2025-107	Irvin McCullough	<p>From June 1, 2023 through January 1, 2024, I request a sample of up to 10 completed FOIA case files from your office's FOIA tracking system where scope clarification occurred. Each case must have all of: (1) a written agency response seeking clarification about the scope of records sought; (2) a written requester response that clarified the request; (3) a final determination letter; and (4) a case closure date within the specified date range. For each of these case files, I seek only: (1) the initial FOIA request; (2) the agency's scope clarification letter (or email or similar record); (3) the requester's clarification response or the request as it was ultimately processed; (4) and the final determination letter. Specifically, for a sample of requests where clarification was needed, I'm looking for the original request, the rationale for clarification, and the clarified request. I am studying how agencies and requesters work together to clarify and refine requests, so I need only the substance of these communications, not any personally identifying details. To reduce processing time and protect privacy: please exclude any Privacy Act requests, cases where clarification was sought solely about fees, and cases where the requester never responded with clarification. And please redact all personal information (names, addresses, emails, phone numbers). If your office cannot find 10 completed case files with these criteria, please send as many case files as you can find that do.</p>

2025-366	Jason Marshall	<p>First of all I'd like to wish you a good day I know it's a weekend but I just started following the Federal register and getting a better understanding of it and was surprised to find out that they had stolen my entire trust fund due to the fact that I didn't know what the Federal register was and I'm technologically inept.. an addition to Ms and head injuries as a kid ADHD and minor epilepsy.. as you know from the freedom of information act I spent quite a bit of time in prison on a crime I'm currently fighting in for exoneration and have been for some time.. it's almost funny that they accuse me of being so technologically smart  capable and resourceful for fraudulent activities.. but I do find it extremely hypocritical that they are taking and stealing my trust fund because I failed to get a hold of them through a Federal register magazine I never knew existed and when my phone number is literally on every government website due to registry issues.. I was running two small businesses for several years until just recently when Corona hit on the tail end of it they shut down the Canadian border and highway 35 which put me out of business.. I can provide a great deal of information and resource cuz I know this fairly well.. I see one of the issues they're having is this is a god of a lot of native American references but what they don't understand is that Tucson Arizona children's home was a historic several historic buildings all native American and nature and brought in a lot of native American revenue and trust.. I'd like to give you whatever information I can provide for you with the request that you pass it to the freedom of information as they are asking for it and thought that you may be able to give it to them.. again no one other than social security is spoken with me and they wouldn't tell me anything.. I just kept getting email after email saying there was large accounts being held in my name which brought me to the fisca data site the aggregate search engine etc and it was just through pure determination and need but I'd already called Arizona the ombudsman Nathan Stokes looking for missing disability payments paid out for 12 years as a minor wall in child protective services and Arizona children's home for almost 3 years.. so they should have plenty of information I know a trust existed I supplemented it with the lawsuit from the ABC daycare center in Arizona a group home in which was responsible for a vehicular accident while intoxicated my guardian ad litem and told me they were put in a trust for in my behalf for future use for education and housing and gave me a small allowance.. then while in Arizona Children's home in Tucson Arizona I did a lot of promotion and appearances to raise money for the age out house which we refer to as River House which was a pilot program just opening in 1992.. but other than you due to the nature of my family's history getting any kind of records is almost impossible and I could really use your help here I have a one and a half year old daughter in my late 40s I have been looking for this for some time and I've been under the impression it was coming under any day.. even social security called me and told me to make sure that I had a bank account capable of taking a large sum of money and that my state assistance would be coming to an end due to the increase in money and assets.. thank you so much for your time</p>

Rental property at 2266 Stellar Road Ann Arbor 48105 rental managed by Baker Street Properties (734) 3897337 owner lives in California. No backyard maintenance done for over a decade, have contacted city, property survey completed and determined private property not city responsibility to care for. The yard is overgrown with poison ivy, 2 and 3 story trees collapsing onto my fence line (\$3500 damages last year). My yard is adjacent; I have had to have medical care and prescription steroids for the last 4 years due to the poison ivy spreading to my yard. All manners of flies, mosquitoes, possum, groundhogs, moles have taken up residency and am worried about their debris and contact with my young dog. Unsanitary conditions due to standing water and so much decomposing waste on 2266 property. I am 75 and have tried for years to clean falling branches and limbs, spray for poison ivy and can no longer physically maintain. Moles and voles have moved in and destroyed lawns, concern for exposure to them. Also, large cable line from Comcast left on ground since late October 2024 now buried in places under debris but exposed for 130 feet on their property and another 110 on neighbor behind me. Afraid animals or storm lighting strike will chew/ignite a fire and the whole garbage ridden yard will ignite. All monitoring departments in the city of Ann Arbor contacted: Washtenaw Public Health, Community Standards, Ann Arbor Rental Department, City Clerk, City Council members, Chris Martin, Lisa Disch and Cynthia Harrison. City survey completed to demonstrate property lines and City of Ann Arbor Forestry Department evaluated as essential deforestation and clean up must be performed to include containment of rampant overgrowth of poison ivy.</p> <p>Owner of adjacent property that is impacted by unmet health and safety standards owns certified Alliance of Therapy dog that is maintained on yearly regimen of vaccines and oral heartworm, flea and tick treatment but still developed Lyme disease due to tick infestation on this adjacent property. 2025-417	Kristen Duff	<p>My name is Kristen Duff; I am a major in journalism and political science at Western Kentucky University and I am currently taking a class called Intermediate News Reporting. I am working on a news writing project with an assigned beat that was assigned to me that is with the Board of Regents at Western Kentucky University. With my beat I am writing a news story on the Board of Regents with WKU that will be giving me and the readers a deep dive on the decision processing of the Board of Regents with new dorm buildings being built, how this would financially profit the school, old dorm buildings being tore down, and older dorm buildings that should ideally be tore down and why. I have accessed information through recordings from Western Kentucky University's Board of Regents meeting recordings from Beth Dillon who is the President's Office Assistant to the President for Board and Executive Relations Office of the President, sent me recordings through email. As I wrote this story, I discovered the mold issues in Western Kentucky's buildings and earthquakes that could hurt the campus if the dorm building Pierce Ford Tower gets hit by an earthquake as the dorm building is twenty-seven stories high. I am wanting to request if this is a topic that is okay to write about legally and if there are more records that I could use for information for my news story as well. Thank you so much and best, Kristen Duff</p>
