claims; funding to hire 1,000 Customs and Border Protection officers with a focus on counter-fentanyl; equip Southwest border ports of entry with new cutting-edge detection technology; as well as additional investigative capabilities to prevent cartels from trafficking fentanyl into the United States.

Finally, our Nation faces additional urgent needs for millions of hard-working Americans. The Office of Management and Budget is refining our estimates of funding required to address recent natural disasters, avoid the risk that millions of Americans lose access to affordable high-speed internet or child care, provide additional resources for the Federal Emergency Management Agency’s Nonprofit Security Grant Program, and avert a funding cliff for wildland firefighter pay.
I anticipate submitting a request for supplemental funds in these areas in coming days, and I continue to urge the Congress to address critical funding needs I communicated in September, including for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

The world is watching and the American people rightly expect their leaders to come together and deliver on these priorities. I urge Congress to address them as part of a comprehensive, bipartisan agreement in the weeks ahead.

Because the need for this funding arises from unforeseen and unanticipated events, the Administration requests that the amounts in this supplemental request be designated as emergency requirements pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985.

Sincerely,

Shalanda D. Young

DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

MILITARY PERSONNEL

Military Personnel, Army

For an additional amount for “Military Personnel, Army”, $184,029,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $184 million to the Department of Defense, Military Personnel, Army account to support personnel who are currently deployed or preparing for deployments to and within the European theater of operations, including special pay such as family separation allowance.
For an additional amount for “Military Personnel, Marine Corps”, $3,143,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $3 million to the Department of Defense, Military Personnel, Marine Corps account to support personnel who are currently deployed or preparing for deployments to and within the European theater of operations, including special pay, such as family separation allowance.
For an additional amount for “Military Personnel, Air Force”, $20,700,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $21 million to the Department of Defense, Military Personnel, Air Force account to support personnel who are currently deployed or preparing for deployments to and within the European theater of operations, including special pay such as family separation allowance.
For an additional amount for “Military Personnel, Space Force”, $3,724,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $4 million to the Department of Defense, Military Personnel, Space Force account to support personnel who are currently deployed or preparing for deployments to and within the European theater of operations, including special pay such as family separation allowance.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

OPERATION AND MAINTENANCE

Operation and Maintenance, Army

For an additional amount for “Operation and Maintenance, Army”, $4,621,610,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $4.6 billion to the Department of Defense, Operation and Maintenance, Army account for personnel support such as temporary duty costs; operational support such as intelligence analysis, flying hours, maintenance, and weapon system sustainment; and other unit support costs.
For an additional amount for “Operation and Maintenance, Navy”, $1,157,063,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $1.2 billion to the Department of Defense, Operation and Maintenance, Navy account for personnel support such as temporary duty costs; operational support such as intelligence analysis, flying hours, maintenance, and weapon system sustainment; and other unit support costs.
For an additional amount for “Operation and Maintenance, Marine Corps”, $61,336,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $61 million to the Department of Defense, Operation and Maintenance, Marine Corps account for personnel support such as temporary duty costs; operational support such as intelligence analysis, flying hours, maintenance, and weapon system sustainment; and other unit support costs.
For an additional amount for “Operation and Maintenance, Air Force”, $797,870,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $798 million to the Department of Defense, Operation and Maintenance, Air Force account for personnel support such as temporary duty costs; operational support such as intelligence analysis, flying hours, maintenance, and weapon system sustainment; and other unit support costs.
For an additional amount for “Operation and Maintenance, Space Force”, $7,500,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $8 million to the Department of Defense, Operation and Maintenance, Space Force account for personnel support such as temporary duty costs; operational support such as intelligence analysis, flying hours, maintenance, and weapon system sustainment; and other unit support costs.
For an additional amount for “Operation and Maintenance, Defense-Wide”, $30,657,640,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That of the total amount provided under this heading, $12,000,000,000, to remain available until September 30, 2026, shall be for the Ukraine Security Assistance Initiative: Provided further, That such funds for the Ukraine Security Assistance Initiative shall be available to the Secretary of Defense under the same terms and conditions as are provided for under this heading in the Additional Ukraine Supplemental Appropriations Act, 2023 (division M of Public Law 117-328), and shall be available notwithstanding section 8135 of the Department of Defense Appropriations Act, 2023 (division C of Public Law 117-328) or any similar provision in any other Act making appropriations for the Department of Defense: Provided further, That amounts made available under this heading in this Act shall be available to the Secretary of Defense, with concurrence from the Secretary of State, to provide funding to the recipients of Ukraine Security Assistance Initiative support identified in section 8110 of the Department of Defense Appropriations Act, 2023 and to provide funding to international trust funds or entities operating for the purpose of providing support to such recipients: Provided further, That of the total amount provided under this heading, up to $18,000,000,000, to remain available until September 30, 2026, may be transferred to accounts under the headings “Operation and Maintenance”, “Procurement”, “Research, Development, Test and Evaluation”, and “Revolving and Management Funds” for replacement, through new procurement or repair of existing unserviceable equipment, of defense articles from the stocks of the Department of Defense, and for reimbursement for defense services of the Department of Defense and military education and training, provided to the government of Ukraine or to foreign countries that have provided support to Ukraine at the request of the United States: Provided further, That amounts made available under this heading may also be transferred to accounts under the heading “Procurement” for expansion of public and private plants, including the land necessary therefor, and procurement and installation of equipment, appliances, and machine tools in such plants, for the purpose of increasing production of critical munitions: Provided further, That funds transferred pursuant to a transfer authority provided under this heading shall be merged with and available for the same purposes and for the same time period as the appropriations to which the funds are transferred: Provided further, That the Secretary of Defense shall notify the congressional defense committees of the details of such transfers not less than 15 days before any such transfer: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back and merged with this appropriation: Provided further, that up to $4,000,000,000 of the funds made available under this heading may be transferred between the Ukraine Security Assistance Initiative and the funds provided for the replacement of defense articles: Provided further, That transfer authority provided under this heading is in addition to any other transfer authority provided by law: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as
amended: *Provided further*, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $30.6 billion to the Department of Defense (DOD) for several large activities in response to the situation in Ukraine, including: $18 billion to replace defense articles from the DOD stocks; reimbursement for defense services and military education and training provided to the government of Ukraine under section 506(a)(1) of the Foreign Assistance Act of 1961, as amended; to improve ammunition plants and equipment to increase the capacity and accelerate production of equipment to more rapidly replenish defense stocks; and $12 billion for the Ukraine Security Assistance Initiative. The request would also provide personnel and operational support such as temporary duty costs, intelligence analysis, flying hours, maintenance, weapon system sustainment, and other unit support costs.
For an additional amount for “Missile Procurement, Army”, $846,226,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $846 million to the Missile Procurement, Army account in the Department of Defense. Funds would be used to increase production of missile systems and accelerate the production of equipment in order to more rapidly replenish defense stocks that are needed for the European theater of operations.
For an additional amount for “Procurement of Ammunition, Army”, $2,510,300,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2.5 billion to the Procurement of Ammunition, Army account in the Department of Defense. Funds would be used for the expansion of facilities and for production capacity support of critical munitions that are required in the European theater of operations.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

PROCUREMENT

Weapons Procurement, Navy

For an additional amount for “Weapons Procurement, Navy”, $117,500,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $118 million to the Weapons Procurement, Navy account. Funds would be used for expansion of facilities for the purpose of increasing production of critical munitions to replace defense articles in support of Ukraine.
For an additional amount for “Procurement of Ammunition, Navy and Marine Corps”, $175,000,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $175 million to the Procurement of Ammunition, Navy and Marine Corps account in the Department of Defense. Funds would be used to: improve ammunition plants and equipment in order to increase capacity; and accelerate the production of equipment in order to more rapidly replenish defense stocks.
For an additional amount for “Other Procurement, Navy”, $26,000,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $26 million to the Other Procurement, Navy account within the Department of Defense. Funds would be used for ship depot maintenance costs for surge ship support required for the European theater of operations.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

PROCUREMENT

Aircraft Procurement, Air Force

For an additional amount for “Aircraft Procurement, Air Force”, $1,750,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2 million to the Aircraft Procurement, Air Force account within the Department of Defense. Funds would be used for classified programs.
For an additional amount for “Research, Development, Test and Evaluation, Army”, $16,518,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $17 million to the Research, Development, Test and Evaluation, Army account within the Department of Defense. Funds would be used for defense support required for the European theater of operations.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

PROCUREMENT

Other Procurement, Air Force

For an additional amount for “Other Procurement, Air Force”, $2,646,928,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for other expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2.6 billion to the Other Procurement, Air Force account within the Department of Defense. Funds would be used for classified programs.
For an additional amount for “Procurement, Defense-Wide”, $46,780,000, to remain available until September 30, 2026, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $47 million to the Procurement, Defense-Wide account within the Department of Defense. Funds would be used for cybersecurity and other defense support required for the European theater of operations.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Research, Development, Test and Evaluation, Navy

For an additional amount for “Research, Development, Test and Evaluation, Navy”, $12,281,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $12 million to the Research, Development, Test and Evaluation, Navy account within the Department of Defense. Funds would be used for cybersecurity and other defense support required for the European theater of operations.
For an additional amount for “Research, Development, Test and Evaluation, Air Force”, $361,411,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $361 million to the Research, Development, Test and Evaluation, Air Force account within the Department of Defense. Funds would be used for cybersecurity and other defense support required for the European theater of operations.
For an additional amount for “Research, Development, Test and Evaluation, Defense-Wide”, $172,451,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $172 million to the Research, Development, Test and Evaluation, Defense-Wide account within the Department of Defense. Funds would be used for cybersecurity and other defense support required for the European theater of operations, and for classified programs.
Sec. ___.

(a) Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to $4,000,000,000 between the appropriations or funds made available to the Department of Defense in this Act: Provided, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this paragraph: Provided further, That the authority provided in this paragraph is in addition to any other transfer authority otherwise provided by law and is subject to the same terms and conditions as the authority provided in section 8005 of the Department of Defense Appropriations Act, 2023, or any similar provision in any subsequent Act making appropriations for the Department of Defense for Fiscal Year 2024, except for monetary limitations concerning the amount of authority available.

(b) Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to $1,000,000,000 of the funds made available to the Director of National Intelligence for the National Intelligence Program in this Act between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which the amount is transferred: Provided, That the Director of National Intelligence shall notify the Congress promptly of all transfers made pursuant to this authority: Provided further, That the transfer authority provided by this paragraph is in addition to any transfer authority otherwise provided by law.

This request would authorize the Department of Defense (DOD) to transfer up to $4 billion, and the Director of National Intelligence for the National Intelligence Program up to $1 billion, between appropriations provided in this Act, similar to transfer authority provided to DOD in the past to support combat operations. This authority is needed to address the fluid nature of Ukrainian operations.
DEPARTMENT OF ENERGY

NATIONAL NUCLEAR SECURITY ADMINISTRATION

Federal Salaries and Expenses

For an additional amount for “Federal Salaries and Expenses”, $5,540,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $6 million to the Federal Salaries and Expenses account within the Department of Energy’s National Nuclear Security Administration (NNSA). This funding would support hiring term positions for Federal staff support and includes the relocation and travel-related costs for personnel required to implement overseas portfolios. For example, NNSA anticipates receiving requests from the White House, State Department, and U.S. Agency for International Development to participate in forward-deployed interagency crisis management teams and provide subject matter experts on nuclear and radiological risk reduction measures. There are several new personnel requirements that are inherently governmental in function and cannot be contracted out. These are not enduring positions and are specifically tied to advisory support during the crisis and in early rebuild phase.
For an additional amount for “Defense Nuclear Nonproliferation”, $143,915,000, to remain available until expended, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $144 million to Defense Nuclear Nonproliferation, within the Department of Energy’s National Nuclear Security Administration. This funding would be used to prepare for and respond to potential nuclear and radiological incidents in Ukraine, provide equipment and sensors to augment Ukrainian capabilities, assist Ukrainian partners with security of nuclear and radiological materials, and prevent illicit smuggling of nuclear, radiological, and dual-use materials.
For an additional amount for “Intelligence Community Management Account”, $2,000,000, to remain available until September 30, 2024, to respond to the situation in Ukraine and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2 million for the Intelligence Community Management Account. Funds would be used for Intelligence Community support to the Executive Branch and for multilateral investigations into potential atrocities in Ukraine.
For an additional amount for “Operation and Maintenance, Defense-Wide”, $4,400,000,000, to remain available until September 30, 2025, to respond to the situation in Israel and for related expenses: Provided, That amounts made available by under this heading shall be available for transfer to accounts under the headings “Operation and Maintenance”, “Procurement”, “Research, Development, Test and Evaluation”, and “Revolving and Management Funds” for replacement, through new procurement or repair of existing unserviceable equipment, of defense articles from the stocks of the Department of Defense, and for reimbursement for defense services of the Department of Defense and military education and training, provided to or identified for provision to Israel or to foreign countries that have provided support to Israel at the request of the United States: Provided further, That amounts made available under this heading may also be transferred to accounts under the heading “Procurement” for expansion of public and private plants, including the land necessary therefor, and procurement and installation of equipment, appliances, and machine tools in such plants, for the purpose of increasing production of critical munitions: Provided further, That amounts made available under this heading may also be transferred to accounts under the heading “Procurement” and "Research, Development, Test and Evaluation" for the acquisition of critical defense articles: Provided further, That funds transferred pursuant to a transfer authority provided under this heading shall be merged with and available for the same purposes and for the same time period as the appropriations to which the funds are transferred: Provided further, That the Secretary of Defense shall notify the congressional defense committees of the details of such transfers not less than 15 days before any such transfer: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided under this heading, such amounts may be transferred back and merged with this appropriation: Provided further, That amounts may be transferred between appropriations made under this heading: Provided further, That any transfer authority provided under this heading is in addition to any other transfer authority provided by law: Provided further, That such amount in this paragraph is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amounts shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $4.4 billion to the Department of Defense (DOD) for several large activities in response to the situation in Israel, including: replace defense articles from the DOD stocks; reimburse DOD components for defense services and military education and training provided to the government of Israel under section 506(a)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2318(a)), as amended; improve ammunition plants and equipment to increase the capacity and accelerate production of equipment to more rapidly replenish defense stocks; and acquire critical defense articles, in lieu of article-specific specific procurement
appropriations. The request would also allow DOD to transfer amounts between the different appropriations detailed.
For an additional amount for “Procurement of Ammunition, Army”, $801,400,000, to remain available until September 30, 2026, to respond to the situation in Israel and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $801 million to the Procurement of Ammunition, Army account in the Department of Defense. Funds would be used to: improve ammunition plants and equipment in order to increase capacity; and accelerate the production of equipment in order to more rapidly replenish defense stocks.
DEPARTMENT OF DEFENSE--MILITARY PROGRAMS

PROCUREMENT

Procurement, Defense-Wide

For an additional amount for “Procurement, Defense-Wide”, $4,000,000,000, to remain available until September 30, 2027, for the Secretary of Defense to provide to the Government of Israel for the procurement of the Iron Dome and David’s Sling defense systems to counter short-range rocket threats: Provided, That such funds shall be transferred pursuant to an exchange of letters and are in addition to funds provided pursuant to the U.S.-Israel Iron Dome Procurement Agreement, as amended: Provided further, That nothing under this heading shall be construed to apply to amounts made available in prior appropriations Acts for the procurement of the Iron Dome and David's Sling defense systems: Provided further, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amounts shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $4 billion to the Procurement, Defense-Wide account in the Department of Defense. Funds would be transferred to the government of Israel for the procurement of the Iron Dome Defense System capabilities and David’s Sling short-range ballistic missile defense in order to counter short-range rockets and mortar threats.
For an additional amount for “Defense Production Act Purchases”, $198,600,000, to remain available until expended, for activities by the Department of Defense pursuant to sections 108, 301, 302, and 303 of the Defense Production Act of 1950 (50 U.S.C. 4518, 4531, 4532, and 4533): Provided, That such amounts shall be obligated and expended by the Secretary of Defense as if delegated the necessary authorities conferred by the Defense Production Act of 1950: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $199 million to the Defense Production Act Purchases Account in the Department of Defense. Funds would be used to mitigate industrial base constraints to allow for faster production of weapons and equipment.
For an additional amount for “Research, Development, Test and Evaluation, Defense-Wide”, $1,200,000,000, to remain available until September 30, 2026, for the Secretary of Defense to provide to the Government of Israel for the development of the Iron Beam defense system to counter short-range rocket threats: Provided, That such funds shall be transferred pursuant to an exchange of letters: Provided further, That nothing in the preceding proviso shall be construed to apply to amounts made available in prior appropriations Acts for the development of the Iron Beam defense system: Provided further, That such amount is designated by the Congress as being for an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amounts shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $1.2 billion to the Research, Development, Test and Evaluation, Defense-Wide account in the Department of Defense. Funds would be transferred to the government of Israel for the development of the Iron Beam defense system capabilities in order to counter short-range rockets and mortar threats.
Sec. ___. Section 12001 of the Department of Defense Appropriations Act, 2005 (Public Law 108-287), as amended by Public Law 115-141, is amended as follows:

(a) In paragraph (2) of subsection (a), by striking "armor" and all that follows through the end of the paragraph and inserting "defense articles that are in the inventory of the Department of Defense as of the date of transfer, are intended for use as reserve stocks for Israel, and are located in a stockpile for Israel as of the date of transfer";

(b) In subsection (b), by striking “at least equal to the fair market value of the items transferred” and inserting “in an amount to be determined by the Secretary of Defense”; and

(c) In subsection (c), by inserting before the comma in the first sentence the following: “, or as far in advance of such transfer as is practicable as determined by the President on a case-by-case basis during extraordinary circumstances impacting the national security of the United States”.

This request would modify requirements that apply to certain defense articles that the Department of Defense (DOD) transfers to Israel. Section 12001 of the Department of Defense Appropriations Act, 2005 (Public Law 108-287), as amended (section 12001), currently allows the DOD to transfer specified categories of defense articles to Israel in exchange for certain concessions from Israel, subject to multiple restrictions—including that the articles are obsolete or surplus to DOD. It further requires the President to notify the Congress at least 30 days prior to such transfer. This request would modify section 12001 to: allow for the transfer of all categories of defense articles; remove the requirement that these articles be obsolete or surplus to DOD; allow DOD greater flexibility in determining the value of the concessions provided in exchange for the transfers; and provide for the possibility of shortening the 30-day prior notice period in extraordinary circumstances.

Sec. ___. For fiscal year 2024, section 514(b) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321h(b)) shall not apply to defense articles to be set aside, earmarked, reserved, or intended for use as reserve stocks in stockpiles in the State of Israel.

This request would waive, for fiscal year 2024, the monetary cap in section 514(b) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321h), which limits DOD's ability to transfer defense articles into the War Reserve Stockpile Allies-Israel (WRSA-I). Specifically, the provision would waive both the $500 million per fiscal year cap for all foreign country stockpile contributions, as it pertains to Israel, as well as the WRSA-I-specific monetary cap of $200 million per fiscal year.
For an additional amount for “Refugee and Entrant Assistance”, $481,000,000, to remain available until December 31, 2025: Provided, That amounts made available under this heading in this Act may be used for grants or contracts with qualified organizations, including nonprofit entities, to provide culturally and linguistically appropriate services, including wraparound services, housing assistance, medical assistance, legal assistance, and case management assistance: Provided further, That amounts made available under this heading in this Act may be used by the Director of the Office of Refugee Resettlement (Director) to issue awards or supplement awards previously made by the Director: Provided further, That the Director, in carrying out section 412(c)(1)(A) of the Immigration and Nationality Act (8 U.S.C. 1552(c)(1)(A)) with amounts made available under this heading in this Act, may allocate such amounts among the States in a manner that accounts for the most current data available: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $481 million for the Department of Health and Human Service’s Refugee and Entrant Assistance account. Funding would be used by the Office of Refugee Resettlement to provide resettlement assistance to Ukrainians arriving in the United States through the Uniting for Ukraine program, including time-limited cash and medical assistance, case management, English language education, job training, and other support services. Funds would be used to support Ukrainians arriving through the end of fiscal year 2024.
Sec. . (a) Section 401(a)(1)(A) of the Additional Ukraine Supplemental Appropriations Act, 2022 (Public Law 117-128) is amended by striking “September 30, 2023” and inserting “September 30, 2024”.

(b) Amounts provided by this section are designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided, That such amounts shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would extend authorities provided by the Additional Ukraine Supplemental Appropriations Act, 2022 to cover additional Ukrainian parolees. Under current law, Ukrainians paroled into the United States by September 30, 2023 are eligible for public benefits such as the Supplemental Nutrition Assistance Program, Medicaid, and the Supplemental Security Income program, as well as the refugee resettlement benefits provided by the Department of Health and Human Services’ Office of Refugee Resettlement. This request would extend these authorities to Ukrainians arriving in the United States through the Uniting for Ukraine program during fiscal year 2024.
DEPARTMENT OF STATE
ADMINISTRATION OF FOREIGN AFFAIRS

Diplomatic Programs

For an additional amount for “Diplomatic Programs”, $210,000,000, to remain available until September 30, 2025, of which $60,000,000 shall be for responding to the situation in Ukraine and in countries impacted by the situation in Ukraine, of which $50,000,000 shall be for responding to the situation in Israel and areas impacted by the situation in Israel, and of which $100,000,000 shall be available until expended for Worldwide Security Protection to respond to the situation in Israel and areas impacted by the situation in Israel: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $210 million to the Diplomatic Programs account within the Department of State. This funding would provide $60 million to sustain critical operational requirements to respond to the situation in Ukraine and in countries impacted by the situation in Ukraine. This request would support the continued protection of U.S. diplomatic facilities and personnel with contracted American guard services in Kyiv and Moscow. The request would also support sustaining Ukraine-related staffing costs and allowances, including guard programs and Embassy Kyiv operating costs, maintaining medevac aviation capabilities, sustaining sanctions, and export control efforts, and for public diplomacy engagement.

This funding would also provide $100 million to sustain security requirements for Mission Israel and other affected posts through the Worldwide Security Protection allocation, and $50 million for crisis response and relocation support at affected embassies and related task forces and initiatives.
For an additional amount for “Office of Inspector General”, $5,000,000, to remain available until September 30, 2025: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $5 million to the Department of State, Office of Inspector General (OIG) account to sustain and expand oversight of U.S. funding for Ukraine, including ongoing OIG staff presence in Embassy Kyiv. Supplemental funding would allow OIG to increase inspections and investigations beyond its 27 current and planned projects that span foreign assistance, management, and operational activities.
For an additional amount for “Emergencies in the Diplomatic and Consular Service”, $50,000,000, to remain available until September 30, 2025, to meet unforeseen emergencies arising in the Diplomatic and Consular Service: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $50 million to the Emergencies in the Diplomatic and Consular Service account within the Department of State. This funding would be used to replenish balances previously obligated towards the crisis in Israel, and sustain the ongoing response to this crisis. The request would allow for the United States to make and act upon contingency and emergency plans that include the relocation and repatriation of U.S. citizens from the region.
For an additional amount for “Migration and Refugee Assistance”, $3,495,000,000, to remain available until expended, to address humanitarian needs in, and to assist refugees from, Ukraine; to assist refugees in response to the situation in Israel and in areas impacted by the situation in Israel; and for additional support for other vulnerable populations and communities: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $3.5 billion to the Migration and Refugee Assistance (MRA) account within the Department of State. Funding would provide lifesaving humanitarian assistance to vulnerable or displaced people inside of Ukraine and taking refuge in the region as well as for increased overseas humanitarian requirements of those affected by Russia’s war in Ukraine and its severe impacts around the world. There are an estimated 16 million people in Ukraine and more than 6.3 million refugees in the region who rely on humanitarian assistance. Russia’s war on Ukraine has led to increased costs of basic needs and exacerbated inflation worldwide, due to the suspension of the Black Sea Grain Initiative, which is expected to have severe impacts on global food security and malnutrition.

Funding would also provide life-saving humanitarian assistance in Israel, and in areas impacted by the situation in Israel. These resources would support displaced and conflict-affected civilians, including Palestinian refugees in Gaza and the West Bank, and to address potential needs of Gazans fleeing to neighboring countries. This would include food and non-food items, healthcare, emergency shelter support, water and sanitation assistance, and emergency protection. This would also include potential critical humanitarian infrastructure costs needed for the refugee population to provide access to basic, life-sustaining support. This crisis could well result in displacement across border and higher regional humanitarian needs, and funding may be used to meet evolving programming requirements outside of Gaza.
DEPARTMENT OF STATE

OTHER

International Narcotics Control and Law Enforcement

For an additional amount for “International Narcotics Control and Law Enforcement”, $360,000,000, to remain available until September 30, 2025, for assistance for Ukraine and countries impacted by the situation in Ukraine: Provided, That funds appropriated by this Act and Acts making appropriations for the Department of State, foreign operations, and related programs for fiscal year 2024 and prior fiscal years under the heading “International Narcotics Control and Law Enforcement” may be made available to support the State Border Guard Service of Ukraine and National Police of Ukraine in response to Russia's further invasion of Ukraine, including units supporting or under the command of the Armed Forces of Ukraine: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $360 million to the International Narcotics Control and Law Enforcement (INCLE) account within the Department of State. Funds would support the Ukrainian government to reestablish and maintain rule of law across their country, with a focus on newly liberated and war-damaged areas. As Ukraine regains territory from Russian forces, the Ukrainian national police and border guards are the first responders: to Russian attacks on civilians; protecting Ukraine’s borders; demining; and replacing and rebuilding critical infrastructure damaged during the war, including police stations, equipment and training facilities, and border fortifications. INCLE funding will also continue to support institutional reform and capacity-building of the law enforcement, prosecutorial, and other anti-corruption institutions critical to Ukraine's long-term stability. Funding would also assist Ukraine as it works to document, investigate, and prosecute war crimes, including through procurement of needed equipment and technology.
INTERNATIONAL ASSISTANCE PROGRAMS

INTERNATIONAL SECURITY ASSISTANCE

Economic Support Fund

For an additional amount for “Economic Support Fund”, $11,775,000,000, to remain available until September 30, 2025, for assistance for Ukraine and countries impacted by the situation in Ukraine: Provided, That funds appropriated under this heading in this Act may be made available notwithstanding any other provision of law: Provided further, That funds appropriated under this heading in this Act may be made available as contributions: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $11.8 billion to the Economic Support Fund account. Funding would provide 12 additional months of direct budget support to Ukraine. This funding coupled with critical U.S. Government investments in Ukraine’s infrastructure and private sector (requested in the Assistance for Europe, Eurasia and Central Asia account) would provide the critical resources to ensure Putin does not succeed in collapsing the Ukrainian economy. Putin is explicitly seeking to ensure that Ukraine’s economy collapses in order to secure Ukraine’s surrender. Budget support remains essential in the context of the impact of Russia’s war of aggression on Ukraine’s economy, exports, and tax base, which has created a balance of payments gap that if left unfilled would provoke an economic crisis. The direct budget support would ensure that the government of Ukraine can remain operational and continue responding to critical needs, including providing healthcare and education, supporting those displaced by the war, and paying its obligations to first responders and civil servants. This request provides a glidepath from $1.1 billion per month in direct budget support to $825 million per month. Budget support would be provided through the World Bank as reimbursements for authorized and verified expenditures to the Government of Ukraine in line with the current conditionality framework developed by the U.S. Government. This funding request is based on the latest International Monetary Fund estimate of Ukraine’s 2024 financing gap and U.S. assumptions of robust burden sharing by the EU, Japan, and other donors.
INTERNATIONAL ASSISTANCE PROGRAMS

INTERNATIONAL SECURITY ASSISTANCE

Foreign Military Financing Program

For an additional amount for “Foreign Military Financing Program”, $7,200,000,000, to remain available until September 30, 2025, of which $1,700,000,000 shall be for responding to the situation in Ukraine and countries impacted by the situation in Ukraine and related expenses, of which $3,500,000,000 shall be for responding to the situation in Israel and related expenses, and of which $2,000,000,000 shall be for the Indo-Pacific region: Provided, That funds made available under this heading in this Act and Acts making appropriations for the Department of State, foreign operations, and related programs for fiscal year 2024 and prior fiscal years, in addition to funds otherwise available for such purposes, may be used by the Department of State for necessary expenses for the general costs of administering military assistance and sales, including management and oversight of such programs and activities: Provided further, That amounts made available under this heading in this Act and Acts making appropriations for the Department of State, foreign operations, and related programs for fiscal year 2024 and prior fiscal years shall be available for the cost of loans and loan guarantees as authorized by section 2606 of the Ukraine Supplemental Appropriations Act, 2022 (division N of Public Law 117-103), as amended, subject to the terms and conditions provided in such section, or as otherwise authorized by law: Provided further, That direct loans made using amounts described in the preceding proviso may be made notwithstanding any provision of law limiting the interest rate charged to borrowers: Provided further, That loan guarantees made using amounts described in the second proviso under this heading for loans financed by the Federal Financing Bank may be provided notwithstanding any provision of law limiting the percentage of loan principal that may be guaranteed: Provided further, That, to the extent that the Government of Israel requests that funds be used for such purposes, grants made available for Israel under this heading shall, as agreed by the United States and Israel, be available for advanced weapons systems, of which up to $3,500,000,000 may be available for the procurement in Israel of defense articles and defense services: Provided further, That any congressional notification requirement applicable to funds made available under this heading for Israel may be waived if a determination is made that extraordinary circumstances exist that impact the national security of the United States: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $7.2 billion to the Foreign Military Financing (FMF) Program account.

Of this amount, $1.7 billion in FMF funding would be used for Ukraine and countries impacted by the situation in Ukraine to bolster capabilities such as air defense, artillery, armor, anti-armor, and maritime security, among others, along with critical maintenance and sustainment requirements.
Of this amount, $3.5 billion in FMF funding for Israel would support the United States' close partner as it seeks to reestablish territorial security and deterrence. These additional funds would bolster Israel’s ability to protect itself against Hamas, a nonstate actor and U.S. designated Foreign Terrorist Organization. Due to Israel’s urgent need for FMF assistance, the request includes the authority to waive congressional notification requirements that would otherwise apply with respect to such assistance.

Of this amount, $2 billion in FMF funding would provide security assistance in the Indo-Pacific for delivery of defense articles and services. This assistance would support critical partners in the region to counter malign influence and deter acts of aggression. The request also includes authority to use FMF funding to support the costs of administering military assistance and foreign military sales.
INTERNATIONAL ASSISTANCE PROGRAMS

INTERNATIONAL SECURITY ASSISTANCE

Nonproliferation, Anti-Terrorism, Demining and Related Programs

For an additional amount for “Nonproliferation, Anti-terrorism, Demining and Related Programs", $100,000,000, to remain available until September 30, 2025, for assistance for Ukraine and countries impacted by the situation in Ukraine: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $100 million to the Nonproliferation, Anti-terrorism, Demining, and Related Programs (NADR) account, within the Department of State. Funding would be used to: support export control, threat reduction, and countering weapons of mass destruction assistance that addresses Russia’s supply chains and sanctions evasion; provide counter Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNe) assistance and training to key Ukrainian partners; secure CBRNe facilities, materials, and expertise; strengthen Ukrainian border security; and prevent regional arms diversion. NADR funding would also be used to sustain ongoing demining efforts while simultaneously continuing to train and equip the Ukrainian government’s own demining teams to address explosive remnants of war, independent of sustained U.S. assistance in the long term. Demining assistance is a critical enabler for restoring critical infrastructure, including energy infrastructure as winter approaches, as well as for restoring economic growth, including agriculture and other economic activity.
INTERNATIONAL ASSISTANCE PROGRAMS

MULTILATERAL ASSISTANCE

Contribution to the International Bank for Reconstruction and Development

For an additional amount for “Contribution to the International Bank for Reconstruction and Development”, $494,375,000, to remain available until expended: Provided, That such amount shall be available for the cost, as defined in section 502 of the Congressional Budget Act of 1974, of loan guarantees to the International Bank for Reconstruction and Development, in addition to amounts otherwise available for such purposes: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

For an additional amount for “Contribution to the International Bank for Reconstruction and Development”, $755,625,000, to remain available until expended: Provided, That such amount shall be for a contribution to the International Bank for Reconstruction and Development’s Multidonor Trust Fund for Innovative Global Public Goods Solutions (“IBRD GPG Fund”): Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $1.25 billion in contributions to the International Bank for Reconstruction and Development (IBRD). Funding would be used for loan guarantees and for a contribution to IBRD’s Multidonor Trust Fund for Innovative Global Public Goods Solutions. This request would leverage $25 billion of IBRD lending at below non-concessional rates to IBRD borrowing countries in order to respond to global challenges. This funding would provide financing to help countries such as Colombia, Peru, Jordan, India, Indonesia, Morocco, Nigeria, Kenya, and Vietnam build new infrastructure and essential development projects such as supply chains, breaking reliance on the People’s Republic of China (PRC). This request would mobilize tens of billions of dollars in additional finance from partner nations, allowing the World Bank to provide a credible alternative to PRC financing. A companion request is included for the Contribution to the International Development Association account.
INTERNATIONAL ASSISTANCE PROGRAMS

MULTILATERAL ASSISTANCE

Contribution to the International Development Association

For an additional amount for “Contribution to the International Development Association”, $750,000,000, to remain available until expended, which shall be made available for a contribution to the International Development Association Special Program to Enhance Crisis Response Window (“IDA CRW+”): Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $750 million in contributions to the International Development Association (IDA) to support IDA’s Crisis Response Window, which provides rapid financing and grants to the poorest countries to respond to severe crises. This funding would bolster U.S. credibility and demonstrate U.S. leadership and support through the World Bank’s support for the lowest-income countries, which have seen declining support for poverty reduction programs as partner nations and institutions have increased funds to Ukraine, while the poorest countries continue to face a number of vulnerabilities, including increased food insecurity and destabilizing fragility and conflict. A companion request is included for the Contribution to the International Bank for Reconstruction and Development account.
For an additional amount for “Assistance for Europe, Eurasia and Central Asia”, $2,228,000,000, to remain available until September 30, 2025, for assistance and related programs for Ukraine and other countries identified in section 3 of the FREEDOM Support Act (22 U.S.C. 5801) and section 3(c) of the Support for East European Democracy (SEED) Act of 1989 (22 U.S.C. 5402(c)): Provided, That funds appropriated under this heading in this Act may be made available notwithstanding any other provision of law: Provided further, That funds appropriated under this heading in this Act may be made available as contributions: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2.2 billion in the Assistance for Eastern Europe and Central Asia (AEECA) account to support urgent recovery needs and programming requirements in Ukraine and other countries in the region affected by the conflict. Ukraine’s economic recovery requires transformational investments, which would help build the future of a self-reliant nation oriented towards Euro-Atlantic markets and institutions. Funds would invest in the energy sector to address the capacity, transmission, distribution, and security of energy while building on America's enduring engagement on energy reforms. Funds would also invest in critical infrastructure and the agriculture sector, which must be modernized and rebuilt in order to be a major driver of growth, and would include support for the transportation and logistics sector (such as rail, ports, and irrigation systems as well as critical communications infrastructure) to enable higher-value-added exports to the West and to global markets. These efforts would help mitigate the impact of Russia’s withdrawal from the Black Sea Grain Initiative. Funds would support technical assistance to enable Ukraine to more effectively and transparently—and with a greater degree of accountability—raise and manage domestic resources to fund continuity of key public services and to responsibly prepare for and respond to financial sector challenges, including in the banking sector, resulting from economic disruptions. Assistance would also support critical social and business infrastructure and the restoration of local service delivery and economic opportunities as well support for private sector growth. Funds would also include support for the information technology and mining and minerals sector. This request would also provide critical investments in accountability mechanisms, including anti-corruption institutions, civil society, and media. These programs are a safeguard against corruption and democratic backsliding. These programs would include a focus on decentralization and strengthening local institutions to mitigate corruption, bolster revenue, and ensure equitable access to services. In the impacted region, for example, additional funds could address a range of key sectors which help to mitigate countries’ vulnerability to Russia.

AGENCY FOR INTERNATIONAL DEVELOPMENT

International Disaster Assistance

For an additional amount for “International Disaster Assistance”, $5,655,000,000, to remain available until expended, to address humanitarian needs in Ukraine and countries impacted by the situation in Ukraine, and to address humanitarian needs in response to the situation in Israel and the areas impacted by the situation in Israel, including the provision of emergency food and shelter, and for assistance for other vulnerable populations and communities: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $5.7 billion for the Agency for International Development’s International Disaster Assistance account to meet rising humanitarian needs stemming from Russia’s war in Ukraine, the outbreak of conflict in Gaza, and cascading regional and global impacts of those crises.

Funding would continue life-saving humanitarian assistance, including the provision of emergency food assistance for internally displaced and vulnerable populations and communities inside Ukraine. Humanitarian needs within Ukraine and worldwide remain at extraordinary and unprecedented levels due to the global impacts of Russia’s war in Ukraine, a confluence of complex and protracted conflicts, more frequent and severe natural disasters, and worsening food insecurity. In addition, as donor funding has shifted to respond to Ukraine, tensions in crisis-affected areas in the developing countries are growing, leading to further regional instability. This funding would provide multi-sectoral humanitarian support, including safe drinking water, sanitation, and hygiene; critical medical supplies and healthcare; food assistance; and coordination support for the humanitarian community. This funding would also support global needs, which are exacerbated by Russia’s unjustified war in Ukraine and remain at unprecedented levels. This funding would be used to further demonstrate U.S. Government leadership in this time of international crisis when global resources are stretched thin.

Funding would also support life-saving humanitarian programming in Israel and areas impacted by the situation in the West Bank and Gaza, and to provide lifesaving assistance, including food assistance, shelter, healthcare, water, sanitation, and hygiene programming. This crisis could result in displacement across borders and higher regional humanitarian needs, and funding may be used to meet evolving programming requirements outside of Gaza, including Israel, West Bank, Lebanon, Jordan, Syria, and Egypt.
INTERNATIONAL ASSISTANCE PROGRAMS

AGENCY FOR INTERNATIONAL DEVELOPMENT

Funds Appropriated to the President

For an additional amount for “Operating Expenses”, $39,000,000, to remain available until September 30, 2025, to respond to the situation in Ukraine and in countries impacted by the situation in Ukraine: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $39 million in the United States Agency for International Development, Operating Expenses account to support critical operational requirements based on the latest conditions in Ukraine. Funds would be used to support facility improvements and additional staffing needed to implement and monitor the U.S. Government’s significant investment in Ukraine. This funding would also support secure communications and enhanced cybersecurity to protect information systems against malign state and non-state actors and support necessary security contracts and armored vehicles.
INTERNATIONAL ASSISTANCE PROGRAMS

AGENCY FOR INTERNATIONAL DEVELOPMENT

Office of Inspector General

For an additional amount for “Office of Inspector General”, $10,000,000, to remain available until September 30, 2025: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $10 million for the United States Agency for International Development (USAID), Office of Inspector General (OIG) account to sustain and expand OIG’s ability to provide oversight of USAID’s substantial Ukraine programming. This funding would support Ukraine oversight requirements, including the establishment of an overseas office in Ukraine to support ongoing work.
INTERNATIONAL ASSISTANCE PROGRAMS

AGENCY FOR INTERNATIONAL DEVELOPMENT

Transition Initiatives

For an additional amount for “Transition Initiatives”, $25,000,000, to remain available until expended, for assistance for Ukraine and countries impacted by the situation in Ukraine: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $25 million to the U.S. Agency for International Development’s (USAID) Transition Initiatives account to fund programs in Ukraine, Moldova, and other regional priorities. Since the beginning of Russia’s war in Ukraine, USAID’s Office of Transition Initiative’s (OTI) Ukraine program has filled a critical role supporting broader U.S. Government assistance objectives, implementing over 340 activities, supporting over 200 local partners, and mobilizing over 19,000 Ukrainian volunteers to support Ukraine’s stabilization and reconstruction. With these funds, OTI would continue to lead in early recovery and resilience activities in both frontline and newly liberated communities, specifically after territory is reclaimed from Russia’s occupation. The OTI program has also supported nonviolent civic mobilization and local media in frontline and occupied territories. This requires highly sensitive and nuanced programming to reduce risk to local partners and communities.
General Provisions

Expanded Transfer Authority for Consular and Border Security Programs

Sec. ___. During fiscal years 2024 and 2025, funds deposited in the Consular and Border Security Programs account in any fiscal year that are available for obligation may be transferred to, and merged with, funds appropriated by any Act making appropriations for the Department of State, foreign operations, and related programs under the headings “Diplomatic Programs” (including for Worldwide Security Protection), “Embassy Security, Construction, and Maintenance”, and “Emergencies in the Diplomatic and Consular Service”, for emergency evacuations or to prevent or respond to security situations and requirements: Provided, That any such transfer shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations: Provided further, That such transfer authority is in addition to any transfer authority otherwise available in this Act and under any other provision of law.

This transfer authority would allow the Department of State to transfer Consular and Border Security Program (CBSP) funding to certain other accounts to respond to emergency situations, expanding on an existing “Embassy Security” transfer authority that has been included in annual appropriations acts since FY 2013. This authority was instrumental to the Department of State’s immediate COVID-19 repatriation response in FY 2020. However, because the appropriation balances in the relevant accounts are depleted, authority is needed for the Department to draw upon CBSP funding, which is largely derived from passport and visa fee revenues, for emergency evacuations and to support the Department’s response to emergent security requirements.

Foreign Assistance Act (FAA) Section 506(a)(1) Drawdown Authority Cap Increase

Sec. ___. During fiscal year 2024, section 506(a)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2318(a)(1)) shall be applied by substituting “$7,000,000,000” for “$100,000,000”.

This request would increase the FY 2024 Foreign Assistance Act section 506(a)(1) drawdown limits for military assistance from $100 million to $7 billion.

FAA Section 506(a)(2)(B) Drawdown Authority Cap Increase

Sec. ___. During fiscal year 2024, section 506(a)(2)(B) of the Foreign Assistance Act of 1961 (22 U.S.C. 2318(a)(2)(B)) shall be applied by substituting “$400,000,000” for “$200,000,000” and by substituting “$150,000,000” for “$75,000,000” in clause (i).

FAA Section 552(c)(2) Drawdown Authority Cap Increase
Sec. ___ During fiscal year 2024, section 552(c)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 2348a(c)(2)) shall be applied by substituting “$50,000,000” for “$25,000,000”.

FAA Sec. 610 Authority Cap Increases

Sec. ___ During fiscal year 2024, section 610(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2360) shall be applied by substituting “20 per centum” for “10 per centum” and “40 per centum” for “20 per centum”.

These requests would increase the percentage limitations on the transfer authority under section 610 of the Foreign Assistance Act, including the percentage limitations on transfers from an account and into an account, which is needed to provide additional flexibility to meet emergent threats and other global needs.

FAA Section 614 Authority Cap Increases

Sec. ___ During fiscal year 2024, section 614(a)(4)(A)(ii) of the Foreign Assistance Act of 1961 (22 U.S.C. 2364(a)(4)(A)(ii)) shall be applied by substituting “$1,000,000,000” for “$250,000,000”; and section 614(a)(4)(C) shall be applied by substituting “$500,000,000” for “$50,000,000”, by substituting “$1,000,000,000” for “$250,000,000”, by substituting “$1,500,000,000” for “$500,000,000”, and by substituting “$1,750,000,000” for “$1,000,000,000”.

These requests increase the current global cap on the authority under section 614 of the Foreign Assistance Act, as well as the limitations in section 614(a)(4)(C), to meet emergent threats and other global needs.

Expansion of Foreign Military Financing Direct Loan and Loan Guarantee Authority

Sec. ____. Section 2606 of the Ukraine Supplemental Appropriations Act, 2022 (division N of Public Law 117-103), as amended by section 504 of the Additional Ukraine Supplemental Appropriations Act, 2022 (Public Law 117-128), is further amended—

(1) in subsection (a), by striking “and North Atlantic Treaty Organization (NATO) allies” and inserting “, North Atlantic Treaty Organization (NATO) allies, and major non-NATO allies”; by striking “$4,000,000,000” and inserting “$8,000,000,000”; and by striking ”, except that such rate may not be less than the prevailing interest rate on marketable Treasury securities of similar maturity”;

(2) in subsection (b), by striking “and NATO allies” and inserting “, NATO allies, and major non-NATO allies”; by striking “$4,000,000,000” and inserting “$8,000,000,000”; and by inserting at the end of the second proviso “except for guarantees of loans by the Federal Financing Bank”;

Provided, That funds made available under the heading “Foreign Military Financing Program” in this Act or Acts making appropriations for the Department of State, foreign
operations, and related programs for fiscal year 2024 and prior fiscal years shall be available for
loans and loan guarantees under section 2606 of the Ukraine Supplemental Appropriations Act,
2022 (division N of Public Law 117-103) and under the heading "Foreign Military Financing" in
the Additional Ukraine Supplemental Appropriations Act, 2023 (division M of Public Law 117-
328):

Provided further, That loans and loan guarantees under the heading “Foreign Military
Financing” in the Additional Ukraine Supplemental Appropriations Act, 2023 (division M of
Public Law 117-328) may be provided under the same terms and conditions, with the exception
of the caps on loan principal, as loans and loan guarantees provided under section 2606 of the
Ukraine Supplemental Appropriations Act, 2022 (division N of Public Law 117-103).

This request would maintain all of the previous emergency supplemental authorities,
expand loan guarantee authorities to allow for financing by the Federal Financing Bank, and
increase the Secretary of State’s flexibility in setting borrower interest rates.

Specific Authorization and “Notwithstanding” Authority for Assistance for Ukrainian
National Reservists

Sec. ___. Notwithstanding any other provision of law, funds appropriated by this and
Acts making appropriations for the Department of State, foreign operations, and related
programs for fiscal year 2024 and prior fiscal years under the headings ‘Economic Support
Fund”, “Assistance for Europe, Eurasia, and Central Asia”, “Development Assistance”,
“Transition Initiatives”, “Complex Crises Fund”, and “Global Health Programs”, may be made
available to support the reintegration of, and provide other assistance for, veterans of the
Ukrainian military, including reservists.

This request would ensure that all funding used to support Ukrainian veterans would be
able to support veterans who are reservists.

Reprogramming Notwithstanding Earmarks and Directives

Sec. ___. Funds appropriated in this Act and Acts making appropriations for the
Department of State, foreign operations, and related programs for fiscal year 2024 and prior
fiscal years may be reprogrammed for assistance for Ukraine without regard to any minimum
amounts specifically designated in such Acts.

This request would authorize amounts to be reprogrammed for Ukraine in this or prior
Acts.

Account Transfers

Sec. ___. (a) Funds made available in this Act under the headings “Economic Support
Fund” and “Assistance for Europe, Eurasia and Central Asia” may be transferred to, and merged
with, funds made available in Acts making appropriations for the Department of State, foreign
operations, and related programs for fiscal year 2024 and prior fiscal years under the headings

55
“Economic Support Fund”, “Assistance for Europe, Eurasia and Central Asia”, “United States
International Development Finance Corporation—Corporate Capital Account”, “United States
International Development Finance Corporation—Program Account”, “Export-Import Bank of
the United States—Program Account”, “Department of the Treasury—International Affairs
Technical Assistance”, and “Transition Initiatives” to respond to the situation in Ukraine and in
countries impacted by the situation in Ukraine.

(b) Funds appropriated by this Act under the headings “International Disaster Assistance”
and “Migration and Refugee Assistance” may be transferred to, and merged with, funds
appropriated by this title under such headings, to respond to the situation in areas impacted by
the situation in Israel.

(c) The transfer authority provided by this section is in addition to any other transfer
authority provided by law.

(d) Upon a determination that all or part of the funds transferred pursuant to this section
are not necessary for such purposes, such amounts may be transferred back to such
appropriations.

This request would provide authority to transfer amounts appropriated to the Economic
Support Fund and Assistance for Europe, Eurasia and Central Asia accounts in this Act to five
other accounts in order to respond to the situation in Ukraine and in other countries impacted by
the situation in Ukraine: U.S. International Development Finance Corporation (DFC) Corporate
Capital Account; DFC Program Account; Export-Import Bank of the United States Program
Account; International Affairs Technical Assistance Account within the Department of the
Treasury; and Transition Initiatives. The request would also provide authority to transfer funds
between the International Disaster Assistance and Migration and Refugee Assistance accounts.

General Authorities and Conditions

Sec. ___. Unless otherwise provided for by this Act, the additional amounts appropriated
to appropriations accounts in this Act shall be available under the authorities and conditions
applicable to such appropriations accounts for fiscal year 2024.

International Monetary Fund Trust Funds

Sec. ___. Amounts appropriated in prior Acts under the heading “Multilateral
Assistance—International Financial Institutions—Contributions to the International Monetary
Fund Facilities and Trust Funds” shall be available to cover the cost, as defined in section 502 of
the Congressional Budget Act of 1974 (2 U.S.C. 661a), of loans made by the Secretary of the
Treasury to the Poverty Reduction and Growth Trust or to the Resilience and Sustainability Trust
of the International Monetary Fund: Provided, That these funds shall be available to subsidize
gross obligations for the principal amount of direct loans not to exceed $21,000,000,000 in the
aggregate, and that the Secretary of the Treasury is authorized to make such loans.
This request would authorize amounts previously appropriated to the Contributions to the International Monetary Fund (IMF) Facilities and Trust Funds account, currently estimated to be $20 million, to be available for the cost of loans made by the Secretary of the Treasury to the Poverty Reduction and Growth Trust (PGRT) or to the Resilience and Sustainability Trust (RST) of the IMF. Funding would be used to lend up to $21 billion for these purposes. The PGRT is the IMF’s concessional lending facility for low-income countries; the RST provides longer-term, low-interest financing to low- and middle-income IMF members that have other IMF programs to support additional reforms in areas such as improving energy security and resilience. This authority would help reassert U.S. leadership in addressing global challenges and would support key structural reforms that increase longer-term stability and growth and advance resilience in potentially dozens of countries.

International Monetary Fund New Arrangements to Borrow

Sec. ___. Section 17(a)(6) of the Bretton Woods Agreements Act (22 U.S.C. 286e-2(a)(6)) is amended by striking “December 31, 2025” and inserting “December 31, 2030”:

Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would authorize the New Arrangements to Borrow (NAB) which serves as a second line of defense for International Monetary Fund (IMF) resources, after quota resources, and it can be activated under certain circumstances to respond to global economic shocks. Given increased demand for IMF lending in the wake of Russia’s invasion of Ukraine, the NAB would help make sure that the IMF can respond quickly to future global financial shocks and restore stability to both economies and markets, minimizing negative spillovers that could affect the U.S. economy. The United States contributes roughly $75 billion in lending capacity to the NAB and has a veto over the activation of the NAB or any major changes to its terms or size, which require an 85 percent majority vote of NAB participants. Failure to extend the NAB authorization would result in the United States losing its veto power over activation of the NAB and diminishing its influence vis-à-vis non-democratic countries that are shareholders of the IMF.
For an additional amount for “Operation and Maintenance, Navy”, $557,758,000, to remain available until September 30, 2024, to support improvements to the submarine industrial base and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $558 million to the Operations and Maintenance, Navy account within the Department of Defense. Funds would support improvements at the Navy’s four public shipyards, which maintain the Nation’s nuclear fleet.
For an additional amount for “Shipbuilding and Conversion, Navy”, $2,055,000,000, to remain available until September 30, 2028, to support improvements to the submarine industrial base and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $2.1 billion to the Shipbuilding and Conversion, Navy account within the Department of Defense. Funds would support the Submarine Industrial Base to increase production rates and submarine availability through initiatives in supplier development, shipbuilder and supplier infrastructure, workforce development, technology advancements, and strategic sourcing.
For an additional amount for “Other Procurement, Navy”, $393,570,000, to remain available until September 30, 2026, to support improvements to the submarine industrial base and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $394 million to the Other Procurement, Navy account within the Department of Defense. Funds would support the Submarine Industrial Base to increase production rates and submarine availability through initiatives in supplier development, shipbuilder and supplier infrastructure, workforce development, technology advancements, and strategic sourcing.
For an additional amount for “Research, Development, Test and Evaluation, Navy”, $7,000,000, to remain available until September 30, 2025, to support improvements to the submarine industrial base and for related expenses: Provided, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $7 million to the Research Development, Test, and Evaluation, Navy account within the Department of Defense. Funds would support the Submarine Industrial Base to increase production rates and submarine availability through initiatives in supplier development, shipbuilder and supplier infrastructure, workforce development, technology advancements, and strategic sourcing.
For an additional amount for “Military Construction, Navy and Marine Corps”, $281,914,000, to remain available until September 30, 2028, to support improvements to the submarine industrial base and for related expenses: Provided, That such funds may be obligated or expended for planning, design, and military construction projects not otherwise authorized by law: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $282 million to the Military Construction, Navy and Marine Corps account within the Department of Defense. Funds would support infrastructure work at the Navy’s shipyards to improve the ability to maintain the readiness of the fleet.
For an additional amount for “Naval Reactors”, $98,000,000, to remain available until expended, to support improvements to the submarine industrial base and for related expenses: Provided, That of such amount, $4,100,000 shall be available until September 30, 2025, for program direction: Provided further, That the Secretary of Energy may use amounts appropriated under this heading to carry out a construction project that is consistent with the purposes for which such appropriations are made and is not otherwise authorized by law, and without further specific authorization in law: Provided further, That such amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That such amount shall be available only if the President designates such amount as an emergency requirement pursuant to section 251(b)(2)(A).

This request would provide $98 million to the Naval Reactors account within the Department of Energy’s National Nuclear Security Administration. Funds would support hiring and infrastructure expansion at the Government-Owned, Contractor-Operated Naval Nuclear Laboratory sites in order to meet growing mission demands to provide the trilateral security partnership between Australia, United Kingdom, and United States with nuclear propulsion plants.
