STATEMENT OF ADMINISTRATION POLICY

H.R. 6955 – Main Street Capital Access Act
(Rep. Hill, R-AR, and 33 cosponsors)

The Administration supports House passage of H.R. 6955. The bill would make a number of adjustments to bank and credit union chartering, capital, and supervisory requirements intended to ease compliance burdens on smaller and mid-sized depository institutions, and touches on discount window access, merger review timelines, and interagency reporting. Several provisions are consistent with regulatory-tailoring objectives the Administration has previously identified, including under Executive Order 14393.

The Administration looks forward to working with the Congress to make clarifying changes as the bill moves through the legislative process, including with respect to provisions affecting supervisory examination standards and bank resolution procedures.
