

# Myth

# Fact

---

This is just a tax break for billionaires.

*The One Big Beautiful Bill delivers the largest middle- and working-class tax cut in U.S. history. The President's legislation will put more than \$10,000 a year back in the pockets of typical hardworking families. This is the most pro-growth, pro-worker, pro-family legislation ever crafted.*

---

OBBB takes from the poor to give to the rich.

*Low income workers stand to receive the largest percentage reduction in their tax liability. OBBB delivers the largest tax cut in history for working- and -middle class Americans.*

---

OBBB makes life more unaffordable.

*The bill delivers bigger paychecks, expanding take-home pay by over \$10,000 per year for a typical family.*

---

It hurts low-income families.

*OBBB is the most pro-family legislation ever crafted. It will deliver bigger paychecks, giving more than a \$10,000 boost annually to everyday families. We are also expanding Opportunity Zones, expanding childcare access, increasing the child tax credit, and creating newborn savings accounts.*

---

This is just a handout to corporations.

*This bill drives a Blue-Collar BOOM with tax relief for workers, support for small businesses, and investments in American manufacturing. OBBB delivers the largest middle- and working-class tax cut in U.S. history.*

---

It leaves American workers behind.

*This is the most pro-American worker bill in history. OBBB boosts pay for millions—and with no tax on tips or overtime, those working hourly and service jobs receive additional tax relief.*

THE ONE BIG BEAUTIFUL BILL

THE WHITE HOUSE | [WH.GOV/OBBB](https://www.whitehouse.gov/obbb)

This hurts small businesses.

*OBBB will make the Trump Tax Cuts permanent, including the small business deduction—helping Main Street grow and hire. Failure to pass this legislation would result in a \$4 trillion tax hike.*

---

OBBB kicks American families off Medicaid.

*As the President has said numerous times, there will be no cuts to Medicaid. OBBB protects and strengthens Medicaid for those who rely on it—pregnant women, children, seniors, people with disabilities, and low-income families—while eliminating waste, fraud, and abuse. OBBB removes illegal aliens, enforces work requirements, and protects Medicaid for the truly vulnerable.*

---

OBBB cuts Medicare.

*Medicare has not been touched in this bill—absolutely nothing in the bill reduces spending on Medicare benefits. This legislation does not make a single cut to welfare programs—it safeguards and protects these programs for all eligible Americans.*

---

OBBB will close rural hospitals.

*False. Rural hospitals comprise just 7% of all hospital spending on Medicaid, illustrating that they have not benefited from the massive increase in waste, fraud, and abuse under the Biden administration. By strengthening Medicaid, we are making more resources available for vulnerable populations and safety net providers, like rural hospitals. We are expanding rural hospital protection, providing targeted funds for rural care, and giving states flexibility to support local providers.*

---

People will ‘literally die’ from this legislation—millions will be kicked off their healthcare.

*This is one of the most egregious deranged attacks from the Left peddling fear over the facts. The OBBB protects eligible Americans on federal welfare—including Medicaid. By strengthening the integrity of Medicaid by eliminating waste, fraud, and abuse, its resources can be refocused on providing better care for those whom the program was designed to serve: pregnant women, children, people with disabilities, low-income seniors, and other vulnerable low-income families.*

---

OBBB will hurt people with disabilities.

*OBBB protects and strengthens Medicaid for Americans with disabilities. Rest assured, those with disabilities receiving Medicaid will receive no loss or change in coverage.*

---

This punishes vulnerable Americans with work requirements to receive their benefits.

*Not true. The 20-hour weekly work requirement applies only to able-bodied adults without young children and promotes dignity, stability, and better health outcomes for families. OBBB restores the dignity of work with historically bipartisan work requirements for able-bodied Americans. We are implementing commonsense, Clinton-era work, volunteer, education, or training requirements with broad bipartisan support.*

---

There's no fraud in Medicaid—Republicans are just taking coverage away from vulnerable populations.

*In the last 10 years, CMS admitted that improper payments for Medicaid have exceeded HALF A TRILLION dollars. In just the past year, taxpayers spent \$56 billion on benefits for able-bodied adults abusing the system—and over a million illegal aliens are receiving free health care on the backs of taxpayers. OBBB removes illegal aliens, enacts work requirements for able-bodied adults, and protects Medicaid for the truly vulnerable.*

---

SNAP work requirements are unnecessary.

*Only 28% of able-bodied adults on SNAP work. OBBB promotes work, responsibility, and restores SNAP to serve the truly needy. SNAP enrollment remains high even in a strong economy, including millions of able-bodied adults who could work. In fact, almost three-quarters of able-bodied adults without dependents on SNAP have no earned income. The mission of the program has failed. SNAP was intended to be temporary help for those who encounter tough times—we are strengthening this program to serve those who need it most.*

---

Illegal aliens don't get federal benefits.

*Illegals burden taxpayers with billions in costs for free health care and welfare benefits. OBBB ends Medicaid and SNAP fraud and ensures these programs serve only eligible Americans.*

---

OBBB doesn't actually end taxes on Social Security.

*OBBB delivers historic tax relief to seniors, with a new tax deduction that, combined with other deductions, ensures the average Social Security beneficiary will pay zero taxes on Social Security.*

---

OBBB increases the deficit.

*The OBBB reduces deficits by roughly \$2 trillion by increasing economic growth and cutting waste, fraud, and abuse across government programs at an unprecedented rate. This legislation delivers historic levels of mandatory savings. President Trump's pro-*

THE ONE BIG BEAUTIFUL BILL

THE WHITE HOUSE | [WH.GOV/OBBB](https://www.whitehouse.gov/obbb)

*growth economic formula will reduce the deficit, increase wages, deliver American jobs, and drive down the cost of living.*

---

But the CBO says....

*The Crooked Budget Office has a terrible record with its predictions and hasn't earned the attention the media gives it. The CBO misreads the economic consequences of not extending the Trump Tax Cuts. The OBBB delivers real savings that will unleash our economy and prevent the largest tax hike in history, resulting in historic prosperity, while lowering the debt burden.*

---

There's too much 'pork' in this bill.

*There's no pork in the bill. Every single provision in the OBBB is a campaign promise the American people elected President Trump to deliver. The only new spending in the bill is to secure the homeland of the United States and save American sovereignty — which is fully paid for by increased visa fees on foreigners.*

---

OBBB won't strengthen national security.

*OBBB delivers on President Trump's Peace Through Strength agenda by funding the Golden Dome missile defense system and modernizing our military to prioritize lethality and readiness. It fully equips our war fighters with the resources they need while modernizing and revolutionizing our equipment and technology.*

---

OBBB helps 'Big Oil' and locks up U.S. energy resources.

*Quite the opposite. It unleashes American energy, refills the Strategic Petroleum Reserve, and repeals the Green New Scam policies. OBBB unleashes clean, American-made energy and will reduce the cost of living for Americans nationwide.*

---

Manufacturing jobs will still go overseas.

*OBBB delivers 100% expensing for new domestic factories, revitalizes Opportunity Zones, and incentivizes companies to keep jobs in America.*

---

It neglects rural America.

*This bill invests in rural communities, expands market access, and delivers historic support to farm families. OBBB provides the certainty America's farm families need to continue operating and producing the affordable, safe, and abundant supply of food, fuel, and fiber that our nation relies on.*

---

SNAP is being gutted and cutting food stamps for families, causing them to go hungry.

*OBBB protects and strengthens SNAP. Right now, almost three-quarters of able-bodied adults without dependents on SNAP have no earned income and the fraud rate is high. The mission of the program has failed: SNAP was intended to be temporary help for those who encounter tough times. Now, it's become so bloated that it is leaving fewer resources for those who truly need help. We are committed to preserving SNAP for the truly needy.*

---

Republicans are shutting Democrats out of the legislative process.

*This is not a partisan bill—Democrats shut themselves out by supporting higher taxes, open borders, and giveaways to illegal immigrants. OBBB delivers on Republican promises to lower taxes, secure the border, cut spending, and put Americans first.*

---

OBBB border package is not necessary since President Trump has secured the border.

*We must ensure that the invasion we witnessed as a nation under Joe Biden and Kamala Harris never happens again. OBBB's historic investment in our border security ensures we permanently secure our border and protect our homeland by finishing the border wall, hiring 10,000 new ICE officers, and funding efforts to stop the flow of fentanyl.*
